Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Missouri State Highway Patrol's Use of Highway Funds

Background	Missouri state law requires the Missouri State Auditor to examine whether State Highways and Transportation Fund appropriations to the Missouri State Highway Patrol are used in accordance with the Missouri Constitution, which limits the use of these funds to activities related to administering and enforcing state motor vehicle laws or traffic regulations.
Methodology	Audit staff reviewed policies and procedures, financial records and other pertinent documents; interviewed agency personnel; and tested selected transactions. Auditors also reviewed highway patrol calculations of amounts spent for non-highway activities; and the amounts spent for highway-related activities from other funding sources.
Conclusions	The audit determined the Missouri State Highway Patrol complied with legal provisions related to the use of this funding for the 2020 fiscal year.

Because of the limited objective of this review, no overall rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Sandra K. Karsten, Director
Department of Public Safety
and
Colonel Eric T. Olson, Superintendent
Missouri State Highway Patrol
Jefferson City, Missouri

We have audited the Department of Public Safety, Missouri State Highway Patrol's Use of Highway Funds, as required by Section 226.200.3, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2020. The objective of our audit was to determine whether the agency is in compliance with legal provisions related to the use of Highway Funds.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The Background, Methodology, and Conclusions present our comments concerning the overall compliance related to the Department of Public Safety, Missouri State Highway Patrol's Use of Highway Funds.

Missouri State Highway Patrol's Use of Highway Funds

Background, Methodology, and Conclusions

Background

The State Auditor is required to determine whether appropriations from the State Highways and Transportation Fund (State Highway Fund) to the Missouri State Highway Patrol (MSHP) are used for administering and enforcing state motor vehicle laws and traffic regulations pursuant to the constitution.

Limitations and requirements

Article IV, Section 30(b), Missouri Constitution, limits the MSHP's use of highway funds to activities related to administering and enforcing state motor vehicle laws or traffic regulations. In addition, Section 226.200.3, RSMo, provides, in part:

" . . . Appropriations allocated from the state highways and transportation department fund to the highway patrol shall only be used by the highway patrol to administer and enforce state motor vehicle laws or traffic regulations. Beginning July 1, 2007, any activities or functions conducted by the highway patrol not related to enforcing or administering state motor vehicle laws or traffic regulations shall not be funded by the state highways and transportation department fund, but shall be funded from general revenue or any other applicable source. Any current funding from the highways and transportation department fund used for activities not related to enforcing state motor vehicle laws or traffic regulations shall expire on June 30, 2007. The state auditor shall annually audit and examine the appropriations made to the highway patrol to determine whether such appropriations are actually being used for administering and enforcing state motor vehicle laws and traffic regulations pursuant to the constitution. The state auditor shall submit its annual findings to the general assembly by January fifteenth of each year."

During the year ended June 30, 2020, the MSHP used appropriations from the State Highway Fund as follows:

Missouri State Highway Patrol's Use of Highway Funds Background, Methodology, and Conclusions

	Appropriation		Lapsed
	Authority	Expenditures ¹	Balances ²
Enforcement personal service	\$ 77,743,601	55,235,841	22,507,760
Enforcement expense and equipment	6,486,658	5,930,813	555,845
Technical services personal service	16,468,316	14,158,573	2,309,743
Technical services expense and equipment	14,839,238	13,938,130	901,108

Vehicle and driver safety expense and equipment	1,110,790	743,327	367,463
Refund unused motor vehicle inspection stickers	100,000	37,165	62,835
Administration personal service	6,518,675	5,859,975	658,700
Administration expense and equipment	527,891	414,343	113,548
Crime laboratories personal service	4,187,749	3,775,118	412,631
Crime laboratories expense and equipment	1,584,749	1,474,526	110,223
Law Enforcement Academy personal service	1,382,451	1,166,006	216,445
Law Enforcement Academy expense and equipment	73,576	33,299	40,277
Fringe benefits personal service	88,896,633	66,677,148	22,219,485
Fringe benefits expense and equipment	7,176,186	6,780,532	395,654
Vehicle replacement expense and equipment	6,323,075	6,115,420	207,655
Gasoline expenses	4,837,264	3,166,851	1,670,413
Interoperable system highway	5,612,926	5,201,959	410,967
Interoperable ongoing highway	4,100,000	3,719,888	380,112
Total	\$ 259,611,744	205,051,857	54,559,887

¹ Amounts exclude personal service expenditures totaling \$25,726,519 initially paid from MSHP appropriations from the State Highway Fund that were retroactively reclassified by the Office of Administration in November 2020 to Department of Public Safety appropriations from the State Emergency Management Federal Stimulus Fund for costs related to duties performed in response to the Coronavirus Disease 2019 (COVID-19) emergency.

² The lapsed balances include withholdings made at the Governor's request totaling \$4,263,390.

Methodology

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the agency; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objective and assessed the design, implementation, and operating effectiveness of such internal control to the extent necessary to address our audit objective. We also obtained an understanding of legal provisions that are significant within the context of the audit objective, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Missouri State Highway Patrol's Use of Highway Funds Background, Methodology, and Conclusions

To determine whether the MSHP complied with the limitations on the use of highway funds, we reviewed the MSHP calculations of amounts expended from the State Highway Fund for non-highway activities and the amounts expended by the MSHP for highway-related activities from other funding sources. We compared the amounts used in the MSHP calculations to expenditures recorded in the state accounting system (SAM II) and other supporting documentation. In addition, we tested certain expenditures to determine if the expenditures were properly recorded.

Conclusions

We concluded the MSHP is in compliance with legal provisions related to the use of Highway Funds. During fiscal year 2020, the MSHP spent approximately \$1,695,000 appropriated from the State Highway Fund for expenditures not related to highway activities. This amount included non-highway personal service expenditures made from the State Highway Fund from appropriations for administration, crime laboratories, and fringe benefits; and expense and equipment expenditures from appropriations for administration, gasoline, and fringe benefits. However, these expenditures were more than offset by personal service and/or expense and equipment expenditures totaling approximately \$4,221,000 from appropriations for crime laboratories, training academy, and technical services that were related to highway activities, but not paid from the State Highway Fund. As a result, approximately \$2,526,000 more was spent on highway-related activities than was paid from highway funds during fiscal year 2020.

The seal of the State Auditor of Missouri is circular. It features a central shield with a balance scale and a sword. Above the shield is an eagle with spread wings. The text "SEAL OF THE STATE AUDITOR" is at the top, "JULY 1820 MISSOURI 1892" is at the bottom, and "UNDER THE STAND DIVIDED" is in the center.

Missouri State Auditor

Department of Corrections County Reimbursement Program

Report No. 2020-130

December 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Department of Corrections County Reimbursement Program

<p>Inadequate Reimbursement Rate Results in State Liabilities and Increased Subsidization of State Costs at the Local Level</p>	<p>Appropriations and reimbursement rates for the reimbursement of criminal costs, prisoner transportation, and extradition costs for state prisoners to Missouri counties have generally kept up with inflation over the past decade, but have not kept up with reimbursement requests submitted from the counties. In addition, incarceration costs incurred by counties for state prisoners have continued to increase, resulting in county governments increasingly subsidizing state incarceration costs.</p>
<p>Clarification in State Law Needed</p>	<p>Clarification is needed in state law to improve clarity and consistency for counties. Officials from the Department of Corrections (DOC) as well as several county officials stated the statutory wording of Section 221.105.3, RSMo, was unclear regarding the state's potential maximum liability to counties and could be open to multiple interpretations. The state prisoner transport reimbursement methodology does not align with actual costs incurred by the counties. State law defining which cases are eligible for county reimbursement is inconsistent and can result in uncertainty for counties about when and if incarceration costs for certain inmates will be reimbursed, and can result in administrative burden.</p>
<p>Weaknesses in DOC Processes and Procedures</p>	<p>The DOC has not requested sufficient funds to pay outstanding liabilities to counties and the department's annual budget requests have not acknowledged the state's liability to county governments. The DOC's procedures for processing county reimbursement requests are not adequate, resulting in overpayments to county governments.</p>

Due to the nature of this report no rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Anne L. Precythe, Director
Department of Corrections
Jefferson City, Missouri

We have audited certain operations of the Department of Corrections (DOC). The state's low reimbursement rates for housing state prisoners has been an ongoing concern for several years and has received more attention lately due to the state's inability to make timely reimbursement payments to county governments. The objectives of our audit were to:

1. To evaluate internal controls over significant management and financial functions related to the County Reimbursement Program.
2. To evaluate compliance with certain legal provisions related to the County Reimbursement Program.
3. To evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions related to the County Reimbursement Program.
4. To determine the impact of unpaid bill of costs on county governments.

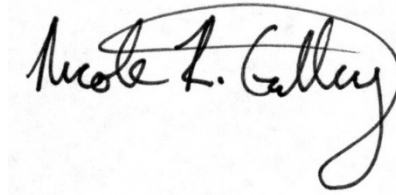

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Government Auditing Standards require us to obtain and report the view of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Due to the nature of this report, and due to the majority of the findings being legislative in nature, we were unable to obtain views of responsible officials for the findings, conclusions, and recommendations outlined in findings 1 and 2 of the Management Advisory Report. The views of DOC officials were obtained and included in finding 3 of the Management Advisory Report.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) increases in

state liabilities and insufficient reimbursement rates resulting in county governments increasingly subsidizing the cost of housing of state prisoners.

The accompanying Management Advisory Report presents our findings arising from our audit of the DOC's County Reimbursement Program.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The initials "R." are written in a smaller, more compact script between the first and last names.

Department of Corrections

County Reimbursement Program

Introduction

Background

The Department of Corrections (DOC) has the responsibility of supervising and managing 20 correctional institutions, 10 institutional treatment centers, 49 probation and parole offices, 6 community supervision centers, and 1 community release center providing correctional services throughout the state. The DOC is composed of the Office of the Director and four divisions: Human Services, Adult Institutions, Offender Rehabilitative Services, and Probation and Parole. The department has approximately 11,000 employees, overseeing and supervising 24,000 convicted adult felons, 18,700 parolees, and 37,600 probationers across the state.

In 2006, Senate Committee Substitute for Senate Bill (SB) 870 modified state law to transfer responsibility for some payments from the Office of Administration (OA) to other state agencies. Prior to SB 870, sheriffs in counties were required to file claims with the OA for reimbursable services such as boarding costs, extradition, and transportation of certain offenders. SB 870 transferred the responsibility of reimbursing counties from the OA to the Director of the DOC.

Crimes are classified as either felonies or misdemeanors. Under Section 556.061, RSMo, a crime is a felony offense if it is so designated or an offense for which persons found guilty thereof may be sentenced to death or imprisonment for a term greater than one year. Offenders charged with a felony and sentenced to imprisonment for more than one year serve their term in a DOC correctional center. Conversely, a crime is a misdemeanor if an offense is so designated or the offense results in a sentence of imprisonment for one year or less. Those charged with a misdemeanor and receiving a sentence of imprisonment of one year or less, serve their term in a county jail. Expenses for indigent prisoners are reimbursable by the state to the sheriff for those offenders who were charged with a felony, convicted, and sentenced to DOC as provided in Section 550.020, RSMo.

The DOC is statutorily required to reimburse counties and sheriffs for certain expenses incurred on behalf of offenders that are sentenced to the custody of the DOC. Sections 548.241 and 548.243, RSMo, allow for counties to be reimbursed for extradition services provided by the sheriff, deputy, or private transport companies. In addition, sheriffs are to be reimbursed for providing transportation to a reception and diagnostic center once an offender is sentenced, per Section 57.290, RSMo. Chapter 550, RSMo, also outlines certain criminal costs, including incarceration costs, that are to be reimbursed by DOC once an offender is sentenced to the DOC. Section 221.105.3, RSMo, states the DOC is authorized to pay "up to" \$37.50 per day per offender; however, the reimbursement rate is "subject to appropriations, but not less than the amount appropriated the previous year." The current rate of \$22.58 per day, was established July 1, 2017. The DOC establishes the rate based on legislative intent through the appropriations process. The DOC modifies the

Department of Corrections
County Reimbursement Program
Introduction

rate based on the intent of increases or decreases to reimbursement appropriations authorized by the General Assembly.

Currently, counties submit claims throughout the year for all 3 types of expenses. Typically, these claims are submitted to the DOC County Reimbursement Unit in packets for multiple reimbursement requests, not just for one individual. Unit personnel log and audit each request for accuracy and to ensure prior payment has not been provided. Once audited, a coversheet is prepared for the claim packet to note the important details including but not limited to date, type of claim, audited amount to be paid, and county. However, because appropriations have not been sufficient to pay all submitted claims timely, there is a backlog of payments due. Each quarter when appropriations are made available, DOC personnel enter and approve claims pending reimbursement on a first in first out basis up to the appropriation amount available. Payments are usually processed and paid within the first 48 hours of receipt of these appropriations. Currently, for all 3 types of expenses there is a time delay from receipt of the claim to payment. These delays are approximately 3 months for extraditions, 8 months for bill of costs, and 9 months for certificate of deliveries, according to DOC records.

Prior audit

The State Auditor's Office (SAO) issued an audit report of the DOC that included recommendations regarding county reimbursements in 2009.¹ That audit reported the DOC had not established adequate policies and procedures to review and approve cost reimbursement requests. In addition, the audit found that the interpretation of the state law for reimbursing counties for transporting convicted offenders provided excess reimbursement for these services. The audit recommended the DOC expand monitoring procedures and consider developing an electronic billing system with sufficient edit checks designed to prevent and detect improper payments. Other recommendations included considering amending procedures to provide for reimbursements that more closely represent actual mileage costs and seeking applicable legislation or legal opinions for state law clarification.

Comparison with other states

According to a survey conducted by the DOC, Missouri is potentially the only state in the nation that reimburses counties for the cost of incarcerating individuals in county jails for pretrial detention days. In March 2019, the DOC surveyed the other 49 states to determine if county jails were reimbursed by the state for time spent in jail custody pretrial. Of the 30 states that responded, none provided county reimbursement for pretrial days. We also reviewed a February 2010 report issued by the National Association of

¹ SAO Report No. 2009-103, *Department of Corrections*, issued in September 2009 is available at <<https://app.auditor.mo.gov/repository/press/2009-103.pdf>>.

Department of Corrections
County Reimbursement Program
Introduction

Counties (NACO), "State Prisoners in County Jails,"² which indicated at that time Missouri was the only state providing reimbursement for pretrial detention days. We could not identify any other state that provided pretrial reimbursement payments to local county jails.

While it is common for states to have some form of a county jail reimbursement program, these programs typically only provide reimbursement to counties holding prisoners after sentencing, or for counties to house state prisoners due to the overcrowding of state prisons. In some states, like Arkansas, reimbursement begins as early as the date of sentencing. Other states, such as Iowa and Oklahoma, contract or negotiate rates with counties to hold prisoners due to insufficient space in state facilities.

The governmental entity responsible for holding inmates awaiting trial can also vary among the states. For example, some states use regional jails that provide jail services for multiple counties. The state of West Virginia provides funding to the Regional Jail and Corrections Facility Authority, which operates regional jail facilities throughout that state. The authority then charges counties for housing pretrial prisoners. Currently, the rate charged to West Virginia counties is \$48.25 per day per prisoner.

Missouri's unique statutory provision of paying counties for inmates unable to pay criminal costs dates back to the earliest years of Missouri's history as a state. We reviewed the Revised Statutes of Missouri published in 1825 and 1835. We noted that statutes in the 1825 publication provided for state reimbursement to counties after the first year of incarceration if the offender could not pay the accrued costs. By the 1835 publication, the language requiring counties to pay for the first year of incarceration was removed. State law currently reimburses counties for incarceration costs in 4 general circumstances:

1. Pretrial jail time served for cases where offender is sentenced to state incarceration.
2. Post-sentence jail time served awaiting transfer to a state facility.
3. Parole violator jail time served while awaiting judicial determination and transfer to a state facility.
4. Probation violator jail time served while awaiting judicial determination and transfer to a state facility only if the judge sentences the offender to state incarceration. This circumstance also makes any pretrial jail time served eligible for state reimbursement.

Department of Corrections
County Reimbursement Program
Introduction

Pretrial detention

Pretrial detention is the detaining of an accused person in a criminal case before the trial has taken place, either because of a failure to post bail or due to denial of release under pretrial detention statutes (Sections 544.455 and 544.470, RSMo).

When polled by the Missouri Sheriffs' Association regarding local jail populations, 69 of the 114 counties (61 percent) responded and indicated that overall, approximately 73 percent of the jail population were awaiting trial on a felony offense. However, data on pretrial detention in Missouri is not available due to the lack of a centralized database of incarceration data.

The Missouri Supreme court recently issued new court rules regarding the use of monetary bonds and non-monetary conditions of release. Effective July 1, 2019, the Missouri Supreme Court introduced Rule 33.01, requiring judges to first consider non-monetary conditions for pretrial. Under the new bond rules, a defendant's ability to pay, his or her family situation, and the danger posed to the public by release were crucial points for judges to consider.

At the federal level, on September 27, 1982, the Pretrial Services Act was signed into law, mandating pretrial services functions be provided in each judicial district except the District of Columbia. Therefore, in Missouri, many of the pretrial options are used by the Eastern and Western Districts of Missouri for federal offenders. In addition, several counties in Missouri have created their own pretrial services in an attempt to reduce incarceration costs, allowing criminal justice funding to be spent more effectively. The most notable programs are in the counties of Boone, Cole, Greene, Jasper, Jackson, and St. Louis, and the City of St. Louis.

Missouri State Justice Reinvestment Task Force

In June 2017, Governor Greitens established the Missouri State Justice Reinvestment Task Force with Executive Order 17-17. The 22-member task force includes state lawmakers, judiciary members, corrections officials, defense and prosecuting attorneys, and local law enforcement executives. The Council of State Governments (CSG) Justice Center was tasked with collecting and analyzing data and partner with state leaders to develop appropriate policy options and strategies. On November 28, 2017, the CSG Justice Center presented its fourth presentation to the Missouri State Justice Reinvestment Task Force. This presentation³ focused on 3 main areas (1) understanding drivers of jail populations, (2) breaking down county jail reimbursement, and (3) changing Missouri's jail reimbursement paradigm.

³ The Justice Reinvestment in Missouri, Fourth presentation to the Missouri State Justice Reinvestment Task Force is available at <https://csgjusticecenter.org/wp-content/uploads/2020/10/MO-JR-Pres-Nov-28-2017_FINAL_Updated.pdf>, accessed October 26, 2020.

Department of Corrections
County Reimbursement Program
Introduction

In the presentation, driving factors for the increase in jail population not only included pretrial detention but also long case processing times often due to understaffing of the public defenders. The Justice Center also noted that certain offenses should not require jail time, that citation and release in lieu of arrest could be used for non-violent offenses.

In reviewing of county jail reimbursement for fiscal year 2017, the Justice Center noted that Missouri spent more than \$40 million to reimburse county jails, representing a total of approximately 1.8 million incarceration days statewide. Of these claims, 34 percent were associated with days in jail in excess of 3 months. In addition, the report indicated the process is not transparent, efficient, or effective. Judges, sheriffs, prosecutors, and county clerks must certify claimed jail days, but DOC manually enters and audits the claims and adjusts reimbursement amounts accordingly. The report indicated all this is done without benefit of any meaningful database on jail populations.

The Justice Center concluded in its final presentation⁴ to the Missouri State Justice Reinvestment Task Force on December 13, 2017, that opportunities existed to change current investments into more flexible and impactful resources to aid local communities in improving pretrial and jail resource management practices. Such opportunities included encouraging counties to implement pretrial practices that enhance public safety and make better use of limited criminal justice resources.

Proposed changes

In response to recommendations from the task force, the General Assembly revised Section 221.105, RSMo, effective August 28, 2018 to create an alternative jail sanction in an attempt to reduce jail costs and overcrowding and to improve payments to counties without impacting public safety. This new law allowed counties to seek reimbursement for certain pretrial monitoring services. However, the statute placed a number of restrictions on counties in order to participate in the program. For example, counties could only receive reimbursement for pretrial services if the defendant was ultimately eligible for state incarceration. In addition, counties participating in the pretrial service program could not receive more in total reimbursement than the amount received in the previous fiscal year. Since an offender is not determined to be a state liability until sentencing and a county cannot control the number of criminal cases each year, interest from counties in participating in the program was limited and program funding was diverted to fund additional county reimbursements for traditional incarceration costs.

⁴ The Justice Reinvestment in Missouri, Final presentation to the Missouri State Justice Reinvestment Task force is available at <https://csgjusticecenter.org/wp-content/uploads/2020/10/12.13.17_JR-in-MO_Final-Presentation.pdf>, accessed October 26, 2020.

Department of Corrections
County Reimbursement Program
Introduction

During the 2020 regular legislative session, multiple proposals were introduced that could impact the county jail reimbursement program. The most notable was House Bill (HB) 1735 that would have modified Section 221.105, RSMo, to allow counties to continue receiving reimbursement for incarcerating prisoners. However, the rate paid by the DOC would be calculated and adjusted quarterly using available appropriation amounts and the number of eligible incarceration days requested by counties for reimbursement, with a maximum rate of \$40 per day. Requests paid at the calculated quarterly rate would not be eligible for additional reimbursement from the state. This proposed revision would prevent additional liabilities from being incurred by the state due to low appropriation amounts. However, the rate paid could be lower than current rates paid depending on reimbursement requests received by the DOC and amounts appropriated by the legislature for county reimbursement. This bill did not pass during the 2020 regular legislative session.

Scope and Methodology

The scope of our audit included, but was not limited to, the year ended June 30, 2020. Our methodology included obtaining databases for criminal costs, in-state transportation, and extradition reimbursements maintained by the DOC; analyzing the data and performing tests to determine if certain elements were accurate and in accordance with statutory requirements; and interviewing various personnel of the Department of Corrections, as well as certain external parties. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

To gain an understanding of the legal requirements governing the DOC's county reimbursement program, we reviewed relevant state statutes. We then reviewed documentation from the DOC to determine if statutory requirements were being fulfilled during the reimbursement process to ensure compliance.

To gain an understanding of the DOC's policies and procedure regarding county reimbursement for criminal costs, we met with applicable officials from the agency and reviewed the agency's relevant written policies and procedures. We then performed tests to determine compliance with certain policies and procedures.

To gain an understanding of relevant issues at the county level, we contacted officials from the Missouri Sheriff's Association and emailed a brief survey

Department of Corrections
County Reimbursement Program
Introduction

to county officials and the City of St. Louis. We received responses from 31 county or city representatives (e.g. County Commissioners, County Auditors, Director of Finance) representing jurisdictions with both large and small jail populations.

Department of Corrections

County Reimbursement Program

Management Advisory Report - State Auditor's Findings

1. Inadequate Reimbursement Rate Results in State Liabilities and Increased Subsidization of State Costs at the Local Level

State appropriations and reimbursement rates

Appropriations and reimbursement rates for the reimbursement of criminal costs, prisoner transportation, and extradition costs for state prisoners to Missouri counties have generally kept up with inflation over the past decade, but have not kept up with reimbursement requests submitted from the counties. As a result, the state has accumulated a liability of approximately \$31 million to counties as of June 30, 2020, which represents approximately 80 percent of the annual amount claimed for reimbursement. In addition, incarceration costs incurred by counties for state prisoners have continued to increase, resulting in county governments increasingly subsidizing state incarceration costs.

State appropriations for bill of cost (boarding of prisoners), as well as the reimbursement rate paid to counties, have generally kept up with inflation over the past decade. However, the reimbursement rate paid to counties in fiscal year 2020 is, essentially, the same rate paid in 1998.

Figure 1 depicts state appropriations for bill of cost and the daily reimbursement rate for fiscal years 2011 through 2020, in current dollars (not adjusted for inflation).

Figure 1: Annual appropriations and daily reimbursement rate, fiscal years 2011 to 2020, current dollars

Source: Missouri House of Representatives archived documents and Missouri Department of Corrections (DOC)

See Appendix A and B for historical daily reimbursement rate and historical appropriations information, respectively.

Section 221.105 RSMo requires the state to reimburse counties for costs incurred in housing the state's prisoners, including prisoners being held on probation and parole violations, subject to certain limitations. While some statutorily required fees are reimbursed by the state, most criminal costs reimbursed to counties are for the boarding of prisoners that are sentenced to imprisonment in the DOC. Per statute, the DOC is to reimburse counties at a

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

rate of "up to" \$37.50 per day, per prisoner. DOC officials indicated the department determines the reimbursement rate based upon the legislative intent of the appropriated funding. The fiscal year 2020 bill of cost appropriation for this purpose was set at approximately \$40.3 million (this amount included \$1.75 million for the payment of bill of costs requests received by DOC prior to July 1, 2019), and the DOC established the fiscal year 2020 reimbursement rate at \$22.58 per day, per prisoner. For fiscal year 2021, the General Assembly appropriated \$52 million for total county reimbursements with \$48.25 million appropriated for prisoner boarding. The \$48.25 million includes \$9.75 million dedicated for the payment of unpaid reimbursements.

Figure 2, depicts the reimbursement rates in Figure 1, adjusted for inflation. As shown, the inflation-adjusted reimbursement rate has fluctuated over the past decade, but has generally kept up with inflation.

Figure 2: Daily reimbursement rate, fiscal years 2011 to 2020, adjusted for inflation

Source: Missouri DOC records, SAO analysis of Consumer Price Index data from <https://fred.stlouisfed.org/series/CPIAUCSL> and Appendix A

Appropriations have not been sufficient to pay reimbursement claims

Appropriation amounts have not been sufficient to cover all bill of cost reimbursement claims since at least fiscal year 2006, according to DOC officials. In that year, the DOC took responsibility for the program from the Office of Administration. DOC officials indicated that arrearage was an issue at that time. However, the DOC did not start officially tracking annual county reimbursement requests and arrearages until January 2016, therefore the total number of prisoner days requested annually prior to 2016 is unknown. Our review of the available data indicates that between fiscal year 2017 and fiscal year 2020, the bill of cost arrearage increased by approximately \$6 million, to a total cumulative arrearage of approximately \$29 million. Figure 3 shows annual bill of cost appropriations, claims, and arrearage amounts, as well as the cumulative bill of cost arrearage balance, for fiscal year end 2017 to 2020.

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

Source: Missouri DOC

Appendix C, shows the fiscal year 2020 submitted claims, payments, arrearage, and cumulative arrearage, by county.

Actual local boarding costs have continued to rise

Incarceration costs at the county level have continued to increase despite only moderate increases in the reimbursement rate. In late 2015, the Committee on Legislative Research's Oversight Division reviewed the DOC's county reimbursement program. During that review, the Oversight Division obtained the daily incarceration cost from 109 counties and determined incarceration costs from these counties ranged from \$20 to \$88 per day, with an average of \$42.08. In March 2020, the Missouri Sheriff's Association surveyed its members regarding the actual daily costs for boarding prisoners. Of the 53 counties that responded, daily rates reported ranged from \$25.45 to \$110 per day with an average of \$49.

Counties are subsidizing state incarceration costs at an increasing rate

The increasing difference between the daily reimbursement rate and incarceration costs at the county level has resulted in an increase in the amount counties are subsidizing the state for housing state prisoners. Figure 4 shows the level of increase in the amount being subsidized at the county level.

Figure 4: Average daily county incarceration costs vs state reimbursement rate, for 2015 and 2020

Source: Missouri Sheriff Association and Missouri DOC

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

The reimbursement rates for both 2015 and 2020 are less than half the average daily county incarceration cost for each year. However, the portion of costs being subsidized by the counties has, on average, increased over that time.

The amount of local revenues necessary to subsidize these state incarceration costs is significant. For fiscal year 2020, claims submitted by counties totaled 1,545,168 bed days. Assuming the average daily cost rate from the Missouri Sheriff's Association survey (\$49 per day), less the state reimbursement rate of \$22.58 per day, counties subsidized an estimated total of \$40.8 million in incarceration costs for state prisoners in fiscal year 2020.

The local cost of incarcerating state prisoners has exceeded the state reimbursement rate for many years. Senate Bill (SB) 781 in 1996, increased the per diem prisoner costs that a county could charge the state for actual cost of incarceration from \$20 per day per prisoner to up to \$37.50 per day per prisoner effective July 1, 1997. The fiscal note for the bill indicated "OA officials assumed that most, if not all counties and St. Louis City would be able to establish an actual per diem cost of incarceration at least as high as the proposed \$37.50 and would therefore be able to receive the maximum reimbursement." However, due to the lack of sufficient appropriations, the reimbursement rate paid has not exceeded \$22.58 since 1998.

Local concerns

We provided a survey to each county and the City of St. Louis to obtain specific concerns or issues caused by both the low reimbursement rate and also the delay in reimbursements. Currently, the length of time from claim submission to payment is approximately 8 months. The delay is due to the DOC paying claims in the order received, so unpaid claims that are in arrears are paid before current claims. Of the 30 counties and the City of St. Louis that responded, all indicated concerns or issues regarding the county reimbursement program. Concerns included, but were not limited to (1) having to use general revenue funds or reserve funds in order to cover jail costs not paid by the state, (2) having to make choices of eliminating other services or increasing local tax rates in order to cover unreimbursed costs, and (3) hiring issues in the Sheriff's office due to low salary or inability to purchase necessary equipment. Several counties indicated they do not budget revenue for county jail reimbursements due to the unreliability of receiving timely reimbursement from the state. The impact caused by both the low reimbursement rate and the timeliness of reimbursements tends to be greater on smaller counties with limited revenue sources.

Conclusion

The costs of housing prisoners charged with state crimes requires significant taxpayer resources at the local level. Inadequate state appropriations for these services has resulted in low reimbursement rates and delayed payments to counties. Due to low reimbursements rates, the burden of these costs have increasingly been transferred from the state to individual county governments. To adequately address the current situation, policy makers must

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

determine to what degree these costs are to be funded through state or local tax revenues and then adjust appropriations accordingly.

Recommendation

The General Assembly further evaluate the current funding appropriated to the incarceration reimbursement program to ensure the program is paying the desired level of resources to the local level, and ensure appropriation amounts are sufficient to pay the state's current liabilities timely.

2. Clarification in State Law Needed

Clarification is needed in state law to improve clarity and consistency for counties. Clarity is needed regarding maximum reimbursement amounts for counties and mileage reimbursements to Sheriffs for prisoner transportation. In addition, state law is not consistent regarding the eligibility of certain cases for state reimbursement.

2.1 Maximum reimbursement amount unclear

Officials from the DOC as well as several county officials stated the statutory wording of Section 221.105.3, RSMo, is unclear regarding of the state's potential maximum liability to counties and could be open to multiple interpretations.

Section 221.105.3(3) RSMo, states that beginning on July 1, 1997 the state reimbursement rate is "up to thirty-seven dollars and fifty cents per day per prisoner, subject to appropriations, but not less than the amount appropriated in the previous fiscal year." During our discussions with various County Commissioners, the Missouri Sheriff's Association, and the DOC, there were varying interpretations of the meaning of this statute. Based on these discussions, the meaning of the limiting language of "subject to appropriations, but not less than the amount appropriated in the previous fiscal year" is not clear because the reimbursement rate is set per day per prisoner, but the appropriations are not set in that way. Appropriations are for the total amount of reimbursement to all counties during the fiscal year. In addition, as shown in Appendix B, the appropriation for reimbursement has been reduced 6 times since fiscal year 2001, while the reimbursement rate has been reduced 3 times during that time period.

Amending the statute to provide clarity to state and local governmental officials regarding the legislative intent and statutory requirements of Section 221.105 RSMo, would reduce uncertainty for local officials and allow all parties involved to plan accordingly.

2.2 Mileage reimbursements do not align with actual costs

The state prisoner transport reimbursement methodology does not align with actual costs incurred by the counties. State law allows for reimbursement of mileage reimbursements for each prisoner in the vehicle rather than based on travel costs incurred. Clarification of the transport reimbursement methodology is necessary.

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

Section 57.290.2, RSMo, requires the DOC to pay the following costs for travel reimbursements to Sheriffs for transporting convicted offenders to state reception and diagnostic centers:

- \$8 per day per Sheriff or other officer.
- \$6 per day per guard (allowed when 3 or more prisoners are transported or if ordered by a judge).
- Round trip mileage for each Sheriff or officer.
- Round trip mileage for each guard.
- One-way mileage for each prisoner.

The mileage is reimbursed at the Internal Revenue Service rate for allowable expenses for motor vehicles. From July 1, 2019 to December 31, 2019, and January 1, 2020 to June 30, 2020, this rate was \$.58, and \$.575 per mile, respectively. For comparative purposes, the state employee mileage reimbursement for the same timeframe was \$.43 per mile.

The reimbursement provisions result in reimbursement payments that do not align with the actual costs incurred. For example, a county was reimbursed for a 1-day trip, in which 2 deputies transported 27 prisoners to the Fulton Reception and Diagnostic Center. The county's reimbursement for this trip was \$2,888.80, which included mileage totaling \$2,505.60 for the prisoners. For another trip to the same center, the same county's reimbursement is \$754.40 for transporting 4 prisoners, again claiming expense for 2 deputies. The prisoners portion of this mileage reimbursement was \$371.20. The reimbursement would have been \$383.20 for each of these trips, if mileage was not provided for each prisoner. The existing reimbursement methodology resulted in \$2,876.80 in excess mileage reimbursement for prisoners for these two trips.

During our review of the DOC records of county transportation payments, we noted that more than 50 percent of the total transportation reimbursement payments are for one way mileage of prisoners. Table 1 shows the computations for fiscal year 2017 to 2020.

Table 1: Prisoner mileage reimbursement as a percentage of total transportation reimbursement, fiscal years 2017 to 2020

Fiscal Year	Total Reimbursement	Prisoner Reimbursement	Percentage of Total Claims
2017	\$ 2,249,473	1,189,280	52.9
2018	\$ 2,209,307	1,170,827	53.0
2019	\$ 1,976,439	1,029,666	52.1
2020	\$ 1,778,011	896,897	50.4

The rationale for requiring the state to pay mileage reimbursements with this methodology is unclear. Mileage reimbursements are more commonly used to reimburse for the costs associated with total cost of transportation. For example, the state travel policy (SP-6) outlined in 1 CSR 10-11.010, states that when multiple individuals ride in the same personal vehicle for

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

conducting state business, only the owner of the vehicle is allowed reimbursement.

Simplifying and clarifying state law related to state prisoner transportation reimbursement would help ensure the reimbursement claimed and provided to the counties was reasonable and more aligned with the costs associated with the underlying activity.

2.3 Inconsistent reimbursement eligibility

State law defining which cases are eligible for county reimbursement is inconsistent and can result in uncertainty for counties about when and if incarceration costs for certain inmates will be reimbursed, and can result in administrative burden.

Case dispositions

Under Section 550.020, RSMo, reimbursements to counties are limited to offenders who are sentenced to the DOC. However, costs may or may not be reimbursable depending on how a case is disposed. Under Section 557.011, RSMo, courts have several disposition options when an individual pleads guilty or is found guilty of a felony or a misdemeanor. These options include the following:

1. Sentence the person to a term of imprisonment.
2. Sentence the person to pay a fine.
3. Suspend the imposition of sentence, with or without placing the person on probation.
4. Pronounce sentence and suspend its execution, placing the person on probation.
5. Impose a period of detention as a condition of probation.

Option 3 is referred to as a Suspended Imposition of Sentence (SIS) while option 4 is referred to as a Suspended Execution of Sentence (SES). In both cases, the offender has been found guilty and initially avoids serving time in state prison. Typically, both dispositions also require an offender to serve a period of time on probation. However, despite these similarities between SIS and SES dispositions, the reimbursement for the related incarceration costs for these dispositions are handled differently.

SIS and SES reimbursement differences

SIS dispositions do not involve a sentence of imprisonment in the DOC. As a result, boarding costs incurred by counties for defendants with SIS dispositions are not eligible for reimbursement from the state, despite pleading or being found guilty of state offenses. As a condition of the SIS, individuals may be required to serve up to 5 years of probation. During this period of probation, these individuals may violate conditions of their probation that can result in the court revoking their probation. Upon probation revocation, the court may then impose a sentence of imprisonment in the DOC. Since the individual would then have a sentence of imprisonment to the DOC, all past boarding costs associated with this case would become eligible for reimbursement by the state.

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

In contrast, SES dispositions involve a sentence of imprisonment in the DOC along with a number of years of probation. SES dispositions are considered a conviction; however, the imprisonment sentence is suspended and only the probation term is initially served. If probation is not successfully completed, probation can be revoked and the court may order the individual to serve the original imprisonment sentence. Because an initial sentence of imprisonment was ordered by the court in an SES disposition, the case is immediately eligible for state reimbursement of costs, regardless of whether the offender violates his/her terms of probation and actually serves any time in a DOC facility.

In both an SIS and SES disposition, the county has immediate incarceration costs for a defendant who has either pled or been found guilty of state violations. The inconsistency in cost reimbursement eligibility has no correlation to actual costs incurred by the county. In effect, this inconsistency results in counties potentially having to pay the full incarceration costs of SIS defendants. It is unclear if that is the intention of state law.

Reimbursement for SIS
dispositions are delayed and
must be tracked

Incarceration costs for SIS probation violators can only be claimed for reimbursement after the probation violation occurs. This may be several years after the costs have been incurred. This delay requires counties to track and maintain historical incarceration cost data, and also results in the state reimbursing for prior period costs out of current appropriations.

For example, during our review, we noted one defendant who was charged with Possession of a Controlled Substance in August 2011, and received an SIS with 5 years of supervised probation in May 2012. Due to failing to appear in court prior to receiving the SIS, and then failing to appear at several probation violation hearings, multiple arrest warrants were issued, and the individual spent multiple time periods in the county jail during 2011, 2012, 2014, and 2018. In September 2018, another arrest warrant was served and the court then issued an SES disposition with 5 years of supervised probation. With the issuance of the SES, the county became eligible for all boarding costs associated with the state going back to initial custody in 2011. Due to additional probation violations and another issued arrest warrant, the individual incurred additional incarceration days in the county jail during October 2019. In total, between 2011 and 2019 the offender spent 144 days in the county jail resulting in \$3,017 of boarding costs at the state reimbursement rates. Prior to receiving the SIS in May 2012, the individual spent 52 days in the county jail, representing \$1,018 in state reimbursements. The county submitted a reimbursement for the boarding costs to the DOC in November 2019. However, due to the lack of appropriations, the DOC could not pay the bill during fiscal year 2020. Funds are expected to be available to pay the bill in fiscal year 2021, approximately 10 years after the county incurred the first prisoner boarding costs.

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

Conclusion

Clarifying state law to eliminate the inconsistent reimbursement of SIS and SES disposition costs, and making costs for both dispositions reimbursable immediately after the case is closed would create more consistency among disposition types, would reduce the administrative burden on counties, and would allow costs to be claimed for reimbursement more timely.

Recommendations

The General Assembly:

- 2.1 Consider reviewing Section 221.105, RSMo, and amending the statute to clarify legislative intent and statutory requirements of county reimbursement rates.
- 2.2 Consider amending Section 57.290.2, RSMo, to align prisoner transportation reimbursements with actual costs incurred.
- 2.3 Consider amending state law to provide consistency among cases receiving state reimbursement and reduce the time period between the time boarding services are provided and reimbursements are paid to counties.

**3. Weaknesses in
DOC Processes
and Procedures**

The department has not requested sufficient appropriations during the budget process to pay all reimbursement claims made by counties. In addition, weaknesses in DOC processes and procedures for reviewing and approving reimbursement requests have resulted in duplicate payments to counties for incarceration and extradition reimbursements.

**3.1 Budget requests not
sufficient**

The DOC has not requested sufficient funds to pay outstanding liabilities to counties and the department's annual budget requests have not acknowledged the state's liability to county governments.

Section 33.220, RSMo, requires each department to submit to the budget director estimates of its requirements for appropriations for the next fiscal year on forms prescribed by the budget director. Estimates must separately indicate the requirement for ordinary expenditures for operation and maintenance, extraordinary expenditures for operation and maintenance, and capital expenditures. The department may also include other reports, data or other explanatory material to support the budget estimates. The DOC Budget Unit is responsible for developing, preparing, and presenting the department's annual budget request.

We reviewed the DOC's budget requests for fiscal years 2017 through 2020 and noted appropriation amounts requested by the department were not sufficient to pay anticipated reimbursement claims and unpaid claims accumulated from prior fiscal years. For fiscal year 2021, the Governor recommended an additional \$22 million in appropriations to pay amounts owed to counties. The General Assembly ultimately appropriated \$9.75 million to reduce the state's liability. Table 2 identifies the DOC's fiscal year

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

2017 through 2020 appropriation requests for county reimbursement claims, as well as the approved appropriation, and claims.

Table 2: Comparison of requested and approved appropriation to actual claims

Fiscal Year	Appropriation Requested	Appropriation Approved	Claims	Difference
2017	\$ 43,330,272	43,330,272	45,978,646	(2,648,374)
2018	\$ 43,830,272	43,830,272	52,108,236	(8,277,964)
2019	\$ 43,330,272	43,330,272	44,069,374	(739,102)
2020	\$ 44,080,948	44,080,948	39,151,132	4,929,816

In addition, the DOC's budget requests have not acknowledged or provided information regarding the program's insufficient appropriations in prior years and the resulting accumulated liability owed to counties. The Financial History section of the budget request forms identify actual expenditures for the prior 3 fiscal years and estimated expenditures for the current year. However, without noting the lack of appropriation authority to pay all claims and the accumulated liability owed to counties, the information presented does not provide a complete picture of the program's financial history.

While the General Assembly is responsible for determining final amounts of state appropriations, it is necessary for the DOC to request funding at a sufficient level to ensure the DOC's legal obligations can be paid to local governments timely. In addition, including financial information regarding insufficient appropriations in prior years and the amount owed to counties is necessary to provide policy makers and the general public a complete picture of the program's financial history.

3.2 Payment errors

The DOC's procedures for processing county reimbursement requests are not adequate, resulting in overpayments to county governments. The DOC primarily uses electronic spreadsheets for processing and tracking reimbursement requests. The information in these spreadsheets is entered by DOC staff manually, without edit checks, resulting in records that contain incomplete or inaccurate information.

Prior to January 2016, the DOC did not maintain electronic records in order to track county reimbursement requests. Beginning in January 2016, electronic spreadsheets for criminal costs, in-state transportation, and extradition reimbursement claims were developed to track, audit, and maintain claims submitted to the DOC by counties. During our review and analysis of the in-state transportation and extradition reimbursement records, for January 2016 through June 2020, we identified various data entry errors, such as blank date fields and apparent typos in the transportation date field.

Detailed written procedures for reviewing criminal cost reimbursements were established to ensure proper documentation and statutory requirements were met prior to approving claims for reimbursements, as well as to ensure the claim had not already been submitted and paid. However, DOC officials

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

Transportation and
extradition reimbursement
overpayments

indicated claims for transportation and extradition reimbursements do not go through a formal review process. As a result, our review identified multiple instances of duplicate payments for extradition and transportation reimbursements.

Our review of the department's electronic transportation reimbursement data from January 2016 through June 2020 identified 103 instances of duplicate transportation reimbursement payments to counties, totaling \$53,167. Transportation payments during this period totaled approximately \$8.3 million. In addition, our review of the department's electronic extradition reimbursement data from January 2016 through June 2020 identified 12 instances of duplicate extradition payments to counties, totaling \$10,569. Extradition payments during this period totaled approximately \$8.6 million. Our review of transportation and extradition reimbursement data involved filtering for same names, case numbers, social security numbers, and/or date of birth, and looking for duplicate transport dates. We provided the DOC with the list of duplicate payments to confirm their accuracy. DOC officials also indicated they corrected or would correct on the next county payment, some of the duplicate payments we identified.

Policies and procedures are needed to prevent the duplicate payment of reimbursement requests, ensure databases are complete and accurate, and ensure payments are in compliance with state law. Conversion to an electronic billing system, containing sufficient edit checks, would help increase efficiency and improve the DOC's ability to monitor billings for accuracy and compliance with state law.

A similar condition was noted in our prior audit report.⁵

The DOC does not ensure
transportation and extradition
reimbursements are made
within timeframe required by
state law

Based on our review of reimbursement data, the DOC does not ensure reimbursement claims are made timely in accordance with state law. Per Section 33.120, RSMo, claims against the state must be presented to the Commissioner of Administration within 2 years to be eligible for payment. Excluding claims with blank field dates and apparent typos, we identified reimbursement claims for 192 prisoners, totaling \$18,136 were received after the 2 year statutory time limit. Of this total, claims for 159 prisoners, representing \$13,350 had been approved for payment during fiscal year 2020 but were not paid yet due to insufficient appropriations. We also reviewed extradition claims to determine the number of days between the date the claim was submitted and the date the extradition services were performed to determine if the claim was submitted within the statutory time frame. We identified claims for 14 prisoners, resulting in overpayments totaling \$12,752, paid despite being submitted to DOC after the 2 year time limit.

⁵ SAO Report No. 2009-103, *Department of Corrections*, issued in September 2009 is available at <<https://app.auditor.mo.gov/repository/press/2009-103.pdf>>.

Department of Corrections
County Reimbursement Program
Management Advisory Report - State Auditor's Findings

In addition, the DOC spreadsheets contained data entry errors and often lacked necessary information to properly determine if some claims were paid in compliance within statutory time limitations. DOC officials indicated they typically follow the 2 year rule, but made exceptions due to the "sensitive nature" of the county reimbursement program.

In addition, due to the lack of sufficient details in the DOC database, including the date of prisoner transport and a number of data entry errors, additional payments exceeding the statutory time limit may exist but could not be readily identified.

Recommendations

The Department of Corrections:

- 3.1 Request appropriation amounts necessary to pay all obligations of the department timely. In addition, the department should ensure budget request documents provide a complete financial history of the program by identifying total amounts owed to local governments.
- 3.2 Implement controls and procedures to ensure electronic records contain accurate and complete information. In addition, the department should ensure claims approved for payment have not been previously paid and comply with state law. The department should review the erroneous payments identified and reduce future billings as appropriate.

Auditee's Response

The department's written response is included at Appendix D.

State of Missouri
DEPARTMENT OF CORRECTIONS
"Improving Lives for Safer Communities"

Honorable Nicole R. Galloway
Missouri State Auditor
P.O. Box 869
Jefferson City, MO 65102

Dear Auditor Galloway:

The Department of Corrections submits the following responses to the County Reimbursement Program performance audit.

3.1 Budget requests not sufficient

Response:

The department has worked to ensure that the Governor, the General Assembly, and all stakeholders were well informed about the financial condition of the of the county reimbursement program to inform state appropriation decisions. However, in the future the department will ensure that the budget documents clearly reflect the financial condition of the program to allow the General Assembly to make informed appropriation decisions.

3.2 Payment Errors

Response:

During the period January 2016 through June 2020 the audit identified 103 instances of duplicate transportation reimbursement payments to counties, totaling \$53,167. During that same time period the Department of Corrections (DOC) processed 7,996 payments for a total of \$8,288,220.71. Our error rate is less than 1% without a centralized system for tracking. Prior to this audit being conducted DOC did implement a standardized tracking, audit, and reporting system for transportation payments.

During the period January 2016 through June 2020 the audit identified 12 instances of duplicate extradition payments to counties, totaling \$10,569. During that time period the DOC processed 2,901 payments, totaling \$8,606,187.14. Our error rate for extraditions was one-tenth of a percent without a centralized system for tracking. Prior to this audit being conducted DOC did implement a standardized tracking, audit, and reporting system for extradition payments.

Appendix D
County Reimbursement Program
Missouri Department of Corrections Response

During the period January 2016 through June 2020 the audit identified 14 extradition claims resulting in overpayments totaling \$12,752, paid after the 2 year statutory time limit. During that time period the DOC processed 2,901 payments, totaling \$8,606,187.14. Our error rate for extradition payments made outside of the 2 year statutory time limit was one-tenth of a percent without a centralized system for tracking. Prior to this audit being conducted DOC did implement a standardized tracking, audit, and reporting system for transportation payments.

The implementation of new standardized tracking, audit, and reporting systems has allowed and will continue to allow DOC to reduce errors. In addition the department is working to implement an online automated submission system for bills of cost that will further enhance the program by reducing manual administrative processing by the department and the submitting counties.

Sincerely,

A handwritten signature in black ink, appearing to read "Trevor Foley", is written over a light blue horizontal line.

CITIZENS SUMMARY

Findings in the audit of the Missouri State Lottery Commission

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from the audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Missouri State Lottery Commission
and
May Scheve Reardon, Executive Director
Missouri State Lottery Commission
Jefferson City, Missouri

The State Auditor is required under Section 313.315.1, RSMo, to audit the Missouri State Lottery Commission. The Lottery engaged CliftonLarsonAllen LLP, Certified Public Accountants (CPAs), to audit the Lottery's financial statements for the years ended June 30, 2020 and 2019. To satisfy our statutory obligation and minimize duplication of effort, the State Auditor has used the work of the CPA firm. We reviewed the reports and substantiating working papers of the CPA firm to satisfy ourselves as to the appropriateness of using the reports, and we accept them in partial fulfillment of our duties under Section 313.315.1, RSMo. We have also audited certain operations of the Lottery in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the years ended June 30, 2020 and 2019. The additional objectives of our audit were to:

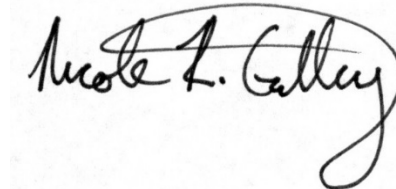

1. Evaluate the Lottery's internal controls over significant management and financial functions.
2. Evaluate the Lottery's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the Lottery, analysis of comparative data obtained from external and internal sources; review of contracts that are specific to the auditee's operations and significant within the context of the audit objectives; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design, implementation, and operating effectiveness of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Lottery's management and was not subjected to the procedures applied in our audit of the Lottery.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the Missouri State Lottery Commission.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

Missouri State Lottery Commission

Organization and Statistical Information

Pursuant to Sections 313.200 to 313.351, RSMo, the Missouri State Lottery Commission (Lottery) was created in June 1985. That action followed voter approval of a lottery amendment to the Missouri Constitution at the November 1984 general election. The Lottery began selling instant game tickets on January 20, 1986. From 1986 to 1993, lottery proceeds less prizes and expenses were transferred to the General Revenue Fund for appropriation by the General Assembly. Effective July 1, 1993, pursuant to a voter approved lottery amendment to Article III, Section 39(b), Missouri Constitution, lottery proceeds are transferred to the Lottery Proceeds Fund for appropriation by the General Assembly for educational purposes.

Section 313.321 RSMo, provides that money received from the sale of lottery tickets shall be allocated as follows: a minimum of 45 percent shall be awarded as prizes; administration, advertising, promotion, and retailer compensation costs shall be paid as appropriated by the General Assembly; and the remainder shall be transferred to the Lottery Proceeds Fund to be appropriated solely for public institutions of elementary, secondary, and higher education.

Traditionally, the Lottery has paid out more than the minimum 45 percent of sales as prizes. The pay-out percentage has averaged 63.28 percent from 1986 to 2020. The prize percentage fluctuates each year based on factors such as the type of scratcher tickets sold (each game has a different prize structure) and the timing of payouts related to draw game sales such as the Powerball and Mega Millions games. Lottery officials believe that more people will play if there are more prizes to receive. Lottery retailers are authorized to redeem prizes up to \$600, or players may claim any prizes in person at any of the Lottery offices.

Estimated Transfers of Profits

Article III, Section 39(b), of the Missouri Constitution requires transfer of Lottery profits to the Lottery Proceeds Fund to be appropriated solely for public institutions of elementary, secondary and higher education. In September each year, as part of the state budget process, the Lottery develops estimates of the transfer for the subsequent fiscal year in its budget request submitted to the Office of Administration and Governor. For example, the estimate for fiscal year 2021 (which began July 2020) was developed by the Lottery in September 2019. The Lottery's estimates provide a basis from which the Governor incorporates estimates into the budget submitted to the General Assembly for determining appropriations to schools from the Lottery Proceeds Fund.

Missouri State Lottery Commission Organization and Statistical Information

Estimated and actual transfers for the last 4 fiscal years were as follows:

Estimated and actual transfers to the Lottery Proceeds Fund

	Year Ended June 30,			
	2020	2019	2018	2017
Lottery estimate	\$ 293,095,042	289,606,888	286,004,759	278,794,691
Actual cash transfer	333,000,000	323,000,000	306,072,098	297,874,417
Actual over (under) estimate	\$ 39,904,958	33,393,112	20,067,339	19,079,726
Variance from estimate	13.6%	11.5%	7.0%	6.8%

The Lottery estimates transfers using the average of the total actual transfers for the preceding 5 fiscal years plus 1 percent rather than assuming continued growth. The Lottery's estimated transfers were \$309.1 and \$317.2 million for the fiscal year 2021 and 2022 budgets, respectively.

Commission

A five-member Lottery commission is appointed by the Governor with the advice and consent of the Senate. The commission must meet at least quarterly. The commission has the authority to promulgate rules as it deems necessary and desirable to fully implement the Lottery as mandated by the people in Article III, Missouri Constitution. The commission appoints an executive director to act as secretary of the commission and keep all books and records of the commission. The executive director oversees the commission's operation and administration. At June 30, 2020, May Scheve Reardon served as Executive Director, and members of the commission were:

Commissioner	Term Expiration (1)
John (Mike) Hannegan	September 2018
Lance Mayfield, Chairman	September 2022
Robert Gattermeir	September 2022
Michael Grewe, Vice-Chairman	September 2020
John Clark Hemeyer (2)	September 2020

(1) Section 313.215, RSMo, requires appointments to be made within 30 days of the expiration of a term. However, the current practice is for the expired member to serve until reappointed or a new member is appointed.

(2) John Clark Hemeyer was reappointed to a term ending in September 2023, and confirmed by the Senate in December 2020.

The Lottery staff is organized into four divisions: Executive, Sales, Marketing, and Operations. Each division is headed by a director who coordinates activities to meet the commission's objectives. At June 30, 2020, the Missouri State Lottery Commission employed 153 individuals.

Financial Activity

A summary of the Lottery's operating financial activity is presented in the following Appendixes.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Board of Directors
County Employees' Retirement Fund
and
Missouri General Assembly
Jefferson City, Missouri

This letter reports the results of our review of a complaint received by my office from an elected state representative. The complaint related to the reporting of salary information by county officials participating in the County Employees' Retirement Fund (CERF). The objectives of our review were to determine whether county officials reported appropriate salary information to the CERF for the calculation of retirement benefits and determine if county clerk and collector fees were used to improperly elevate annual compensation amounts reported to the CERF resulting in increased retirement benefits.

In addition, the state representative reported concerns about three specific county officials. These concerns were referred to the Attorney General's Office in a letter dated August 24, 2020.

Methodology

Our methodology included reviewing policies and procedures; comparing salary information from State Auditor's Office (SAO) audit reports, the CERF, and Secretary of State's Office (SOS); and interviewing various personnel of the CERF, as well as certain external parties.

In July 2020, the CERF provided us a report of county clerks and county collectors that had retired since January 1, 2010, including their final average salary. We compared the information to salary information previously reported by the SAO in the applicable county audit report and salary information provided by the SOS to determine if salary information reported to the CERF was comparable. When we identified differences, we obtained additional information from the applicable county. The SOS also provided salary history for the final 10 years, if applicable, of selected county collectors and clerks who had retired since 2010. We reviewed the data for significant fluctuations that may indicate more than one year's fees or commissions were reported in a single year's salary amount. We used the SOS Annual Report of County Officials' Compensation data because fees and commissions are not separately reported to the CERF and are generally included in the amount of total compensation. The SOS reports provided separate detail and amounts on base salary and fees and commissions for each elected official. To evaluate fluctuations, we reviewed related SAO audit reports, CERF information, and SOS filings; and discussed them with current county officials.

Background

The CERF was established by an act of the Missouri General Assembly effective August 28, 1994. The Board of Directors has the authority to adopt rules and regulations for administering the retirement fund. Laws governing the retirement fund are found in Sections 50.1000-50.1300, RSMo, and 16 CSR 50.

Counties report salary information online after each payroll period through CERF's secure county portal. CERF staff are trained to ask questions about reported compensation if it varies from previously reported information. As compensation is reported by pay period, CERF software flags any payroll amount that varies by \$6,000 or 25 percent of prior amount. CERF staff then follow up with the applicable county clerk's office to identify why there is a variance. Additionally, when a member applies for retirement benefits, CERF benefits staff will question compensation figures if the salary for the two highest years varies by more than 10 percent from prior years.

Various county clerks and collectors statewide receive additional compensation in the form of fees and commissions from activities they are not statutorily required to perform such as preparation of tax books and collection of property taxes for cities, drainage districts, and levee districts. These types of services are typically addressed in a contract between the parties that specifies the compensation for the services and how it will be paid.

Employees covered by the CERF can retire with full benefits at age 62 or reduced benefits at age 55. The monthly benefit for county employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan formula). When a participant leaves county employment, the county clerk's office in the county employing the person is required to complete a salary verification. In addition, the office must provide support for the two highest years of compensation documented by a W-2 form or certified payroll report. The CERF is dependent on the county providing accurate information for the fees and commissions received and the applicable year. Under Section 50.1034.1, RSMo, the CERF is authorized to adjust any benefit calculation that is made in error, including adjusting future benefit amounts and recovering any overpayments.

Under 16 CSR 50-2.050(4)(E), "Beginning January 1, 2000, officials whose compensation is collected partly or wholly from fees or a combination of fees and salary may only include these fees if they are processed through county payroll and in accordance with the definition of compensation included in 16 CSR 50-2.010(1)(K)." 16 CSR 50-2.010(1)(K), further provides "Compensation received from sources other than an employer and compensation received pursuant to independent contracting relationships shall not be included in calculating the retirement benefit."

Complaint and SAO Conclusion

Complaint - Compensation information reported to the CERF may be manipulated by elected officials receiving fees and commissions. The compensation is manipulated by reporting multiple years of fees and commissions earned in a single year's salary and, as a result, elevating the final compensation amounts used to calculate retirement benefits.

To ensure that compensation information reported to the CERF was appropriate, we first compared the information with related SAO reports and SOS filings. We noted some differences and followed up on those differences with additional information from the CERF and the related county, if needed. After additional follow up, we noted the salary amounts used by the CERF to calculate the officials' retirement benefits were comparable with the amounts reported by the SAO and to the SOS, or were less than those amounts, which would be appropriate. Our review of SOS data identified some officials that did not report fees and/or commissions to the SOS as required. This problem was limited, but indicates there is an opportunity for improvement in the reporting.

For 40 officials, we evaluated fluctuations in salary and fee amounts reported to the SOS to determine if there was an opportunity for manipulated salary information reported to the CERF. The review found no

unexplained fluctuations in the amounts. We followed up with county and CERF officials to determine the reasons for some fluctuations and determined that in at least two cases, the official paid premiums for his/her own health insurance and these amounts were reported on the employee's W-2 form and included in CERF salary calculation appropriately. The CERF maintained documentation to support this information and we noted no concerns. We noted other increases in the fees reported generally related to new contracts with cities, levee districts, or drainage districts to collect property taxes or prepare tax books on their behalf.

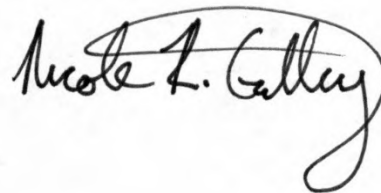

Overall SAO Conclusion

Based on the information provided by the CERF and SOS, the county officials generally reported the same salary information to the CERF and the SOS. In some instances, fee and commission information was not reported to the SOS. As salary information is collected by both entities, opportunity exists for the CERF and SOS to further strengthen salary verification procedures by comparing information. Such collaboration would also allow the SOS to ensure fees and commissions are consistently reported.

We noted no unexplained fluctuations in the fee amounts reported to the SOS. While we noted no instances of manipulated fees and commission amounts to increase retirement benefits, CERF officials indicated they do not have the statutory authority to investigate or question information provided by counties without direct evidence of fraud or allegations by a credible source. To ensure compensation information is not manipulated, the General Assembly should (1) evaluate whether fees and commissions from duties county officials are not statutorily required to perform should be included in the final compensation amounts used in retirement benefits calculations and (2) consider passing legislation to ensure the CERF has the proper authority to investigate and question compensation amounts reported.

My office plans to continue to review CERF reporting during regularly scheduled audits of third class counties.

Sincerely,

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

NICOLE GALLOWAY, CPA

Missouri State Auditor

The Citizens of Missouri

This report was compiled from follow-up reports issued in 2020. The State Auditor's Office conducted 2 follow-up reviews pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the auditee about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

Auditors conduct follow-up work for audits with significant or serious findings when determined necessary.

Of the 29 recommendations included in the follow-up reports, 13 (45 percent) had a status of implemented, 7 (24 percent) had a status of in progress, 8 (28 percent) had a status of partially implemented, and 1 (3 percent) had a status of not implemented.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name and title.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Silex, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2019-108, *City of Silex* (rated as Poor), issued in November 2019, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by city officials and held discussions with city officials to verify the status of implementation for the recommendations. Documentation provided by the city included minutes of meetings, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during October 2020.

Nicole R. Galloway, CPA
State Auditor

City of Silex

Follow-Up Report on Audit Findings

Status of Findings

1. Financial Condition The General Fund was in poor financial condition. This problem was not expected to improve significantly in the immediate future.

For the year ended December 31, 2018, the city transferred restricted utility monies totaling \$141,181 to the General Fund. Transfers included (1) \$75,570 from the Water Fund and (2) \$65,611 from the Sewer Fund. The city was transferring the majority of revenues from these restricted utility funds to subsidize the General Fund.

Recommendation The Board of Aldermen ensure it receives detailed financial data monthly, perform long-term planning, and closely monitor and take necessary steps to improve the city's financial condition.

Status **In Progress**

The Board now receives detailed financial data monthly and closely monitors the finances of the city. However, due to the city's financial condition and current economic uncertainty, the Board has not performed any significant long-term planning to improve the financial condition, other than planning to pay all of the city's outstanding bills and debt.

2.1 Budgets and Financial Reporting - Budgets The Board does not have adequate procedures to prepare or monitor budgets.

Recommendation The Board of Aldermen prepare accurate annual budgets that contain all information required by state law, and ensure the budgets are adequately monitored.

Status **Not Implemented**

The Board did not pass a budget for the year ending December 31, 2020, and, as a result, did not monitor budget to actual revenues and expenditures during the year.

2.2 Budgets and Financial Reporting - Published financial statements The financial statements had not been published for the year ended December 31, 2018. As a result, information regarding the city's financial activity and condition was not available to citizens.

Recommendation The Board of Aldermen ensure publication of the city's semiannual financial statements as required by state law.

Status **Implemented**

City officials had the July - December 2019 financial statement published on January 29, 2020, and the January - June 2020 financial statement published on July 29, 2020.

City of Silex
Follow-up Report on Audit Findings
Status of Findings

2.3 Budgets and Financial
Reporting - Filing of
financial reports

City officials did not file timely annual financial reports with the State Auditor's Office as required by state law. The city's financial report for the year ended December 31, 2017, due by June 30, 2018, was not filed until September 10, 2018. In addition, financial reports were not filed for the years ended December 31, 2015, and 2016.

Recommendation

The Board of Aldermen submit annual financial reports to the State Auditor's Office as required by state law.

Status

Partially Implemented

City officials filed the financial report for the year ended December 31, 2019, with the State Auditor's Office on July 21, 2020, after the June, 30 2020, due date.

3. Restricted Funds and
Recording Financial
Transactions

The city had not established adequate procedures to ensure revenues and expenditures were credited to the appropriate fund or to ensure restricted monies were used only for intended purposes.

3.1 Transfers and
commingling of funds

The city used restricted monies to finance general operations of the city. The Board had not established controls to ensure transfers between funds are proper, documented, and approved by the Board. In addition, minutes did not document the discussion or approval of transfers. As a result, restricted monies were commingled with general operating funds and were not always used for their intended purpose and misuse of restricted funds may have occurred.

Recommendation

The Board of Aldermen establish a process to ensure transfers between funds are proper, approved, and timely. In addition, the Board should ensure monies received are deposited in the appropriate bank accounts and restricted monies are spent for allowable purposes only. The Board should also develop plans to repay the amounts owed to the Water and Sewer Funds.

Status

Partially Implemented

Each month, the Board receives a list of transfers but does not formally document approval of the transfers. Our review of transfer lists indicated that the transfers are typically related to the allocation of payroll to various funds and did not include any unallowable transfers to restricted funds. The Board also receives monthly bank statements, bank reconciliations, and a list of expenditures to help ensure all transfers and restricted monies are handled properly. The Mayor and City Clerk indicated the Board will develop a plan to repay the amounts owed to the Water and Sewer Funds after the city's debts are paid.

City of Silex
Follow-up Report on Audit Findings
Status of Findings

3.2 Recording and
allocation of revenues
and disbursements

The city does not have controls and procedures to ensure revenues and disbursements are accurately and consistently recorded. As a result, financial statement information is not accurate, complete, and useful when assessing results of city operations.

Recommendation

The Board of Aldermen allocate disbursements to city funds based on specific criteria and retain documentation to support the allocation. In addition, ensure revenues and disbursements are properly recorded.

Status

Implemented

As previously noted, payroll expenditures are allocated to various funds through transfers. Time worked on various tasks (water, sewer, etc.) is tracked and documented to support how these allocations are determined. Electric expenditures are also allocated to various funds. The city has 17 locations that use electricity. A spreadsheet is maintained to show how each location's electric expenses should be allocated to the various funds. In addition, we reviewed the city's financial records for April 2020 and August 2020 and noted that revenues and disbursements were properly recorded.

4. Disbursements

City disbursements were not properly supported or approved and some disbursements were questionable. In addition, the city did not properly bid or report some disbursements as required.

4.1 Disbursement
documentation and
review

Significant improvement was needed in the city's disbursement documentation and review procedures. Our review identified disbursements that did not have supporting documentation and no one could explain their purpose.

City personnel did not document their review and approval of invoices or the receipt of goods or services.

Recommendation

The Board of Aldermen maintain adequate supporting documentation for all disbursements and ensure all disbursements are recorded in the accounting system. The Board should ensure invoices are adequately reviewed and approved and require documentation of receipt of goods and/or services prior to payment of invoices.

Status

Partially Implemented

All disbursements that we reviewed had adequate supporting documentation and were recorded in the accounting system. Even though invoices typically do not have documentation of receipt of goods and/or service, they are made available for Board members to review or question at any time prior to payment. The Board approves unpaid invoices at each regular Board meeting. In addition, all checks required 2 signatures before issuance. The Mayor, City Clerk, and a Board member are all authorized to sign checks.

City of Silex
Follow-up Report on Audit Findings
Status of Findings

4.2	Questionable purchases	The city reimbursed unreasonable and/or unnecessary purchases made by city personnel while attending a training seminar at the Lake of the Ozarks.
	Recommendation	The Board of Aldermen ensure all disbursements are necessary and prudent uses of public funds.
	Status	Implemented Our review of the disbursement listings for 2020 through September indicated the city is only spending money on necessary goods and services.
4.3	Fuel cards	The city did not have procedures to adequately monitor fuel card accounts and fuel use to detect unauthorized use. The city also did not ensure fuel card access was restricted after employees were placed on administrative leave, and, as a result, employees on administrative leave purchased fuel with city fuel cards.
	Recommendation	The Board of Aldermen ensure all credit card accounts are properly monitored and credit cards are turned in by employees when their employment has been terminated or suspended. The Board should also establish adequate records and procedures to effectively monitor vehicle and fuel use. Fuel tickets should be submitted to the City Clerk and reconciled to fuel invoices. Usage/mileage logs should be maintained for all vehicles and compared to fuel use.
	Status	Implemented The city no longer has any credit cards. The Mayor and City Clerk indicated the city has 2 vehicles, one that is not in use and the other that is only used for snow plowing, limiting the need for usage/mileage logs.
4.4	Procurement procedures and contracts	City officials did not always solicit bids or proposals as required by city policy. Also, they could not provide some written contracts and some contracts were not sufficiently detailed.
	Recommendation	The Board of Aldermen ensure formal bidding policies and procedures are followed, periodically solicit proposals for professional services, and enter into clearly written agreements for those services.
	Status	Implemented We reviewed the monthly Board packets and noted the Board has solicited bids and proposals several times in 2020. We did not note any other disbursements requiring bidding during our review of city disbursement records. In addition, the city attorney ordinance has been updated to include

City of Silex
Follow-up Report on Audit Findings
Status of Findings

the fees charged to the city. The city is also now entering into written agreements when warranted.

4.5 1099-MISC forms

The city did not prepare and file 1099-MISC forms with the Internal Revenue Service (IRS), as required, for legal services received for the year ended December 31, 2017.

Recommendation

The Board of Aldermen ensure payments totaling greater than \$600 to non-employees and businesses are properly reported to the IRS. The city should file amended 1099-MISC forms for past years.

Status

Partially Implemented

City officials prepared 1099-MISC forms for the year ended December 31, 2019, including one for the city attorney and one for a local vendor. The city has not filed amended 1099-MISC forms for past years. The City Clerk indicated she was unsure of the accuracy of the records for prior years so she did not file the forms.

5.1 Accounting Controls and Procedures - Segregation of duties

The Board had not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed.

Recommendation

The Board of Aldermen segregate the accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

Status

Implemented

Due to the size of the city, accounting duties cannot be fully segregated. As a result, the Mayor and the Board regularly review and monitor the work performed by the City Clerk. The Board is given a copy of all bank statements, reconciliations, and other financial reports monthly. In addition, 2 signatures are required on all checks.

5.2 Accounting Controls and Procedures - Bank account reconciliations and fees

Controls and procedures over bank accounts and reconciliations needed improvement. We identified the following issues:

- City personnel did not prepare bank reconciliations for 5 of 10 months between January and October 2018. For the 5 bank reconciliations prepared, the reconciliations did not include a detailed listing of deposits in transit or outstanding checks to support the reconciliation.
- The Board and the former City Clerk failed to monitor the city's cash balances. As a result, the city incurred \$157 in overdraft and returned

City of Silex
Follow-up Report on Audit Findings
Status of Findings

item fees in the general, water, and renovation bank accounts during calendar year 2018.

Recommendation

The Board of Aldermen ensure monthly bank reconciliations are prepared and reconciled timely, and any differences are promptly investigated and resolved. In addition, the Board should also properly monitor bank account balances to avoid unnecessary bank fees.

Status

Implemented

Bank reconciliations are performed monthly and included in the monthly packets given to the Board. In addition, through September 2020, the city had not been charged any bank fees for the year.

**7.1 Payroll and Related
Issues - Payroll taxes**

City officials did not ensure payroll taxes were paid as required and some compensation was not reported on employee W-2 forms. City officials failed to timely file and remit federal payroll taxes, totaling \$17,666 to the Internal Revenue Service (IRS) for the 2 quarterly periods ending September 30, 2018. In addition, the city did not file and remit state payroll taxes totaling \$3,510 to the Missouri Department of Revenue for at least the 3 quarterly periods ending September 30, 2018. City officials also indicated payroll taxes were not paid in previous years or in 2019.

The city paid compensation totaling \$3,120 to the former City Administrator per his contract for health insurance during the year ended December 31, 2018. These payments were not included on his W-2 form and as a result were not subject to payroll tax withholdings.

Recommendation

The Board of Aldermen ensure payroll tax returns are filed timely and delinquent payroll taxes are remitted. In addition, the Board of Aldermen should ensure previous years' W-2 forms are amended, as appropriate, and compensation is properly reported and subjected to proper withholdings.

Status

In Progress

The city is now filing payroll tax returns timely. We reviewed the payroll tax return for the quarter ended June 30, 2020, and noted the return was filed timely. The city is waiting for guidance from the IRS on the proper way to handle issues from previous years.

**7.2 Payroll and Related
Issues - Personnel
policies**

The city's personnel policy did not adequately address overtime and established policies were not always followed.

Nonworking time (vacation, sick leave, and holidays) was included in total hours worked when determining the amount of overtime earned by employees, which is not required by the Fair Labor Standards Act. As a result, the city had been paying more overtime to employees than required. The city

City of Silex
Follow-up Report on Audit Findings
Status of Findings

	did not have a policy addressing the hours (nonworking time) to be considered when calculating overtime.
Recommendation	The Board of Aldermen review and update the personnel policy, as necessary, and ensure compliance with the policy.
Status	Implemented The city's policies have been updated so that nonworking time is not included in the city's overtime calculation. The city currently has 2 part-time, hourly employees.
8. Utility System	Significant weaknesses existed in the city's utility system controls and procedures. As a result, there was less assurance all utility payments had been properly recorded and transmitted.
8.1 Water loss	City officials did not reconcile the total gallons of water billed to the gallons of water pumped, and as a result, significant differences were not investigated. Also, the city did not track the water usage for flushing the system, fire suppression, or fire hydrant testing.
Recommendation	The Board of Aldermen ensure water use is properly metered, gallons of water pumped is reconciled to gallons billed monthly, and significant differences are promptly investigated.
Status	Partially Implemented The fire department does not have a water meter, so the city cannot track department usage. However, the city is reconciling all other usage to gallons billed. We reviewed a reconciliation and identified no concerns.
8.2 Utility deposits	City water deposits charged did not comply with city ordinance. In addition, the city did not maintain and reconcile a listing of customer deposits held to the balance of the Water Deposit Fund checking account.
Recommendation	The Board of Aldermen ensure compliance with the water deposit ordinance. In addition, the Board should account for all customer utility deposits previously paid, prepare an accurate list of utility deposits and reconcile to monies in the Water Deposit Fund bank account monthly, and resolve any discrepancies.
Status	In Progress The city is now collecting water deposits in accordance with the water deposit ordinance and maintaining a list of deposits collected within the last year. Due

City of Silex
Follow-up Report on Audit Findings
Status of Findings

to time constraints, city officials have not investigated past discrepancies in the water deposit list, but they indicated they will when time allows.

8.3 Delinquent accounts and adjustments

City procedures for discontinuing services and receiving partial payments did not comply with city ordinance. The Board did not review and approve adjustments to customer accounts or a listing of delinquent accounts each month.

Recommendation

The Board of Aldermen ensure compliance with utility ordinances. The Board should also ensure utility service is shut off in accordance with city ordinance. In addition, the Board should review all adjustments made to customer accounts and require reports of delinquent utility accounts be prepared and reviewed monthly.

Status

Partially Implemented

Due to COVID-19, the city is currently not discontinuing services to customers who cannot pay their bill. The city did shut off utility service for nonpayment prior to the current policy and will again when appropriate. No adjustments to customer accounts have been made recently for the Board to review. The Board is not provided a list of delinquent accounts for review.

9. Ordinances

City ordinances were not codified or complete.

- Ordinances were not maintained in an organized manner.
- The city had not adopted an ordinance establishing elected official terms, trash rates, an employee travel policy, a conflict of interest policy, and the procedures for fuel credit card usage. In addition, ordinances had not been adopted establishing fees charged for bad checks, rental of the city community center, towing cars, and aiding with vehicle lockouts.
- The city did not have ordinances establishing the compensation for the city administrator, city clerk, public works supervisor, and police officers.
- Ordinance 130.230B establishing a fee of \$0.25 per copy for public records requests was in violation of the Sunshine Law. Section 610.026, RSMo, limits the charge to \$0.10 per copy.

Recommendation

The Board of Aldermen ensure ordinances are maintained in a complete and well-organized manner and an index of all ordinances passed and rescinded is established. The Board should establish, by ordinance, the terms and compensation of all city officials and employees; trash rates; procedures for fuel credit card use, travel and conflict of interest policies; and the fees

City of Silex
Follow-up Report on Audit Findings
Status of Findings

charged for bad checks, community center rental, towing, and vehicle lockouts. The Board should also ensure ordinances comply with state law.

Status

In Progress

The City Clerk indicated she has been evaluating how best to codify and maintain current and rescinded ordinances. In addition, the Board has updated the city clerk ordinance to include compensation. The Board plans to update other ordinances related to fees, rates, copy charges, and other city official compensation.

Nicole Galloway, CPA

Missouri State Auditor

City of Berger

Report No. 2020-125

December 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Berger

Accounting Controls and Procedures	The Board of Aldermen has not adequately segregated accounting duties or ensured documented supervisory or independent reviews over various financial accounting functions are performed. The City Clerk did not issue receipt slips for most payments received. City personnel did not prepare bank reconciliations for the city's 14 bank accounts. The city does not have a formal bidding policy and has not established policies for the selection of vendors providing professional services.
Meeting Minutes	Open meeting minutes did not always document the specific reasons or section of law allowing the meetings to be closed. Some topics discussed and voted on in closed meetings were not allowable under the Sunshine Law. The city failed to prepare minutes for 3 of the 8 closed meetings and 2 of the 16 open meetings held from June 17, 2019, through June 30, 2020.
Budgets and Published Financial Statements	City budgets prepared for the years ended June 30, 2018, 2019, and 2020, did not include all required elements. The city does not publish semiannual financial statements as required by state law.
Compensation Ordinance	Other than the Mayor, the city does not have an ordinance establishing the compensation of city officials and the city's part-time employee.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Berger, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Berger. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2020. The objectives of our audit were to:

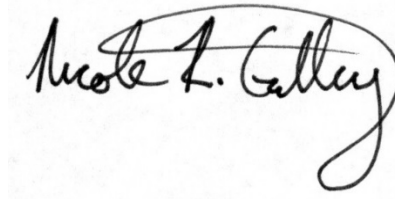

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Berger.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

Audit Manager:	Chris Vetter, CPA, CFE, CGAP
In-Charge Auditor:	Joyce Thomson

City of Berger

Management Advisory Report

State Auditor's Findings

1. Accounting Controls and Procedures

Accounting controls and procedures need improvement. The city collected receipts totaling approximately \$406,000 from water, sewer, trash and natural gas services; Proposition P sales taxes; grants; and other receipts.

1.1 Segregation of duties

The Board of Aldermen has not adequately segregated accounting duties or ensured documented supervisory or independent reviews over various financial accounting functions are performed.

The City Clerk position is responsible for most financial duties of the city including receipting payments received, preparing deposits, preparing invoices for payment, and making transfers between bank accounts.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records should be performed.

1.2 Receipting

The City Clerk did not issue receipt slips for most payments received. The City Clerk only issued receipt slips when an individual requested a receipt slip.

Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of funds will go undetected.

1.3 Bank reconciliations

City personnel did not prepare bank reconciliations for the city's 14 bank accounts. No bank reconciliations had been prepared since April 2019, as of June 30, 2020. Direct deposits and interest were not always recorded in the check registers and bank statement balances were occasionally recorded in the check registers without properly reconciling the check registers balances to the bank statements balances.

Performing adequate monthly bank reconciliations helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely.

1.4 Procurement procedures

The city does not have a formal bidding policy and has not established policies for the selection of vendors providing professional services. The city did not solicit proposals for professional services including legal services (\$12,000), trash services (\$22,000), and utility bill preparation (\$20,000). According to the Mayor, utility bill preparation has been done by the same vendor for at least 15 years without solicitation of bids.

Formal bidding procedures for major purchases or services provide a framework for economic management of city resources and help ensure the city receives fair value by contracting with the lowest or best bidders.

City of Berger Management Advisory Report - State Auditor's Findings

Competitive bidding also helps ensure all parties are given an equal opportunity to participate in city business. Formal bidding procedures should be sufficiently detailed and include requirements for documenting the process of awarding a bid.

Soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the city to make better-informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration.

Recommendations

The Board of Aldermen:

- 1.1 Segregate the accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
- 1.2 Require issuance of prenumbered receipt slips for all monies received.
- 1.3 Ensure adequate monthly bank reconciliations are prepared. Any differences between accounting records and reconciliations should be promptly investigated and resolved.
- 1.4 Establish formal bidding policies and procedures and periodically solicit proposals for professional services.

Auditee's Response

- 1.1 *We have split the duties of the City Clerk and City Treasurer. We have also implemented a two-signature requirement on our checking account. All checks must be signed by the City Treasurer and the Mayor. All expenditures exceeding \$500 must be approved by the Board.*
- 1.2 *We do not accept cash payments. We copy each check received and place it with all invoices (utility bills) submitted. Cashed checks serve as the customer receipt, a customary business practice.*
- 1.3 *Bank reconciliations are now required every month and are prepared by the City Treasurer, subject to review monthly by the Mayor. The Mayor will initially investigate differences between accounting records and reconciliations. The City Marshal will be involved where appropriate.*
- 1.4 *We will develop and adopt formal bidding policies and procedures by January 31, 2021. We will solicit proposals for legal, accounting, engineering, and other professional services upon completion of current contract terms.*

City of Berger
Management Advisory Report - State Auditor's Findings

Auditor's Comment

1.2 Issuing a receipt slip for each payment received provides a record of the transaction and helps reduce the risk of loss, theft, or misuse of funds.

2. Meeting Minutes

The city did not comply with the Sunshine Law for closed and open Board meetings.

2.1 Closed meetings

The city did not comply with the Sunshine Law for the 8 closed meetings held during the year ended June 30, 2020.

Reasons for closing meetings

Open meeting minutes did not always document the specific reasons or section of law allowing the meetings to be closed. Most meeting notices and agendas included a statement that a closed session could be held, in the event the Board wanted to enter into a closed session.

Section 610.022, RSMo, of the Sunshine Law, requires public bodies announce the specific reasons allowed by law for going into a closed session and to enter the vote and reason into the minutes. The section also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure.

Allowable topics

Some topics discussed and voted on in closed meetings were not allowable under the Sunshine Law. For example, in closed meetings the Board passed a motion to add signers to the bank accounts, reviewed the budget, passed a motion to purchase an evidence safe, discussed the city's Facebook page, and discussed starting a Community Action Plan. In addition, due to the pandemic, the Board held its regular monthly meetings in April and May as closed meetings instead of open meetings and did not provide an alternative way for the public to access these meetings.

Section 610.021, RSMo, lists the topics that may be discussed in closed meetings. Section 610.022.3, RSMo, requires that the discussion topics and actions in closed meetings must be limited to only those specifically allowed by law as announced in the justification for closing the meeting.

2.2 Meeting minutes

The city failed to prepare minutes for 3 of the 8 closed meetings and 2 of the 16 open meetings held from June 17, 2019, through June 30, 2020.

Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of actions and decisions.

Recommendations

The Board of Aldermen:

2.1 Ensure specific reasons for closing a meeting are documented in the open minutes, ensure only topics allowed by state law are discussed

City of Berger
Management Advisory Report - State Auditor's Findings

in closed meetings, and discussions are limited to the specific reasons cited for closing the meeting.

2.2 Ensure minutes are prepared and retained for all open and closed meetings.

Auditee's Response

2.1 *We are now including statutory provision(s) for closed sessions in the minutes and public notices. The Mayor and City Clerk will ensure that discussions in closed sessions are limited to the specific reason cited for closing the meetings and allowed by law.*

2.2 *Minutes will be prepared and retained for every Board meeting. The minutes, public notices, and all documents reviewed by the Board will be available to the public for open sessions. The minutes and public notices for all closed sessions will be made available pursuant to state law.*

3. Budgets and Published Financial Statements

The city does not properly prepare budgets, and does not publish semiannual financial statements in accordance with state law.

3.1 Budgetary requirements

The city budgets prepared for the years ended June 30, 2018, 2019, and 2020, did not include all required elements. The budget documents did not include a budget message, actual or budgeted amounts for the 2 preceding years, the actual beginning and estimated ending cash balance for each fund, or a budget summary.

Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in determining tax levies and utility rates and informing the public about city operations and current finances.

3.2 Published financial statements

The city does not publish semiannual financial statements as required by state law. As a result, information regarding the city's financial activity and condition is not available to all citizens.

Section 79.160, RSMo, requires the Board to prepare and publish semiannual financial statements that include a full and detailed account of the receipts, disbursements, and indebtedness of the city.

City of Berger
Management Advisory Report - State Auditor's Findings

Recommendations

The Board of Aldermen:

- 3.1 Prepare annual budgets that contain all information required by state law.
- 3.2 Publish semiannual financial statements as required by state law.

Auditee's Response

- 3.1 *City officers and employees will prepare annual budgets that conform to state law.*
- 3.2 *We will publish semiannual financial statements as required by state law.*

4. Compensation Ordinance

Other than for the Mayor, the city does not have an ordinance establishing the compensation of city officials and the city's part-time employee.

Ordinances documenting approved salary amounts help ensure equitable treatment and prevent any misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of all city officials and employees by ordinance.

Recommendation

The Board of Aldermen establish, by ordinance, the compensation of city officials and employees.

Auditee's Response

We are preparing an ordinance to establish salaries for the Board and all appointed officers and employees.

City of Berger

Organization and Statistical Information

The City of Berger is located in Franklin County. The city was incorporated in 1928 and is currently a fourth-class city. The city employed 3 part-time employees on June 30, 2020.

City operations include water, sewer, trash, and natural gas services.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at June 30, 2020, are identified below. The Mayor is paid \$250 per month and Board of Aldermen members \$35 per month. The Mayor's compensation is established by ordinance; however, an ordinance has not been established for the compensation of the Board of Aldermen.

Harold Englert, Mayor
Liz Fields, Alderwoman
Eric Bruckerhoff, Alderman
Dennis Reed, Alderman
Bernard Steinhoff, Alderman

Other Principal Officials

The City Clerk and Police Marshal are appointed positions. The city's principal officials at June 30, 2020, are identified below:

Nina Adams, City Clerk
Trace Gutierrez, Police Marshal

Financial Activity

A summary of the city's financial activity, prepared using the city's bank statements, for the year ended June 30, 2020, follows:

City of Berger
Schedule of Receipts, Disbursements, and Changes in Cash Balances

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of November 2020 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March and April 2020, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In November, the state spent \$432.7 million from federal COVID-19 assistance (Appendix A). Through the end of November, the state has received \$3.175 billion and spent \$1.95 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$482 million) and funding passed through to counties and the City of St. Louis (\$521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, and nursing facilities; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, and other disaster relief purposes. In addition, the state is currently using \$250 million of COVID-19 relief funding for cash management needs.

Federal Funding for COVID-19 Response

November 2020

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March and April 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of November 30, 2020, approximately \$18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).
- Not charge premiums that exceed those that were in place as of January 1, 2020.

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
November 2020
Executive Summary

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of November 30, 2020, approximately \$36.2 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population. In early July, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

⁴ U.S. Department of the Treasury, *Coronavirus Relief Fund Guidance for State, Territorial, Local, and Tribal Governments*, September 2, 2020, <<https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Guidance-for-State-Territorial-Local-and-Tribal-Governments.pdf>>, accessed September 25, 2020.

Federal Funding for COVID-19 Response
November 2020
Executive Summary

- Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
- Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
- Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
 - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.

Federal Funding for COVID-19 Response
November 2020
Executive Summary

- Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
- Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 30, 2020, as required by federal law, those funds must be returned to the federal government.

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to June 30, 2021. In May, the OA transferred \$250 million from the stimulus

⁵ U.S. Department of the Treasury, *Coronavirus Relief Fund Frequently Asked Questions*, p.14, October 19, 2020, < <https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Frequently-Asked-Questions.pdf> >, accessed October 30, 2020.

Federal Funding for COVID-19 Response
November 2020
Executive Summary

fund to the General Revenue Fund. No cash management transfers occurred in November.

Under the CARES Act, the state has also been awarded as of November 30, 2020, approximately \$3.22 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$165 million with some of this funding going directly to rural health departments from the federal government.

In November, the state spent \$432.7 million from federal COVID-19 assistance (Appendix A). Through the end of November, the state has received \$3.175 billion and spent \$1.95 billion from this assistance. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$482 million) and funding passed through to counties and the City of St. Louis (\$521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, and nursing facilities; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendix C.

¹ For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. In November 2020, \$142,155,822 was transferred from this fund to the General Revenue Fund. This transfer uses federal COVID-19 funding to reimburse expenditures incurred by the General Revenue Fund with state funding. In the interest of displaying the net effect of this transfer, which ultimately represents use of COVID-19 funding, we reclassified this amount from a transfer out to a disbursement in this statement. These amounts will not appear under the FMAP Enhancement Fund in Appendix C. Through November 2020, the Department of Social Services (DSS) has transferred the maximum \$158,000,000 allowed under the legislation authorizing appropriations from this fund. The DSS is waiting on further legislative decision items or accounting transfers to use the remaining \$157,832,951 fund balance.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

¹ During the fiscal year ending June 30, 2020, the Secretary of State used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The Secretary of State receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements.

² The General Assembly has authorized the Office of Administration to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund. As of the end of November, \$250 million has been transferred to the General Revenue Fund.

¹ The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services cannot directly expend any receipted monies from the fund, as it could during the fiscal year ended June 30, 2020.

³ Coronavirus Relief Fund assistance must be returned to the federal government if it is not spent to cover allowable costs incurred by December 30, 2020. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to \$750 million.

⁴ Statewide Accounting System (SAM II) adjustments between November 1, 2020, and November 30, 2020, retroactively charged COVID-19 personal service and fringe benefits appropriations for the fiscal year ended June 30, 2020, since the previous report. These appropriations were created using appropriation authority transferred from the "state agency disasters" appropriation. The Office of Administration (OA) completed these adjustments upon receiving new guidance from the United States Treasury in late October 2020.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to summarize the unemployment benefits and relief received by Missouri citizens, government entities, and nonprofit organizations related to the Coronavirus Disease 2019 (COVID-19) emergency from declaration of the emergency through October 2020.

In March 2020, Congress passed several legislative measures signed into law to provide assistance to citizens becoming unemployed due to the COVID-19 emergency. In August, following expiration of a significant program in the initial legislation, the President issued an executive memorandum for a new short-term program. The unemployment assistance funding is processed through the state's Unemployment Insurance Trust Fund at the Department of Labor and Industrial Relations.

Through October 31, 2020, more than 500,000 Missouri citizens have received assistance totaling nearly \$3.8 billion from at least one of the unemployment benefit programs. Also, through that date, approximately 1,600 government entities and nonprofit organizations have received \$22.8 million in emergency unemployment relief.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name and title.

Federal Unemployment Funding for COVID-19 Response

Executive Summary

Executive Summary

Missouri citizens have received unemployment assistance under the following federal laws enacted or executive action taken in March and August 2020:

- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Memorandum on Authorizing the Other Needs Assistance Program for Major Disaster Declarations Related to Coronavirus Disease 2019

The Families First Coronavirus Response Act includes the Emergency Unemployment Insurance Stabilization and Access Act of 2020 (EUISAA).¹ That act provides, among other things, (1) emergency administrative grants to states; (2) emergency flexibilities to states related to temporarily modifying certain aspects of their unemployment compensation laws; (3) a short-term waiver of interest payments due and interest accrual on Title XII advances to states; and (4) full federal funding, under certain circumstances, of extended benefits (EB) paid through December 31, 2020. The EUISAA also required the U.S. Department of Labor to provide technical assistance and guidance to assist states in establishing, implementing, and improving employer awareness of the Short-Time Compensation (STC) program, also known as Shared Work or Work Share.

The CARES Act authorizes the following provisions:²

Pandemic Unemployment Assistance (PUA)

This program provides up to 39 weeks of benefits and is available starting with weeks of unemployment beginning on or after January 27, 2020, and ending on or before December 31, 2020.

The program covers individuals who are self-employed, seeking part-time employment, or whom otherwise would not qualify for regular unemployment compensation (UC) or EB under state or federal law or Pandemic Emergency Unemployment Compensation (PEUC). Coverage also includes individuals who have exhausted all rights to regular UC or EB under state or federal law, or PEUC.

¹ U. S Department of Labor, *Advisory: Unemployment Insurance Program Letter No. 13-20*, pages 2-8, issued March 22, 2020.

² U. S Department of Labor, *Advisory: Unemployment Insurance Program Letter No. 14-20*, pages 3-6, issued April 2, 2020.

Pandemic Emergency Unemployment Compensation

This program provides up to 13 weeks of benefits and is available for weeks of unemployment beginning after the date on which the state enters into an agreement with the U.S. Department of Labor and ending with weeks of unemployment ending on or before December 31, 2020.

This program covers individuals who: have exhausted all rights to regular UC under state or federal law; have no rights to regular UC under any other state or federal law; are not receiving compensation under the UC laws of Canada; and are able to work, available for work, and actively seeking work. However, states shall offer flexibility in meeting the "actively seeking work" requirement if individuals are unable to search for work because of COVID-19, including because of illness, quarantine, or movement restriction.

Among the requirements of this program is a non-reduction rule, which prohibits states from changing the computation method governing regular UC law in a way that results in the reduction of average weekly benefit amounts or the number of weeks of benefits payable (i.e., maximum benefit entitlement).

Federal Pandemic Unemployment Compensation (FPUC)

This program provided an additional \$600 per week to individuals who were collecting regular UC (including Unemployment Compensation for Federal Employees and Unemployment Compensation for Ex-Servicemembers), PEUC, PUA, EB, STC, Trade Readjustment Allowances, Disaster Unemployment Assistance, and payments under the Self Employment Assistance program. The program was available for weeks of unemployment beginning after the date on which the state enters into an agreement with the U.S. Department of Labor and ending with weeks of unemployment ending on or before July 31, 2020.

The non-reduction rule applicable to PEUC also applied to this program.

Emergency unemployment relief for governmental entities and non-profit organizations

This section of the CARES Act provides for transfers to a state's account in the unemployment trust fund from the Federal Unemployment Account to provide partial reimbursements (generally 50 percent of the amount of payments in lieu of contributions) to state and local governmental entities, certain nonprofit organizations, and federally recognized Indian tribes for weeks of unemployment between March 13, 2020, and December 31, 2020. These partial reimbursements apply to all payments made during this time period, even if the unemployed individual is not unemployed as a result of COVID-19.

Temporary full federal funding of the first week of compensable regular unemployment for states with no waiting week

States that provide compensation to individuals for their first week of unemployment (i.e., states which do not require a waiting week) and that enter into an agreement with the U.S. Department of Labor will receive 100 percent federal funding for the total amount of regular UC paid to individuals for their first week of regular UC. This funding is available for weeks of unemployment beginning after the date on which the state enters into the agreement and ends with weeks of unemployment ending on or before December 31, 2020.

Memorandum on Authorizing the Other Needs Assistance Program for Major Disaster Declarations Related to Coronavirus Disease 2019³

Through a Federal Emergency Management Agency (FEMA) administered grant for lost wages assistance from the Disaster Relief Fund, a state can provide eligible recipients a \$400 payment per week, which shall reflect a \$300 federal contribution, to eligible claimants from the week of unemployment ending August 1, 2020. The state is responsible for \$100 of the weekly benefit. The President issued the memorandum on August 8, 2020.

This program was available until the Disaster Relief Fund balance reached \$25 billion or for weeks of unemployment ending not later than December 6, 2020, whichever occurred first, at which time the lost wages assistance program would terminate. In Missouri, the program ended in early September 2020.

Through October 31, 2020, more than 500,000 Missouri citizens have received assistance totaling nearly \$3.8 billion from at least one of these programs. Also, through that date approximately 1,600 government entities and nonprofit organizations have received \$22.8 million in emergency unemployment relief.

**Department of Conservation
Employees' Benefit Plan**

Report No. 2020-122

December 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Conservation Employees' Benefit Plan

Personnel Costs	The Department of Conservation Employees' Benefit Plan (CEBP) does not allocate to the CEBP Trust Fund the proportionate share of personnel costs of Missouri Department of Conservation (MDC) employees who administer the CEBP. Salaries and benefits provided to MDC employees who administer the CEBP are paid from the Conservation Commission Fund. Because these personnel costs were not identified and allocated to the CEBP, these costs, which represent at least 11 percent of total administrative costs and 1 percent of total costs during the year ended December 31, 2019, were not covered by the CEBP.
Other Postemployment Benefits Liability	The CEBP has not evaluated its Other Postemployment Benefits (OPEB) liability amounts or considered prefunding the OPEB liability. In addition, the CEBP has not obtained experience studies and audits of actuarial valuations.
Contractor Performance Guarantees	The CEBP did not monitor performance guarantees of the Third Party Administrator. The CEBP did not require the TPA to timely submit the performance guarantee report and supporting audit for 2019.
Board Composition	The Board of Trustees does not consist of members representing varied and balanced interests. As of August 2020, all Board members were active MDC employees.
Conflict of Interest Policy	The Board of Trustees does not have a conflict of interest policy.
Electronic Communication Policy	The MDC's records management and retention policy, followed by the CEBP, does not comply with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri State Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Conservation Commission
and
Sara Parker Pauley, Director
Missouri Department of Conservation
and
Board of Trustees
Department of Conservation Employees' Benefit Plan
Jefferson City, Missouri

We have audited certain operations of the Department of Conservation Employees' Benefit Plan (CEBP), in fulfillment of our duties under Chapter 29, RSMo. The CEBP engaged Evers & Company, Certified Public Accounts (CPA's), LLC, to audit the CEBP's financial statements for the 2 years ended June 30, 2020. To minimize duplication of effort, we reviewed the CPA firm's audit report for the 2 years ended June 30, 2018, since the report for the 2 years ended June 30, 2020, had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

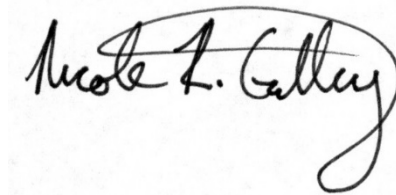

1. Evaluate the CEBP's internal controls over significant management and financial functions.
2. Evaluate the CEBP's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, contracts, and other pertinent documents; interviewing various personnel of the Missouri Department of Conservation; and analyzing comparative data obtained from the CEBP. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the CEBP's management and was not subjected to the procedures applied in our audit of the CEBP.

For the areas audited, we identified (1) a deficiency in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Conservation Employees' Benefit Plan.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Department of Conservation Employees' Benefit Plan

Management Advisory Report

State Auditor's Findings

1. Personnel Costs

The Department of Conservation Employees' Benefit Plan (CEBP) does not allocate to the CEBP Trust Fund the proportionate share of personnel costs of Missouri Department of Conservation (MDC) employees who administer the CEBP. As a result, these costs were paid from the Conservation Commission Fund rather than the CEBP Trust Fund and were not covered by plan premiums.

The CEBP is administered by MDC employees. Except for personnel costs, all administrative costs of the CEBP are paid from the CEBP Trust Fund. Administrative costs paid from the CEBP Trust Fund during the year ended December 31, 2019, totaled about \$1.4 million. The CEBP sets premiums annually based on claims experience, administrative costs, and other cost factors.

Salaries and benefits provided to MDC employees who administer the CEBP are paid from the Conservation Commission Fund. In accordance with the CEBP procedures manual, five MDC employees serve as board members, and five Human Resources Division employees and two Financial Services Division employees perform part-time administrative duties for the CEBP. Two of these employees, the Administrative Services Division Chief and the Human Resources Division Chief, serve as board members and perform administrative duties for the CEBP. Upon our request, the CEBP estimated the proportionate share of the 12 MDC employees' salaries (excluding benefits) for services provided to the CEBP totaled approximately \$159,000 during the year ended December 31, 2019. Because these personnel costs were not identified and allocated to the CEBP, these costs, which represent approximately 11 percent of total administrative costs and 1 percent of total costs, were not covered by the CEBP.

The Trust Agreement establishing the CEBP grants power to the Board of Trustees to pay all expenses of the CEBP including "such amounts as may be agreed to by the MDC in payment to the MDC for administrative services rendered the Benefits Plan and Trust Fund." Additionally, the Government Finance Officers Association (GFOA)¹ recommends, "governments calculate the full cost of the different services they provide." A complete accounting of CEBP administrative costs, including MDC salaries and benefits related to the CEBP, is necessary for the CEBP to accurately allocate all costs to the plan and ensure all costs are covered by premiums.

¹ "Full Cost Accounting for Government Services," Government Finance Officers Association, January 2002, <<https://www.gfoa.org/materials/full-cost-accounting-for-government-services>>, accessed on October 1, 2020.

Department of Conservation Employees' Benefit Plan
Management Advisory Report - State Auditor's Findings

Recommendation

The Board of Trustees work with the MDC to pay from the CEBP Trust Fund the proportionate share of personnel costs of MDC employees performing administrative services for the CEBP.

Auditee's Response

The CEBP Board of Trustees' written response is included at Appendix A.

2. Other Postemployment Benefits Liability

The CEBP has not evaluated its Other Postemployment Benefits (OPEB) liability amounts or considered prefunding the OPEB liability. In addition, the CEBP has not obtained experience studies and audits of actuarial valuations.

The CEBP's OPEB liability is the projected future retirement healthcare benefit payments for current and retired employees that is attributed to those employees' past periods of service. To comply with financial statement reporting requirements, the CEBP obtains annual actuarial projections of its OPEB liability. As of June 30, 2019, the CEBP's OPEB liability totaled approximately \$150 million. At December 31, 2019, the CEBP's Trust Fund balance (available for payment of claims for active and retired employees) totaled approximately \$11 million.

Liability and funding

The CEBP has not evaluated or considered prefunding its OPEB liability.

The CEBP pays medical claims from the CEBP Trust Fund for both active and retired members when the medical expenses are incurred (pay-as-you-go). Consequently, the CEBP has not funded any of the OPEB liability or developed a funding plan. While the CEBP reviews the sufficiency of the Trust Fund balance monthly and strives to maintain a fund balance reserve equal to at least 2.5 months of current claims expenses, the review does not include a consideration of the OPEB liability and the CEBP has not determined an appropriate reserve for the OPEB liability.

The GFOA² recommends governments prefund their obligations for OPEB "once they have determined that the employer has incurred a substantial long term liability. In most cases, employers can make long term investments to cover these obligations through a separate trust fund that should, over time, result in a lower total cost for providing postemployment benefits." Additionally, the GFOA³ states "[f]inancing other postemployment benefits as they are earned (prefunding) rather than as they come due (pay-as-you-go

² "Establishing and Administering an OPEB Trust," Government Finance Officers Association, September 2016, <<https://www.gfoa.org/materials/establishing-and-administering-an-opeb-trust>>, accessed on September 23, 2020.

³ "Ensuring Other Postemployment Benefits (OPEB) Sustainability," Government Finance Officers Association, January 2016, <<https://www.gfoa.org/materials/ensuring-other-postemployment-benefits-opeb-sustainability>>, accessed on September 23, 2020.

Department of Conservation Employees' Benefit Plan Management Advisory Report - State Auditor's Findings

funding) offers significant advantages in terms of equity and sustainability and should be formalized through a specific funding policy for postemployment benefits." Given the relatively large size of the CEBP's OPEB liability, the CEBP should evaluate the liability and consider implementing policies and procedures to prefund the OPEB liability. Such procedures include adopting a funding policy requiring appropriate contribution amounts to reduce the unfunded OPEB liability amount and accounting for OPEB contributions and costs through a separate trust fund.

Experience studies and actuarial audits

The CEBP has not obtained an experience study comparing actual experience with actuarial assumptions used in the determination of the OPEB liability or obtained an independent actuarial audit to ensure (1) the reliability of the amounts reported in actuarial reports, and (2) the reasonableness of the actuarial methods and assumptions used by the CEBP's actuary. The CEBP has utilized the same actuarial firm for all previous OPEB liability valuations.

According to the GFOA,⁴ "[e]xperience studies, performed no less frequently than every five years, can help to ensure the assumptions are in line with the plan's demographic and economic experience, or can be used as a guide to make necessary changes. Likewise, a comprehensive audit of the plan's actuarial valuations performed by an independent actuary at least once every five to eight years can be used to evaluate the appropriateness of the actuarial methods, assumptions, and their application." Without periodically obtaining experience studies or actuarial audits or similar services, the CEBP has less assurance regarding the reliability of the CEBP's actuarial reports.

Recommendation

The Board of Trustees work with the Conservation Commission to evaluate the OPEB liability and consider establishing policies and procedures to prefund the OPEB liability. Additionally, the Board should periodically obtain experience studies and audits of actuarial valuations of the OPEB liability and make changes to the actuarial assumptions if necessary.

Auditee's Response

The CEBP Board of Trustees' written response is included at Appendix A.

3. Contractor Performance Guarantees

The CEBP did not monitor performance guarantees of the Third Party Administrator (TPA).

The TPA processes and pays medical and prescription claims for the CEBP. During the year ended December 31 2019, the TPA paid CEBP claims totaling approximately \$18 million, and the TPA received approximately \$440,000 in service fees.

⁴ "The Role of the Actuarial Valuation Report in Plan Funding," Government Finance Officers Association, <<https://www.gfoa.org/materials/the-role-of-the-actuarial-valuation-report-in-plan>>, accessed on October 1, 2020.

Department of Conservation Employees' Benefit Plan
Management Advisory Report - State Auditor's Findings

The TPA contract establishes performance guarantees for various service areas, including accuracy and timeliness of claims processing and timeliness of customer service response. The contract provides that claims processing performance should be measured through an annual external audit of 2 percent of paid claims. The contract requires the TPA to submit to the CEBP a report summarizing performance for each guarantee by January 31 of the following year. For any performance guarantees not met, the TPA is required to pay penalties to the CEBP.

The CEBP did not require the TPA to submit the performance guarantee report and supporting audit for 2019. After we inquired about the performance guarantee report, the CEBP obtained the report from the TPA on August 5, 2020, more than 6 months after it was due. The report indicated the TPA met each of the performance guarantees.

Review of TPA reports and audits of compliance with performance guarantees is a necessary component of contractor monitoring procedures and helps ensure payments for healthcare are proper and that the TPA provides quality and reliable services in accordance with contract terms. Additionally, the GFOA⁵ recommends plan sponsors consider auditing claims to ensure TPAs pay benefits according to plan rules to help contain healthcare costs.

Recommendation

The Board of Trustees timely obtain and review annual reports and audits of TPA compliance with performance guarantees.

Auditee's Response

The CEBP Board of Trustees' written response is included at Appendix A.

4. Board Composition

The Board of Trustees does not consist of members representing varied and balanced interests.

The CEBP Trust Agreement requires the 5-member Board of Trustees consist of the MDC Administrative Services Division Chief; the MDC Human Resources Division Chief; and three members appointed by the Conservation Commission, including one MDC Division Chief and two members of the CEBP. As of August 2020, all Board members were active MDC employees.

Because all Board members are MDC employees, the governance structure does not allow for a variety of interest groups to be represented. For example, the Trust Agreement does not require the Board include representation of retirees, and none of the current Board members are retirees. As of December 31, 2019, retired CEBP members totaled 1,144, or approximately 27 percent of total membership (4,191).

⁵ "Strategic Health-Care Plan Design," Government Finance Officers Association, February 2009, <<https://www.gfoa.org/materials/strategic-health-care-plan-design>>, accessed on September 23, 2020.

Department of Conservation Employees' Benefit Plan
Management Advisory Report - State Auditor's Findings

The GFOA⁶ recommends the governing board for OPEB plans have a composition that reflects "the varied interests of those responsible for funding the plan and should include plan participants and retirees, citizens of the governmental unit, and officers of the plan sponsor, as well as independent directors" to ensure balanced deliberations and decision making. Providing for varied and balanced representation of a plan's governing board helps ensure decisions are unbiased and the interests of all parties are considered.

Recommendation

The Board of Trustees work with the Conservation Commission to ensure the Board consists of a varied and balanced representation of key stakeholders.

Auditee's Response

The CEBP Board of Trustees' written response is included at Appendix A.

Auditor's Comment

The CEBP Board of Trustees' response states the Board believes its member composition is varied and balanced. However, as stated in the finding, representation from various key stakeholder groups, including retirees, would help ensure the Board is balanced in its deliberations and decision making, and is considered a best practice by the GFOA.

**5. Conflict of Interest
Policy**

The Board of Trustees does not have a conflict of interest policy.

While the MDC has policies requiring employees, including CEBP Board members, to disclose outside employment, the MDC policy does not require disclosure of other financial interests such as stock ownership, gifts, and paid travel expenses. In addition, without a conflict of interest policy, the Board does not have policies for how to handle actual conflicts of interest or the appearance of conflicts of interest, or to require board members to recuse themselves from decision-making actions relevant to their personal financial interests.

The GFOA⁶ recommends the governing board of benefit plans adopt policies to discourage board members from voting on matters that advance their personal financial interests. To help ensure board decisions are made in an objective and unbiased manner, the CEBP should develop a conflict of interest policy requiring board members disclose financial interests, outlining procedures for handling actual or the appearance of conflicts of interest, and requiring board members to recuse themselves from decision-making actions involving personal financial interests.

Recommendation

The Board of Trustees develop a conflict of interest policy.

Auditee's Response

The CEBP Board of Trustees' written response is included at Appendix A.

⁶ "Governance of Public Employee Postretirement Benefits Systems," Government Finance Officers Association, March 2010, <<https://www.gfoa.org/materials/governance-of-public-employee-postretirement-benefits>>, accessed on September 23, 2020.

Department of Conservation Employees' Benefit Plan
Management Advisory Report - State Auditor's Findings

6. Electronic Communication Policy

The MDC's records management and retention policy, followed by the CEBP, does not comply with the Missouri Secretary of State Records Services Division guidance,⁷ as approved by the Missouri State Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

The CEBP does not have a records management and retention policy, but follows MDC policy. While the MDC's Communication Systems policy addresses the retention of emails initiated from MDC communication systems, the policy does not address all of the issues set forth in the guidance, including the retention of messages sent from text messages and other third party platforms, such as personal email accounts and personal devices, when they represent official business of the state.

Proper retention of electronic communications is necessary to ensure all documentation of official business of the state is retained.

Recommendation

The Board of Trustees work with the MDC to update the records management and retention policy to comply with the Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The CEBP Board of Trustees' written response is included at Appendix A.

⁷ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/RecordsManagement/CommunicationsGuidelines.pdf>>, accessed September 23, 2020.

Department of Conservation Employees' Benefit Plan

Organization and Statistical Information

The Missouri Department of Conservation (MDC) is constitutionally created pursuant to Article IV, Section 40(a). The general functions of the MDC are to control, manage, restore, conserve, and regulate all bird, fish, game, forestry, and wildlife resources of the state. The MDC is headed by a four-member bipartisan commission, appointed by the Governor with the advice and consent of the Senate. The Conservation Commissioners serve without compensation for staggered 6-year terms.

Effective January 1, 2000, the Conservation Commission established the Department of Conservation Employees' Benefit Plan (CEBP). The CEBP provides medical, life, and accidental death and dismemberment insurance to salaried employees and retirees of the MDC, and a limited high deductible medical plan to eligible hourly employees. Medical benefits are self-insured by the CEBP, while life and accidental death and dismemberment (AD&D) insurance are covered by commercial insurance. Dental and vision benefits are available to MDC employees through the Missouri Consolidated Health Care Plan. The MDC employees and retirees can also enroll spouses and dependents as members in the CEBP. As of December 31, 2019, there were 2,996 active members, 1,144 retired members, 38 hourly members, and 13 Consolidated Omnibus Budget Reconciliation Act (COBRA) members enrolled in the CEBP.

Contributions to the CEBP are from premiums paid by the MDC and participating employees and retirees. The CEBP sets medical premiums annually based on recent trends in actual claims experience, administrative costs, and other cost factors. During the year ended December 31, 2019, the MDC, as employer, subsidized medical plan premiums for active salaried and hourly employees at 68 percent of total premiums and for retirees at up to 35 percent of total premiums depending upon the retiree's years of service. The MDC also subsidized 100 percent of the basic life and AD&D premiums for active salaried employees.

Board of Trustees and Key Personnel

The responsibility for the operation and administration of the CEBP is vested in a 5-member Board of Trustees. The Board consists of the MDC Administrative Services Division Chief; the MDC Human Resources Division Chief; one MDC Division Chief appointed by the Conservation Commission to serve a 5-year term; and two members of the CEBP appointed by the Conservation Commission to serve a 3-year term.

Department of Conservation Employees' Benefit Plan
Organization and Statistical Information

The members of the Board of Trustees as of December 31, 2019, were:

Name and Title	Membership	Term Expires
Brad Farwell, Board Chair	Appointed Member	December 31, 2020
Jacob Careaga, Board Vice Chair	Appointed Division Chief	August 1, 2023
Cynthia Voss	Administrative Services Division Chief	(1)
Thomas Neubauer	Human Resources Division Chief	(1)
Matthew Markley (2)	Appointed Member	December 31, 2019

(1) The member is appointed based on his/her role at the MDC and the term does not expire.

(2) Robyn Parker was appointed as of January 1, 2020, to replace Matthew Markley.

In addition to serving as board members, the MDC Administrative Services Division Chief and the MDC Human Resources Division Chief perform other part-time administrative duties for the CEBP. Also, as of December 31, 2019, seven other MDC employees performed part-time administrative duties for the CEBP (five MDC Human Resources Division employees and two MDC Financial Services Division employees).

Consultants

The CEBP contracts with HealthSCOPE Benefits, Inc. for third party administrator services; Anthem Blue Cross and Blue Shield for network provider services; Express Scripts, Inc. for pharmacy benefit management services; Willis Towers Watson US LLC for consulting services; The Central Trust Bank for investment management services; Milliman, Inc. for actuarial services; Evers & Company, CPA's, LLC, for auditing services; Gerber Life Insurance Company for stop loss insurance services; and The Hartford for life and AD&D insurance services.

Additional information regarding the CEBP's provisions and benefits, assets, investments, financial activities, consultants, and actuarial valuations can be obtained by contacting the CEBP Benefits Staff directly at (573) 522-4115, extension 3225, or by emailing HRBenefits@mdc.mo.gov.

Department of Conservation Employees' Benefit Plan
Auditee Responses - Board of Trustees

CONSERVATION EMPLOYEES'
BENEFITS PLAN

P.O. Box 507, Jefferson City, MO 65102-0507

December 1, 2020

The Honorable Nicole R. Galloway, CPA
Missouri State Auditor
PO Box 869
Jefferson City, MO 65102

Dear Auditor Galloway,

The Board of Trustees of the Conservation Employees' Benefits Plan (CEBP) is providing this letter in response to the recommendations of the audit of certain operations of the Department of Conservation Employees' Benefit Plan.

1. **Personnel Costs** – The Board of Trustees work with the MDC to pay from the CEBP Trust Fund the proportionate share of personnel costs of MDC employees performing administrative services for the CEBP.

The Board of Trustees understands the importance of ensuring all costs to the plan are covered by premiums. However, for the five MDC employees that serve as board members, the Trust Agreement establishing the CEBP indicates in Article V, Section 6 "Expenses. The Board shall serve without compensation for their services as such, but shall be paid for any necessary expenses incurred in attending meetings of the Board or in the performance of other duties by the Board. Duties performed for the Plan by any member of the Board shall be considered duties in connection with the regular employment of the individual, and he shall suffer no loss in regular compensation by reason of the performance of such duties."

The Board of Trustees believes the administrative burden of tracking specific time related to insurance administration vs. overall MDC benefits for Compensation and Benefits personnel is unnecessary to ensure all costs of the plan are covered by premiums. The estimated proportionate share of \$159,000 for administrative services provided to the CEBP during the year ended December 31, 2019 is immaterial to the Plan's assets and the overall premium contributions in 2019. Therefore, the Board respectfully declines to track personnel costs to reimburse MDC for employees performing administrative services for CEBP and will continue to consider these expenditures part of MDC's contribution.

Appendix A
Department of Conservation Employees' Benefit Plan
Auditee Responses - Board of Trustees

2. **Other Postemployment Benefits Liability** - The Board of Trustees work with the Conservation Commission to evaluate the OPEB liability and consider establishing policies and procedures to prefund the OPEB liability. Additionally, the Board should periodically obtain experience studies and audits of actuarial valuations of the OPEB liability and make changes to the actuarial assumptions if necessary.

The Board of Trustees will communicate the prefunding recommendation to the Conservation Commission since the prefunding of the OPEB liability is the responsibility of the employer and not the OPEB plan itself. However, while we recognize that it is a recommended "best practice" to set aside assets to fund this liability, there is no accounting standard that requires this.

The Board understands the "best practice" recommendation of experience studies and audits of actuarial valuations; however, there is no requirement to do so. We may consider this after researching the cost/benefit of such an expenditure.

3. **Contractor Performance Guarantees** - The Board of Trustees timely obtain and review annual reports and audits of TPA compliance with performance guarantees.

The Board of Trustees concurs with the recommendation and has built into the Insurance Board calendar specific target dates to ensure the Board obtains and reviews annual reports and audits of Third Party Administrator (TPA) compliance with performance guarantees. This review has historically been completed by the Board, but was overlooked in 2020. As the State Auditor noted, the report indicated the TPA did meet each of the performance guarantees.

4. **Board Composition** - The Board of Trustees work with the Conservation Commission to ensure the Board consists of a varied and balanced representation of key stakeholders.

The Board of Trustees understands the importance of ensuring the Board consists of a varied and balanced representation of key stakeholders. We believe the Board composition is varied and balanced. Two board positions serving a 3-year term are selected from the medical insurance membership. All Plan Members, both retired and active, are invited to submit their name for consideration for the Board of Trustees. Careful consideration is given to all applicants to ensure adequate representation for our plan members as these positions serve as member advocates. Therefore, the Board of Trustees will continue to consider all applicants, including retirees, but do not feel the requirement to include a retiree is appropriate as this is a voluntary, uncompensated position.

5. **Conflict of Interest Policy** - The Board of Trustees develop a conflict of interest policy.

The Board of Trustees concurs with the recommendation to develop a conflict of interest policy specifically for the CEBP Board of Trustees and will require each Board Member to

Appendix A
Department of Conservation Employees' Benefit Plan
Auditee Responses - Board of Trustees

sign an acknowledgement of such policy to ensure Board members understand the policy and will recuse themselves from decision making actions relevant to their personal financial interests. However, the policy will not require formal disclosure of personal financial interests.

6. **Electronic Communication Policy** - The Board of Trustees work with the MDC to update the records management and retention policy to comply with the Missouri Secretary of State Records Services Division electronic communications guidelines.

The Board of Trustees concurs with the recommendation. MDC is in the process of amending its Cell Phone Policy regarding retention of electronic communications (text messages) to be more closely aligned with the recommendations set forth by the Secretary of State. Further, the Board will adopt MDC's records management and retention policy for the CEBP.

Sincerely,

Brad Farwell
Chairman

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 11 political subdivisions required to file a financial report by November 30, 2020, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in November 2020, after their filing deadline. The filing status for these 7 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name of the State Auditor.

Monthly Report on Political Subdivision Filings

November 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 11 political subdivisions, other than cities, towns, and villages, with a fiscal year end of May 31, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 11 political subdivisions, 10 filed an annual financial report timely.

This report also includes the filing status for 7 political subdivisions, other than cities, towns, and villages, that filed their financial report in November 2020, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by November 30, 2020, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 3 cities and 3 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in November 2020, after their filing deadline. The filing status for these 27 cities and 4 villages is presented in summary on pages 3 and 4 and by individual entity in Appendixes B to H.

Monthly Report on Municipal Court and Revenue Filings

November 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 3 cities and 3 villages with a fiscal year end of May 31, 2020, whose financial report was due by November 30, 2020. Of the 6 municipalities, 5 filed the financial report timely. Of the 3 municipalities required to file an addendum, 1 filed timely. Of the 2 municipalities required to file a certification, 1 filed the certification timely.

Monthly Report on Municipal Court and Revenue Filings
November 2020
Executive Summary

This report includes the filing status for 27 cities and 4 villages that filed at least one of the items (financial report, addendum, or certification) in November 2020, after their filing deadline. Of these municipalities, 4 filed an annual financial report, 29 filed an addendum, and 8 filed a certification.

CITIZENS SUMMARY

Findings in the audit of the City of Raytown

Restricted Monies	The city can improve its monitoring of the use of restricted city sales taxes used to subsidize the Tax Increment Financing (TIF) debt associated with the Raytown Live Redevelopment Area (Raytown Live). The city has not determined and does not monitor the restricted portions of the TIF debt to ensure the non-captured (city) portion of the restricted sales taxes contributed by the city to pay the TIF debt are used only for allowable purposes. The city is not monitoring the outstanding TIF debt related to transportation or stormwater projects and has not determined the outstanding portion of TIF debt related to capital improvements projects. The city provides accounting services for the Highway 350 Transportation Development District (TDD), but since the city is not tracking the balance of the TIF debt, the TDD sales tax could be improperly collected after the transportation portion of the TIF debt is retired. The contributions of the city portion of the Economic Activity Taxes collected within the Raytown Live TIF is not reported transparently in the budgets or financial statements. The city is not properly tracking the expenditures and balance of state motor-vehicle related monies. The city has no documentation to justify the allocation of salaries and fringe benefits of several city employees.
Disbursements	The city did not solicit bids or proposals for some goods and services purchased in accordance with the city's purchasing policy. The city made severance payments totaling \$70,161 to 9 Police department employees during the year ended October 31, 2017, that were not necessary and reasonable. One of these agreements was not formally approved by the Board of Aldermen (Board). The city rehired 4 of these employees by December 1, 2017. The city did not have affidavits from some vendors certifying no conflicts of interest existed with any city officer or employee, appointed or elected, as required by the city purchasing policy.
Budgets and Receipting Procedures	City budgets do not include all statutorily required elements. City personnel do not account for the numerical sequence of receipt slips issued from the financial accounting system.
Sunshine Law	The city did not ensure compliance with the Sunshine Law for closed meetings held by the Board, the Park Board, or the BMX Advisory Board. The Board and Park Board did not maintain meeting minutes for all closed meetings, and discussed some items in closed meeting that were either not allowed by state law or were not cited as the reason for closing the meeting. The Board cited the same reasons for closing many of its meeting, but either did not discuss, or did not adequately document discussion related to some topics cited as the reason for closing the meeting. Park Board minutes did not contain all information required by state law. The BMX Advisory Board does not hold Board meetings consistently.
Police Department Volunteers	The city does not have a contract or formal agreement with a local not-for-profit (NFP) organization that documents the duties and responsibilities of each party. The Police department did not have a method to ensure all expenses eligible for reimbursement from the NFP were requested as applicable. The department did not follow, or did not properly document,

the screening procedures for citizens applying to work in the department's Volunteer Corp as established by department policy.

Parks and Recreation Department Policies and Procedures	Receipt slips are not issued for any payments received or amounts transmitted to the Parks and Recreation department and the composition (cash, check, or credit card) of payments received is not compared to the composition of deposits by an independent person. The Park Board has not adopted specific policies and procedures to provide oversight of the BMX Advisory Board.
---	--

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	19
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Raytown, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Raytown. We have audited certain operations of the city in fulfillment of our duties. The city engaged Mize Houser Company, P.A., Certified Public Accountants, to audit the city's financial statements for the year ended October 31, 2018. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended October 31, 2018. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

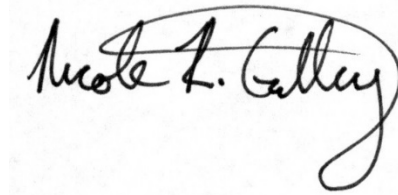

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Raytown.

An additional report, No. 2019-082, *Sixteenth Judicial Circuit, City of Raytown Municipal Division*, was issued in September 2019.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

City of Raytown

Management Advisory Report

State Auditor's Findings

1. Restricted Monies

The city can improve its monitoring of the use of restricted city sales taxes used to subsidize the Tax Increment Financing (TIF) debt associated with the Raytown Live Redevelopment Area (Raytown Live) and subsidies provided to the TIF are not accounted for transparently in city budgets or financial statements. In addition, tracking of motor-vehicle related revenue and spending is not adequate and documentation to support allocations of salaries and fringe benefits to the Sewer Utility Fund are not maintained.

1.1 Monitoring restricted sales taxes

The city has not determined and does not monitor the restricted portions of the TIF debt to ensure the non-captured (city) portion of the restricted sales taxes contributed by the city to pay the TIF debt are used only for allowable purposes.

The city is the developer for redevelopment area 1 of the Raytown Live TIF. In June 2007, the city issued approximately \$40 million in tax increment revenue bonds to finance the project, which included transportation and stormwater improvements, along with a variety of capital improvements.

TIF is an economic development tool that redirects local tax revenues to the redevelopment of eligible properties that are otherwise economically unfeasible. Sections 99.800 to 99.865, RSMo, the Real Property Tax Increment Allocation Redevelopment Act, enables cities to finance certain redevelopment costs with the incremental tax revenue generated by the net increase in assessed valuation, along with a portion (50 percent in this case) of the incremental increases to sales taxes, resulting from the redevelopment. When a TIF plan is adopted, a base valuation of the real estate assessments and amounts collected from economic activity taxes in the redevelopment area is established. By applying the real estate tax rate of all taxing districts having taxing power within the redevelopment area to any increased assessed valuation above the base value and by applying 50 percent of any increases to sales taxes over the base year, a tax "increment" is created. The real estate tax increments are referred to as payments in lieu of taxes (PILOTS) and the sales taxes increases are referred to as economic activity taxes (EATS). The PILOTS and the TIF portion (50 percent) of EATS collected within the redevelopment areas are deposited by the city into a special allocation fund. In addition, the city is also depositing its portion of the EATS as a contribution to the special allocation fund, to ensure sufficient funds are available to pay the TIF debt.

City sales tax

The city collects several sales taxes, including a general sales tax, and restricted sales taxes for capital improvements, transportation, stormwater, and public safety, but is not monitoring the outstanding TIF debt related to transportation or stormwater projects and has not determined the outstanding portion of TIF debt related to capital improvements projects. The city discontinued contributing the city's portion of the public safety sales taxes in November 2017.

City of Raytown
Management Advisory Report - State Auditor's Findings

The city requested a legal opinion in May 2018 from the law firm serving as special counsel related to TIF issues for the city that analyzed the legality of contributing the city portion of the various sales taxes. The opinion determined the contributions being made at that time were allowable (the city had already discontinued contributing the city portion of the public safety sales taxes). Although not requested, the law firm also documented the approximate amount of the remaining portion of the TIF debt allocated to transportation projects.

Based on data provided by the city, the opinion concluded approximately \$4.1 million of transportation related costs were incurred on the \$40 million Raytown Live TIF project. The opinion concluded contributions of the city's transportation sales tax totaled approximately \$1.6 million as of October 31, 2017, leaving approximately \$2.5 million as the unpaid transportation portion of the TIF debt. These calculations did not take into consideration the amounts contributed by the Highway 350 Transportation Development District (TDD), which can only be used for the transportation related portion of the TIF debt, and would have reduced the balance further.

The opinion indicated the stormwater portion of the \$40 million debt was approximately \$600,000 and that contributions were approximately \$400,000 as of October 31, 2017, leaving approximately \$200,000 as the unpaid stormwater portion of the debt. The capital improvements portion was stated to be more than \$20 million, but did not indicate the amount of capital improvement sales tax contributed or the outstanding balance of the capital improvement portion of the debt.

The city needs to determine the current outstanding debt balance allocated to each restricted purpose and develop procedures to track the balances. Once the transportation, capital improvements, or stormwater portion of the overall TIF debt has been repaid, city personnel indicated any shortfall in the Special Allocation Fund necessary to make the debt payment could be taken from the debt service reserve.

To ensure restricted sales taxes are used only for its intended purposes, the city should determine the current balance of each restricted portion of the TIF debt and develop procedures to monitor those balances.

Transportation development
district sales taxes

The city provides accounting services for the Highway 350 TDD, but since the city is not tracking the balance of the transportation portion of the TIF debt, the TDD sales tax could be improperly collected after the transportation portion of the TIF debt is retired.

During the year ended October 31, 2018, the TDD received \$77,994 in sales taxes, of which 50 percent, or \$38,997, was the TIF portion of the EATS and was paid to the Special Allocation Fund and used to repay the overall TIF

City of Raytown
Management Advisory Report - State Auditor's Findings

debt. The TDD's portion of the EATS was also \$38,997 and \$34,107 was used to help pay the transportation portion of the debt, and the remainder was used for TDD administrative expenses. Tracking the balance of the transportation portion of the TIF debt will allow the TDD Board to know when to rescind the sales tax and abolish it. Any payments made by the TDD would reduce the transportation portion of the debt previously discussed.

Section 238.235.1(6), RSMo, requires all transportation development districts sales tax revenues designated for transportation development be used solely for the purposes established pursuant to the Missouri Transportation Development District Act (Sections 238.200 to 238.275, RSMo).

1.2 Transparency

The contribution of the city's portion of the EATS collected within the Raytown Live TIF is not reported transparently in the budgets or financial statements. The city accounts for the city and non-city portion of the EATS in the same manner, although the city is not required to contribute its portion of the EATS to the Special Allocation Fund for repayment of the TIF debt. The contribution of the city's portion of the EATS for each fund is not budgeted or shown in the financial statements as a transfer from the applicable fund. Failing to account for the city portion of the EATS within the various city funds gives the appearance that contribution of EATS to the Special Allocation Fund is required.

To ensure transparency and accountability, the city's portion of the EATS collected for the general sales tax, transportation sales tax, stormwater sales tax, and capital improvement sales tax should be accounted for in the applicable city fund established to account for those tax collections and all contributions of these funds to the TIF development should be budgeted in the applicable fund.

1.3 Motor vehicle-related revenues

The city is not properly tracking the expenditures and balance of state motor-vehicle related monies. These revenues totaled approximately \$1.1 million and \$1.2 million during the years ended October 31, 2018, and 2019, respectively and can only be used for street related purposes. Although these revenue transactions are separately identified within the General Fund, the expenditure transactions for street related purposes and the remaining balance are not tracked. As a result, the city cannot determine at a point in time what portion of the General Fund balance represents restricted street related monies or if these revenues were spent on allowable purposes. At our request, the city prepared a listing of street related expenditures for the year ended October 31, 2019, which totaled approximately \$1.3 million, but this total included \$576,190 (60 percent) of public works salaries and fringe benefits, and a transfer of \$150,000 to the Stormwater Fund. The percentage of salaries was an estimate and tracking of expenditures from the Stormwater Fund was not performed to determine if the amount transferred was spent on street related purposes.

City of Raytown Management Advisory Report - State Auditor's Findings

Article IV, Sections 30(a) and 30(b), of the Missouri Constitution require motor-vehicle related receipts apportioned by the state of Missouri be disbursed for street related purposes only. A separate accounting, with a current balance, is necessary to ensure street related revenues are accounted for and expended properly in compliance with the Missouri Constitution.

1.4 Allocations

Several city employees perform tasks related to multiple city functions, but the city has no documentation to justify the allocation of salaries and fringe benefits to the General Fund or Sewer Utility Fund. Public works employees perform various tasks such as street repairs, building maintenance, sewer line maintenance, and engineering of street and sewer improvements. For example, the Public Works Superintendent and City Engineer each have 50 percent of their salary and fringe benefits allocated to each fund. The Public Works department has 2 Senior Maintenance Workers whose salary and fringe benefits are paid entirely from the General Fund, while the salaries and fringe benefits for the Fleet Maintenance Supervisor is allocated 80 percent to the General Fund and 20 percent to the Sewer Utility Fund. Finance department employees perform all accounting functions for city funds and several of these employees' salaries and fringe benefits are allocated between the General Fund and the Sewer Utility Fund. For example, a Treasury Clerk and Treasury Analyst each have 50 percent of their salary and fringe benefits allocated to each fund, while the Controller has 85 percent of her salary and fringe benefits allocated to the General Fund and 15 percent to the Sewer Utility Fund. None of these allocations are based on actual time spent or some other documented basis. Instead, the allocations are based on estimates.

The proper allocation of expenses is necessary to accurately determine the results of operations of specific activities, thus enabling the Board to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenditures to city funds should be based on specific criteria, such as the number of hours worked by each employee, if possible, or by determining a reasonable basis to allocate costs for employees.

Recommendations

The Board of Aldermen:

- 1.1 Determine the remaining portion of the overall TIF debt being paid with restricted sales tax collections and develop procedures to monitor the amount of outstanding TIF debt associated with each restricted activity, for both the city and the TDD, to ensure compliance with state law.
- 1.2 Ensure the city portion of the EATS collected on TIF projects are recorded in the appropriate fund and any contributions of these funds are budgeted transfers from the applicable funds.

City of Raytown
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 1.3 Determine the balance of motor-vehicle related revenues in the General Fund and establish a separate fund or a separate accounting for these monies.
- 1.4 Ensure salaries are properly allocated to the applicable city funds and allocations are supported by adequate documentation.
- 1.1 *(In Progress) The city will - through city staff, legal counsel, and other appropriate professionals – determine more fully the principal and interest portions of the remaining TIF debt associated with transportation, stormwater, and capital-related expenses and develop additional, suitable accounting procedures to ensure that the city continues to use restricted sales tax revenues in compliance with state law.*
- 1.2 *(In Progress) The city will record all EATS generated by TIF Projects in the appropriate fund and show the transfer of said EATS to the Special Allocation Fund in the city budget.*
- 1.3 *(Completed) After being made aware of this common recommendation, city staff concurred and have developed a schedule of expenses compared to motor-vehicle related revenues so that the balance of those revenues is clearly used for their intention. This schedule is a part of our annual financial audit items prepared by the city and verified by external auditors annually.*
- 1.4 *(In Progress) City staff will expand on current employee tracking practices to implement a system of documentation verifying that allocations of personnel time are supported by adequate documentation.*

2. Disbursements

2.1 Bidding

Controls and procedures over disbursements need improvement.

The city did not solicit bids or proposals for some goods and services purchased in accordance with the city's purchasing policy. During our review of selected disbursements, we noted proposals were not solicited for accounting services (\$55,933), written bids were not obtained for the purchase of asphalt (\$10,269), and competitive bids were not sought for sewer repairs (\$61,708) and sewer root control services (\$27,629).

City personnel used existing contracts between the sewer repair contractor and the sewer root control vendor and another governmental entity to obtain those services, rather than competitively bidding or seeking competitive proposals. While one of the exceptions to the formal competitive bid procedures is use of an existing contract between a vendor and another governmental entity, if seeking a fixed priced contract where the quoted

City of Raytown
Management Advisory Report - State Auditor's Findings

prices are more advantageous to the city than local market prices, and if in excess of \$15,000, the department director seeking the exception must explain the reason for not seeking competitive bids to the Board. Neither the sewer repairs or the sewer root control services contracts qualified for the policy exception. City staff indicated they used a section of the purchasing policy that encouraged use of existing government contracts, but that section did not provide an exception to the bidding requirements and did not exempt the requirements of the exception.

The city purchasing policy requires department heads solicit 3 written bids, use an existing governmental contract, or submit in writing a sole-source justification for purchases between \$10,000 and \$15,000. Any purchase in excess of \$15,000 is required to be competitively bid. The city purchasing policy also contains a section regarding contracting for professional services that specifies the types of activities considered professional services, including accounting services, and what should be included in requests for proposals (RFP). While it does not indicate the specific dollar threshold when RFPs are required, for contracts in excess of \$15,000, RFPs should be issued.

Bidding procedures for major purchases provide a framework for economical management of city resources and help ensure the city receives fair value by contracting with the lowest and best bidder. In addition, competitive bidding ensure all interested parties are given an equal opportunity to participate in city business.

2.2 Severance agreements

The city made severance payments totaling \$70,161 to 9 Police department employees during the year ended October 31, 2017, that were not necessary and reasonable. One of those employees also received 26 weeks health insurance coverage as part of his/her severance package. None of these employees had employment contracts requiring severance payments. In addition, there is no evidence the Board approved one of the severance agreements.

The former Police Chief approved a severance agreement with a former Captain in February 2017. The former Captain was paid a lump sum payment of \$44,806, which was equivalent to 26 weeks of salary, and was also paid for 26 weeks of health care, totaling \$9,964. While city personnel indicated this agreement was discussed with legal counsel and the former City Administrator, there is no evidence in any open or closed Board meeting minutes that the Board discussed and approved this agreement. One Board member indicated he was not aware of this agreement.

The former Police Chief was notified by email on August 29, 2017, of pending budgets cuts to the Police department's 2018 budget. The email message requested he determine ways to reduce the budget without reducing the number of police officers serving in a patrol capacity. The former Police

City of Raytown
Management Advisory Report - State Auditor's Findings

Chief discussed the pending budget cuts with officers, detention personnel, and administrative staff in September 2017. In mid-October 2017, 8 employees, consisting of one officer, 6 detention employees, and one administrative assistant, were offered severance packages by the city equal to 4 weeks of salary, effective October 31, 2017. These agreements were approved by the Board and were accepted, resulting in a total of \$25,355 in severance payments to these employees.

Between October 16, 2017, and December 17, 2017, 17 police officers resigned, with 11 resigning in October 2017. Police department personnel indicated the reductions in detention personnel occurred with the expectation that officers would take on additional responsibilities of booking detainees. Due to the number of officers resigning unexpectedly, the former Police Chief hired back 4 detention employees who had received severance packages totaling \$12,120 in October 2017 by December 1, 2017.

None of these individuals had an employment contract and it is questionable whether these severance payments were a necessary use of city funds. To ensure city funds are spent appropriately, all contracts should be approved by the Board and be in the best interest of the city. In addition, Section 432.070, RSMo, states any contract with the city shall be subscribed by the parties thereto, or their agents authorized by law and duly appointed and authorized in writing. If authorization is granted for an agent to act on behalf of the Board, the authorization should be written and entered into the Board meeting minutes.

2.3 Vendor affidavits

The city did not have affidavits from some vendors certifying no conflicts of interest existed with any city officer or employee, appointed or elected, as required by the city purchasing policy. During our review of selected disbursements, 8 of 17 vendors did not have an affidavit on file with the city.

Section 1.8 of the city purchasing policy states "no contract shall be let to any person, firm, or corporation unless it has submitted an affidavit to the City stating no officer or employee of the City, whether elected or appointed, shall in any manner whatsoever be interested in or receive any benefit from the profits or emoluments of any contract, job, work, or service for the City."

Recommendations

The Board of Aldermen:

- 2.1 Solicit competitive bids and proposals for all applicable purchases in accordance with the city purchasing policy.
- 2.2 Consider the necessity of severance packages in the future and if granted, ensure they are reasonable and authorized by the Board.

City of Raytown
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 2.3 Ensure an affidavit is received from all vendors confirming no conflicts of interest exists with any officer or employee.
- 2.1 *(In Progress) City staff felt they followed the Board approved purchasing policy as it was written by utilizing "intergovernmental purchasing," but will continue to review the purchasing policy to ensure a clear and understandable policy is maintained. A revision was made to the purchasing policy in 2019 to improve clarity of the policy as well as better definition of approval authority. It is the intention of the Finance department to review the policy for clarity and proper control over the city's purchases.*
- 2.2 *(Completed) The Board will consider the necessity of severance packages and continue to work with legal counsel regarding recommendations for future Board approval regarding severance agreements. It is our understanding that prior city staff had been advised that Section 26-21 in the city code gave the elected Police Chief the authority to negotiate and enter into a severance agreement on behalf of the city. With the April 2019 election, the Police Chief position changed from an elected position to an appointed position, therefore all future severance agreements will be approved by the Board.*
- 2.3 *(Completed) After being made aware of some inconsistencies with the collection of the affidavits, city staff took the recommendation and revised the purchasing policy in 2019 to clarify the language of the policy regarding vendor conflict of interest.*

3. Budgets and Receipting Procedures

Budgets and receipting procedures need improvement.

3.1 Budgets

City budgets do not include all statutorily required elements. The city budgets for the years ended October 31, 2018, and October 31, 2019, did not include actual or estimated disbursements for the 2 preceding years for each department, activity, or line item within each fund's budget, although 2 prior years actual or estimated disbursements were included in total for each fund. The budget for the year ended October 31, 2020, included 2 prior years actual or estimated disbursements for each department and activity within each fund, but still did not include the required information for each line item.

Section 67.010, RSMo, requires the budget to present a complete and accurate financial plan for the ensuing budget year, outlines the various information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by

City of Raytown Management Advisory Report - State Auditor's Findings

establishing specific financial expectations for each area of city operations. It also assists in setting tax levies and informing the public about city operations and current finances.

3.2 Receipt slips

City personnel do not account for the numerical sequence of receipt slips issued from the financial accounting system. The city's financial accounting system assigns one numerical receipt slip sequence, even though receipt slips are issued by various personnel for different functions, such as utility payments, court payments, and Police department reports.

To ensure all payments received are accounted for properly, personnel should account for the numerical sequence of receipt slips issued through the accounting system.

Recommendations

The Board of Aldermen:

3.1 Prepare annual budgets that contain all information required by state law.

3.2 Account for the numerical sequence of receipt slips issued.

Auditee's Response

3.1 *(In Progress) The city began its revisions to the budget based on this common recommendation provided to us in 2019. We will include historical data on individual expense accounts in our next published budget. As shown by our receipt of the distinguished budget award recently from Government Finance Officers Association, we have made a continued effort of providing a transparent and clear budget document.*

3.2 *(In Progress) The Board agrees with this recommendation. We currently track and reconcile all funds received by the city but will further enhance our procedures and controls to account for and reconcile the receipts by receipt number.*

4. Sunshine Law

The city did not ensure compliance with the Sunshine Law for closed meetings held by the Board, the Park Board, or the BMX Advisory Board. In addition, minutes were not maintained for work sessions held by the Board.

- The Board and the Park Board did not maintain meeting minutes for all closed meetings held during the 2 years ended October 31, 2019. Meeting minutes were only maintained for 16 of the 30 closed meetings held by the Board and for 9 of the 12 closed meetings held by the Park Board.
- The Board and the Park Board discussed some items in closed meetings that were either not allowed by state law or were not cited as the reason for closing the meeting. For example, the Board discussed a

City of Raytown
Management Advisory Report - State Auditor's Findings

memorandum of understanding (MOU) with a national charitable organization in closed session after the MOU was approved by the Board in open session, and discussed refinancing TIF debt in closed session. The Park Board discussed procedures for hiring a director in closed session.

- The Board cited the same reasons for closing many of its meeting, but either did not discuss, or did not adequately document discussion related to some topics cited as the reason for closing the meeting. From May to November 2018, the Board held 16 closed sessions and each one cited the same 4 reasons for closing the meeting; legal, real estate, personnel, or individually identifiable personnel information/applicants for employment. But for meetings where minutes were kept, the Board did not discuss all those topics. For example, in one closed meeting the Board discussed a potential lawsuit and voted to authorize a suit be filed, but no discussion of real estate transactions, personnel, or applications for employment were discussed.
- Park Board minutes for several meetings, both open and closed, did not contain all information required by state law. Open and closed minutes did not always contain the time or place of the meeting or the members present or absent, and for several closed meetings, the vote to close the meeting was not documented and the reason for closing the meeting was not documented in open session.
- The BMX Advisory Board does not hold Board meetings consistently. BMX Board members indicated if issues arise they discuss those issues while working at the BMX track since all Board members are also volunteers at the track. The Board did not hold formal public meetings during the year ended October 31, 2018, and only held 3 public meetings during the year ended October 31, 2019. It is unclear how many informal Board meetings occurred during the 2 years ended October 31, 2019.

Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of Board actions and decisions. Meeting minutes shall include the date, time, place, members present, members absent, and a record of any votes taken. Section 610.021, RSMo, lists the topics that may be discussed in closed meetings and requires discussion in closed meetings be restricted to the allowable topics listed. Section 610.022, RSMo, requires a closed meeting, record, or vote be held only after the vote of each member on the question of closing the meeting and the specific reason for closing the meeting or vote by making specific reference to the specific section of law is to be announced publicly at an open session and entered into the minutes. This section also provides that public governmental bodies shall not discuss any other business during the meeting that differs from the specific reasons used to justify closing such meeting, record, or vote.

City of Raytown
Management Advisory Report - State Auditor's Findings

Recommendation

The Board of Aldermen work with the Park Board and the BMX Advisory Board to ensure complete and accurate minutes are kept for all closed meetings and only allowable topics are discussed in closed meetings. In addition, ensure the specific section of law allowing the closure is announced publicly and recorded in the minutes, and ensure discussions in closed meetings are limited to only those specific reasons cited for closing the meeting. Also, ensure minutes are maintained for any work sessions.

Auditee's Response

(Completed) Board of Aldermen Response: We agree with this recommendation. Since legal counsel for the city changed in January 2019, the City Clerk has attended all closed sessions and appropriate minutes are taken and approved by the Board.

(In Progress) Park Board Response: We agree with this recommendation. The Park Board has implemented a process to include a liaison from the Park Board to attend BMX Advisory Board meetings. The BMX Advisory Board will have regularly scheduled meetings quarterly, at a minimum, and will submit those meeting minutes to the Parks office in a timely manner for record keeping. In addition, the city's legal counsel will provide the Park Board and BMX Advisory Board with Sunshine Law training. Lastly, the new Park Board and BMX Advisory Board member informational packets will be updated with Sunshine Law requirements for open and closed meetings.

5. Police Department Volunteers

Police department policies and procedures regarding volunteer groups assisting the department need improvement.

5.1 Community events

The city does not have a contract or formal agreement with a local not-for-profit (NFP) organization which documents the duties and responsibilities of each party. In addition, the police department did not have a method to ensure all expenses eligible for reimbursement from the NFP were requested as applicable.

This NFP was formed in October 2017 with the purpose to communicate and interact with the Police department to promote public interaction and public safety. The NFP indicated publicly its formation was necessitated by department budget cuts, which caused the cancellation of all community events funded by the department, and the department not being allowed to accept cash donations. The events canceled included the Citizen's Police Academy, Safety Fairs, Coffee-With-A-Cop, community forums, and community requests for public speaking events by members of the department. However, a review of the department's website indicates the Community Services Division coordinates these events and activities. With the majority of the leadership of this NFP being city personnel, many of the organization's meetings conducted at city hall, and the city hall's address

City of Raytown
Management Advisory Report - State Auditor's Findings

listed as the NFP's address in the articles of incorporation, it is difficult to differentiate department activities from the NFP's activities.

In August and December 2018, the Board approved the Police department to accept grants from the NFP, totaling \$7,000 and \$12,320, respectively, to reimburse the city for costs incurred by the Police department for overtime, supplies, materials, equipment, or contracting for printing or other services necessary to operate the community events. Grant applications or written grant agreements were not provided for our review for either grant, and Police department personnel did not maintain detailed records of city expenses associated with these events. The city only received \$2,269 in reimbursements from those grants during the year ended October 31, 2018, and no reimbursements were received during the year ended October 31, 2019.

Email messages between Police department personnel regarding volunteer activities indicate some activities performed related to the NFP occurred when personnel were working for the city, such as preparing for meetings, preparing meeting agendas, or finding speakers for community events. The time spent by these personnel performing these functions was not tracked and were not part of the reimbursement requests submitted.

If the Board chooses to continue the relationship with the NFP to conduct community events, a method for tracking costs related to NFP activities and events should be developed to ensure all eligible costs are reimbursed. The lack of grant agreements and other supporting documentation increases the chances that city resources are used inappropriately. In addition, allowable activities by police personnel related to NFP activities could be set forth in a formal agreement to ensure the city and NFP are aware of their duties and responsibilities and to provide protection to both parties.

5.2 Police service volunteers

The Police department did not follow, or did not properly document, the screening procedures for citizens applying to work in the department's Volunteer Corp as established by department policy. The department operates a program that uses qualified volunteers for specified tasks and duties that can create efficiencies for the department and improve services to the community. We reviewed personnel files maintained for each of the 19 former and current members serving in the Volunteer Corp since it was established in 2011. Our review of the files identified the following concerns:

- 5 volunteers had no application on file.
- 14 volunteers did not complete a face to face interview with department personnel.
- 3 volunteers did not have complete background checks documented.
- 12 volunteers did not have evidence of an employment check.
- 2 volunteers did not have signed confidentiality agreements on file.

City of Raytown
Management Advisory Report - State Auditor's Findings

Police department policy 4.320 states the application and screening requirements for all members of the Volunteer Corp and states volunteers may have access to confidential department files. Without ensuring all application and screening requirements are met sensitive data or resources may not be adequately protected from unauthorized access and improper disclosure.

Recommendations

The Board of Aldermen:

- 5.1 Work with Police department personnel to establish a formal agreement with the NFP that documents the duties and responsibilities of both parties. In addition, ensure applications for any future funding are maintained and grant agreements exist to specify requirements for reimbursement of costs.
- 5.2 Ensure screening procedures for applicants for the Volunteer Corp are performed and documented in accordance with existing policies.

Auditee's Response

- 5.1 *(In Progress) We agree with this recommendation: The Police department is working on the creation of a memorandum of understanding with the not-for-profit that will outline the duties and responsibilities of both parties. Additionally, the memorandum of understanding will have language that ensures that compliance is maintained with regard to all grant agreements including, but not limited to, requirements for reimbursement as well as any other aspects associated with grant processes, acceptance and assessment of compliance with said grants.*
- 5.2 *(Completed) We agree with this recommendation: The Police department has implemented quality assurance and quality control protocols to ensure that all members of the Volunteer Corps are appropriately vetted; this includes, but is not limited to applications, interviews, background checks, employment checks, confidentiality agreements, and any other applicable existing or future policies associated with that program.*

6. Parks and Recreation Department Policies and Procedures

Improvements are needed in the operations of the Parks and Recreation department.

The Parks and Recreation department is governed by a 9-member Park Board appointed by the Mayor with the consent of the Board. As authorized by state law, the Park Board has exclusive control over expenditures of parks funding and supervision of the department, city parks activities, and improvements to parks facilities. The Park Board oversees a variety of city parks and facilities and provides both youth and adult recreational sports programs. The department received approximately \$1 million during the year ended October

City of Raytown
Management Advisory Report - State Auditor's Findings

31, 2018, consisting of approximately \$580,000 in property taxes; \$280,000 in sales taxes; and approximately \$140,000 from activity fees, rentals, and donations.

6.1 Receipting and depositing

Receipt slips are not issued for any payments received or amounts transmitted to the Parks and Recreation department and the composition (cash, check, or credit card) of payments received is not compared to the composition of deposits by an independent person.

While receipts slips are not issued, payments received by the Parks and Recreation department are posted to a daily receipt report that lists the composition of the payment, the payee, and the date. Cash and checks received are posted and deposited by the Administrative Service Coordinator. We reviewed amounts received in September 2018, which included transmittals of funds collected by the BMX Advisory Board operating the BMX track for the Park Board. While the city's daily receipts report for September 27, 2018, indicated cash receipts of \$11,366, the deposit slip indicated \$8,286 in cash and 2 checks totaling \$3,080. From a review of the bank records, the Parks and Recreation department staff did not enter the correct method of payment for the checks. No one identified this error because an independent comparison of the composition of amounts received to the composition of amounts deposited is not performed.

Failure to implement adequate receipting, recording, and transmitting procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

6.2 BMX Accounting Controls and Procedures

The Park Board has not adopted specific policies and procedures to provide oversight of the BMX Advisory Board, which is responsible for operating and maintaining the city's bicycle motocross track. The Park Board appoints members to the BMX Advisory Board, although during the year ended October 31, 2018, none were Raytown residents. The BMX Advisory Board does not give notice of or always hold public meetings in compliance with state law and members of that Board indicated decisions are typically made when enough of them are at the BMX track to have a meeting.

Accounting records

The BMX Advisory Board, with assistance from volunteers, collects registration fees for events and operates concessions at the track. Most funds collected are transmitted to the Parks and Recreation department for deposit to a city bank account. The BMX Advisory Board retains some money to operate and replenish concession items, but the amount kept is not set at a certain amount. Records are not maintained of all registration fees collected or to support amounts collected or profits earned from concessions. The amounts transmitted by the BMX Advisory Board to the city are tracked separately within the Parks Fund, but expenditures for the track are not tracked separately. The City Finance Director provided us a summary of total

City of Raytown
Management Advisory Report - State Auditor's Findings

expenditures from the Parks Fund related to the track. During the year ended October 31, 2018, expenditures related to the track were \$61,236, while revenues generated by the track were \$37,764.

Due to the lack of accounting records maintained by the BMX Advisory Board we could not determine if all money received was properly transmitted to the Park Board for deposit. Accurate accounting transactions and financial information are necessary for the Park Board to make informed decisions and to provide the Parks and Recreation department with reliable information of the track's finances. The lack of financial records makes it more difficult to detect loss, theft, or misuse of funds.

Recommendations

The Board of Aldermen work with the Park Board to:

- 6.1 Ensure prenumbered receipt slips are issued for all monies received and account for the numerical sequence of receipt slips issued. In addition, the composition of receipts should be reconciled to the composition of transmittals by an independent person.
- 6.2 Establish policies and procedures for accounting records to be maintained by the BMX Advisory Board and provide adequate oversight to ensure all money received is transmitted to the Parks and Recreation department.

Auditee's Response

- 6.1 *(In Progress) We agree with this recommendation: Receipts will be written for cash received on sales or rentals at the Parks and Recreation department office and kept on file for the year which they pertain to. These receipts will be able to be reconciled with the registrations and rentals entered in the Parks and Recreation department's finance software and additional reconciliation by the Finance department.*
- 6.2 *(In Progress) We agree with this recommendation. We shared this recommendation with the Parks and Recreation department and BMX Advisory Board, along with recommendations from the Finance department, and they have instituted multiple measures of reconciliation to provide adequate oversight. Those changes include continual annual review of the established policies and procedures for accounting records.*

City of Raytown

Organization and Statistical Information

The City of Raytown is located in Jackson County. The city was incorporated in 1950 and is currently a fourth-class city. The city employed 111 full-time employees and 32 part-time employees on October 31, 2018.

City operations include law enforcement, sewer system, stormwater system, and recreational facilities.

Mayor and Board of Aldermen

The city government consists of a mayor and 10-member board of aldermen. These members are elected for 4-year terms. The mayor is elected for a 4-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at October 31, 2018, are identified below. The Mayor is paid \$1,000 per month with a \$200 monthly car allowance and members of the Board of Aldermen are paid \$400 per month with a \$50 monthly car allowance. The compensation of these officials is established by ordinance.

Mike McDonough, Mayor
Frank Hunt, Alderman - Ward 1
Karen Black, Alderwoman - Ward 1 (1)
Jim Aziere, Alderman - Ward 2
Jason Greene, Alderman - Ward 2
Ryan Myers, Alderman - Ward 3
Mark Moore, Alderman - Ward 3 (2)
Bill Van Buskirk, Alderman - Ward 4
Steve Meyers, Alderman - Ward 4 (3)
Derek Ward, Alderman - Ward 5
Bonnaye Mims, Alderwoman - Ward 5

- (1) Replaced by Greg Walters, who was elected in April 2019.
(2) Replaced by Janet Emerson, who was elected in April 2019.
(3) Replaced by Mary Jane Van Buskirk, who was elected in April 2019.

Other Elected Officials

Name and Title	Compensation Paid for the Year Ended October 31, 2018
James B. Lynch, Police Chief (1)	\$99,832
Traci Fann, Municipal Judge	31,372
Kathie Schutte, City Collector	1,200

- (1) James B. Lynch resigned in February 2019 and Randy Hudspeth was appointed Interim Police Chief. On April 2, 2019, voters approved making the Police Chief an appointed position and on April 1, 2020, the Board appointed Robert Kuehl as Police Chief.

Financial Activity

A summary of the city's financial activity for the year ended October 31, 2018, obtained from the city's audited financial statement follows:

Nicole Galloway, CPA

Missouri State Auditor

**Thirty-Second Judicial Circuit
Cape Girardeau County**

Report No. 2020-118

December 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Thirty-Second Judicial Circuit Court in Cape Girardeau County

Accounting Controls and Procedures	The Circuit Clerk's office did not complete bank reconciliations for the Criminal Division bank account from July 2017 through August 2020, or for the Civil Division bank account from October 2017 to May 2020, as required by Missouri Supreme Court operating rules (State COR). The Circuit Clerk has not adequately segregated accounting duties, does not perform a satisfactory independent supervisory review of all accounting and bank records, and does not document the limited review performed.
Accounts Receivable	The court does not assess the \$25 time-payment fee on juvenile cases as required by State COR and authorized by state law. The Circuit Clerk does not periodically review outstanding court costs owed to the circuit court.
Court Procedures	The court clerks process fee adjustments without an independent or supervisory review. Periodic reviews of user access to data and other information in the new Show Me Courts System and the JIS are not performed by the Circuit Clerk to ensure access rights are commensurate with job responsibilities and remain appropriate. Budgets are not prepared for the Interest Fund, Garnishment Fee Fund, Time Payment Fund, and Law Library Fund.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
Thirty-Second Judicial Circuit
Cape Girardeau County, Missouri

We have audited certain operations of the Thirty-Second Judicial Circuit, Cape Girardeau County in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

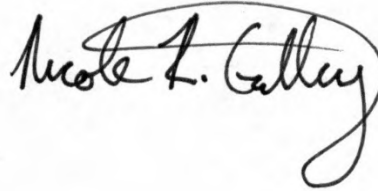

1. Evaluate the court's internal controls over significant management financial functions.
2. Evaluate the court's compliance with certain legal provisions.
3. Evaluate the court's compliance with certain court rules.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Cape Girardeau County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) noncompliance with court rules. The accompanying Management Advisory Report presents our findings arising from our audit of the Thirty-Second Judicial Circuit, Cape Girardeau County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Thirty-Second Judicial Circuit

Cape Girardeau County

Management Advisory Report - State Auditor's Findings

1. Accounting Controls and Procedures

Significant weaknesses exist in the controls and procedures over bank reconciliations and fiscal personnel job duties are not properly segregated.

1.1 Bank reconciliations

The Circuit Clerk's office did not complete bank reconciliations for the Criminal Division bank account from July 2017 through August 2020, or for the Civil Division bank account from October 2017 to May 2020, as required by Missouri Supreme Court operating rules (State COR). Over these time periods, unreconciled differences occurred in varying amounts and court personnel could not determine the cause for the fluctuations. They indicated the reconciliations were not completed due to limitations in the staff's understanding of the reconciliation process, limited staff availability, and the inability to determine the cause of reconciling differences between the bank account and the accounting records.

The Criminal Division's December 2018 incomplete bank reconciliation documented a discrepancy of \$10,398 between the general ledger balance and the adjusted bank balance and a discrepancy of \$7,372 between the general ledger balance and open items balance. The October 2019 incomplete bank reconciliation documented a discrepancy of \$22,505 between the general ledger balance and the adjusted bank balance and a discrepancy of \$19,489 between the general ledger balance and open items balance. The Senior Court Clerk indicated the discrepancies could have originated due to changing banks in July 2017, the inability to reconcile all credit card transactions timely, and not being able to resolve the issues after falling behind.

A similar situation occurred when the Civil Court Clerk could not reconcile the Civil Division bank account beginning in October 2017. The Office of State Courts Administrator (OSCA) resolved the discrepancies and reconciled the account to court records in May 2020. The Civil Division's bank account was combined with the Criminal Account on May 29, 2020. In addition, the prior Civil bank account remains open to allow outstanding checks to clear.

The Circuit Clerk indicated she was aware of the situation and the court had contacted the OSCA and had been placed on a waiting list for the OSCA to complete the reconciliations for the court.¹ According to court personnel, OSCA personnel instructed the court to perform daily reconciliations, which consists of reviewing the deposit and payments that cleared, and not to perform the monthly reconciliations. They also indicated, OSCA personnel later stated this instruction was in error and court personnel should have

¹ As of the end of fieldwork OSCA's assistance on this reconciliation was still pending.

Thirty-Second Judicial Circuit
Cape Girardeau County
Management Advisory Report - State Auditor's Findings

performed the monthly reconciliations to ensure the unreconciled difference did not change from month to month.

State COR 4.59 requires reconciling all bank balances and open items records at least monthly. Timely bank reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected and corrected timely. Thorough independent and/or supervisory reviews help ensure all assets are adequately safeguarded.

1.2 Segregation of duties

The Circuit Clerk has not adequately segregated accounting duties, does not perform a satisfactory independent supervisory review of all accounting and bank records, and does not document the limited review performed. The Senior Court Clerk's duties for the Criminal Court and the Civil Court include preparing disbursements, printing checks, and reconciling the bank account. In addition, prior to June 2020, the Criminal Court Clerk also signed the Criminal Court checks and the Civil Court Clerk would occasionally sign Civil Court checks. Although the court consolidated the Criminal and Civil bank accounts into one account in June 2020, lack of segregation of duties continued with the same court clerk prepares and prints the checks and reconciles the bank account. The Circuit Clerk performs undocumented reviews that include checking the unreconciled bank balance, deposits in transit, and visually scanning the disbursements and deposits in the month-end report. The reviews do not include comparing the balance of the bank accounts to the open items listing nor accounting for the uncleared checks.

Thorough independent and/or supervisory reviews help ensure all assets are accounted for and are adequately safeguarded. If proper segregation of duties are not implemented, documented independent and/or supervisory reviews of accounting and bank records are necessary.

Recommendations

The Circuit Clerk:

- 1.1 Perform monthly bank reconciliations of all bank accounts timely.
- 1.2 Segregate accounting duties to the extent possible and ensure independent and/or supervisory reviews of detailed accounting and bank records are performed and documented.

Auditee's Response

The Circuit Clerk's written response is included at the Appendix.

2. Accounts Receivable

Controls and procedures over accounts receivable need improvement. Time-payment fees are not assessed on juvenile cases, and accounts receivable are not periodically reviewed.

2.1 Time payment fee

The court does not assess the \$25 time-payment fee on juvenile cases as required by State COR and authorized by state law. The court did not assess the time-payment fee for approximately 1,000 juvenile cases outstanding as

Thirty-Second Judicial Circuit
Cape Girardeau County
Management Advisory Report - State Auditor's Findings

of December 31, 2019. The Circuit Clerk indicated she was unaware time-payment fees should have been assessed on juvenile cases not paid in full within 30 days. As a result, the court is not in compliance with legal provisions and has lost revenue.

Section 488.5025, RSMo, states "In addition to any other assessment authorized by law, a court may assess a fee of twenty five dollars on each person who pays a court-ordered judgement, penalty, fine, sanction, or court costs on a time-payment basis, including restitution and juvenile monetary assessments."

Also, State COR 21.13 requires all divisions of the circuit courts, except municipal divisions, to assess a \$25 time-payment fee on all cases not paid in full within 30 days of disposition.

2.2 Accounts receivable review

The Circuit Clerk does not periodically review outstanding court costs owed to the circuit court. The court's information system tracks cases and can produce a report of balances due; however, the Circuit Clerk does not print and review this report to (1) ensure amounts owed agree to the case file or (2) identify possible errors or cases with potentially uncollectible balances. According to a report we obtained from the OSCA, as of June 11, 2020, the circuit court had outstanding costs owed to the court totaling \$3.2 million for 14,301 cases of which some cases date back to 1998.

Local COR 67.12.9 states "the court shall review accounts receivable reports developed by OSCA and the debt collection vendor and those debts deemed to be uncollectible shall be written off by court order." Proper and timely monitoring of receivables is necessary to help ensure unpaid amounts are collected and proper follow-up action is taken for non-payment and to provide information to the Presiding Judge to determine appropriate handling when amounts are deemed uncollectible.

Recommendations

The Circuit Clerk:

- 2.1 Ensure time-payment fees are assessed in accordance with State COR as authorized by state law.
- 2.2 Establish procedures to review accounts receivable in accordance with Local COR.

Auditee's Response

The Circuit Clerk's written response is included at the Appendix.

3. Court Procedures

We identified significant weaknesses with court procedures. Fee adjustments are not reviewed, users access rights are not periodically reviewed for accuracy, and budgets were not prepared for several court funds.

3.1 Fee adjustments

The court clerks process fee adjustments without an independent or supervisory review. Fee adjustments include the reduction or non-assessment of fines and court costs due to the correction of errors in the assessment of

Thirty-Second Judicial Circuit
Cape Girardeau County
Management Advisory Report - State Auditor's Findings

court costs, reallocation of costs for state reimbursement, and removal of court costs when cases are dismissed.

Fee adjustments processed totaled approximately \$324,000 during the year ended December 31, 2019. That total included approximately \$247,000 of adjustments for jail board fees processed from April 1, 2019, through August 12, 2019. A court order to write these costs off was subsequently issued by the Presiding Judge on August 13, 2019.

An independent and/or supervisory review and approval of fee adjustments and court authorization is necessary to help ensure such transactions are appropriate and reduce the risk of loss, theft, or misuse of funds.

3.2 Periodic review of user system access

Periodic reviews of user access to data and other information in the new Show Me Courts System and the JIS are not performed by the Circuit Clerk to ensure access rights are commensurate with job responsibilities and remain appropriate. As a result, some court personnel have inappropriate access to initiate and modify transactions within the JIS/Show-Me Courts System.

We obtained reports from the OSCA of user accounts having access to the JIS/Show-Me Courts System as of June 2020. Upon review of the report, the Circuit Clerk indicated some of the users had more access than required to perform their job responsibilities. For example, one employee had transferred to another job within the court in December 2018, but still had access rights to JIS/Show-Me Courts System.

Local COR 69.01.C.7 states "Ensure user access is periodically reviewed and unnecessary access, including that of terminated users is timely removed. Review user access to data and other information resources to ensure access rights are commensurate with current user job responsibilities." Periodic reviews of user accounts ensure the right type and level of access, corresponding to each user's job responsibilities, has been provided.

3.3 Budgets

Budgets are not prepared for the Interest Fund, Garnishment Fee Fund, Time Payment Fund, and Law Library Fund. Preparing budgets allows management the ability to monitor revenues, disbursements, and available fund balance.

Preparing a budget for public funds aids in overall fiscal management; provides a means to effectively monitor actual costs, revenues, and cash balances; and helps inform both the county and the public of the court's financial picture.

Recommendations

The Circuit Clerk:

- 3.1 Require an independent and/or supervisory review and approval of all fee adjustments made in the JIS/Show-Me Courts System.

Thirty-Second Judicial Circuit
Cape Girardeau County
Management Advisory Report - State Auditor's Findings

- 3.2 Periodically review user access to data and other information resources within the JIS/Show-Me Courts System to ensure access rights are commensurate with job duties and responsibilities.
- 3.3 Prepare annual budgets for the Interest Fund and Garnishment Fee Fund; and provide copies of these budgets to the county budget officer.

The Presiding Judge:

- 3.3 Prepare annual budgets for the Time Payment Fund, and Law Library Fund; and provide copies of these budgets to the county budget officer.

Auditee's Response

The Circuit Clerk's and Presiding Judge's written response is included at the Appendix.

Auditor's Comment

The Circuit Clerk's response to MAR finding number 3.2 indicates periodic reviews of user access are performed when staff responsibilities are changed. However, this information differs from the information obtained during audit fieldwork. The Circuit Clerk also responded that user access in the JIS system can be very broad, which allows many tasks to be completed and that these access rights do not always coincide with the employees' regularly assigned duties. Local COR requires a periodic review to ensure access rights are commensurate with current user job responsibilities.

Thirty-Second Judicial Circuit

Cape Girardeau County

Organization and Statistical Information

The Thirty-Second Judicial Circuit consists of Cape Girardeau County, Bollinger County, and Perry County.

The Thirty-Second Judicial Circuit consists of two circuit judges and four Associate Circuit Judges. The Circuit Judges hear circuit level cases throughout the 32nd Judicial Circuit (Divisions I and II). One of these judges also serves as Presiding Judge on a rotating basis and is responsible for the administration of the circuit. Of the four Associate Circuit Judges, two are located in Cape Girardeau County. One presides over Associate Circuit Criminal Court (Division III) and the other presides over Associate Circuit Civil Court (Division IV), which includes probate. The other two Associate Circuit Judges are located in Bollinger County (Division V) and Perry County (Division VI).

The juvenile office's home base is Cape Girardeau County; however, this office also serves residents of Bollinger County and Perry County.

Circuit personnel located in Bollinger County and Perry County are not included in the scope of this audit.

Personnel

At December 31, 2019, the Judges, Circuit Clerk, Chief Juvenile Officer, and Treatment Court Administrator of the Thirty-Second Judicial Circuit, Cape Girardeau County, were as follows:

Title	Name
Presiding Circuit Judge	Benjamin F. Lewis
Circuit Judge (1)	Michael Gardner
Associate Circuit Judge	Frank E. Miller
Associate Circuit Judge (2)	Scott A. Lipke
Circuit Clerk	Charleen C. Biester
Chief Juvenile Officer	Randall Rhodes
Treatment Court Administrator	Sheila Sauer

(1) Scott A. Lipke was appointed in May 2020 replacing Michael Gardner.

(2) Julia Meiners Koester was appointed in July 2020 replacing the vacancy created when Scott A. Lipke was appointed to Circuit Judge.

In addition, the Thirty-Second Judicial Circuit, Cape Girardeau County, employed 20 full-time employees and 6 part-time employees on December 31, 2019.

Thirty-Second Judicial Circuit
Cape Girardeau County
Organization and Statistical Information

Financial Information

Receipts of the Thirty-Second Judicial Circuit, Cape Girardeau County, were as follows:

	Year Ended December 31, 2019
Court deposits, fees, bonds, and other	\$1,984,407
Probate and Juvenile deposits, fees, and other	57,127
Total	\$2,041,534

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the Thirty-Second Judicial Circuit, Cape Girardeau County, were as follows:

	Year Ended December 31, 2019
Civil	4,371
Criminal	3,814
Juvenile	256
Probate	529
Total	8,970

AUDIT RESPONSES

1.1 Bank reconciliations: The State budget does not provide individual courts with the funds necessary to hire their own accountants so when court staff are unable to resolve discrepancies, it is appropriate to submit that task to the accountants on staff at the Office of States Courts Administrator (OSCA). In 2017, when clerks in Cape Girardeau County were unable to determine the cause of reconciling differences, they promptly sought assistance from OSCA's accounting department. Because OSCA's resources are limited and they serve courts throughout the State, Cape County was placed on what became a multi-year waiting list for assistance. The accountants on staff at OSCA have now resolved all discrepancies and the account is fully reconciled.

1.2 Segregation of duties: Maintaining offices in two courthouses has always presented the Cape Girardeau County Circuit Clerk with unique challenges. With the civil divisions in Cape Girardeau and the criminal divisions in Jackson, court staff was effectively reduced by half as was supervisory time by the Circuit Clerk, who traveled back and forth between the two locations. The consolidation of all court staff in a single courthouse in 2020 has resolved those issues and has allowed for further segregation of duties and a higher degree of supervisory reviews.

Recommendations: I agree with the auditor's findings in accounting controls and procedures and the recommended changes have been implemented. Accounting duties have been reassigned and are segregated to the fullest extent possible. Documented supervisory reviews of accounting processes and bank records are performed by the Circuit Clerk and by senior court staff, and procedural changes have been established to ensure that monthly reconciliations are completed in a timely manner.

2.1 Time Payment Fee: The Cape Girardeau County Circuit Court has been assessing time payment fees in certain case types dating back to October 2003 when first allowed by Missouri Statute. Court Operating Rule 21.13, which mandates that courts assess the fee in all case types, went into effect January 2012. Nothing has been discovered in the records left behind for me in this office referencing the rule or explaining why it wasn't implemented in juvenile court cases at the time it went into effect. It remains, however, that this court has an obligation to assess a time payment fee on any juvenile monetary assessments not paid in full within 30 days, and the necessary steps have been taken to ensure that the fee is being appropriately assessed.

2.2 Accounts receivable review: In 2019, the Circuit Clerk requested judicial review of outstanding court debt and the Presiding Judge issued an order allowing the clerk to write off over \$9,000,000 in uncollectible debt. Work on that order continues and court clerks have written off all but approximately \$700,000. Another review of accounts receivable is currently underway, but because the court continues to collect on outstanding debt through the efforts of the State's debt collection vendor and through state tax offset reimbursements, most is collectible. Prior to 2019, records were not retained when proposed debt submitted for judicial review was not followed by an order to write off uncollectible debt.

The Circuit Clerk and court staff regularly review disposition and exception reports in an effort to identify and correct errors. Cases disposed without costs are reviewed for accuracy. Fee sheets are generated at case disposition and reviewed for accuracy.

Appendix
Thirty-Second Judicial Circuit - Cape Girardeau County
Thirty-Second Judicial Circuit Clerk's and Presiding Judge's Response

Recommendations: I agree with the Auditor's findings in the area of accounts receivable and have implemented the recommended changes to ensure time payment fees are assessed in accordance with Court Operating Rules. Procedures have been established to ensure that accounts receivable records continue to be regularly reviewed in compliance with local court rules and regardless of outcome, documentation of outstanding court debt submitted for judicial review will be retained.

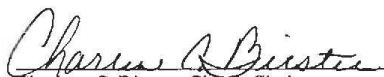

3.1 Fee Adjustments: In most instances, adjustments are made as a result of judicial order. Judges will order that costs be waived, that fines be suspended, or that costs be certified to state or the county. Occasionally court clerks will need to make minor corrections when entering data due to clerical error. Regardless of circumstance, adjustments are made when necessary to ensure that fees assessed are in accordance with the judgment on record.

3.2 Periodic review of user system access: I disagree with the Auditor's findings on this point. Periodic reviews of user access are conducted each time a change in court personnel occurs and permissions are reviewed when job duties change. As explained to the field auditor when interviewed, certain JIS permissions in the system are very broad and allow many tasks to be completed, whether assigned as regular duties or not. Further, when clerks are assigned a new workload, previously assigned permissions are often intentionally left in place to allow that clerk to back up duties in their previously assigned area.

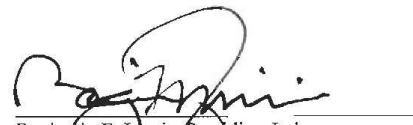

The Circuit Clerk is Cape Girardeau County's Security Point of Contact and as such, judicial employees working outside of the Circuit Clerk's office appear on the Clerk's security roster. The court employee who transferred to another job within the court system is the Presiding Judge's secretary, who is afforded a high degree of access. The JIS/SMC permissions granted are commensurate with her currently assigned job responsibilities.

3.3 Budgets: Revenue, expenditures, and available fund balances for the interest and garnishment fee funds are tracked and managed in JIS and SMC. In addition to the court's operating system tracking, the Circuit Clerk maintains a ledger together with detailed record of expenditures for each fund. Because the law library fee fund and time payment fee fund are not tracked through JIS and SMC, detailed ledgers of revenue and expenditures for these two funds are kept and maintained by court-assigned bookkeepers. Expenditures for all funds are carefully tracked and reviewed for compliance with Missouri Statute.

Recommendations: I agree with the Auditor's findings as to adjustments and budgets and the recommended changes have been implemented. There is no State process or funding to bring in private accountants to conduct independent reviews, however the Circuit Clerk together with senior court staff perform documented supervisory reviews and approvals of fee adjustments. In addition to the management protocols already in place, annual budgets for all court funds have been prepared and submitted to the County Auditor.

CITIZENS SUMMARY

Findings in the audit of Jackson County Payroll and Personnel Issues

Payroll Allocations	The county does not maintain documentation to support how county officials determined the allocation of salaries to various county funds, for the offices or departments allocating salaries.
Vehicle Allowances	The county does not have a written policy providing guidance on the administration of vehicle allowances, nor does the county maintain documentation to show vehicle allowance amounts are reasonable and necessary compared to actual expenses incurred.
Chief Operating Officer's Employment Contract	The former County Executive approved a multi-year employment contract with the former Chief Operating Officer that automatically renewed and included a severance payment.
Physical Building Access and Remote Work Policy	Record of physical access to all county buildings was not maintained for all entry and exit points, and the county has not adopted a policy regarding employees working from home.
Sexual Harassment Training	The county personnel rules, including its sexual harassment policy (Rule 19), do not require all county employees receive sexual harassment training. Sexual harassment training is also not periodically provided to employees, and documentation of attendance at the training provided is not always retained.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Chairman of the Jackson County Legislature
and
Members of the Jackson County Legislature
and
Frank White, Jr., County Executive
Jackson County, Missouri

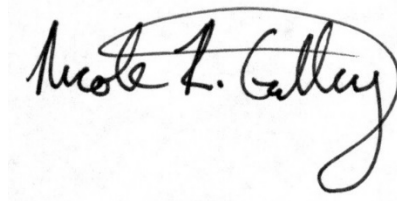

We have audited certain operations of Jackson County - Payroll and Personnel Issues in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of Jackson County in response to a formal request from the Jackson County Legislature. The county engaged BKD LLP, Certified Public Accountants (CPAs), to audit the county's financial statements for the years ended December 31, 2018, and 2017. To minimize duplication of effort, we reviewed the CPA firm's reports. The scope of our audit included, but was not necessarily limited to, the 2 years ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over certain management operations and financial functions related to payroll and personnel issues.
2. Evaluate the county's compliance with certain legal provisions related to payroll and personnel issues.
3. Evaluate the economy and efficiency of certain management practices and procedures related to payroll and personnel issues, including certain financial transactions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Jackson County - Payroll and Personnel Issues.

Additional audits of various officials and departments of Jackson County are still in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

	Amanda G. Flanigan, MAcc

Jackson County

Payroll and Personnel Issues

Introduction

Background

The State Auditor was requested on February 26, 2018, by the Jackson County Legislature under Section 29.200.3, RSMo, to conduct a performance audit of Jackson County.

During 2017 and 2018, the county employed approximately 2,300 employees and paid salaries of approximately \$77 million in 2017 and \$79 million in 2018. Our review of the county's payroll and personnel issues identified significant concerns, including concerns expressed by the County Executive regarding a self-renewing employment agreement.

In March 2019, the county awarded a consulting contract to perform a classification and compensation study covering all county employees. The study, published February 6, 2020, was primarily designed to focus on internal and external equity of both the structure by which employees are compensated as well as the way positions relate and compare across the county. The study made recommendations to "improve the equity and competitiveness of the County's pay structure and the placement of classifications within that structure."

On February 10, 2020, the County Executive announced that the County Legislature authorized the implementation of the compensation study recommendations. According to county officials, they implemented 5 of the 10 recommendations in March 2020, are currently in the process of implementing another recommendation, and plan to implement another one by the end of 2021. They indicated the 3 other recommendations will be implemented as needed or when budgetary resources were available.

The following provisions of federal law, constitutional home rule charter, and county personnel rules are significant to our review and are discussed further in the findings reported in the accompanying Management Advisory Report section.

Federal Law

The Fair Labor Standards Act (FLSA) and 29 Code of Federal Regulations, Section 516.2 establishes recordkeeping standards affecting employees in local governments. The FLSA requires employers maintain accurate records of actual time worked by employees.

Constitutional Home Rule Charter

Article III, Section 5, states, "The county executive shall be responsible for the administration of all affairs of the county placed in his or her charge by this charter, by law or by county ordinance. The county executive may appoint a staff as may be authorized by county ordinance, . . . all of whom shall serve at his or her pleasure."

County Personnel Rules

Rule 8, Other Compensation Practices, Section 8.4B, states "When it is in the best interest of the County, a monthly automobile allowance may be paid to an employee to compensate the employee for the use of their personal

Jackson County
Payroll and Personnel Issues
Introduction

automobile for official County business upon request of the Appointing Authority and approval of the Manager of the Division of Finance. The car allowance amount will be governed by a Car Allowance Policy."

Rule 10, Part-Time and Temporary Employees, Section 10.1, states "Part-time and temporary employees shall be compensated on an hourly basis."

Rule 11, Applications, Examinations of Applicants and Conditions of Employment, Section 11.21, states "All employees shall be required to attend a new employee orientation program coordinated by Human Resources within the first thirty (30) days of employment."

Rule 19.1, Sexual Harassment Policy, "This policy sets forth the general requirements and procedures for County employees in reference to sexual harassment."

Audit Request

On January 3, 2018, the County Executive made a recommendation to the County Legislature to request a comprehensive audit of the county's fiscal and procurement process by the State Auditor's Office (SAO). The County Legislature agreed with this recommendation and passed Resolution 19745 on February 26, 2018, requesting the State Auditor perform an audit of the county. This request was accepted by the SAO and audit fieldwork started in December 2018. This is the fourth of several audit reports that will be issued as part of the audit of Jackson County.

Scope and Methodology

The scope of this audit included evaluating (1) internal controls, (2) policies and procedures, and (3) other management functions and compliance requirements in place during the 2 years ended December 31, 2018.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; gathering information regarding payroll and personnel policies and procedures through discussions with various current and past county personnel, and reviewing the information obtained; and testing selected transactions. To gain an understanding of legal requirements governing payroll and personnel issues, we reviewed applicable federal and state laws, the county charter, county code, and written policies and procedures; and interviewed various individuals.

We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to these provisions.

Jackson County

Payroll and Personnel Issues

Management Advisory Report - State Auditor's Findings

1. Payroll Allocations

The county does not maintain documentation to support how county officials determined the allocation of salaries to various county funds, for the offices or departments allocating salaries.

Salaries allocated to various county funds totaled approximately \$14.4 million for 295 employees in 2017 and \$15.5 million for 298 employees in 2018.

Fund	2017	2018
	Amount Allocated	Amount Allocated
General	\$ 7,569,550	6,672,018
Special Road and Bridge	1,683,573	2,911,816
Community Backed Anti-Crime Tax (COMBAT)	1,593,673	2,122,455
Health	1,340,657	1,383,890
Assessment	808,713	812,115
Grant	340,635	629,453
Park	597,429	559,377
Park Enterprise	156,966	159,583
Collector's Maintenance Fee	130,968	101,795
Workers Compensation	75,798	58,060
Prosecuting Attorney Delinquent Sales Tax	24,030	42,132
Recorder's Fee	38,176	38,178
Prosecuting Attorney Bad Check Collection	28,799	19,780
Recorder's Technology	14,190	14,687
Homeless Assistance	12,576	12,820
Sheriff Revolving	7,320	8,950
Sewer	6,452	0
Total	\$ 14,429,505	15,547,109

County personnel said they do not have any documentation for the payroll allocations, but indicated employees generally provide services to more than one county fund. For example, the following employee's salaries were allocated to the listed funds during the year ended December 31, 2018.

Employee	Fund					Total Salary
	General	Special Road and Bridge	Health	Assessment	Park	
Director of Public Works	\$ 26,612	97,809	975	0	0	125,396
Director of Information Technology	5,973	47,784	0	41,811	23,892	119,460
Former Director of Human Resources	81,141	19,976	0	0	16,949	118,066
Clerk of the County Legislature	101,332	4,659	5,823	0	4,659	116,473
Budget Officer	61,398	9,079	0	0	9,158	79,635
Director of Finance and Purchasing	31,353	15,332	1,035	639	14,347	62,706
Payroll Supervisor	45,006	6,654	0	0	6,713	58,373

Jackson County
Payroll and Personnel Issues
Management Advisory Report - State Auditor's Findings

The proper allocation of expenses is necessary for the county to accurately determine the results of operations of specific activities, thus enabling county officials to establish the level of taxation and/or user charges necessary to meet all operating costs. In addition, Section 137.555, RSMo, restricts the use of the Special Road and Bridge Fund to disbursements for road and bridge purposes only. To ensure restricted funds are used for their intended purposes, the allocation of salaries should be based on specific criteria, such as the number of hours worked by each employee, if possible, or by determining a reasonable basis to allocate costs. Allocating salaries to restricted funds that are not directly related to the administration of a fund is not an appropriate use of that funding.

Recommendation

The County Legislature and County Executive allocate salary expenses to county funds based on specific criteria and retain documentation to support the allocations made. In addition, ensure all salaries allocated to restricted funds comply with restrictions on use of that funding.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

2. Vehicle Allowances

The county does not have a written policy providing guidance on the administration of vehicle allowances, nor does the county maintain documentation to show vehicle allowance amounts are reasonable and necessary compared to actual expenses incurred. The county paid approximately \$569,000 in vehicle allowances to 149 employees in 2017, and approximately \$529,000 to 137 employees in 2018, ranging from \$75 to \$12,000 annually, for use of their personal vehicles.

County personnel policy 8.4B states "When it is in the best interest of the County, a monthly automobile allowance may be paid to an employee to compensate the employee for the use of their personal automobile for official County business upon request of the Appointing Authority and approval of the Manager of the Division of Finance. The car allowance amount will be governed by a Car Allowance Policy." Although a car allowance policy is referenced in the county's official personnel rules, county officials have not established a county-wide car allowance policy. The Director of Human Resources and Deputy Director of Human Resources indicated each department establishes the need of car allowances for the department's positions.

Vehicle allowances are typically negotiated as an added benefit prior to employment instead of being based on actual miles driven. For example, when the County Administrator was hired in December 2019, he was provided an \$800 per month (\$9,600 annual) vehicle allowance because "It is identical to the amount provided by his previous employer."

Jackson County
Payroll and Personnel Issues
Management Advisory Report - State Auditor's Findings

In addition, it is questionable whether some of these employees should be paid vehicle allowance amounts based upon their job duties and travel requirements. During our review of 22 vehicle allowances, we could not establish a pattern in the specific amounts granted in comparison to job duties and travel. The following table lists the 22 annual vehicle allowance amounts reviewed, and the average miles that would need to be driven per month to justify the vehicle allowances based on the county's 2018 mileage reimbursement rate of \$0.545.

Employee	Annual Allowance Amount	Average Miles per Year	Monthly Allowance Amount	Average Miles per Month
Former Sheriff	\$ 12,000	22,018	1,000	1,835
Director of Parks and Recreation	12,000	22,018	1,000	1,835
Director of Public Works	12,000	22,018	1,000	1,835
Former Director of Human Resources	11,340	20,807	945	1,734
Former Budget and Financial Analyst	9,600	17,615	800	1,468
Clerk of the County Legislature	9,600	17,615	800	1,468
Former Chief Administrative Officer	9,600	17,615	800	1,468
Former Chief Operating Officer	9,600	17,615	800	1,468
County Legislative Auditor	9,600	17,615	800	1,468
Director of Information Technology	9,600	17,615	800	1,468
Former Chief Economic Development Officer	9,000	16,514	750	1,376
Compliance Review Officer	7,200	13,211	600	1,101
Director of Finance and Purchasing	7,200	13,211	600	1,101
Legislative Aide - First District (1)	6,000	11,009	500	917
Legislative Aide - Sixth District (1)	6,000	11,009	500	917
Director - Recorder of Deeds	5,590	10,257	466	855
Former County Legislator - Third District (1)	4,800	8,807	400	734
Former Lead Care Manager	4,550	8,349	379	696
Care Manager Supervisor	4,290	7,872	358	656
Budget Officer	4,000	7,339	333	612
Part-time Board of Election Clerk	1,200	2,202	100	183
Payroll Supervisor	1,200	2,202	100	183

(1) Legislative Aides and County Legislators in other districts also received similar vehicle allowances.

This added benefit represented the equivalent of a salary increase of approximately 2 to 15 percent. For 11 of the 22 (50 percent) employees, the vehicle allowance caused their total compensation to exceed the maximum pay range for their position. While vehicle allowances and salary amounts are provided for in employment contracts and county policies, the lack of records to support how the vehicle allowance amounts were determined gives the appearance that the vehicle allowance may be a means to compensate employees beyond the established maximum pay range. For example:

Jackson County
Payroll and Personnel Issues
Management Advisory Report - State Auditor's Findings

Year Ended December 31, 2018				
Employee	Salary	Vehicle Allowance	Total Compensation	Established Maximum Pay Range (1)
Director of Parks and Recreation	\$ 110,531	12,000	122,531	110,520
Director of Public Works	110,531	12,000	122,531	110,520
Director of Information Technology	108,582	9,600	118,182	110,520
Director - Recorder of Deeds	110,531	5,590	116,121	110,520

(1) Per Ordinance No. 4714, effective January 26, 2015.

Due to the lack of adequate records supporting how the amounts were determined, it is unclear if the vehicle allowances received by these employees are reasonable. The county should review the necessity and reasonableness of the allowances paid and set them to reasonably reflect the actual expenses incurred by the employees.

Recommendation

The County Legislature and County Executive develop a vehicle allowance policy, review the necessity of vehicle allowances, and set the allowances to reasonably reflect the actual expenses incurred by the applicable employees.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

3. Chief Operating Officer's Employment Contract

The former County Executive approved a multi-year employment contract with the former Chief Operating Officer (COO) that automatically renewed and included a severance payment.

The former COO's contract provided for his term of employment to begin on December 8, 2014, and terminate on December 31, 2018. His employment would then automatically renew for one year every year. The former COO's contract also provided for a severance payment equal to his salary for 9 months, if terminated without cause and payable in a lump sum no later than December 31 of the expiring year. This automatically renewing contract essentially guarantees the COO will receive a severance payment if terminated without cause because the contract never expires. Based on the former COO's December 2018 salary, the severance payment would have totaled \$115,921.

Article III, Section 5, of the County Charter, states, "the county executive may appoint a staff . . . whom shall serve at his or her pleasure." In the public sector, such language would generally indicate employment at will and the county would not be liable or bound to pay that official any substantial compensation or severance benefits after employment is terminated. However, the former County Executive entered into a multi-year

Jackson County
Payroll and Personnel Issues
Management Advisory Report - State Auditor's Findings

automatically renewing employment agreement with the former COO, which included a substantial severance benefit, if his employment was involuntarily terminated without cause. No other county officials or employees have a multi-year automatically renewing employment agreement.

The county should ensure employment contracts are in the best interest of the county. The county has a fiduciary responsibility to ensure that public funds are used effectively.

Recommendation

The County Legislature and County Executive refrain from entering into automatically renewing multi-year employment contracts, and consider the necessity of including severance payments.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

4. Physical Building Access and Remote Work Policy

Record of physical access to all county buildings was not maintained for all entry and exit points. In addition, the county has not adopted a policy concerning employees working from home.

Physical access to county buildings is controlled by the Human Resources (HR) department. According to HR department officials, one of two entry/exit readers to the downtown courthouse south entrance and the freight elevator inside the courthouse have previously been masked.¹ As a result, when an employee or other authorized personnel scan their ID badge, the HR department cannot determine who accessed the building and at what time the building was accessed from those entry/exit points. Additionally, the lack of records of physical access to county buildings limit the ability to investigate concerns related to employee's attendance. Also, according to HR department officials, the other south entrance entry/exit reader was unmasked sometime in 2016. These restricted entries provide employees and others authorized access to the courthouse and the freight elevators can only be accessed by employees or others authorized.

Physical access to restricted entries of all county buildings and use of freight elevators should be adequately logged and monitored for security, control, and accountability purposes.

In addition, county employees have been permitted to work from home. Proper guidelines are needed to manage remote employees in the form of a

¹ According to county personnel, staff could still use the readers to access restricted entries/areas, but masking the readers prevents the county from knowing who accessed the restricted entry/area.

Jackson County
Payroll and Personnel Issues
Management Advisory Report - State Auditor's Findings

work-from-home policy that defines employee eligibility, expectations for work hours and attendance, equipment and cybersecurity, communication methods, and policy abuse.

Recommendation

The County Legislature and County Executive ensure physical access to all county buildings and freight elevators is properly logged and periodically reviewed for security, control, and accountability concerns. In addition, a work-from-home policy should be adopted to ensure authorization to work remotely is documented and employees' work is properly monitored.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

5. Sexual Harassment Training

The county personnel rules, including its sexual harassment policy (Rule 19), do not require all county employees receive sexual harassment training. In addition, sexual harassment training is not periodically provided to employees, and documentation of attendance at the training provided is not always retained.

Section 11.21 of the county personnel rules requires all new employees attend an orientation program coordinated by the HR department within the first 30 days of employment. According to a former Director of Human Resources,² new employees are provided sexual harassment training during employee orientation. Attendance at this training is documented by the employee signing a form stating they received training and understand and agree with county policies, including sexual harassment. The former director also indicated most employees only receive sexual harassment training once (during their new employee orientation) unless specifically requested by a department head or mandated as a form of discipline following an incident.

Three of the 25 (12 percent) employee personnel files reviewed did not have a signed sexual harassment training attendance form. In addition, several county employees have filed sexual harassment lawsuits against the county in recent years.

To ensure employees are aware of requirements regarding sexual harassment and remain aware, the county should revise the sexual harassment policy to specifically address training to be provided and its frequency. In addition, sexual harassment training forms should be retained to document compliance with county policy.

² The former Director of Human Resources was employed during the course of the audit and subsequently resigned.

Jackson County
Payroll and Personnel Issues
Management Advisory Report - State Auditor's Findings

Recommendation

The County Legislature and County Executive update the sexual harassment policy to require periodic sexual harassment training for all employees, and ensure sexual harassment training attendance forms are maintained to support sexual harassment training provided.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

Nicole Galloway
Missouri State Auditor
Truman State Office Building
301 West High Street, Rm 880, P.O. Box 869
Jefferson City, MO 65102

Honorable Auditor Galloway,

In February 2018 the Jackson County Legislature formally requested an independent audit by the Missouri State Auditor to provide assurance to all County elected officials and the citizens of Jackson County that the assets of the County are safeguarded through proper internal controls that fully comply with applicable State and County laws.

Once again, the County Legislature greatly appreciates the State Auditor's time and efforts in conducting an audit and issuing a report of the Jackson County Payroll and Personnel Issues as the fourth report of multiple areas of review.

The County Legislature fully supports the recommendations and in conjunction with the County Executive has already worked to implement changes to provide increased transparency and public accountability.

Harry S. Truman, Presiding Judge, 1927-1934

via email: robert.mcarthur@auditor.mo.gov,
pamela.allison@auditor.mo.gov

Dear Madam:

In response to your request for a response from my office, please see the information below:

1.

Jackson County's budgetary processes have changed significantly since the time period evaluated by this report. Changes include the significant reduction, if not elimination, of using multiple funds to support any single county department. The Administration will continue to review all recommendations made, and in collaboration with the County Legislature will make any additional changes necessary.

2.

In 2020, Jackson County instituted a new vehicle allowance policy. The Administration will continue to review all recommendations made, and in collaboration with the County Legislature will make any additional changes necessary.

3.

As noted in the report, the contract at issue was entered into by the prior Administration. Since that time, no employment contracts have been executed that include the provisions highlighted by this report. The Administration will continue to review all recommendations made, and in collaboration with the County Legislature will make any additional changes necessary.

4.

Upon learning that records were not being maintained, the Administration immediately ordered that the records be kept for these points of entry to county facilities. The Administration will continue to review all recommendations made, and in collaboration with the County Legislature will make any additional changes necessary.

Jackson County Courthouse 415 East 12th Street Kansas City, Missouri 64106
Office: 816-881-3333 / Fax: 816-881-3133

5.

Jackson County has clearly defined and well-communicated policies that prohibit all forms of harassment and discrimination, sexual or otherwise. The County's Human Relations Department and County Counselor's Office have worked hard to improve our Associate training programs, including those focused on sexual-harassment. The Administration is committed to ensuring that the workplace culture where all Jackson County Associates feel safe and valued and can be who they are. The Administration will continue to review all recommendations made, and in collaboration with the County Legislature will make any additional changes necessary.

Regards,

Frank White, Jr.
Jackson County Executive

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of City of St. Louis Office of Public Administrator

Controls and Procedures	Office personnel do not prepare adequate monthly bank reconciliations for all wards and estates and a monthly list of liabilities for the escrow account. The Public Administrator does not have adequate procedures to ensure the money of each ward or estate held in the escrow account is disbursed timely upon the discharge of her financial responsibility and does not provide adequate supporting documentation to the court for the escrow account ward/estate annual settlements.
Personnel Policies and Procedures	The Public Administrator has not established a written personnel policy manual that address compensatory time or vacation and medical leave and does not update records of employee vacation leave, medical leave, and compensatory time earned, taken, or accumulated each pay period.
Procurement Procedures and Contracts	The Public Administrator has not established policies and procedures for the selection of vendors providing professional services and does not always solicit bids for the sale of ward personal property.
Electronic Communication Policy	The Public Administrator has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	11
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Jill Hanley, Public Administrator
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Office of Public Administrator in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2020. To minimize duplication of effort, we reviewed the report and the CPA firm's report for the June 30, 2019, audit, since the June 30, 2020, audit had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2020. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.
2. Evaluate the office's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

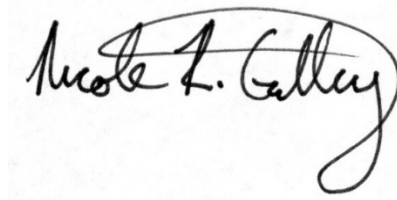

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design, implementation, and operating effectiveness of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the office's management and was not subjected to the procedures applied in our audit of the office.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Office of Public Administrator.

Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

Audit Staff:	Emma Hoglebe
	Bridget Tierney

1. Controls and Procedures

Controls and procedures in the Office of Public Administrator need improvement.

1.1 Bank reconciliations

Office personnel do not prepare adequate monthly bank reconciliations for all wards and estates. Separate bank accounts are maintained for most of the 148 individuals (wards) or decedent estates overseen by the Public Administrator. Bank accounts, stocks, bonds, and annuities held in trust by the Public Administrator totaled approximately \$8.7 million as of June 30, 2020.

The Deputy Public Administrator reconciles ward and estate bank accounts periodically using the computerized accounting system and marks individual checks and deposits that have cleared the bank in the accounting system at that time. However, reports of outstanding checks, deposits in transit, and other reconciling items are not prepared or reviewed during this process and this reconciliation is not reviewed by the Public Administrator. Office personnel only prepare complete bank reconciliations annually for the bank accounts when preparing the annual/final settlement for each ward or estate.

Performing adequate monthly bank reconciliations helps ensure receipts and disbursements have been properly handled and recorded and increases the likelihood errors will be identified and corrected timely. Supervisory review of bank reconciliations helps ensure all assets are adequately safeguarded.

1.2 Escrow bank account

Office personnel do not prepare a monthly list of liabilities for the escrow account. As a result, liabilities are not agreed to the reconciled bank balance monthly and discrepancies are not investigated. The account is used for cases with limited account activity or financial assets. As of June 30, 2020, the account held \$193,696.

At our request, the Public Administrator provided individual register reports for each ward and/or estate in which she was currently holding funds in the escrow account as of May 11, 2020 and additional register activity through June 30, 2020. We prepared a list of liabilities as of June 30, 2020 based on the information provided. The reconciled bank balance for the escrow account as of June 30, 2020, was \$193,696 and the list of liabilities associated with 55 wards and/or estates totaled \$193,738 resulting in a shortage of \$42.

Regular identification and comparison of liabilities to the available cash balance is necessary to ensure accounting records are in balance and monies are available to satisfy all liabilities. Differences should be adequately investigated and explained.

City of St. Louis - Office of Public Administrator
Management Advisory Report - State Auditor's Findings

1.3 Closed cases

The Public Administrator does not have adequate procedures to ensure the money of each ward or estate held in the escrow account is disbursed timely upon the discharge of her financial responsibility (case closed). As of June 30, 2020, the Public Administrator held \$12,977 in the escrow account for 26 wards/estates' cases closed on or before June 30, 2018. This total includes 14 cases closed during the former Public Administrator's tenure that should have been distributed but were turned over to the current Public Administrator when she took office in 2017. The current Public Administrator indicated she has not had time to work on the closed cases transferred to her or disburse any additional refunds or interest payments she has received on closed cases she had previously distributed.

1.4 Escrow account annual settlements

The Public Administrator does not provide adequate supporting documentation to the court for the annual settlements of wards/estates who have monies held in the escrow account. For wards/estates with separate bank accounts, the Public Administrator submits the last bank statement of the settlement period and a list of outstanding items to support the account balance on the annual settlement. However, for wards/estates with money held in the escrow account, the Public Administrator does not provide the bank statement for the escrow account or any other documentation indicating how the account balance included on the annual settlement reconciles to the bank balance. Instead, the Public Administrator only includes a copy of each cleared check issued from the escrow account associated with the ward/estate annual settlement.

Without submitting adequate documentation of the financial activity of the escrow bank account to the court for review, the court has no assurance financial activity of the escrow account is proper.

Recommendations

The Public Administrator:

- 1.1 Ensure adequate monthly bank reconciliations are prepared for all bank accounts including reviewing outstanding checks, deposits in transit, and other reconciling items. In addition, ensure supervisory reviews of bank reconciliations are performed and documented.
- 1.2 Prepare a monthly list of liabilities and reconcile the listing to the reconciled bank balance and promptly investigate any differences identified.
- 1.3 Distribute funds held in the escrow account timely. If the payee cannot be located, the amount should be disbursed in accordance with state law.
- 1.4 Submit adequate supporting documentation with annual settlements filed for wards/estates with money held in the escrow bank account,

City of St. Louis - Office of Public Administrator
Management Advisory Report - State Auditor's Findings

including a reconciliation between the bank statement balance and the account balance reported on the annual settlement.

Auditee's Response

1.1 *Reconciliations of all bank accounts are now being performed monthly. Once each bank account is reconciled in the computerized accounting system, a reconciliation report will be printed and compared to the prior month's reconciliation report to ensure all outstanding items from the prior month's reconciliation have cleared on the current reconciliation. Office personnel will follow up on any items that remain outstanding. The Public Administrator will document her review of these bank reconciliations at least every 60 days.*

1.2 *The escrow account shortage of \$41.93 has been identified and funds have been transferred to the escrow account to resolve this discrepancy. The escrow account reconciliation report and corresponding register reports are now being printed monthly and reviewed for outstanding checks from the prior month's reconciliation. In addition, a listing of wards/estates register balances as of the date of the reconciliation will be prepared, totaled, and compared to the reconciled bank balance.*

1.3 *The Public Administrator is updating her procedures to ensure money held in the escrow account is distributed timely. These procedures include putting a reminder in the case management system to distribute the money once the deposit has cleared.*

The Public Administrator plans to petition the court for discharge of the surety bond at the time the final settlement is filed with the court. This should allow enough time for the surety bond to be cancelled and any bond premium refund to be received in time to be included in distribution to the heirs. If the refund it is not received in time, a reminder will be added to the case management system to distribute the bond refund within a week of depositing the refund into the escrow account.

Once the court has approved the final settlement, the Public Administrator will close and transfer the balance of all bank accounts associated with the case to the escrow account for distribution. This will ensure any interest earned on the account is distributed with the final settlement and avoid the small amounts of interest that may accrue in the time frame between final settlement distributions clearing bank account and the bank account(s) being closed.

City of St. Louis - Office of Public Administrator
Management Advisory Report - State Auditor's Findings

The Public Administrator is also going to open individual accounts for each ward or estate unless the funds will be transferred out in a short amount of time for the care of the ward or into a trust.

1.4 The Public Administrator is going to file an annual settlement of the escrow account activity with the court on a calendar year basis.

2. Personnel Policies and Procedures

Personnel policies and procedures over payroll and related matters need improvement. Public Administrator's office payroll expenditures totaled approximately \$422,000 for the year ended June 30, 2020.

2.1 Personnel policies

The Public Administrator has not established a written personnel policy manual that addresses compensatory time or vacation and medical leave.

The Public Administrator indicated her office follows civil service rules for the accrual and use of vacation and medical leave and circuit court rules for the accrual and use of compensatory time. However, the Public Administrator has not formally documented which rules she has adopted and our review of Public Administrator compensatory time accruals noted the process differed from the documented circuit court rules she indicated she followed.

A comprehensive personnel manual that details policies and procedures can benefit both the office and employees by providing a basic understanding between the parties regarding rights and responsibilities, provides guidance should questions or disputes arise, helps ensure policies are fairly and consistently applied to all employees, and ensures employees are properly compensated.

2.2 Leave records

The Public Administrator does not update records of employee vacation leave, medical leave, and compensatory time earned, taken, or accumulated each pay period. In addition, the Public Administrator does not submit employee leave records to the Comptroller's office to maintain and reconcile with the city's centralized leave records.

Prior to our August 20, 2020, request for employee leave balances as of June 30, 2020, the Public Administrator had not updated these leave records since the April 11, 2020, pay period. If the Public Administrator reported employee leave accruals and usage to the Comptroller's office each pay period, employee leave records would also be updated timely.

Without adequate, updated leave records, the Public Administrator cannot ensure leave earned and taken by employees is properly documented. Leave records also aid in determining final compensation for employees leaving city employment. In addition, by not submitting complete leave records to the Comptroller's office, the city cannot ensure total city employees' compensatory time and leave usage and balances are accurate and properly

City of St. Louis - Office of Public Administrator
Management Advisory Report - State Auditor's Findings

accounted for. Centralized records also aid in ensuring equitable treatment of employees, and help demonstrate compliance with the Fair Labor Standards Act.

Recommendations

The Public Administrator:

- 2.1 Establish a written personnel policy manual and ensure compliance with all policies.
- 2.2 Ensure records of vacation leave, medical leave, and compensatory time are updated timely and submitted to the Comptroller's office.

Auditee's Response

- 2.1 *The Public Administrator is going to update the former Public Administrator's policy manual for current policies and procedures.*
- 2.2 *The Public Administrator will ensure employee vacation, medical, and compensatory time leave balances are updated timely and will provide these records to the Comptroller's office.*

3. Procurement Procedures and Contracts

The Public Administrator needs to improve procedures used for procuring services, contracting with vendors, and selling ward assets.

3.1 Professional services and contracts

The Public Administrator has not established policies and procedures for the selection of vendors providing professional services. In addition, the Public Administrator has not solicited requests for proposals for various professional services, has not periodically conducted a competitive selection process for various professional services, and did not always enter into written contracts with providers selected. Since the Public Administrator took office in 2017, she has continued to use the same accounting firm and real estate agency used by the former Public Administrator without soliciting proposals for these services periodically. In addition, the Public Administrator does not have a written contract with the accounting firm or property manager.

While professional services may not be subject to standard bidding procedures, soliciting proposals for these services is a good business practice, helps provide a range of possible choices, and allows the Public Administrator to make better-informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration. Written contracts are necessary to (1) ensure all parties are aware of their duties and responsibilities, (2) identify potential duplication of related services, and (3) prevent misunderstandings. Section 432.070, RSMo, requires government contracts to be in writing.

City of St. Louis - Office of Public Administrator
Management Advisory Report - State Auditor's Findings

3.2 Ward personal property

The Public Administrator does not always solicit bids for the sale of ward personal property. The Public Administrator indicated she usually contacts the same individual to purchase the personal property without publicizing the sale or soliciting bids. She said if office personnel believe specific items, such as antiques, are being sold, they will contact other individuals to determine interest. However, she indicated this process is not always documented and office personnel could not easily identify the cases where this occurred. In one instance we noted the Public Administrator obtained bids for the sale of personal property from the regular buyer as well as an antique buyer. The regular buyer bid \$1,800 and the antique dealer bid \$5,200 for the same property indicating soliciting more than one bid could be beneficial to the wards.

The Public Administrator has a fiduciary responsibility to make decisions that benefit her wards. In addition, good business practices require the sale or purchase of property be formally publicized and bids obtained to ensure a reasonable price is received.

Recommendations

The Public Administrator:

- 3.1 Solicit proposals for professional services on a periodic basis and enter into written contracts for professional services.
- 3.2 Solicit bids for the sale of ward personal property.

Auditee's Response

- 3.1 *The Public Administrator will begin soliciting proposals for professional services on a periodic basis and will enter into written contracts for these professional services.*
- 3.2 *The Public Administrator will solicit bids on the sale of all personal property so as to get the best price available.*

4. Electronic Communication Policy

The Public Administrator has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.¹ This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

While the Public Administrator indicated all emails sent or received through the city's hosted email system are archived, the Public Administrator has not

¹ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/RecordsManagement/CommunicationsGuidelines.pdf>, accessed October 6, 2020.

City of St. Louis - Office of Public Administrator
Management Advisory Report - State Auditor's Findings

adopted a policy to address the other issues set forth in the guidance, including the retention of messages sent by text and other third party platforms, such as personal email accounts and personal devices, when they represent official business of the city.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Development of written policies to address the retention of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law.

Recommendation

The Public Administrator develop written records management and retention policies that address electronic communications management and retention to comply with the Missouri Secretary of State Records Services Division Electronic Communications Guidelines.

Auditee's Response

The Public Administrator will prepare a written records management and retention policy that includes electronic communications management and retention so as to comply with the Missouri Secretary of State Records Services Division. In addition, the Public Administrator has already informed her staff of this new policy.

City of St. Louis - Office of Public Administrator

Organization and Statistical Information

The Public Administrator serves as the court appointed personal representative for decedents' estates and as guardian and/or conservator for individuals who are unable to care for themselves or their property when there is no one else to serve. The Public Administrator is the guardian for approximately 530 wards and is responsible for the financial activity of approximately 148 wards or estates with assets including bank accounts, stocks, bonds, and annuities held in trust totaling approximately \$8.7 million as of June 30, 2020. The Public Administrator is required to file annual settlements with the Circuit Court, Probate Division for each appointed ward or estate reflecting the financial activity for the year.

Jill Hanley was appointed Public Administrator on March 28, 2017, by the Twenty-Second Judicial Circuit Court, en banc. Section 473.730.5, RSMo, states once appointed, the Public Administrator has an indefinite term. During the year ended June 30, 2020, the Public Administrator received salary compensation of \$111,670. The Public Administrator supervises the daily operations of the Office of Public Administrator. The office had 6 full-time employees as of June 30, 2020. One full-time employee is paid by a not-for-profit entity through a grant.

Nicole Galloway, CPA

Missouri State Auditor

New Madrid County

Report No. 2020-115

December 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of New Madrid County

Payroll Controls and Procedures	Monthly reports and payroll tax withholdings totaling \$382,047 were not received by the Department of Revenue for 62 months, starting in April 2013, resulting in the county paying \$51,333 in interest costs. The County Clerk has not adequately segregated payroll duties and no one performs an independent or supervisory review of detailed payroll records. County officials did not always follow established written personnel policies regarding vacation and sick leave, and have not established personnel policies addressing the use of compensatory time used in excess of available balances. The County Clerk's office does not ensure timesheet calculations prepared by other officials are accurate and did not compensate some employees for overtime in compliance with its overtime policy.
County Controls and Procedures	The County Commission's review and approval process for disbursements is not documented. The signature stamp containing the signatures of both the County Clerk and the County Treasurer is not adequately controlled. The County Treasurer has not established procedures to routinely follow up on outstanding checks in the County Treasurer's bank account. As of April 30, 2019, 4 Automated Clearing House (ACH) transactions and 56 checks totaling \$218,744 had been outstanding for over one year, with the oldest check dating back to 2013. Of this amount, 31 checks totaling \$209,945 were related to state payroll tax withholdings. Neither the County Clerk nor the County Commission adequately review the financial activities of the County Treasurer.
Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties or performed adequate supervisory reviews of detailed accounting and bank records. The Office Manager does not prepare bank reconciliations or maintain a running book balance for the Sheriff's bank account. In addition, monthly lists of liabilities are not prepared to reconcile to the available cash balances. Procedures for receipting, recording, and depositing need improvement. The Sheriff does not have controls and procedures in place to ensure collection of amounts billed for inmate transportation reimbursement or transmittal of amounts received.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney has not adequately segregated accounting duties or performed supervisory reviews of accounting records and transmittals. Additionally, both the Office Manager and Child Support Clerk have the ability to issue receipt slips and also record adjustments to defendant accounts in the computerized accounting system with obtaining independent approval. The Office Manager does not transmit fees monthly to the County Treasurer as required by state law.
Tax Maintenance Fund	A \$40,000 transfer made from the Tax Maintenance Fund in 2019 was not in compliance with uses allowed by state law.
County Clerk's Controls and Procedures	Controls and procedures over receipts and transmittals in the County Clerk's office need improvement. At least \$99 was not transmitted to the County Treasurer during 2019 and is missing.

Electronic Data Security	The County Clerk has not fully established controls for maintaining user accounts for accessing system resources. The County Assessor, County Clerk, Sheriff, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data.
Sunshine Law	The county's procedures for complying with the Sunshine Law and maintaining minutes of meetings need improvement.
Electronic Communication Policies	The county has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Senate Bill 40 Board Cash Reserves	The Senate Bill 40 Board has accumulated a significant cash reserve without any specific plans for its use.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	23
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of New Madrid County

We have audited certain operations of New Madrid County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

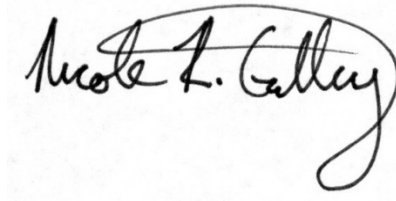

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of New Madrid County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Deborah Whitis, MBA, CPA, CIA, CFE
In-Charge Auditor:	Michelle Pummill, CFE
Audit Staff:	Misty Bowen, MSED, CFE
	Logan J. Vogel

New Madrid County Management Advisory Report State Auditor's Findings

1. Payroll Controls and Procedures

Controls and procedures were not adequate to ensure state payroll tax withholdings and related reports dating back to 2013 were properly remitted to the Department of Revenue (DOR). As a result, the county incurred interest costs totaling \$51,333. In addition, other payroll controls and procedures need improvement. The county paid personnel salaries and wages totaling approximately \$2.2 million during the year ended December 31, 2019.

1.1 Payroll taxes

Monthly reports and state payroll tax withholdings totaling \$382,047 were not received by the DOR for 62 months, starting in April 2013, resulting in the county paying \$51,333 in interest costs. Penalties totaling \$29,397 were waived by the DOR after the taxes and interest were paid.

Soon after the former Deputy County Clerk resigned in October 2018, the County Clerk and current Deputy County Clerk/Payroll Clerk became aware of unpaid state payroll tax withholdings when the county received notices dated October 17 and 18, 2018, from the DOR. The County Clerk and Deputy County Clerk/Payroll Clerk began working with the DOR to determine the extent of the delinquent tax withholdings and outstanding reports. In January 2019, the DOR notified the County Clerk that tax withholdings for most months from April 2013 through August 2018 had not been paid. Although tax withholdings for 2016 were paid electronically, they were not paid timely and reports were not filed timely for 9 months in 2016. As a result, interest and penalties were owed for those 9 months. The total owed to the DOR was \$457,039 and consisted of delinquent tax withholdings totaling \$382,047, interest totaling \$45,595, and penalties totaling \$29,397, if paid by February 7, 2019.

After negotiations with the DOR, the County Clerk was notified the DOR would abate the penalties once the tax withholdings were paid, but the interest would not be waived. In May 2019, the county paid the \$382,047 in tax withholdings, but did not pay the interest. Total interest owed increased to \$51,333 because an additional \$5,738 in interest accrued from January through June 2019. The county paid the \$51,333 in interest on June 25, 2019.

Thirty-one checks payable to the DOR totaling \$209,945 for tax withholdings from April 2013 through October 2013 and January 2014 through December 2015 were listed on the County Treasurer's outstanding check list on April 30, 2019. The County Treasurer did not follow up on these outstanding checks to ensure the DOR received the money timely (see Management Advisory Report (MAR) finding number 2.2). In addition, unpaid state tax withholdings totaling \$157,682 for 20 months from January 2017 through August 2018 were listed on the accounts payable open items report identifying liabilities for monies withheld but not paid to the DOR. It is unclear why the County Clerk's office did not attempt to disburse these monies to the DOR at the time they were due and continued to show them on the accounts payable report. The remaining unpaid taxes totaling \$14,420, primarily related to November

New Madrid County Management Advisory Report - State Auditor's Findings

and December 2013, were not on the outstanding check list or the accounts payable open items report. The county implemented a new accounting system in January 2014, and amounts prior to 2014 were not included on the accounts payable open items report in the new system. County officials do not know why checks were not issued for November and December 2013 tax withholdings.

The County Clerk indicated checks and related reports were prepared monthly and mailed to the DOR, but his office mailed them to an incorrect DOR address. However, the County Clerk could only provide us copies of 7 of the checks issued during 2013 (totaling \$51,661) and electronic payment confirmations for 2016 (9 of 12 months paid late), but could not provide us copies of any reports, other checks issued, or electronic payment confirmations to demonstrate these were prepared and sent to the DOR.

The County Clerk did not perform any oversight procedures as indicated in section 1.2 to review payroll records and open items reports to ensure all payroll withholdings were properly and timely remitted. As a result of these control weaknesses, the county had to pay \$51,333 interest on amounts not paid timely.

Section 143.221.2, RSMo, requires the county to file a monthly return along with the monthly payment. Withholdings are due for the first 2 months of each quarter by the 15th of the following month and for the last month of each quarter by the last day of the following month.

The lack of segregation of duties and independent or supervisory reviews by the County Clerk, inadequate controls over outstanding checks by the County Treasurer, and inadequate reviews of financial activities, as discussed in the remainder of this report, allowed for the delinquent state payroll tax withholdings and outstanding monthly reports to go undetected for almost 6 years.

1.2 Segregation of duties

The County Clerk has not adequately segregated payroll duties and no one performs an independent or supervisory review of detailed payroll records. The Deputy County Clerk/Payroll Clerk is responsible for entering approved pay rates, establishing/maintaining county employee personnel records, preparing payroll disbursements, automatically withdrawing payroll expenses from the County Treasurer's bank account, and printing disbursement checks. There is no independent review of payroll transactions and related reports to ensure the transactions are accurate, appropriate, and processed timely. In addition, as discussed in section 1.1, the lack of adequate controls and independent or supervisory reviews allowed the delinquent state payroll tax withholdings and related reports issue to occur and not be detected and resolved timely.

New Madrid County Management Advisory Report - State Auditor's Findings

Proper segregation of duties is necessary to ensure payroll transactions are appropriate and accounted for properly. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed payroll records are essential.

1.3 Personnel policies and leave balances

County officials did not always follow established written personnel policies regarding vacation and sick leave, and have not established personnel policies addressing the use of compensatory time used in excess of available balances.

Some county employees used vacation and sick leave or compensatory time in excess of their available balances, resulting in negative leave balances. The county's personnel policy indicates that only accrued (earned) vacation and sick leave may be taken, and employees may not receive advance (not yet earned) vacation pay without written prior authorization. According to the leave summary report maintained by the County Clerk's office, 11 of the 63 employees had negative leave balances at December 31, 2019. Negative balances totaled 256 hours for compensatory time, 21 hours for vacation leave, and 291 hours for sick leave. Five employees had negative compensatory time balances, 3 employees had negative sick leave balances, 2 employees had negative sick leave and compensatory time balances, and 1 employee had negative vacation and sick leave balances. One employee's negative sick leave balance was 250 hours and one employee's negative compensatory time balance was 104 hours. No prior authorizations were provided for any of these employees.

Written personnel policies and strict compliance with those policies is necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated. In addition, the county's policy should be updated to not allow employees to carry negative leave and compensatory time balances.

1.4 Timesheet calculations and overtime

The County Clerk's office does not ensure timesheet calculations prepared by other officials are accurate and did not compensate some employees for overtime in compliance with its overtime policy. We reviewed payroll records for the monthly pay period ended June 15, 2019, (May 16 to June 15) for 15 employees, including 10 employees that were paid overtime. We noted the following concerns:

- Timesheet calculations prepared by the Sheriff's Office Manager for the Sheriff's office employees are not reviewed by the Deputy County Clerk/Payroll Clerk to ensure hours computed are accurate. Our review of timesheets for 3 Sheriff's office employees identified errors in the calculations of regular hours, overtime hours, and total hours worked for the pay period. One employee reported hours worked totaling 133.5 regular hours and 31.5 overtime hours; however, the Office Manager improperly calculated 153 regular hours and 22 overtime hours. As a

New Madrid County
Management Advisory Report - State Auditor's Findings

result, total regular hours were overstated by 19.5 hours and total overtime was understated by 9.5 hours, resulting in the employee being overpaid for 10 hours in total. A second employee reported hours worked totaling 166 regular hours and 50 overtime hours; however, the Office Manager improperly calculated 200 regular hours and 40 overtime hours. As a result, total regular hours were overstated by 34 hours and total overtime was understated by 10 hours, resulting in the employee being overpaid for 24 hours in total. The third employee reported hours worked totaling 174.5 regular hours; however, the Office Manager improperly calculated 185 regular hours resulting in the employee being overpaid for 10.5 hours.

- Six employees were paid overtime or earned compensatory time when reported hours worked were less than 40 hours for the week. Timesheet calculations prepared by the applicable county official for these employees included nonworking time (vacation, sick leave, compensatory time taken, and holidays) in total hours worked when determining the amount of overtime or compensatory time earned, which is not allowed by county policy and not required by the Fair Labor Standards Act (FLSA). As a result, the county sometimes paid for more overtime or provided more compensatory time than required.

Accurate time records are necessary to ensure employees receive proper compensation, provide support for payroll transactions, and ensure all employees are treated equitably. By not following county policies, the county may be paying more overtime and compensatory time than required, resulting in a greater financial burden to the county and inequitable treatment of employees.

Recommendations

The County Clerk:

- 1.1 Ensure state payroll tax withholdings are remitted and monthly reports are filed timely with the DOR as required by state law.
- 1.2 Segregate payroll duties or ensure documented supervisory reviews of detailed payroll records are performed.
- 1.3 And the County Commission ensure compliance with personnel policies, review and update personnel policies as necessary, and discontinue allowing employees to carry negative leave balances.
- 1.4 Ensure the accuracy of timesheet calculations. The County Clerk and County Commission should ensure compliance with personnel policies and FLSA requirements.

New Madrid County
Management Advisory Report - State Auditor's Findings

Auditee's Response

The County Clerk and County Commission provided the following responses:

1.1 The finding fails to include the following information:

**The County Clerk did indeed complete and submit payroll reports and remit payroll tax withholdings during the 62 month period, by mail, to the Department of Revenue address that had been in use for many, many years. At some point it appears that the remittance address to the Department of Revenue changed and notification was never received by the county. The county was unaware that the reports and payments were not being received.*

**The County Treasurer became aware that the checks mailed to the Department of Revenue for payroll tax withholdings were not clearing the bank and made attempts to contact the Department of Revenue to determine why the checks were not being processed.*

**The County Clerk ultimately discovered that delinquent notices from the Department of Revenue were being mailed to the wrong address and were never received by the county.*

**The County Clerk made contact with the Department of Revenue in 2018 when the extent of the delinquent payroll tax payments was discovered and began working with the Department of Revenue to rectify the problem. The County Clerk assisted the County Treasurer in determining the checks that had never cleared the bank. The County Treasurer then stopped payment on those checks and issued payment to the Department of Revenue for the delinquent payroll tax payments.*

Obviously, there were errors made by both the Department of Revenue and the county that kept this situation from being resolved in a more timely manner. But as was noted by the County Commission in discussions with the state auditors: 1) the county had been remitting payroll tax payments to the Department of Revenue for decades, 2) when the Department of Revenue suddenly stopped receiving payroll tax payments from a county government and there was no response to the delinquent notices mailed to the county, why didn't the Department of Revenue directly contact the county either by phone, email, or certified mail?

The county now processes and submits all reports and payroll tax withholding payments to the Department of Revenue electronically and receives confirmation that reports and payments have been received. The County Clerk will ensure that payroll tax withholding reports and payments are submitted on a timely basis.

New Madrid County
Management Advisory Report - State Auditor's Findings

- 1.2 *Upon completion of payroll reports and remittance of payroll tax withholding payments to the Department of Revenue, confirmation documents are printed and submitted to the County Clerk for review. The County Clerk's review of the records will be documented in each month's payroll file.*
- 1.3 *Officeholders will be informed to follow personnel policy guidelines and discontinue allowing negative leave balances on employee timesheets. The county personnel policies will be reviewed and updated as necessary.*
- 1.4 *Timesheet calculations are each officeholder's responsibility to ensure that they are correct before approving and submitting them to the County Clerk's office. The County Clerk's office always attempts to identify errors on timesheets submitted by each officeholder, but the time required for preparation of the direct deposit payroll does not allow for the County Clerk's office to review every timesheet calculation for accuracy. That is each officeholder's responsibility. A secondary review of payroll transactions will be conducted to ensure that payroll amounts are accurate before they are electronically submitted to the bank for direct deposit.*

The Sheriff provided the following response:

- 1.4 *The spreadsheet used to prepare timesheet calculations, including overtime, has been corrected. After each employee's timesheet calculation has been completed, it will be reviewed by the Deputy Sheriff and Sheriff. Within the next couple weeks, a new program to calculate payroll for my employees will be implemented.*

Auditor's Comment

- 1.1 While the County Clerk indicated attempts were made to address the issue, these attempts were not made timely and the issue continued for several years. If proper controls and procedures had been in place, the county could have discovered in a timely manner that state payroll tax withholdings and reports were not being received by the Department of Revenue, and could have resolved the issue and avoided paying some or all of the \$51,333 in interest.

2. County Controls and Procedures

Controls and procedures over county disbursements, outstanding checks, and the County Treasurer's financial activity need improvement. According to the County Treasurer's year-to-date report, the county disbursed approximately \$12.6 million during the year ended December 31, 2019.

2.1 Disbursements

Improvement is needed in the controls and procedures over county disbursements.

New Madrid County
Management Advisory Report - State Auditor's Findings

Review and approval

The County Commission's review and approval process for disbursements is not documented. The County Commissioners indicated they typically look at invoices during their meetings, but they do not vote to approve or sign invoices presented for review. Meeting minutes typically have the same generic statement indicating disbursements were reviewed and approved for payment, but there is no documentation to support which disbursements were approved. The County Clerk applies a dated approval stamp "APPROVED NEW MADRID CO. COMMISSION" on invoices and invoices are given to the Deputy County Clerk/Accounts Payable Clerk to process the disbursements. None of the County Commissioners were aware this stamp existed and was used to indicate their approval of the invoices.

Signature stamp

The signature stamp containing the signatures of both the County Clerk and County Treasurer is not adequately controlled. Checks require 2 signatures and the authorized check signers are the County Clerk and the County Treasurer. The County Clerk and the Deputy County Clerk/Payroll Clerk responsible for printing checks have access to the County Treasurer's office where this stamp is stored. Neither the County Clerk, nor the County Treasurer, nor the Deputy County Clerk/Payroll Clerk initials checks to indicate use of the signature stamp. In addition, the use of the signature stamp diminishes the controls intended by the second check signer and approval signature.

Conclusion

Section 50.160(2), RSMo, allows the county commission to order the payment out of the county treasury of any money found to be due by the county. Section 50.166, RSMo, allows the county clerk to prepare a check for the amount due as approved by the county commission and transmit such to the county treasurer.

To safeguard against possible loss, theft, or misuse of monies and to ensure disbursements are properly handled, the County Commission's review and approval of disbursements should be documented, and the County Commission should establish controls over the use of and access to its approval stamp. In addition, the County Clerk and County Treasurer should establish controls over the use of and access to the signature stamp.

2.2 Outstanding checks

The County Treasurer has not established procedures to routinely follow up on outstanding checks in the County Treasurer's bank account. As of April 30, 2019, 4 Automated Clearing House (ACH) transactions and 56 checks totaling \$218,744 had been outstanding for over one year, with the oldest check dating back to 2013. Of this amount, 31 checks totaling \$209,945 were related to the state payroll tax withholdings discussed in MAR finding number 1.1. In addition, the County Treasurer's outstanding check list does not contain the name of the payee, it only contains the date and amount of each ACH transaction and check.

New Madrid County Management Advisory Report - State Auditor's Findings

The \$209,945 in outstanding checks related to state payroll tax withholdings were voided and reissued in May 2019. In November 2019, the County Treasurer followed up on and resolved some of the remaining outstanding checks. As of March 31, 2020, the 4 ACH transactions from 2014 and 1 check from 2015, totaling \$4,972, were still outstanding. Two of these ACH transactions were payable to the U.S. Treasury for federal, Social Security, and Medicare taxes, and 2 ACH transactions were payable to Missouri Local Government Employees Retirement System for employees' retirement contributions. The County Treasurer had not followed up on these ACH transactions, although these government entities could have been contacted to resolve these ACH transactions.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of monies in the account and ensure monies are appropriately disbursed to the payee or as otherwise provided by state law.

2.3 Review of activity

Neither the County Clerk nor the County Commission adequately review the financial activities of the County Treasurer. The County Treasurer prepares monthly bank reconciliations and monthly settlements and provides them to the County Clerk and County Commission. No documentation was provided to indicate procedures are performed by the County Clerk or the County Commission to verify the County Treasurer's monthly bank reconciliations and settlements. As a result, there is less assurance the monthly settlements are complete and accurate, and an increased risk of loss, theft, and misuse of monies going undetected.

Section 51.150.1(1), RSMo, requires the County Clerk to keep regular accounts between the County Treasurer and the county. Section 51.150.1(4), RSMo, requires the County Clerk to balance and display the accounts kept by him as often as required by the County Commission. Section 49.260, RSMo, requires the County Commission, or some commissioner thereof, to examine and verify the monies on hand up to the day on which the settlement is made. Such procedures are intended to establish checks and balances related to the collection and disbursement of county monies.

Recommendations

- 2.1 The County Commission document review and approval of all disbursements and establish controls over the use of and access to its approval stamp. In addition, the County Clerk and County Treasurer should establish controls over the use of and access to the signature stamp.
- 2.2 The County Treasurer establish procedures to routinely investigate outstanding checks and ACH transactions. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the monies should be disposed of in accordance with state law.

New Madrid County
Management Advisory Report - State Auditor's Findings

- 2.3 The County Clerk and County Commission perform documented reviews of bank reconciliations and monthly settlements prepared by the County Treasurer.

Auditee's Response

The County Treasurer provided the following responses:

- 2.1 *I will keep the signature stamp in the safe outside of my office. If checks are written and I am out of town, the County Clerk will have access to the stamp.*
- 2.2 *The outstanding checks and ACH transactions totaling \$4,972 will be resolved within the next 2 to 3 weeks. The outstanding check list will be followed up on monthly.*

The County Clerk and County Commission provided the following responses:

- 2.1 *The County Commission is now approving and signing each invoice submitted for payment and the approval stamp is no longer used. The County Clerk and County Treasurer now have individual signature stamps that are used to sign checks. When it is necessary for either officeholder to use the other's signature stamp to process checks due to the absence of either officeholder, the signature will be initialed by the person using the stamps.*
- 2.3 *The County Clerk and County Commission will review monthly bank reconciliations and settlements prepared by the County Treasurer and initial the documents after their review.*

3. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected approximately \$138,000 for civil and criminal paper service, bonds, inmate transportation reimbursements, and other miscellaneous receipts during the year ended December 31, 2019.

3.1 Segregations of duties

The Sheriff has not adequately segregated accounting duties or performed adequate supervisory reviews of detailed accounting and bank records. The Office Manager is primarily responsible for receipting, recording, and depositing monies; preparing disbursements, bank reconciliations, and monthly fee reports; and billing, receiving, and transmitting monies for inmate transportation reimbursement claims. The Sheriff's reviews do not include a review of detailed receipt and disbursement records.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing receipts; making disbursements; and reconciling bank accounts. If proper segregation of duties cannot be achieved, documented independent or

New Madrid County Management Advisory Report - State Auditor's Findings

supervisory reviews of detailed accounting and bank records are essential and should include comparing daily receipt activity to deposits and disbursements to supporting documentation.

3.2 Bank reconciliations and liabilities

The Office Manager does not prepare bank reconciliations or maintain a running book balance for the Sheriff's bank account. In addition, monthly lists of liabilities are not prepared to reconcile to the available cash balances. We determined the reconciled bank balance as of December 31, 2019, was \$30,022. We determined total liabilities to be \$30,669, consisting of undistributed December collections, federal forfeiture funds received in June 2019, and undistributed interest earned in 2019, resulting in an apparent shortage of \$647 in the account.

The federal forfeiture funds of \$27,469 direct-deposited into the bank account were not disbursed to the County Treasurer until May 13, 2020, when a Sheriff's deputy instructed the Office Manager to prepare the disbursement check and informed her of the source of these funds. Preparing monthly bank reconciliations and comparing such to a list of liabilities would have detected these monies in the account and allowed for more timely disbursement.

Performing monthly bank reconciliations helps ensure accurate records are kept and increases the likelihood errors will be identified. Regular identification and comparison of liabilities to the available cash balance is necessary to ensure records are in balance and monies are available to satisfy all liabilities.

3.3 Receipting, recording, and depositing

Procedures for receipting, recording, and depositing need improvement.

- The Office Manager did not issue receipt slips for inmate transportation reimbursements totaling \$31,991 received during the year ended December 31, 2019 (based on County Treasurer's records). These monies were transmitted to the County Treasurer without being receipted or recorded by the Sheriff's office.
- The method of payment is not always indicated on receipt slips issued. As a result, the composition of receipts cannot be reconciled to the composition of deposits.
- Receipts are not always deposited timely and prior to the related disbursements being made. For example, the Sheriff issued 4 checks totaling \$685 in December 2019 before the related deposit cleared the bank on January 6, 2020. This deposit included receipts from December 6, 2019, through January 2, 2020. The Office Manager typically prepares checks to disburse bond monies on the day of receipt and mails them when signed by the Sheriff. She does not hold these checks until the related receipts are deposited. The undistributed federal forfeiture funds

New Madrid County
Management Advisory Report - State Auditor's Findings

in the bank account (see section 3.2) prevented the account from being overdrawn.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected. In addition, monies should be deposited timely and before the related disbursements are made to ensure bank accounts are not overdrawn.

3.4 Inmate transportation reimbursement

The Sheriff does not have controls and procedures in place to ensure collection of amounts billed for inmate transportation reimbursement or transmittal of amounts received.

The Office Manager submits inmate transportation claims to the Department of Corrections for reimbursement. As noted in section 3.3, the Office Manager does not record receipt of these payments, but immediately transmits them to the County Treasurer. The Office Manager does not obtain documentation from the County Treasurer for these transmittals even though the County Treasurer prepares receipt slips, and records are not maintained to determine the status of submitted claims. As a result, the Sheriff or persons independent of the billing and receipting process are unable to determine the amounts collected or otherwise monitor the billed amounts to ensure payments are received and transmitted to the County Treasurer.

Procedures such as independent reconciliations of billing records and payments should be established to ensure inmate transportation reimbursements are properly billed, collected, and transmitted to the County Treasurer. Proper records and follow-up procedures are also necessary to safeguard against possible loss, theft, or misuse of monies going undetected.

Similar conditions previously reported

Similar conditions to sections 3.1 and 3.3 were noted in our 2 prior audit reports. In addition, similar conditions to sections 3.2 and 3.4 were noted in our prior audit report.

Recommendations

The Sheriff:

- 3.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.
- 3.2 Ensure monthly bank reconciliations are performed, a running book balance is maintained, and lists of liabilities are prepared and reconciled to the available cash balance monthly. Any differences should be promptly investigated and resolved.

New Madrid County
Management Advisory Report - State Auditor's Findings

- 3.3 Issue receipts slips for all monies received, indicate the method of payment on all receipt slips, and reconcile the composition of receipts to the composition of deposits. In addition, ensure all monies are deposited timely and prior to the related disbursements.
- 3.4 Establish procedures to ensure collection of inmate transportation reimbursements and transmittal of payments received.

Auditee's Response

We have reviewed the findings and recommendations in this report. We are currently in the process of addressing the problems and will set forth procedures to implement the recommendations from your audit.

- 3.1 *Segregation of duties and documented independent reviews of detailed accounting and bank records have been implemented.*
- 3.2 *Procedures to perform monthly bank reconciliations and maintain a running book balance have been implemented. A list of liabilities will be prepared and reconciled to the available cash balance monthly. Any differences will be resolved.*
- 3.3 *Procedures for receipting, recording, and depositing will be implemented as recommended.*
- 3.4 *Procedures recommended for collection and transmittal of inmate transportation reimbursements will be established.*

4. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately \$91,000 in bad check and court-ordered restitution and fees during the year ended December 31, 2019.

4.1 Segregation of duties

The Prosecuting Attorney has not adequately segregated accounting duties or performed supervisory reviews of accounting records and transmittals. The Office Manager is primarily responsible for receipting, recording, and transmitting monies to victims and the County Treasurer. Additionally, both the Office Manager and Child Support Clerk have the ability to issue receipt slips and also record adjustments to defendant accounts in the computerized accounting system without obtaining independent approval. During the year ended December 31, 2019, office personnel made 18 adjustments totaling \$96,985. Adjustments made were more than total receipts during the year ended December 31, 2019. One adjustment totaled \$94,177 and was not independently reviewed. Neither the Prosecuting Attorney nor other clerks perform supervisory or independent reviews of accounting records to ensure all monies received are properly recorded and transmitted or disbursed to the appropriate party.

New Madrid County Management Advisory Report - State Auditor's Findings

Proper segregation of duties is necessary to ensure transactions are accounted for properly, adjustments are valid, and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and transmitting monies. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting records are essential and should include comparing daily receipt activity to transmittals and reviewing adjustments made to the accounting system.

A similar condition was noted in our 2 prior audit reports.

4.2 Transmitting

The Office Manager does not transmit fees monthly to the County Treasurer as required by state law. During the year ended December 31, 2019, the Office Manager only made 6 transmittals totaling \$5,786 to the County Treasurer. Transmittals to the County Treasurer are made when a deposit slip obtained from the County Treasurer is full.

Failure to implement adequate transmitting procedures increase the risk that loss, theft, or misuse of monies received will occur and go undetected. Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such monies monthly to the County Treasurer.

Recommendations

The Prosecuting Attorney:

- 4.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of accounting records are performed and documented. In addition, the Prosecuting Attorney should require a supervisory review and approval for all accounting adjustments.
- 4.2 Transmit all fees monthly to the County Treasurer.

Auditee's Response

- 4.1 *Due to the limited size of this office, a segregation of duties is not possible. Therefore, the Prosecuting Attorney will perform, and document, supervisory reviews of the accounting records, including, but not limited to, all accounting adjustments.*
- 4.2 *In January 2020, we began transmitting all fees to the County Treasurer on a monthly basis, and will continue to do so moving forward.*

5. Tax Maintenance Fund

A \$40,000 transfer made from the Tax Maintenance Fund (TMF) in 2019 was not in compliance with uses allowed by state law. The County Collector collects a penalty of 9 percent of the total charged on delinquent taxes. Two-ninths of this penalty is required to be paid into the TMF to be used for

New Madrid County
Management Advisory Report - State Auditor's Findings

additional administrative or operational costs related to the office of the County Collector.

The County Collector transferred \$40,000 from the TMF to the General Revenue Fund (GRF) on December 31, 2019. The County Collector indicated this amount was used to purchase a security system for the courthouse. The County Clerk provided invoices totaling \$10,703 for the security system. The cost of the security system was not allocated among all county offices benefiting from the system. As a result, at least a portion of the \$10,703 transfer for the total cost of the security system was not related to the administration or operation of the County Collector's office. No documentation was provided supporting the remainder of the amount transferred.

Section 52.315, RSMo, requires disbursements from the TMF be for additional administration and operation costs of the County Collector's office. There was either no documentation supporting the transferred amount or the documentation was unclear as to how the transferred amount related to the administration or operation of the office of the County Collector. Therefore, this transfer was not an appropriate use of the TMF monies.

Recommendation

The County Collector ensure disbursements from the Tax Maintenance Fund are in compliance with statutory provisions, and the County Commission reimburse the Tax Maintenance Fund for the improper transfer. In addition, the County Collector should maintain documentation to support all transfers made from the Tax Maintenance Fund.

Auditee's Response

The County Collector provided the following response:

I agree to implement the recommendation from the State Auditor's Office going forward.

The County Commission provided the following response:

The County Commission will reimburse the \$40,000 transfer from the Tax Maintenance Fund.

6. County Clerk's Controls and Procedures

Controls and procedures in the County Clerk's office need improvement. The office collected plat book fees, notary fees, and other miscellaneous receipts totaling approximately \$3,000 during the year ended December 31, 2019.

- The County Clerk does not account for the numerical sequence of receipt slip numbers to ensure monies received have been properly recorded and transmitted.

New Madrid County
Management Advisory Report - State Auditor's Findings

- A total of \$99 related to 6 receipt slips issued during 2019 was not transmitted to the County Treasurer and is missing. Additionally, 2 receipt slips were missing. Both copies of these receipt slips were removed from the manual receipt slip book and could not be explained.
- Checks are not restrictively endorsed when received. The County Treasurer applies the restrictive endorsement following transmittal.

As a result of these poor receipting and transmitting procedures, it is not possible to determine if all receipts were properly handled. As indicated, at least \$99 is missing.

Failure to implement adequate receipting and transmitting procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected.

Recommendation

The County Clerk account for the numerical sequence of receipt slip numbers, and restrictively endorse checks at the time of receipt.

Auditee's Response

Numerical receipt slips have always been used for monies collected for plat book fees, notary fees, etc. Going forward, the numerical sequence of receipt slip numbers will be accounted for, each monthly report will include the receipt slip number for each transaction, and all checks received will be immediately endorsed and submitted to the County Treasurer on a daily basis. The new procedures will ensure that all monies have been transmitted to the County Treasurer.

7. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

7.1 User accounts

The County Clerk has not fully established controls for maintaining user accounts for accessing system resources. As a result, accounts assigned to former employees are not always removed timely.

Without effective procedures to remove access, terminated employees could continue to have access to critical or sensitive resources or have opportunities to sabotage or otherwise impair county operations or assets. The failure to remove access for all terminated employees on a timely basis increases the risk of unauthorized access and may compromise the confidentiality and integrity of county data.

7.2 Passwords and user identification

The County Assessor, County Clerk, Sheriff, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically to help ensure they remain known only to the

New Madrid County
Management Advisory Report - State Auditor's Findings

assigned user. Officials and employees in the offices of the Recorder of Deeds, Sheriff, and Public Administrator are not required to have a minimum number of characters in the passwords. In addition, the County Assessor and his employees share the user identification and password for certain computers in his office.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords do not have to be periodically changed or contain a minimum number of characters in certain offices and are shared by employees in one office, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be unique and confidential and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

Recommendations

The County Commission work with other county officials to:

- 7.1 Ensure user access is promptly deleted following termination of employment.
- 7.2 Require confidential passwords for each employee that contain a minimum number of characters, and are periodically changed to prevent unauthorized access to county computers and data.

Auditee's Response

The County Clerk and County Commission provided the following responses:

- 7.1 *Procedures will be implemented to delete user access following termination of any employee.*
- 7.2 *Procedures will be implemented to require confidential passwords that contain a minimum number of characters and are changed on a quarterly basis at a minimum.*

The Sheriff provided the following response:

- 7.2 *In October 2020, we implemented procedures to ensure passwords are periodically changed by the user and contain a minimum number of characters.*

8. Sunshine Law

The county's procedures for complying with the Sunshine Law and maintaining minutes of meetings need improvement. The County Commission generally met 2 times a week during the year ended December 31, 2019.

New Madrid County
Management Advisory Report - State Auditor's Findings

Minutes of County Commission meetings do not contain sufficient detail of actions taken and are not signed by the County Commissioners to indicate their approval. Agendas usually state "APPROVAL OF MINUTES" and "APPROVAL OF EXPENDITURES." Meeting minutes typically contain the generic statements: "Minutes of the previous meeting were approved by the Commission" and "Now comes Clement Cravens, Clerk of the County Commission, and presents to this Commission the accounts payable of this County, and the Commission having examined said accounts, hereby approves same and orders payment of said accounts against the several funds of New Madrid County, Missouri." As discussed in MAR finding number 2.1, there is no documentation to support which disbursements were approved at each meeting.

Minutes reviewed from January 2019 through May 2020 included 17 instances in which the County Commission signed contracts, made bid decisions, appointed members to various county boards, authorized purchases, and authorized the hiring of a part-time employee, but the minutes did not indicate any votes taken on these actions. In addition, the minutes provided from January 3, 2019, through September 19, 2019, were not signed by the County Commission. The County Commission began signing minutes in September 2019 when we brought this to the Commission's attention.

Section 610.020.7, RSMo, requires minutes of meetings be maintained as a record of business conducted and to provide an official record of actions and decisions, including the date, time, place, members present, members absent, and a record of any votes taken. The minutes should provide sufficient details of discussions to demonstrate compliance with statutory provisions and support important decisions made. The meeting minutes should be signed by the preparer and subsequently approved by the County Commission to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings.

Recommendation

The County Commission ensure meeting minutes include all necessary information and are signed by the preparer and the County Commission.

Auditee's Response

Minutes of the previous County Commission meeting are now reviewed and signed at the next meeting by the County Commission and changes or addendums are made as needed.

9. Electronic Communication Policies

The county has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

New Madrid County Management Advisory Report - State Auditor's Findings

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.¹

Development of written policies to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law.

Recommendation

The County Commission work with other county officials to develop written records management and retention policies to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will review the Secretary of State Records Services Division electronic communications guidelines and develop written policies to address the use of electronic communications in county offices.

10. Senate Bill 40 Board Cash Reserves

The Senate Bill 40 Board has accumulated a significant cash reserve without any specific plans for its use.

The Board's cash balance at December 31, 2019, totaled approximately \$356,000. This balance, based on previous spending, represents approximately 6 years of payments to nonprofit organizations and other disbursements. Despite the significant cash balance, the Board continues to propose a property tax rate at or slightly less than the maximum rate allowed.

Accumulating an excessive cash balance with no specific long-term plans for use of these monies puts an unnecessary burden on taxpayers. The Board should determine future needs, and consider reducing future tax levies if a specific use for the cash reserves is not determined. Pursuant to Section 205.971, RSMo, the County Commission is given the taxing authority to levy a property tax rate to provide services for the developmentally disabled. Thus, the County Commission should review the necessity of the tax levy rate proposed by the Board.

Recommendation

The Senate Bill 40 Board work with the County Commission to evaluate funding needs and consider reducing the property tax levy. If plans have been

¹ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed August 27, 2020.

New Madrid County
Management Advisory Report - State Auditor's Findings

made for expending the accumulated cash balance, such plans should be set forth publicly in the budget document.

Auditee's Response

We agree with this finding and would like to take this opportunity to explain the source of some of our increase, as well as address steps we plan to take immediately to offer additional client funding and services to the agencies we currently assist. The Senate Bill 40 Board beginning balance for January 1, 2020, was \$356,268. The beginning balance for January 1, 2018, was \$180,009. The Board has received \$187,500 in New Madrid County client service revenue since 2018, which has significantly increased our cash balance.

In order to expend some of the excess cash balance, the Board will earnestly look for ways to develop new services for New Madrid County residents and to improve existing services for our residents. Due to the state putting a hold on funding some services for clients, we have found that some residents are on an indefinite waiting list for funding for needed services. The Board will look into funding more client services for these individuals to fill the gap in service funding. In addition, the Board will reach out to service provider agencies to determine if there is a need that could be filled to either start new services in our area or to improve existing services. We intend to give financial support to these agencies to help them provide the needed services to our county residents.

In light of this audit finding, the Board will evaluate the funding needs of the citizens of this community and provide appropriate assistance where possible.

New Madrid County

Organization and Statistical Information

New Madrid County is a county-organized, third-class county. The county seat is New Madrid.

New Madrid County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 63 full-time employees and 2 part-time employees on December 31, 2019.

In addition, county operations include the Senate Bill 40 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2020	2019
Mark Baker, Presiding Commissioner	\$	43,226
Bobby H. Aycock Jr., Associate Commissioner		41,226
Don Day, Associate Commissioner		41,226
Kim St. Mary Hall, Recorder of Deeds		62,464
Clement Cravens, County Clerk		62,464
Andrew Lawson, Prosecuting Attorney		140,666
Terry M. Stevens, Sheriff		69,405
Steve Riley, County Treasurer		62,464
George DeLisle, County Coroner		22,210
Paula Scobey, Public Administrator		62,464
Dewayne Nowlin, County Collector (1), year ended February 29,	87,328	
Jacob Johnson, County Assessor, year ended August 31,		62,464

(1) Includes \$24,864 of commissions earned for collecting city and drainage district property taxes.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Clay County - County Collector

Tax Sale Services	The County Collector's office did not properly procure tax sale services, always ensure amounts paid for those services were in accordance with the contract rates, or maintain adequate supporting documentation for disbursements to the vendor.
Tax Billing and Collection Services	Written contracts could not be located for one city and one village for tax billing and collection services.
Tax Maintenance Fund Disbursements	The County Collector authorized disbursements from the Tax Maintenance Fund to the National Tax Lien Association for event sponsorships, general advertisements in event programs, and donations totaling \$5,000 that do not appear to be necessary and beneficial to the administration and operation of the County Collector's office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Collector
Clay County, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit Clay County. We have audited certain operations of the Clay County Collector in fulfillment of our duties. The county engaged RSM US LLP to audit the county's financial statements for the year ended December 31, 2018. To minimize duplication of effort, we reviewed the firm's audit report for the year ended December 31, 2017, since the report for the year ended December 31, 2018, had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the County Collector's internal controls over certain management and financial functions.
2. Evaluate the County Collector's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

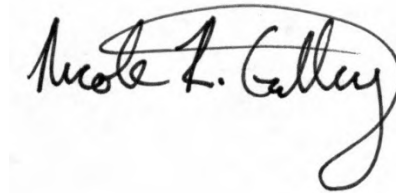

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and was not subjected to the procedures applied in our audit of the County Collector.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Clay County Collector.

Additional audit reports of various elected officials and Clay County as a whole are still in process, and any additional findings and recommendations will be included in subsequent reports.

Clay County County Collector Management Advisory Report - State Auditor's Finding

1. Tax Sale Services

The County Collector's office did not properly procure tax sale services, always ensure amounts paid for those services were in accordance with the contract rates, or maintain adequate supporting documentation for disbursements to the vendor.

The County Collector executed a contract in 2017 with a State of Louisiana vendor to provide tax sale services. The Collector authorized payments to the vendor totaling \$116,882 and \$83,895 during 2018 and 2019, respectively, from the General Fund, Tax Maintenance Fund, and Collector's Tax Sale account. The County Collector included the vendor's fees with the purchase price of the property and other fees at the County Collector's annual sale of properties with delinquent property taxes.

Vendor procurement

The County Collector did not solicit proposals for tax sale services as required by county code and state law. The County Collector indicated she discussed the services with several potential vendors and chose the vendor who offered the ability to incrementally include additional services for parcels. While the County Collector prepared a summary comparison of the prices and services from her discussion with 3 vendors, the County Collector did not advertise for bids or prepare a request for proposal. The County Collector also indicated that proposals were not needed because the contract terms were part of a cooperative agreement. However, the contract only contained a general certification from the vendor that the payment terms provided to Clay County were the same as those offered other government entities using competitively negotiated pricing and did not indicate the other government entities, and the contract did not reference a cooperative agreement.

Section 50.660, RSMo, requires contracts be let to the lowest and best bidder after due opportunity for bidding, including advertising, for bids, except that advertising is not required for expenditures less than \$6,000. Additionally, County Code Section 37.39 requires a formal request for proposal process for soliciting professional services, and Sections 37.36 and 37.37 outline required procedures and documentation for the use of cooperative agreements procured by other public entities and sole source purchases, respectively. Routine use of a competitive procurement process for major purchases ensures the county has made every effort to obtain the best and lowest price and all interested parties are given an equal opportunity to participate in county business. Documentation of the various proposals received, the selection process, and the criteria used should be retained to demonstrate compliance with applicable laws or regulations and support decisions made.

Invoices

The County Collector did not always ensure invoiced amounts were appropriate prior to payment. For example, a December 2017 invoice for \$33,000 indicated only that the costs were for "Administrative Tax Sale Costs." The County Collector generally uses tax sale fee records to ensure amounts invoiced are accurate, but did not maintain those records for this

Clay County
County Collector
Management Advisory Report - State Auditor's Findings

sale, and therefore, could not verify the invoiced amount. The invoice was paid January 2018 from the county General Fund. After we requested additional supporting documentation for this transaction, the County Collector contacted the vendor who determined the amount paid was a prepayment that had not been applied to billings for subsequent services as intended, and consequently a \$33,000 credit is now due the county.

The County Collector also did not always ensure invoiced rates agreed to contract terms. For example, an August 2018 invoice paid from the Tax Maintenance Fund (TMF) included charges for skip tracing¹ for 631 units at \$50 per unit (\$31,550) when the contract fee schedule priced skip tracing at \$40 per unit. An October 2019 invoice, also paid from the TMF, included charges for public records research on 519 properties at \$95 per property (\$49,305) when the contract fee schedule priced those services at \$75 per property. According to the County Collector, some of the vendor rates were modified to account for differences between the vendor's various services, the special needs of her office, and the unique requirements of Missouri law for tax sales; however, the contract was not amended to reflect these changes.

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing, and County Code Section 37.78 requires quantities and price billed to be verified before invoices are authorized for payment. Without adequate detail supporting summarized invoice amounts, the County Collector cannot ensure services are provided in accordance with the contract terms and at the proper rates, and that the costs are properly reimbursed by tax sale purchasers. Also, to ensure compliance with contract terms, disbursements to the vendor should be made at the rates contained in the contract and any modifications to contract rates should be documented in a contract amendment.

Recommendation

The County Collector ensure professional services are procured in accordance with state law and county code. In addition, the County Collector should ensure adequate supporting documentation is maintained for all disbursements to ensure invoiced amounts are appropriate prior to payment and/or rates charged are in accordance with the tax sale services contract, and contracts should be amended when terms change.

Auditee's Response

The due diligence compliance provided by CivicSource is statutory in nature and is not a purchase or a traditional "professional service" subject to purchasing guidelines. Due diligence compliance cannot be arranged based on any factor other than the ability of the provider to strictly follow Chapter 140, RSMo, and ensure due process to Clay County taxpayers and investors. Furthermore, the County cannot enter into a traditional contract on behalf of

¹ Skip tracing is the process of locating a property owner's whereabouts to provide notice about the sale of his or her property.

Clay County
County Collector
Management Advisory Report - State Auditor's Findings

the Collector when seeking these services, as statutory compliance cannot be negotiated.

All payments to CivicSource were reimbursements for actual costs incurred in the process of complying with the pre- and post-sale due diligence requirements of Chapter 140, RSMo. A listing of the available services and applicable costs were provided to the Collector in writing every year, and all services were billed and paid according to that schedule. Any reference to alternate fee structures come from the contract CivicSource offered to Benton County, Louisiana. Although Clay County was given the same competitive tier of pricing as given to Benton County, Missouri law requires different services than Louisiana law, thus pricing, while similar in nature, is not identical in dollar amount.

The fees referenced by the auditor above all comported precisely with the written fee schedule, as adjusted each year according to need. All costs were originally attached to a tax bill before they were reimbursed to CivicSource, and every invoice was tied directly back to each individual charge before payment. CivicSource was not paid any money other than reimbursement for statutorily-required compliance.

Despite the fact that no traditional purchasing principles or laws apply to such an arrangement, the Collector did interview and compare multiple candidates with qualifications to complete the necessary statutory requirements on behalf of the Collector. Documentation of this research, together with a detailed analysis, has been provided to the auditor. The Collector also obtained a written guarantee from CivicSource that Clay County was receiving the same industry standard pricing and terms as all other public entities.

The payment of \$33,000 at the end of 2017 was supposed to be held in escrow in anticipation of amounts to be billed in connection with the 2018 sale. It appeared to the office of Collector that appropriate credit had been given for that escrowed amount, but our record keeping was in error. That deficiency has now been corrected with CivicSource. Proper credit has and will be given as additional due diligence is completed.

Despite the inapplicability of purchasing law, the office of Collector will provide all documentation of its arrangement with CivicSource to the county purchasing department or Commission for review.

Auditor's Comment

The County Collector's response states that purchasing guidelines do not apply because the services provided by the vendor are statutory (i.e., meet the statutory requirements for a Missouri tax sale). However, state law and county code do not provide exceptions for procurements related to statutorily-required operations, such as tax sales. Therefore, such services should be

Clay County
County Collector
Management Advisory Report - State Auditor's Findings

procured in accordance with state law and county code. Additionally, the County Collector's response states the vendor adjusted fees annually, and all services were paid in accordance with the adjusted fee schedule. However, as noted in the finding, the contract was not amended for the adjusted rates.

2. Tax Billing and Collection Services

Written contracts could not be located for one city and one village for tax billing and collection services. City and village officials also were unable to locate copies of the contracts. Collections for these two political subdivisions totaled approximately \$48,000 during the year ended February 28, 2019. Additionally, a contract for another city had not been updated to reflect a reduction in the payment terms made in 2012. The County Collector's office collected approximately \$420 million in property taxes and other monies during the year ended February 28, 2019, including about \$56 million for 21 cities and villages located within the county.

Section 50.332, RSMo, allows county officials, subject to the approval of the county commission, to perform tax collection services for cities they normally provide to the county. Section 432.070, RSMo, requires all such contracts to be in writing. Clear, detailed, and timely written contracts are necessary to ensure all parties are aware of the services to be performed and the compensation to be paid for the services.

Recommendation

The County Collector work with the County Commission to obtain current written contracts with the cities and villages for property tax collections.

Auditee's Response

Resolution 2012-188 of the Clay County Commission authorized the Collector to offer every city in Clay County a form contract, which form and content were attached to the resolution and approved. The written contracts on file in the Clerk's office pre-date this authorization by the Commission, and did not yet apply to every city in Clay County. After the date of that resolution, the Collector, working together with County Counsel, did offer the same terms and conditions as authorized by the Commission to every city in Clay County and has continuously performed such services with the approval of the Commission. All contracts perpetually renew at the request of both parties.

Despite the validity of the current contractual arrangements with every city, the office of Collector will seek to obtain new contracts with every city beginning in 2021.

3. Tax Maintenance Fund Disbursements

The County Collector authorized disbursements from the Tax Maintenance Fund (TMF) to the National Tax Lien Association (NTLA) for event sponsorships, general advertisements in event programs, and donations totaling \$5,000 that do not appear to be necessary and beneficial to the administration and operation of the County Collector's office. According to the County Collector, the disbursements supported the legislative lobbying efforts of the NTLA and helped attract potential investors to Clay County tax

Clay County
County Collector
Management Advisory Report - State Auditor's Findings

sales. Disbursements from the TMF totaled about \$703,000 and \$507,000 during 2018 and 2019, respectively.

Section 52.315, RSMo, indicates the TMF is to be used for costs related to training, information technology, equipment, and other essential administrative expenses necessary to carry out the duties and responsibilities of the office of the County Collector. Since the payments to the NTLA do not appear to fit into any of these categories, the disbursements may not be an appropriate use of TMF monies. Public funds should be spent only on items necessary and beneficial to the county. Citizens have placed a fiduciary trust in their public officials to spend county monies in a prudent and necessary manner.

Recommendation

The County Collector ensure all disbursements from the TMF are necessary and beneficial for the County Collector's office and are a prudent use of taxpayer funds.

Auditee's Response

The National Tax Lien Association provides many invaluable services to tax collectors throughout the United States. Specifically, it offers training in antitrust law, monitoring of legislative and judicial trends that might affect all tax sales, professional association for collectors to obtain additional perspective on particular issues in their jurisdictions, a certification program for tax lien professionals, and a standardized code of ethics to present to investors. These and so many other benefits provided to the office of Collector are and continue to be invaluable, and to fit well and fully into the statutory authority of the Collector to use the Tax Maintenance Fund for training and essential expenses. The Clay County tax sale is extraordinarily complex—more complex than the sale of any other statutory county in Missouri. The training, guidance, legislative and judicial awareness, and professional resources provided by this organization represent one of the best possible uses of the Tax Maintenance Fund. The homeowners and investors that participate in the Clay County tax sale have benefitted tremendously from the commitment to ethics, expertise, and education provided to the Office of Collector by the National Tax Lien Association.

The references to total expenditures from the Tax Maintenance Fund in 2017 and 2018 have nothing to do with the recommendation regarding the National Tax Lien Association. Payments to the National Tax Lien Association were only \$6,100 total for those two years. The rest of the payments from the Tax Maintenance Fund were for salaries, software maintenance, technology purchases, phone and web services, and other essential needs in the Office of Collector, as authorized by statute.

Auditor's Comment

The audit finding is not questioning the services provided by the NTLA. The finding takes exception with TMF disbursements to the NTLA for event sponsorships, general advertisements, and donations because they are not related to necessary services for the County Collector's office, and therefore, may not be allowable or beneficial disbursements from the TMF.

Clay County

County Collector

Organization and Statistical Information

The County Collector bills and collects property taxes for the county and some local governments and conducts annual tax sales in accordance with Chapter 140, RSMo. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29). Property taxes and other monies collected by the Clay County Collector's office totaled approximately \$420 million during the year ended February 28, 2019.

Lydia McEvoy, County Collector, began serving her third 4-year term effective March 1, 2018. She received a salary of \$77,106 for the year ended December 31, 2018. The County Collector's office employed 2 deputy collectors, 1 bookkeeper, 1 assistant bookkeeper, 1 office manager, and 6 cashiers on December 31, 2018. In addition, the County Collector's office employed 3 temporary workers to help during the busy season.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the review of 2020 Property Tax Rates

Background	Property taxes largely fund public schools and are the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.
Rate Calculations	Rate ceilings set the limit for the amount of taxes that can be levied. Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis. The 2020 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22, commonly referred to as the Hancock Amendment, which limits taxation by the state and local governments.
Results	In 2020, the State Auditor received supporting data and reviewed 4,840 property tax rates for 2,802 taxing authorities. Of the rates reviewed, 503 are debt service tax rates, 110 are new property tax rates approved by voters, and 42 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,185 tax rates for revenue neutrality. This is the sixth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the tax rate certified.
Additional Comments	The State Auditor's Office has no authority to determine or review individual tax assessments. All individual tax assessment matters are the responsibility of the county assessor and board of equalization. Appeals to the state on tax assessment matters are handled by the Missouri State Tax Commission.

Because of the nature of this review, no overall rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The State Auditor's Office is required by Section 137.073, RSMo, to annually review local property tax rates of all taxing authorities in the state. The primary objectives of this review were to determine whether:

1. Local governing boards levied taxes in accordance with the Missouri Constitution and state law.
2. Local property tax rates were adjusted to ensure property reassessments were revenue neutral.

Reassessments of existing property are not intended to increase property tax revenue but to equitably reallocate the existing tax burden based on the relative value of property owned by taxpayers.

For 2020, we received supporting data on 4,840 property tax rates of 2,802 taxing authorities. This is the sixth year since the State Auditor's Office started reviewing property tax rates that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Property taxes are the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The bulk of property taxes, however, fund public schools. General acceptance of these taxes is dependent on fair and equitable assessment practices and public understanding and input regarding the setting of rates. If the tax burden is increased without voter approval, confidence in the fairness and assessment practices can be eroded.

2020 Property Tax Rates Results

Summary

The State Auditor received supporting data and reviewed 4,840 property tax rates for 2,802 taxing authorities.¹ Of the rates reviewed, 503 are debt service tax rates, 110 are new property tax rates approved by voters, and 42 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,185 tax rates for revenue neutrality. This is the sixth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Methodology

The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

The 2020 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22 (commonly referred to as the Hancock Amendment). Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis.

To ensure taxing authorities do not receive a windfall from reassessment, the review of property tax rates begins with the prior year allowed revenue. Current year tax rate ceilings must be set to yield the same gross revenue as allowed in the prior year. In addition, an adjustment is made for additional revenue permitted for assessment growth. That adjustment is the lower of (1) the actual growth rate, (2) the inflation rate as determined by the consumer price index, or (3) 5 percent. Factors such as new construction and improvements, newly added territory, newly separated territory, and changes from locally assessed to state assessed property also affect the tax rate ceiling calculation. Counties and the City of St. Louis use the tax rates set by each taxing authority to levy taxes on all property including new construction and improvements.

Voters may authorize increases beyond the annual revenue neutral tax rate ceiling. Voter-approved increases are reviewed for compliance with applicable laws and stated ballot restrictions. In addition to reviewing new and existing property tax levies for revenue neutrality, the State Auditor's

¹ Two taxing authorities, Kingsway Center Special Business District and Village of Hartsburg, did not complete the certification process timely. As a result, the City of St. Louis and Boone County, respectively, elected not to process the tax rates. Therefore, these tax rates and taxing authorities are not included in this report.

2020 Property Tax Rates Results

Office also reviews debt service tax rates. A tax levied to meet the annual debt service requirement is compliant if the revenue to be generated plus the existing fund balance does not exceed the current payment requirements plus a reserve for the following year's payments.

Sections 137.073.5(3) and 137.073.5(4), RSMo, provide that a voluntary reduction taken in a non-reassessment year (even numbered year) results in a reduced tax rate ceiling during the following reassessment year (odd numbered year). These provisions also allow taxing authorities that voluntarily reduce a tax rate in a previous even numbered year to reverse the impact of the voluntary reduction to reinstate a higher tax rate ceiling in the following even numbered year. To increase the tax rate in the following even numbered year, the taxing authority must conduct a public hearing, and adopt an ordinance, a resolution, or a policy statement justifying its action before setting and certifying its tax rate.

Section 137.073.6(3), RSMo, allows a taxing authority to submit amended tax rate forms to the State Auditor's Office in the event the taxing authority incorrectly completed the forms or made clerical errors. These changes are factored into the current year's tax rate ceiling calculation.

A taxing authority's total assessed valuation submitted by the county clerk or a representative of the taxing authority is used in the State Auditor's Office review of property taxes. The State Auditor's Office does not review the assessed valuation of individual pieces of property. Chapter 138, RSMo, governs the appeals process for assessed valuations. Citizens may appeal their individual assessed valuations calculated by the county assessor to the local Board of Equalization. Citizens not satisfied with the resolution by the Board of Equalization may appeal the decision to the Missouri State Tax Commission. Any decision of the Missouri State Tax Commission may be reviewed by a court of law.

As assessed valuations increase, tax rate ceilings generally decrease, depending on the amount of the increase, to produce substantially the same amount of revenue as allowed in the prior year. As assessed valuations decrease, tax rate ceilings may increase to produce substantially the same revenue as allowed in the prior year from existing property, limited by voter authorization. See Appendixes I and II for a summary of the changes in assessed valuation by type of taxing authority, and Appendixes III and IV for a summary of changes in tax rate ceilings by type of taxing authority. In addition, Appendix V is a map that provides a statewide geographical perspective of total county valuation changes prior to adjustments for new construction and reassessment. The total assessed valuation is the value used to bill the property tax rates. Appendix VI is a map of the adjusted assessed valuation by county. The adjusted assessed valuation is the value of last year's property in the current year. This map reflects the inflationary change in each county's valuation from the previous year. A significant inflationary change

2020 Property Tax Rates Results

generally indicates a major reassessment occurred. However, 2020 assessed valuations indicate the majority of county adjusted assessed valuation changes were less than the consumer price index, which does not indicate a major reassessment increase. The comparison of assessed valuations and tax rate ceilings from 2019 to 2020 for Appendixes I through VI give consideration to revisions submitted by taxing authorities to the State Auditor's Office for changes to assessments occurring after setting the 2019 property tax rate.

Taxing authorities are listed by primary county (as designated by the taxing authority when established) in Appendixes VII and VIII and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). A taxing authority located in more than one county is listed under the primary county only. The assessed valuations presented for taxing authorities in Appendixes VII and VIII, except school districts, include all taxable locally assessed and state assessed property. The assessed valuations presented for school districts include only taxable locally assessed property. The abated portions of property valuations that are not taxable under various economic development programs are omitted from the taxable assessed valuations used to compute the annual tax rate ceiling. Prior years' tax rate reports are available on the State Auditor's website at auditor.mo.gov.

We do not review sales tax rollbacks required by law for some county levies as part of this report. Any concerns in that area would be addressed in audit reports we issue for individual counties. Sales tax (Proposition C) rollbacks for school levies were subjected to a limited review to ensure the district did not waive all or part of the rollback without voter approval in order to generate additional local revenues. A majority of the 516 school districts have obtained voter approved waivers of the required sales tax rollback of their property tax, including 466 with a full waiver and 25 with a partial waiver. Appendixes VII and VIII indicate the 491 school districts that have either full or partial waivers of Proposition C reductions.

LEGEND:

- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
- B A voter approved increase or decrease to an existing levy.
- C Levy includes a recoupment rate authorized by state law.
- D School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to \$0.0000 and levy up to its calculated tax rate ceiling.
- E School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect \$2.7500 or the amount stated on the ballot.
- F Article X, Section 11(g) of the Missouri Constitution allows the Kansas City 33 School District School Board to set its tax levy at a rate that is lower than the court-ordered rate for the 1995 tax year (which was \$4.96). The rate so established may be changed from year to year by the School Board.

NOTES:

Taxing authorities are listed by primary county and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). When a taxing authority is in more than one county, it is listed under the primary county only.

Appendix VII
 2020 Property Tax Rates
 Listing of 2020 Tax Rates for Local Governments Levying a Single Tax Rate on All Property

Political Subdivision	Purpose	Assessed Value	Ceiling	Levied	Revenue	Expiration Year
-----------------------	---------	----------------	---------	--------	---------	--------------------

This Appendix does not list taxing authorities that levied a separate tax rate for each subclass of property. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Taxing authorities partially in St. Louis County, whether the primary county is St. Louis County or another county, are required to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VIII for a listing of taxing authorities that calculated separate tax rates for each subclass of property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue amount shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.

																\$	<u><u>1,588,751,673</u></u>

Legend:

- A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
- B A voter approved increase or decrease to an existing levy.
- C Levy includes a recoupment rate authorized by state law.
- D School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to \$0.0000 and levy up to its calculated tax rate ceiling.
- E School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect \$2.7500 or the amount stated on the ballot.

Notes:

This Appendix contains levy information for political subdivisions wholly in St. Louis County and the City of Gladstone in Clay County. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Political subdivisions partially in St. Louis County and partially in another county(ies) were also required by previous legislation to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VII for a listing of taxing authorities that calculated a single tax rate to apply to all property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 89 political subdivisions required to file a financial report by October 31, 2020, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in October 2020, after their filing deadline. The filing status for these 9 entities is presented in summary on page 3 and by individual entity in Appendix B-E.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

October 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 89 political subdivisions, other than cities, towns, and villages, with a fiscal year end of April 30, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 89 political subdivisions, 82 filed an annual financial report timely.

This report also includes the filing status for 9 political subdivisions, other than cities, towns, and villages, that filed their financial report in October 2020, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by October 31, 2020, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 17 cities, 1 town, and 4 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in October 2020, after their filing deadline. The filing status for these 39 cities and 9 villages is presented in summary on page 4 and by individual entity in Appendixes B to F.

Monthly Report on Municipal Court and Revenue Filings

October 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 17 cities, 1 town, and 4 villages with a fiscal year end of April 30, 2020, whose financial report was due by October 31, 2020. Of the 22 municipalities, 13 filed the financial report timely. Of the 16 municipalities required to file an addendum, 4 filed timely. Of the 9 municipalities required to file a certification, 4 filed the certification timely.

Monthly Report on Municipal Court and Revenue Filings
October 2020
Executive Summary

This report includes the filing status for 39 cities and 9 villages that filed at least one of the items (financial report, addendum, or certification) in October 2020, after their filing deadline. Of these municipalities, 17 filed an annual financial report, 29 filed an addendum, and 7 filed a certification.

Financial Status	5

NICOLE GALLOWAY, CPA

Missouri State Auditor

Mr. Brent Beumer, Chairman & Executive Director
and
Board of Directors
Salt Lick Road Transportation Development District

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On September 8, 2020, the Board of Directors of the Salt Lick Road Transportation Development District formalized its intent to dissolve the district and requested an audit as required by statute. The State Auditor was subsequently notified of this request.

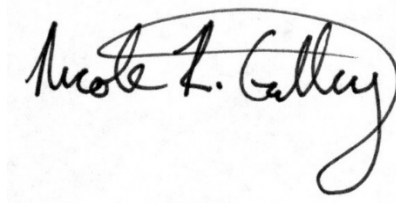

The district engaged Hochschild, Bloom & Company LLP, Certified Public Accountants (CPAs) to audit the district's financial statements for the year ended December 31, 2019. To minimize duplication of effort, we reviewed the report of the CPA firm. The scope of our audit included, but was not necessarily limited to, the fiscal year ended December 31, 2019 and the period from January 1 through August 31, 2020. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; interviewing a district official, as well as certain external parties; and testing selected transactions. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The audit determined the district's Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Salt Lick Road Transportation Development District.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is written in a cursive style with a large, looping "G" at the end.

Nicole R. Galloway, CPA
State Auditor

Salt Lick Road Transportation Development District

Introduction

Background

The Salt Lick Road Transportation Development District is located in St. Charles County, in the City of St. Peters. The district was organized in May of 2003 by petition of the property owner and filed with the Circuit Court of St. Charles County. The members of the Board of Directors consist of representatives of owners of real property within the district. The district has a fiscal year end of December 31 and obtained independent audits annually.

On July 2, 2003, the Board of Directors passed a resolution formally approving a 1 percent sales tax on all taxable transactions within the boundaries of the district for 40 years unless terminated sooner, subject to approval by the qualified voter. On July 23, 2003, the qualified voter¹ of the district approved the sales tax. On October 12, 2004, the Board imposed the sales tax. The retail establishments within the district collected and remitted the sales tax to the City of St. Peters until 2010. Starting in 2010, due to a state law change, those establishments began remitting the tax collections to the Missouri Department of Revenue and the department disbursed them to the district. The sales tax was subsequently terminated on March 31, 2020.

The district was formed for the purpose of improving Salt Lick Road and Veterans Memorial Parkway with the construction of a new intersection and other road improvements in the city. A portion of the district project was intended to be merged into the state highways and transportation system. The Missouri Highways and Transportation Commission has jurisdiction over this state transportation project and served as the Transportation Authority. In addition, a portion of the district project is not part of the state highway and transportation system. The City of St. Peters has jurisdiction over this portion of the project and served as the Local Transportation Authority. The project was completed in 2004.

In September 2020, the district Board formalized its intent to dissolve the district. A district official subsequently advised the State Auditor's Office (SAO) of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. That law also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

¹ The only qualified voter in the district was the developer/property owner, Summit Pointe L.C.

Salt Lick Road Transportation Development District

Management Advisory Report

State Auditor's Findings

Financial Status

The district satisfied its note debt in October 2019. As of August 31, 2020, the cash balance of the district was \$181,760 (see below). As of August 31, 2020, the district was indebted \$4,467 for legal services performed. As of September 29, 2020, the additional fees for legal services to be provided to abolish the district are estimated at \$2,775. There are no pending, threatened, or unasserted claims or assessments against the district according to district legal counsel. District officials confirmed the district is not insolvent, in receivership or under the jurisdiction of the bankruptcy court.

Based on our audit of the Salt Lick Road Transportation Development District, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of October 2020 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March and April 2020, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In October, the state spent \$188.5 million from federal COVID-19 assistance (Appendix A). Through the end of October, the state has received \$3.01 billion and spent \$1.51 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. The majority of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$340 million) and funding passed through to counties and the City of St. Louis (\$521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, and nursing facilities; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, and other disaster relief purposes. In addition, the state is currently using \$250 million of COVID-19 relief funding for cash management needs.

Federal Funding for COVID-19 Response

October 2020

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March and April 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of October 31, 2020, approximately \$18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).
- Not charge premiums that exceed those that were in place as of January 1, 2020.

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
October 2020
Executive Summary

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of October 31, 2020, approximately \$36.2 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population. In early July, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

⁴ U.S. Department of the Treasury, *Coronavirus Relief Fund Guidance for State, Territorial, Local, and Tribal Governments*, September 2, 2020, <<https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Guidance-for-State-Territorial-Local-and-Tribal-Governments.pdf>>, accessed September 25, 2020.

Federal Funding for COVID-19 Response
October 2020
Executive Summary

- Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
- Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
- Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
 - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.

Federal Funding for COVID-19 Response
October 2020
Executive Summary

- Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
- Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 30, 2020, as required by federal law, those funds must be returned to the federal government.

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to June 30, 2021. In May, the OA transferred \$250 million from the stimulus

⁵ U.S. Department of the Treasury, *Coronavirus Relief Fund Frequently Asked Questions*, p.14, October 19, 2020, < <https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Frequently-Asked-Questions.pdf> >, accessed October 30, 2020.

Federal Funding for COVID-19 Response
October 2020
Executive Summary

fund to the General Revenue Fund. No cash management transfers occurred in October.

Under the CARES Act, the state has also been awarded as of October 31, 2020, approximately \$3.17 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$165 million with some of this funding going directly to rural health departments from the federal government.

In October, the state spent \$188.5 million from federal COVID-19 assistance (Appendix A). Through the end of October, the state has received \$3.01 billion and spent \$1.51 billion from this assistance. The majority of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$340 million) and funding passed through to counties and the City of St. Louis (\$521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, and nursing facilities; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendix C.

¹ For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. In October 2020, the fund obtained new receipts but did not make corresponding transfers.

² This fund's negative disbursements in October 2020 reflect movement of disbursements for voter information mailers and postage, previously incurred in September 2020 using Coronavirus Aid, Relief, and Economic Security (CARES) Act funding sources, to a new grant from the Center for Election Innovation and Research (CEIR). The purpose of this grant was to "provide voter education, information, and communication to ensure safe, secure and informed November 2020 elections, particularly in the face of the challenges posted by the COVID-19 pandemic." To ensure timely delivery of the mailers to all registered Missouri households, the Secretary of State initially used available CARES Act funds while awaiting receipt of CEIR grant funds.

¹ During the fiscal year ending June 30, 2020, the Secretary of State used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The Secretary of State receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements.

² The General Assembly has authorized the Office of Administration to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund. As of the end of October, \$250 million has been transferred to the General Revenue Fund.

¹ The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services cannot directly expend any receipted monies from the fund, as it could during the fiscal year ended June 30, 2020.

³ Coronavirus Relief Fund assistance must be returned to the federal government if it is not spent to cover allowable costs incurred by December 30, 2020. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to \$750 million.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

The seal of the Missouri State Auditor is a circular emblem. It features a central shield with a balance scale and a plow. Above the shield is an eagle with spread wings. The text "SEAL OF THE STATE AUDITOR" is written in a circle around the top, and "MISSOURI 1820 1892" is written around the bottom. The motto "UNDER THE EAGLE WE STAND DIVIDED" is inscribed on a ribbon across the middle.

CITIZENS SUMMARY

Findings in the audit of Jackson County Budgets and Transfers

Budgetary Practices

Budgeting procedures need improvement to ensure greater transparency in the budgeting process. The County Legislature, County Executive, Chief Administrative Officer, and Budget Office do not ensure budgets for most county funds reasonably reflect the anticipated financial activity and fund balances. The county significantly underestimated beginning fund balances, underestimated revenues, and/or overestimated disbursements resulting in total actual ending fund balances greatly exceeding total budgeted ending fund balances. Disbursements for most county funds are annually budgeted so that estimated ending fund balances will equal zero, effectively appropriating all available monies to be spent in the current year, regardless of the actual estimated activity for the funds. As a result of poor budgeting, the county's financial position was significantly misstated. The budgeting and coding of some disbursements in the accounting system as non-departmental is inappropriate and reduces the transparency of the spending of public funds. The poor estimates of beginning and ending fund balances resulted in undesignated fund balances that were then improperly transferred by the County Legislature rather than appropriated through the process established by state statute. During the audit period, the County Legislature authorized \$3,117,328 of transfers from these actual undesignated fund balances instead of properly amending the budget. In addition, public hearings were not held prior to the approval/adoption of any of these transfers as required by state law.

Administrative Transfers

Some administrative transfers were made without proper approval, and as a result may have been inappropriate. Administrative transfer forms were not always complete and accurate, and as a result, administrative transfers were made without sufficient documentation or explanation. The County Executive frequently approved administrative transfers that included multiple object codes not exceeding \$10,000, that when accumulated exceeded \$10,000. These multiple-object-code transfers, performed in accordance with current county code, allowed for the purchase of specific goods or services that might have otherwise required legislative approval.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Chairman of the Jackson County Legislature
and
Members of the Jackson County Legislature
and
Frank White, Jr., Jackson County Executive
Jackson County, Missouri

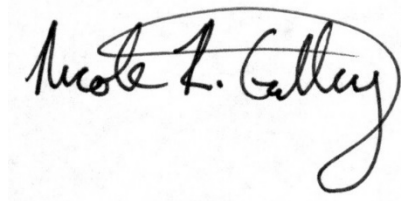

We have audited certain operations of Jackson County - Budgets and Transfers in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of Jackson County in response to a formal request from the Jackson County Legislature. The county engaged BKD LLP, Certified Public Accountants (CPAs), to audit the county's financial statements for the years ended December 31, 2018, and 2017. To minimize duplication of effort, we reviewed the CPA firm's reports. The scope of our audit included, but was not necessarily limited to, the 2 years ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over certain management operations and financial functions related to budgets and transfers.
2. Evaluate the county's compliance with certain legal provisions related to budgets and transfers.
3. Evaluate the economy and efficiency of certain management practices and procedures related to budgets and transfers, including certain financial transactions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Jackson County - Budgets and Transfers.

Additional audit reports of various officials and departments of Jackson County are still in process, and any additional findings and recommendations will be included in subsequent reports.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Jackson County

Budgets and Transfers

Introduction

Background

The State Auditor was requested on February 26, 2018, by the Jackson County Legislature under Section 29.200.3, RSMo, to conduct a performance audit of Jackson County. Our work included reviewing the county's budgetary practices and administrative transfers.

County code allows the County Executive some freedom in the operation of county finances to approve administrative transfers not exceeding \$10,000, and removes the possible burden of the County Legislature to approve all budgeted transfers. However, the County Legislature believed that the County Executive was approving administrative transfers under the \$10,000 threshold to make some purchases without legislative approval. We determined the County Executive approved administrative transfers totaling approximately \$10.2 million for the 3 years ended December 31, 2018, and we have written findings based on our review of these transfers. To support our findings on administrative transfers we included examples of applicable transfer (budget adjustment) forms at Appendix B. To support our findings on budgetary practices we included a Schedule of Revenues, Expenditures, and Changes in Fund Balances - Originally Adopted Budget to Actual for the year ended December 31, 2018, at Appendix A-1 and for the year ended December 31, 2017, at Appendix A-2.

As a result of conflicts with the County Executive in 2017, the County Legislature, passed an ordinance on December 6, 2017, enacting Section 525 of Jackson County Code, establishing reserve funds that require the approval of the County Legislature prior to disbursement of these monies. On December 22, 2017, the County Executive vetoed this resolution, and on December 28, 2017, the County Legislature overrode the County Executive's veto. As a result, reserve fund monies were budgeted in various funds during the year ended December 31, 2018, instead of being budgeted for contingency expenses. Lawsuits were filed between the County Legislature and the County Executive over the appropriateness and validity of the reserve funds, which were later dismissed. The use of reserve funds was repealed by the County Legislature in March 2019. Because reserve funds are no longer in use by the county, we made no recommendation on their appropriateness.

The following provisions of state law, constitutional home rule charter, and county code are significant to our review and are discussed further in the findings reported in the accompanying Management Advisory Report section.

State Law

Section 50.540.4, RSMo, states, "an amount equal to not less than three percent of the total estimated general fund revenues shall be appropriated each year as an emergency fund."

Section 50.550, RSMo, requires the budget to present a complete financial plan for the ensuing budget year and outlines the various information to be included in the budget.

Jackson County Budgets and Transfers Introduction

Section 50.622.1, RSMo, allows budget amendments if additional sources of revenue are received that could not be estimated when the budget was adopted. In addition, Section 50.622.6, RSMo, states, "no charter county shall be restricted from amending its budget under and pursuant to the terms of its charter."

Section 50.630, RSMo, states, "The county commission may authorize the transfer within the same fund of any unencumbered appropriation balance or any portion thereof from one spending agency under its jurisdiction to another; but this action shall be taken only on the recommendation of the budget officer and only during the last two months of the fiscal year, except that transfers from the emergency fund may be made at any time in the manner herein provided."

Constitutional Home Rule Charter

Article VIII, Section 1 of the county's charter requires the County Executive to submit an annual budget to the County Legislature. Section 2 further allows the County Legislature to enact ordinances regarding the "budget and financial affairs."

County Code

Chapter 5, Section 531, fiscal code, states, "The total expenditures proposed for any fund in the preliminary budget or the budget shall be no greater than the estimated income and revenue for that fund."

Chapter 5, Section 532.1, fiscal code, states, "If the County Executive shall propose and the County Legislature shall enact a measure that will provide additional income and revenues, and if the County Executive shall propose additional expenditures, the County Legislature may appropriate an amount equal to not more than ninety-five percent (95%) of the estimated income and revenue from the new source or sources."

Chapter 5, Section 533, fiscal code, states, "The following intra-office transfers are authorized."

- Section 533.1 states "The County Executive, on the recommendation of the budget officer, is authorized to approve and effect a transfer from one (1) appropriation account to another within the same agency in an amount not to exceed ten thousand dollars (\$10,000) when the County Executive determines that any such transfer is necessary or advisable in the efficient administration of that office, department or agency of Jackson County."
- Section 533.2 indicates the County Legislature may by resolution at any time on the recommendation of the County Executive or by resolution with the affirmative vote of six members of the County Legislature, without the recommendation of the County Executive, transfer any unencumbered appropriation balance or any portion of

Jackson County Budgets and Transfers Introduction

that balance from one appropriation account to another within the same agency.

Chapter 5, Section 534, fiscal code, states, "The County Legislature may by resolution authorize the transfer, within the same fund, of any unencumbered appropriation balance or any portion of that balance from one (1) spending agency under its jurisdiction into another."

Chapter 5, Section 570.7, fiscal code, states, "Funds from other parts of the budget cannot be transferred into the Personal Services portion of the budget and funds cannot be transferred between Personal Services accounts, except as noted."

Chapter 5, Section 570.9, fiscal code, states, "Requests for exceptions to any of the above rules must be in writing, and approved by the County Executive and Manager of the Division of Finance. Alternatively, a request for an exception to any provision of the Personal Services Policy may be approved by a resolution that receives the affirmative vote of six members of the County Legislature."

On January 3, 2018, the County Executive made a recommendation to the County Legislature to request a comprehensive audit of the county's fiscal and procurement process by the State Auditor's Office (SAO). The County Legislature agreed with this recommendation and passed Resolution 19745 on February 26, 2018, requesting the State Auditor perform an audit of the county. This request was accepted by the SAO and audit fieldwork started in December 2018. This is the third of several audit reports that will be issued as part of the audit of Jackson County.

Scope and Methodology

The scope of this audit included evaluating (1) internal controls, (2) policies and procedures, and (3) other management functions and compliance requirements in place during the 2 years ended December 31, 2018.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; gathering information regarding budget and transfer policies and procedures through discussions with various current and past county personnel, and reviewing the information obtained; and testing selected transactions. To gain an understanding of legal requirements governing budgets and transfers, we reviewed applicable state laws, the county charter, county code, and written policies and procedures; and interviewed various individuals.

We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the

Jackson County
Budgets and Transfers
Introduction

audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to these provisions.

Jackson County

Budgets and Transfers

Management Advisory Report - State Auditor's Findings

1. Budgetary Practices

Budgeting procedures of the County Legislature, County Executive, Chief Administrative Officer, and Budget Office need improvement to ensure greater transparency in the budgeting process.

The Budget Office is responsible for working with each department to prepare a budget document. The budget is reviewed and approved by the Chief Administrative Officer, and presented to the County Executive for his review and approval. The County Executive then presents the budget to the County Legislature for review and approval. Once the Legislature has adopted the budget, the County Executive has 10 days to accept, deny, or let the budget go into effect without comment. The County Executive has line-item veto power that the Legislature can overrule with a two-thirds majority vote.

According to the county's budget policies, "an annual budget prepared under the modified accrual basis of accounting¹ (except that the encumbrances² are treated as expenditures for budget purposes) is adopted in December prior to the beginning of each fiscal year for all budgeted Governmental Fund Types."

1.1 Budget preparation and disbursements coding

The County Legislature, County Executive, Chief Administrative Officer, and Budget Office do not ensure budgets for most county funds reasonably reflect the anticipated financial activity and fund balances. This weakness reduces the effectiveness of the budget as a tool for monitoring and controlling disbursements, and results in an inaccurate statement of the county's anticipated financial position. The county significantly underestimated beginning fund balances, underestimated revenues, and/or overestimated disbursements resulting in total actual ending fund balances greatly exceeding total budgeted ending fund balances. See Appendix A-1 for 2018 and Appendix A-2 for 2017 budget-to-actual activity based on originally adopted budgets.

The estimated original ending fund balance for the county's 32 funds was \$8,459,835, while the actual ending fund balance was \$114,341,733 at December 31, 2017. The estimated original ending fund balance for the county's 31 funds was \$5,443,528, while the actual fund balance was \$136,519,810 at December 31, 2018.

In addition, revenues were underestimated, disbursements were overestimated, and beginning fund balances were over/underestimated for

¹ The budget glossary defines this as "A basis of accounting in which revenues are recognized in the period in which they become both available and measurable. Expenditures are recognized in the period in which a liability is incurred."

² The budget glossary defines this as "The commitment of appropriated funds to purchase an item or service prior to actual payment. To encumber funds means to set aside or commit funds for a specified future expenditure. Funds are generally encumbered once a contractual obligation has been entered."

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

some specific county funds. For example, in 2017, budgeted revenues for the General Fund were approximately \$84 million and actual revenues were approximately \$87 million, budgeted disbursements were approximately \$92 million and actual disbursements were approximately \$85 million, and the budgeted beginning fund balance was approximately \$8 million and the actual beginning fund balance was approximately \$24 million, all of which contributed to the \$28 million difference in the ending fund balance.

Also, disbursements for most county funds are annually budgeted so that estimated ending fund balances will equal zero, effectively appropriating all available monies to be spent in the current year, regardless of the actual estimated activity for the funds.

During the year ended December 31, 2018, disbursements for 23 of 31 county funds (74 percent) were budgeted to result in the ending fund balance totaling zero. Similarly, during the year ended December 31, 2017, disbursements for 22 of 32 county funds (69 percent) were budgeted to result in the ending fund balance totaling zero.

As a result of poor budgeting, the county's financial position was significantly misstated. The following table presents a comparison of originally adopted budget-to-actual ending fund balances for 4 of the county's funds that had large differences between estimated and actual amounts at December 31, 2017, and 2018:

Year	Fund	Estimated Available Beginning Fund Balance (1)	Actual Beginning Fund Balance (2)	Estimated Available Ending Fund Balance (1)	Actual Ending Fund Balance (2)
2017	General	\$ 8,481,758	24,367,021	0	27,848,949
2018	General	9,983,094	27,848,949	0	51,008,246
2017	Assessment	1,624,695	3,529,169	0	3,680,916
2018	Assessment	1,279,332	3,680,916	0	4,444,577
2017	Special Road and Bridge	6,151,264	15,124,838	0	13,014,721
2018	Special Road and Bridge	5,621,735	13,014,721	0	11,604,844
2017	Community Backed Anti-Crime Tax (COMBAT)	3,111,248	10,233,712	500,000	10,793,248
2018	Community Backed Anti-Crime Tax (COMBAT)	3,442,605	10,793,248	0	11,966,369

(1) Amounts are based on the county's original budget.

(2) Amounts include non-spendable, restricted, assigned, and unassigned fund balance designations.

Deficit fund balance

The county inaccurately reported the beginning fund balance of the Prosecuting Attorney Bad Check Collection Fund in the 2018 budget as \$71,893 (the actual unrestricted fund balance at January 1, 2017) instead of the actual beginning fund balance of \$17,533 at January 1, 2018. As a result

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

of this error, at December 31, 2018, the Prosecuting Attorney Bad Check Collection Fund had a deficit fund balance of \$47,522.

Non-departmental
disbursements

The budgeting and coding of some disbursements in the accounting system as non-departmental is inappropriate and reduces the transparency of the spending of public funds.

Non-departmental disbursements typically include county-wide costs for insurance premiums and claims (including workers' compensation), employee fringe benefits (including sick/vacation payouts and car allowances), professional services (including auditing, legal, lobbying, payroll, and reassessment services), telephone services, software maintenance, building/road/other improvements, equipment, and miscellaneous expenses.

The county annually budgets and codes non-departmental disbursements in the accounting system for 7 different funds using 4 different object codes as shown in the following table:

Fund	Year Ended December 31, 2017		Year Ended December 31, 2018	
	Budget	Actual	Budget	Actual
General	\$ 8,015,924	7,337,564	4,817,251	4,188,733
Health	2,215,074	1,708,486	1,331,697	1,169,852
Assessment	2,131,702	1,296,225	1,786,257	1,392,859
Special Road and Bridge	2,856,015	2,356,584	1,539,731	1,281,812
Community Backed Anti-Crime Tax (COMBAT)	1,165,125	875,037	930,916	782,083
Park	2,313,836	2,008,384	1,857,972	1,562,341
Park Enterprise	679,230	396,139	773,137	374,580
Total	\$ 19,376,906	15,978,419	13,036,961	10,752,260

Object Code				
Employee benefits	\$ 5,928,450	5,299,459	5,302,941	4,347,433
Contractual services	9,624,510	7,119,281	6,329,797	5,410,874
Supplies	134,204	131,415	19,940	19,931
Capital outlay	3,689,742	3,428,264	1,384,283	974,022
Total	\$ 19,376,906	15,978,419	13,036,961	10,752,260

However, some of these disbursements were not non-departmental or countywide disbursements. Our review of 40 disbursements coded to non-departmental object codes during 2017 and 2018, noted 15 disbursements totaling \$588,056 that could have been budgeted and coded to a department other than non-departmental for better transparency as follows:

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

Fund	Department	Description	Amount
Park Enterprise	Construction Services	Trail extension	\$ 164,183
General	Corrections	Flooring repair	116,689
Park Enterprise	Marinas	Flotation replacement	77,584
General	Information Technology	Server remediation	76,608
Park Enterprise	Adair Softball Park	Shade canopies	49,457
General	Kansas City Election Board	Automobile	39,900
Health	Corrections	Video surveillance	30,302
Assessment	Information Technology	Systems and software	9,483
Assessment	Information Technology	Software	9,000
Park	Park Operations	Automobile	4,798 (1)
Special Road and Bridge	Road and Bridge Maintenance	Signage and safety	3,713
General	Collections	Pictures and artwork	2,899
General	14th Street Garage	Garage lease	2,700
General	Collections	4 television wall mounts	528
General	Facilities Management	Solar panel lease	212
Total			\$ 588,056

(1) The remaining cost of the vehicle was properly charged to the Park Operations department.

The practice of paying departmental expenses from non-departmental appropriations makes it more difficult to establish accountability for the true and accurate cost of operating various county departments. This practice limits accountability and transparency over certain county departments.

Conclusion

Section 50.550, RSMo, requires the budget to present a complete and accurate financial plan for the ensuing budget year and outlines the various information to be included in the budget. Realistic projections of the county's uses of funds and fund balances are essential for the efficient management of finances and for communicating accurate financial data to county residents. Underestimating revenues, overestimating anticipated disbursements, significantly over/underestimating beginning fund balances, and budgeting and coding actual departmental disbursements to non-departmental object codes does not allow for responsible and transparent policy making.

1.2 Budget amendments

The poor estimates of beginning and ending fund balances (as noted in section 1.1) resulted in undesignated fund balances that were then improperly transferred by the County Legislature rather than appropriated through the process established by state statute. Undesignated fund balances are the unreserved portion of a fund balance that have not been accounted for in the original budget passed by the county legislature. These funds originate from balances carried over from prior years due to poor budget estimates and zero-balance budgeting that were not accounted for in subsequent budgets. During the audit period, the County Legislature authorized \$3,117,328 of transfers from these actual undesignated fund balances instead of properly amending the budget. In addition, public hearings were not held prior to the approval/adoption of any of these transfers as required by state law.

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

Transfers of undesignated fund balances (not appropriated through the county budget process) totaling \$1,393,469 in 2017 and \$1,723,859 in 2018 were authorized by the County Legislature as follows:

Fund	Year Ended December 31,	
	2017	2018
General	\$ 533,559	820,869
Community Backed Anti-Crime Tax (COMBAT)	387,715	2,226
Special Road and Bridge	0	199,996
Health	0	208,541
Emergency 911 System	0	130,088
Recorder's Technology	0	115,000
Park Enterprise	203,150	0
Sheriff Revolving	269,045	247,139
Total	\$ 1,393,469	1,723,859

State law allows a county to amend its budget when a county receives additional monies that could not be estimated when the original budget was adopted. However, the following are examples of transfers of undesignated fund balances (not appropriated through the county budget process) performed without the existence of additional funds:

Date of Transfer	Fund	Purpose of Transfer	Beginning Undesignated Fund Balance	Amount of Transfer
05/22/2017	Community Backed Anti-Crime Tax (COMBAT)	Corrections seasonal plumbers/supplies	\$ 500,000	385,610
06/19/2017	Park Enterprise	Parks and Recreation pontoon boats	333,467	93,400
10/13/2017	General	Corrections replacement of additional corridor sliding doors	0	533,559
02/26/2018	Emergency 911 System	Unanticipated expenditures for "911" emergency telephone services	568,627	130,088
03/19/2018	Sheriff Revolving	Albert A. Riederer Criminal Justice Center office area improvements	468,100	213,681
04/30/2018	Recorder's Technology	Recorder of Deeds, Collection, and Assessment department software updates	0	115,000
06/25/2018	Special Road and Bridge	Ponca Drive and Slaughter Road change order	0	199,996
08/06/2018	General	14th Street Garage and downtown parking lots security improvements	0	315,000
08/27/2018	Health	Outside agency contracts	0	92,672

Section 50.622.1, RSMo, allows budget amendments if a county receives additional monies that could not be estimated when the budget was adopted. In addition, Section 50.622.6, RSMo, states, "no charter county shall be

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

restricted from amending its budget under and pursuant to the terms of its charter." Also, Chapter 5, Section 532.1, of the county code indicates budget amendments must be proposed by the County Executive and enacted upon by the County Legislature. Although Section 50.622.1, RSMo, Section 2 of the Jackson County Charter, and Section 532.1 of county code allow the County Legislature to enact ordinances regarding budget amendments when the county receives unanticipated additional funds, or experiences an unanticipated decline in funds, it does not provide for the County Legislature to transfer funds from undesignated fund balances (not appropriated through the county budget process) instead of properly amending the budget. As a result, when the County Legislature approves these undesignated fund transfers, it is effectively amending its budget without the existence of new revenues, and thus, should follow the same procedures required for adopting the original budget, including holding a public hearing.

Recommendations

The County Legislature work with the County Executive to:

- 1.1 Ensure budgets provide reasonable estimates of anticipated disbursements and ending fund balances; and discontinue deficit budgeting, and budgeting and paying departmental expenses from non-departmental appropriations.
- 1.2 Discontinue authorizing transfers from undesignated fund balances (not appropriated through the county budget process), and ensure budget amendments are only made when the county receives new revenues and public hearings are held for all other budget amendments in accordance with state law.

Auditee's Response

The County Legislature provided a written response. See Appendix C.

The County Executive provided a written response. See Appendix D.

2. Administrative Transfers

Significant improvement over controls, policies, and procedures related to administrative transfers is needed.

Administrative transfers are transfers of monies not exceeding \$10,000 that do not require Legislative approval. The following administrative transfers were made during the 3 years ended December 31, 2018:

Year Ended December 31,	Number of Transfers	Amount of Transfers
2016	857	\$ 5,315,099
2017	631	2,641,550
2018	558	2,253,063
Total	2,046	\$10,209,712

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

Our review of 45 of the 2,046 administrative transfers noted several concerns. Some administrative transfers may have been improper because they were made without proper approval or did not have sufficient documentation or explanation. In addition, several of these transfers included multiple object code transfers of monies not exceeding \$10,000, that when accumulated exceeded \$10,000. These multiple object code transfers allowed for the purchase of specific goods or services and did not require approval of the County Legislature. While these transfers are authorized by county code and policy, the transfers and related purchases were not transparent and give the appearance that the transfers and related purchases were made to avoid approval of the County Legislature. As a result, updates or modifications to the county code and policy may be necessary.

Proper approval

Some administrative transfers were made without proper approval, and as a result may have been inappropriate. We noted 28 of 45 transfers tested (62 percent), totaling \$557,321, lacked proper approval (see Appendix B for examples). The signature of the division manager was not present on 17 forms, the signatures of both the division manager and department head were not present on another 4 forms and the signature of the department head was not present on 1 form. For example:

- On January 21, 2016, 5 multiple-object-code administrative transfers not exceeding \$10,000 were made totaling \$39,996 that were not properly approved. The administrative transfers were only approved by members of the Finance and Purchasing department that processed the transfers and were not properly approved by the division manager and department head. These transfers allowed for the payment of a "County Executive Automobile Purchase" on February 25, 2016, that did not require approval of the County Legislature.
- On August 25, 2016, 6 multiple-object-code administrative transfers not exceeding \$10,000 were made totaling \$30,104 that were not properly approved. The administrative transfers were only approved by members of the Finance and Purchasing department that processed the transfers and were not properly approved by the division manager and department head. These transfers allowed for the payment of an automobile purchase for use by the County Executive's Chief of Staff on September 1, 2016, that did not require approval of the County Legislature.
- On April 4, 2018, multiple-object-code administrative transfers not exceeding \$10,000 were made totaling \$13,179 that were not properly approved by the division manager. These transfers allowed for the payment of information technology services on April 19, 2018, that did not require approval of the County Legislature.

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

In addition, 2 administrative transfer forms for transfers between personal service accounts were not approved by the County Executive. Finally, the Budget Officer's required approval was not present on 2 other transfer forms for transfers between personal service accounts. These transfers allowed for the payment of asbestos remediation and legal services that did not require approval of the County Legislature.

Budget Adjustments/Transfers policy 4.4 requires administrative transfers to have ". . . appropriate signatures (Department Head, Division Manager, County Executive (if salary accounts are involved)." The policy also states, "A standard format should be used to transfer funds among budgeted items (Appendix - Budget Transfer Request Forms). The form will be initiated by the operating department seeking the transfer. It should be approved by appropriate officials: Department Head; Budget Officer and Finance Director."

County code 533.1 states, "The County Executive, on the recommendation of the budget officer, is authorized to approve and effect a transfer from one (1) appropriation account to another within the same agency in an amount not to exceed ten thousand dollars (\$10,000) when the County Executive determines that any such transfer is necessary or advisable in the efficient administration of that office, department or agency of Jackson County."

In addition, county code 570.7 states, "Funds from other parts of the budget cannot be transferred into the Personal Services portion of the budget and funds cannot be transferred between Personal Services accounts, except as noted." County code 570.9 states, "Requests for exceptions to any of the above rules must be in writing, and approved by the County Executive and Manager of the Division of Finance. Alternatively, a request for an exception to any provision of the Personal Services Policy may be approved by a resolution that receives the affirmative vote of six members of the County Legislature."

All required signatures should be present on the administrative transfer forms to ensure all administrative transfers are necessary or advisable and in compliance with county policy and county code.

Transfer forms were
incomplete and inaccurate

Administrative transfer forms were not always complete and accurate, and as a result, administrative transfers totaling \$209,731 were made without sufficient documentation or explanation. Eight of the 45 transfers tested did not include either the balance of the (From) accounts before the transfer, the month-to-date total amount of transfers made from the (To and From) accounts, and/or whether the (To) accounts were new accounts, including the 2 automobile purchases noted above. In another example, on January 28, 2016, 3 multiple-object-code administrative transfers not exceeding \$10,000 were made totaling \$23,988 without sufficient documentation or explanation.

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

These transfers allowed for the payment of new carpet for the Finance and Purchasing department on April 14, 2016, that did not require approval of the County Legislature.

Another administrative transfer form reviewed did not document the reason or purpose of the transfer. In addition, the reasons stated on 2 of the administrative transfer forms reviewed did not fully correspond to the object codes used to make the transfers. For example, one transfer form indicated the transfer was for travel costs of a conference, but the transfer included an object code for software maintenance. The other transfer form indicated it was for software maintenance, but included an object code for the maintenance and repair-buildings account.

Budget Adjustments/Transfers policy 4.4 states, "Administrative approved transfers must be submitted on the appropriate transfer form (Salary or Non-Salary Transfer Form) . . ." Administrative transfer forms require the following information to be documented: (1) the requestor and date of the request, (2) the reason for the transfer, (3) the type of transfer (one-time or annual), (4) the amount of the transfer to be charged to and from various funds, departments, and accounts, (5) the balance of the "from" account before transfer, (6) whether the "to" account is a new account, and (7) the month-to-date total number of transfers made out of the "from" accounts affected by the transfer.

Budget Adjustments/Transfers policy 4.4 further states, "Not more than \$9,999 can be transferred to or from any one account within a calendar month," and "Back to Back (multiple) monthly transfers for the same account (for the same specific purpose) in an amount totaling anything greater than \$9,999 will not be allowed. (*updated 01/2017*)."

Including adequate information enables officials to accurately track amounts being spent from each account, thus ensuring compliance with county code and internal policies. Furthermore, reasons stated for making transfers should agree to the purpose of the accounts and object codes to which funds are being transferred. Without adequate information or explanation included on administrative transfer forms, determining that any such transfer is necessary or advisable is more difficult.

County code

As noted in the Background section of this report, the County Legislature believed that the County Executive was approving administrative transfers not exceeding \$10,000 to make some purchases without legislative approval.

The County Executive frequently approved administrative transfers that included multiple object codes not exceeding \$10,000, that when accumulated exceeded \$10,000. The following administrative transfers that

Jackson County
Budgets and Transfers
Management Advisory Report - State Auditor's Findings

included multiple object codes were made during the 3 years ended December 31, 2018:

Year Ended December 31,	Number of Transfers	Number of Object Code Transfers	Amount of Transfers
2016	92	422	\$2,240,578
2017	41	166	803,476
2018	28	134	689,728
Total	161	722	\$3,733,782

These multiple-object-code transfers, performed in accordance with current county code 533.1, allowed for the purchase of specific goods or services that might have otherwise required legislative approval. When we provided the Director of Finance and Purchasing examples of these transfers, he indicated, "In 2019 the County budget consolidated departments into a single fund, thus transfers similar to the examples with the same department and object codes, but different funds, will no longer take place."

However, as previously cited, several of these administrative transfers were not completed in accordance with county code or policy, bringing in to question their necessity and advisability. That, combined with a county transfer code written in 1973, and the County Legislature's concerns, suggests updates or modifications to the county code and policy may be necessary.

Recommendation

The County Legislature work with the County Executive to ensure administrative transfer forms are complete and accurate and are properly signed and/or approved, and transfers are made from/to accounts and object codes that agree to the reason or purpose of the transfer. In addition, the County Legislature should review and update as necessary, county code 533.1.

Auditee's Response

The County Legislature provided a written response. See Appendix C.

The County Executive provided a written response. See Appendix D.

- (1) Revenues and expenditures presented include transfers in and out.
- (2) The original budget fund balance of the Prosecuting Attorney Bad Check Fund was inaccurately reported on the budget. The actual beginning fund balance was \$17,533.
- (3) The county considers the Federal Forfeiture Fund a non-appropriated fund.
- (4) The annual budget document did not anticipate grants for appropriation. Appropriations were approved as the grants were awarded on a case-by-case basis with no expectation of a grant continuing beyond the current year.

Nicole Galloway
Missouri State Auditor
Truman State Office Building
301 West High Street, Rm 880, P.O. Box 869
Jefferson City, MO 65102

Honorable Auditor Galloway,

In February 2018 the Jackson County Legislature formally requested an independent audit by the Missouri State Auditor to provide assurance to all County elected officials and the citizens of Jackson County that the assets of the County are safeguarded through proper internal controls that fully comply with applicable State and County laws.

Again, the County Legislature greatly appreciates the State Auditor's time and efforts in conducting an audit and issuing a report of the Jackson County Budgets and Transfers as the third report of multiple areas of review.

The County Legislature supports the report's recommendations and is committed to continue taking actions to strengthen oversight efforts of county operations and internal controls through policymaking measures to establish best practice standards that fall within the County Legislature's powers and duties of the existing Jackson County Charter.

Harry S. Truman, Presiding Judge, 1927-1934

FRANK WHITE, JR.
Jackson County Executive

November 6, 2020

Robert McArthur II, Senior Auditor III
Missouri State Auditor's Office
P.O. Box 869
Jefferson City, MO 65102

via email: robert.mcarthur@auditor.mo.gov,
pamela.allison@auditor.mo.gov

Dear Mr. McArthur,

In response to your request for my office's response, please see the information below:

1.1

The Administration is committed to ensuring that revenue projections included in the county's annual budget are a fair reflection of the county's current financial position and that the county's annual budget is compiled in accordance with financial accounting best practices.

The Administration will review all recommendations made, and in collaboration with the County Legislature will make any changes necessary.

1.2

The Administration will review all recommendations made, and in collaboration with the County Legislature will make any changes necessary.

2

The Administration will take the steps necessary to ensure that all paperwork is properly completed prior to processing any departmental requests for the transfer of funds. The Administration is committed to working with the County Legislature to update the county's transfer policy to ensure it is consistent with both current best practices, as well as the size and complexity of an organization such as Jackson County.

Regards,

Frank White, Jr.
Jackson County Executive

Report No. 2020-107

November 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Fortieth Judicial Circuit Newton County

Fee Assessments	The Circuit Clerk's office does not have adequate procedures to ensure court costs are assessed.
Case Disposition	The Circuit Clerk's office does not always properly record the final disposition of each case in the Missouri Courts automated case management system and does not adequately review reports of open cases.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Fortieth Judicial Circuit, Newton County Response	7

NICOLE GALLOWAY, CPA

Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
Fortieth Judicial Circuit
Newton County, Missouri

We have audited certain operations of the Fortieth Judicial Circuit, Newton County in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

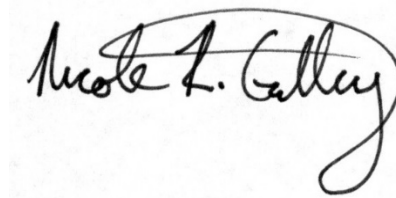

1. Evaluate the court's internal controls over significant financial functions.
2. Evaluate the court's compliance with certain legal provisions.
3. Evaluate the court's compliance with certain court rules.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Newton County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) no significant noncompliance with court rules. The accompanying Management Advisory Report presents our findings arising from our audit of the Fortieth Judicial Circuit, Newton County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is written in a cursive style with a large, looping "G" at the end.

Nicole R. Galloway, CPA
State Auditor

Audit Staff:	Misty Bowen, MSED, CFE
	Ryan Patterson, M.Acct.

Fortieth Judicial Circuit

Newton County

Management Advisory Report - State Auditor's Findings

1. Fee Assessments

The Circuit Clerk's office does not have adequate procedures to ensure court costs are assessed. Our review of 15 cases disposed without fees identified one case (7 percent) that should have had fees of \$121 assessed. The judge assesses fees for criminal cases when the case is disposed and provides the appropriate information sheet to the Circuit Clerk's office. Office personnel enter the fee information on the case. The Circuit Clerk said the office had not received an information sheet for this case when the disposition was entered. The Circuit Clerk corrected the error when we brought it to her attention.

Fines, bonds, garnishments, court costs, and other receipts are collected; recorded in the Judicial Information System (JIS), the Missouri Courts automated case management system; and deposited into the Circuit Clerk's primary bank account by the clerk performing end of day duties. Court records indicate receipts collected during the year ended December 31, 2019, totaled approximately \$1.3 million.

Failure to properly assess court fees could result in lost revenue.

Recommendation

The Circuit Clerk implement procedures to ensure assessed costs are assigned to disposed cases.

Auditee's Response

The court provided a written response. See Appendix A.

Auditor's Comment

The court's response states the error identified is "de minimis," however, our finding is based on a limited sample of court cases disposed without fees. While it would not be appropriate to project the impact of the identified error to the entire population of cases closed without fees (approximately 1,700), it is likely other cases have the same error.

2. Case Disposition

The Circuit Clerk's office does not always properly record the final disposition of each case in the JIS and does not adequately review reports of open cases. We obtained reports of open cases from the Office of State Courts Administrator (OSCA) at December 31, 2019. The reports identified 1,294 cases that were suspended or pending, including cases waiting on information from the parties involved. Suspended cases are those for which a court clerk canceled a future court date and did not reschedule a new court date, a warrant was issued, or a probate case is currently open. Pending cases are those for which final action was taken by the court, but the court clerk has not recorded all activity in the JIS. When case activity is suspended or pending, the case no longer appears on the court docket.

Our review of 15 pending and suspended cases identified 5 cases (33 percent) that were not handled correctly. Four of these cases did not have disposition codes entered into JIS when a judgment had occurred, and one case was a probate case where the tracking date passed and the case no longer appeared

Fortieth Judicial Circuit
Newton County
Management Advisory Report - State Auditor's Findings

on the docket. The Circuit Clerk did not identify these cases during her review of the quarterly report of pending and suspended cases.

Without procedures to ensure cases are reviewed after a period of inactivity and the proper disposition of all cases has been entered into the JIS, the court cannot be assured all cases are properly handled and associated costs are assessed. This could lead to the mishandling of probate assets and lost revenue.

Recommendation

The Circuit Clerk ensure the disposition of cases is properly recorded in the JIS and the reports of suspended or pending cases are adequately reviewed.

Auditee's Response

The court provided a written response. See Appendix A

Auditor's Comment

The court's response states the cases identified do not have any bearing on costs being assessed or collected. However, the court had cases not properly recorded in the JIS, which increases the risk cases are not fully disposed or the court personnel could fail to schedule a hearing if all cases are not reviewed regularly and recorded accurately in JIS.

Fortieth Judicial Circuit

Newton County

Organization and Statistical Information

The Fortieth Judicial Circuit consists of Newton County as well as McDonald County.

The Fortieth Judicial Circuit has 2 circuit judges and 3 associate judges. The circuit judges hear cases in Newton and McDonald counties. Of the 3 associate circuit judges, 2 are located in Newton County and 1 in McDonald County. Circuit personnel located in McDonald County are not included in the scope of the audit.

Personnel

At December 31, 2019, the judges and Circuit Clerk of the Fortieth Judicial Circuit, Newton County, were as follows:

Title	Name
Circuit Judge	Gregory N. Stremel
Circuit Judge	Kevin Selby
Associate Circuit Judge	Anna C. Rhoades
Associate Circuit Judge	Jacob Skouby
Circuit Clerk	Patty Krueger

In addition, the Fortieth Judicial Circuit, Newton County, employed 19 full-time employees on December 31, 2019.

Financial Information

Receipts of the Fortieth Judicial Circuit, Newton County, were as follows:

	Year Ended December 31, 2019
Court deposits, fees, bonds, and other	\$1,268,234
Probate and Juvenile deposits, fees, and other	19,063
Total	\$1,287,297

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the Fortieth Judicial Circuit, Newton County, were as follows:

	Year Ended June 30, 2019
Civil	3,019
Criminal	5,258
Juvenile	267
Probate	854
Total	9,398

Appendix
Fortieth Judicial Circuit, Newton County
Response

IN THE 40TH JUDICIAL CIRCUIT COURT OF NEWTON COUNTY,
AT NEOSHO, MISSOURI

TO: LORI MELTON, MISSOURI STATE AUDITOR'S OFFICE

RE: AUDIT RESPONSE - AMENDED

The amount that should have been assessed (\$120.50) is de minimis when compared with the Auditor's report of 1.3 million dollars received by the Clerk's office in 2019, and shows the current system is working. Human error can occur in even the most stringent processes. It is clear this was a case of human error in an otherwise successful procedure. Nevertheless, the Circuit Clerk will now review the Cognos Report Cases Disposed With No Fees monthly, instead of quarterly.

Pending case reports are reviewed quarterly by the Circuit Clerk, using a report that is produced by OSCA, named Age of Pending Case Report. Court dates for each case are verified. If a case has no date, the Circuit Clerk looks at each case individually to determine what action is needed; Dismissal Letter, Judgment Missing Letter, a correction or simply setting the case on a docket. Another report utilized by the Circuit Clerk is Pending Cases With No Scheduled Event. Not all cases require that a court date be set. There are many that do not appear on the court docket for various reasons.

The five cases referenced in the Auditor's report *did* have the disposition of the case (Judgment and/or Judge's decision) entered in JIS. The disposition *code*, entered by a clerk, which tells JIS to remove the case from Time Standards Reporting is what was missing. Three cases were civil and/or domestic which does not have any bearing on costs being assessed or collected, as those fees are collected at case initiation, not disposition. One of those cases is a search warrant application, which does not even get a Judge assigned. The single Probate case also mentioned does not affect cost assessment or collection of fees for the same reason as civil.

Marion County

Report No. 2020-106

November 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Marion County

Sheriff's Commissary and Payroll Procedures	The Sheriff does not disburse commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law and uses the net proceeds to purchase items for jail operations outside the normal county procurement process. The Sheriff also does not adequately document payments to deputies for off-duty transportation services.
Senate Bill 40 Board's Budget and Depositing Procedures	The Marion County Services for the Developmentally Disabled Board does not prepare adequate budgets as required by state law, and does not deposit receipts timely.
County Collector's Commissions and Contracts	Personal commissions paid to the County Collector for collecting taxes for drainage districts are not reported to the Internal Revenue Service by the county or drainage districts. The County Collector has not entered into written contracts with 3 drainage districts for the collection of taxes and some taxpayers for the partial payment of delinquent taxes.
County Assessor's Receipting and Transmitting Procedures	The County Assessor's procedures for receipting and transmitting money collected need improvement.
Timecards and Leave	Timecards are not prepared and submitted to the County Clerk's office by salaried employees and leave is not approved and tracked for these employees in compliance with county policies.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	11
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Marion County

We have audited certain operations of Marion County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

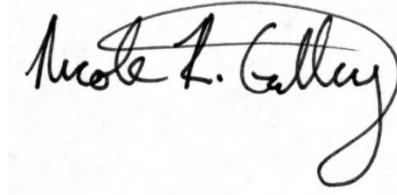

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Marion County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

	John-Henry T. Jarwood, MBA, CFE

Marion County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Commissary and Payroll Procedures

Procedures related to the inmate commissary and payment to deputies for transportation services need improvement. Receipts deposited into the Sheriff's inmate account totaled approximately \$301,000 during the year ended December 31, 2019.

1.1 Inmate Prisoner Detainee Security Fund

The Sheriff does not disburse commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. In addition, the Sheriff uses commissary net proceeds to purchase items for jail operations outside the normal county procurement process. Purchases for jail operations totaled \$98,210 during the year ended December 31, 2019. Purchases included \$12,090 for plumbing services, \$18,103 for janitorial supplies, \$8,282 for inmate uniforms, and a \$16,578 transfer to the County Treasurer for the reimbursement of an employee's wages who has commissary responsibilities.

The Sheriff receives a commission on the commissary sales from the commissary vendors, which are retained with inmate monies, in the inmate account. In January 2019, the Sheriff transferred \$10,000 of net proceeds from the inmate account to the county's General Revenue Fund held by the County Treasurer. However, there is no statutory provision that allows commissary net proceeds to be transferred to the county's General Revenue Fund. As of December 31, 2019, the inmate account had a reconciled balance of \$56,007. As of June 17, 2020, this account contained \$39,950 of commissary net proceeds.

The Sheriff has a written agreement with the County Commission to allow commissary net proceeds to be kept in the Sheriff's inmate account and for disbursements to be paid from that account. However, this agreement conflicts with state law.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) of the commissary account into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer.

A similar condition was noted in our prior 3 audit reports.

1.2 Transportation payments

The Sheriff does not adequately document payments to deputies for off-duty transportation services.

The Sheriff has entered into a memorandum of understanding with the local behavioral health clinic for in-patient transportation to mental health facilities in the state. The Sheriff's office submits an itemized bill (\$30 per hour of transportation time) to the health clinic for the transportation services and

Marion County
Management Advisory Report - State Auditor's Findings

receives payment by check. The Sheriff's office then cashes the check, and pays the cash to the deputies who performed the transportation services as compensation. Deputies are not required to sign to acknowledge receipt of cash payments. As a result, there is no evidence deputies receive this money. Most of the transportation is performed by off-duty deputies. If an officer is on duty when performing the transportation service, the clinic is not billed and the officer receives no additional compensation. The Sheriff's office received \$25,343 for in-patient transportation services that was paid to deputies during the year ended December 31, 2019.

To ensure off-duty transportation payments are valid and proper and reduce the risk of loss, theft, or misuse of funds, the Sheriff should deposit the checks received and issue checks to the deputies.

Recommendations

The Sheriff:

- 1.1 Ensure existing and future commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed to the County Treasurer for deposit into the Inmate Prisoner Detainee Security Fund. In addition, the General Revenue Fund should reimburse \$10,000 to the Inmate Prisoner Detainee Security Fund.
- 1.2 Deposit off-duty transportation checks and issue checks to the deputies for these services.

Auditee's Response

- 1.1 *I will discuss this with the County Commission.*
- 1.2 *I agree. Deputies will sign off on cash payout of patient transportation pay to document the receipt of cash by deputies.*

2. Senate Bill 40 Board's Budget and Depositing Procedures

The Senate Bill 40 Board budget preparation and deposit procedures need improvement. The Board for Marion County is known as the Marion County Services for the Developmentally Disabled Board (MCSDDDB). The MCSDDDB collected approximately \$1.75 million in property taxes, state reimbursements for targeted case management, interest, and other receipts during the year ended December 31, 2019.

2.1 Budgets

The MCSDDDB does not prepare adequate budgets as required by state law. The MCSDDDB's budget submitted to the County Clerk did not include actual or budgeted amounts for the 2 preceding years and beginning and ending balances.

Budget documents are an essential tool for the efficient management of finances and should be prepared annually at the beginning of each year. Section 50.590, RSMo, requires budgets to include detailed budget estimates,

Marion County Management Advisory Report - State Auditor's Findings

showing the recommendations of the budget officer compared with the amounts for the last completed year and the estimates for the current year.

A similar condition was noted in our prior audit report. In addition, Report No. 2016-126, *Follow-Up Report on Audit Findings - Marion County*, issued in November 2016, reported the status, at that time, as in progress.

2.2 Deposits

The MCSDDB does not deposit receipts timely. Several receipts were deposited 1 to 2 weeks after receipt. In addition, one receipt for \$1,862 was receipted on December 23, 2019, but was not deposited until February 18, 2020.

To safeguard receipts and to reduce the risk of loss, theft, or misuse of monies received, procedures should be established to ensure all monies received are deposited timely.

Recommendations

The Marion County Services for the Developmentally Disabled Board:

- 2.1 Prepare annual budgets that contain all information as required by state law.
- 2.2 Ensure receipts are deposited timely.

Auditee's Response

- 2.1 *Budgets are submitted to the County Commission's office on an annual basis. It was an oversight to exclude the preceding 2 years of beginning and ending balances. We are in total agreement the budget documents are an essential tool for the efficient management of finances and should be prepared annually in its entirety. The annual budget is prepared and submitted. The piece that is important and was missing is the 2 preceding year beginning and ending balances. The Executive Director will include the required information for the 2 preceding years moving forward. Prior year information is presented to the Board for review before approving the new budget but the prior year information had not been submitted to the County Commission's office in the past. As stated, this will be corrected immediately and the annual budgets will include preceding year information. The Executive Director is revising the current year budget with required preceding year information and will submit upon completion.*
- 2.2 *We do not receive many checks for deposit since most funds are direct deposit. The organization may receive one check a month to physically deposit. It is unusual to receive multiple checks monthly. With that being said we agree it is vital to expedite deposits and work diligently to deposit such check(s) within a week of receipt. There had been a few occasions that the deposits were delayed an additional*

Marion County
Management Advisory Report - State Auditor's Findings

week which is not the preference. We are a small organization with limited staff that do multiple tasks, therefore there were times this was unavoidable. All monies received are secured in a locked safe behind a locked door until the funds are deposited. On the one isolated incident concerning the \$1,862 check that was receipted on December 23, 2019, but not deposited until February 19, 2020, this was investigated and it occurred during a time when the employee who is responsible for the deposits, underwent major medical treatment for 6 weeks and the check unfortunately was not deposited until the later date. In addition, it was during holidays which played a small role in the timeline of the deposit. When this was discovered procedures were immediately put in place to ensure reoccurrence of such would be avoided. We have now hired a Finance Specialist to assist in financial duties such as this.

3. County Collector's Commissions and Contracts

3.1 Drainage districts' commissions

Procedures for reporting drainage districts' commissions earned by the County Collector, and the use of contracts need improvement. The County Collector collected approximately \$1.2 million in taxes for drainage districts during the year ended February 29, 2020.

Personal commissions paid to the County Collector for collecting taxes for drainage districts are not reported to the Internal Revenue Service (IRS) by the county or drainage districts.

The County Collector was personally paid \$27,089 in commissions for the collection of drainage district taxes during the year ended February 29, 2020. Since these payments were not processed through the county payroll system, they were not reported on the County Collector's W-2 forms, appropriate payroll taxes were not withheld, and the employer's share of payroll taxes was not paid. IRS regulations require individuals treated as employees to have all compensation reported on W-2 forms.

To ensure all compensation is properly reported and taxed, all compensation should be paid through the normal county payroll process. The failure to properly report and tax all wages could result in penalty and interest charges assessed against the county.

3.2 Contracts

We noted the following issues regarding contracts:

- The County Collector collects taxes for 3 drainage districts within the county but does not have written contracts with those districts.
- The County Collector enters into verbal agreements with some taxpayers for partial payments for delinquent taxes. These agreements require partial payments be made to pay the outstanding delinquent taxes within a year.

Marion County
Management Advisory Report - State Auditor's Findings

Section 432.070, RSMo, requires government contracts be in writing. Clear, detailed, and timely written contracts are necessary to ensure all parties are aware of the services to be performed and the compensation to be paid for the services.

Recommendations

The County Collector:

- 3.1 Ensure all compensation is paid through the county's normal payroll process, properly taxed, and reported to the Internal Revenue Service.
- 3.2 Work with the County Commission to enter into written agreements with political subdivisions and taxpayers as required by state law.

Auditee's Response

- 3.1 *I will take this recommendation under consideration and review the recommendation with the County Commission. Following this recommendation may impose additional new employment cost on the county. For clarification I would like to state that all commission income has been reported and the appropriate federal and state taxes paid. I understand that County Collectors in some other counties run their drainage district commission income through the county's payroll system to increase their pensions but I did not choose to take advantage of this option.*
- 3.2 *I will take this recommendation under consideration and review the recommendation with the County Commission. The County Collector's office and the drainage districts that we collect taxes for have a business relationship guided by Missouri state statutes. In the many years that drainage district taxes have been collected by this office, I am not aware of any issue arising that was outside of the scope of the regulating statutes. Over the years we have developed a smooth functional operating process and relationship with our drainage districts.*

It is rare that we enter into a partial payment plan with a delinquent taxpayer. Any time we accept money without being able to give a paid tax receipt we give the taxpayer a receipt slip for the funds we are holding for them. The receipt slip details the reason we are holding funds for the taxpayer. If the delinquent taxpayer does not complete the payment plan we will return any funds we have received to the taxpayer.

Marion County
Management Advisory Report - State Auditor's Findings

4. County Assessor's Receipting and Transmitting Procedures

The County Assessor procedures for receipting and transmitting money collected need improvement. The office collected approximately \$13,000 for subscription services, parcel printouts, and copies during the year ended December 31, 2019.

We identified the following receipting and transmitting concerns:

- Receipt slips issued are not reconciled to the receipts ledger because all cash receipts are not included on the receipts ledger. In addition, the composition of receipt slips is not reconciled to the composition of the transmittal to the County Treasurer.
- Office personnel do not issue receipt slips for all copy payments received. Cash received is added to the change drawer and periodically some of this money is transmitted to the County Treasurer.
- The County Assessor does not transmit receipts intact and does not maintain the change fund at a constant amount. The County Assessor indicated approximately \$100 is maintained for the change fund, and cash receipts are periodically transmitted to the County Treasurer. We noted 3 transmittals for \$20 each in cash and \$13,070 transmitted in checks and money orders during the year ended December 31, 2019.

Failure to implement adequate receipting and transmitting procedures increases the risk that loss, theft, or misuse of monies received will go undetected. To reduce this risk, procedures should be established to ensure all monies received are properly receipted and transmitted to the County Treasurer intact. In addition, if a change fund is needed, it should be set at a constant amount and a procedure established to reconcile to this amount every time a transmittal is made.

A similar condition was noted in our prior audit report.

Recommendation

The County Assessor issue receipt slips for all money received and transmit receipts to the County Treasurer intact. In addition, maintain the change fund at a constant amount.

Auditee's Response

We will work towards implementing the Auditor's recommendation.

5. Timecards and Leave

Timecards are not prepared and submitted to the County Clerk's office by salaried employees in compliance with county policies. In addition, leave is not approved and tracked for salaried employees in compliance with county policies.

The county pays 5 employees, excluding elected officials, on a salary basis. Salaried employees do not prepare timecards or submit timesheets; therefore,

Marion County
Management Advisory Report - State Auditor's Findings

their immediate supervisor cannot verify the actual time worked during a pay period nor is the County Clerk's office notified of actual time worked for these individuals. In addition, leave is taken at the discretion of the 5 employees and leave balances are not tracked by the County Clerk's office.

The county personnel manual requires every employee complete, on a daily basis, official Marion County timecards distributed by the County Clerk's office and all information on the timecard be verified by the elected official of each office prior to submission to the County Clerk's office. In addition, the personnel manual indicates regular full-time employees of the county, who have completed their introductory period, earn vacation time in conjunction with their years of service and 12 days of sick leave each year, and are paid for unused vacation time upon leaving employment. The manual defines an "employee" as those full or part-time employees of the county who work on a salaried or an hourly basis and who are not elected by the electorate of the county; and defines a "regular employee" as an employee who has been designated to a full-time and regular position in the service of the county.

In addition to complying with county policies, adequate documentation of time worked and leave taken is needed to adequately document the legitimacy of payroll amounts and leave balances. Submission of detailed time records to the County Clerk's office that have been reviewed and approved by supervisors would provide support for payroll processed by the county.

A similar condition was noted in our 3 prior audit reports.

Recommendation

The County Commission require all county employees prepare timecards documenting time worked and leave taken to comply with current personnel policies.

Auditee's Response

We will take this under consideration.

Marion County

Organization and Statistical Information

Marion County is a county-organized, third-class county. The county seat is Palmyra. The county also has a courthouse in Hannibal that serves as the base of operations for several county officials.

Marion County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 83 full-time employees and 16 part-time employees on December 31, 2019.

In addition, county operations include the Senate Bill 40 Board (Marion County Services for the Developmentally Disabled) and drainage districts established by the County Commission. The Senate Bill 40 Board employed 18 full-time employees and 2 part-time employees on December 31, 2019. The County Coordinator manages the bridge replacement program and any other special projects. The County Coordinator also advises the Planning and Zoning Commission.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2020	2019
John David Lomax, Presiding Commissioner	\$	55,672
Larry Welch, Associate Commissioner		53,672
Steve Begley, Associate Commissioner		53,672
Harla Friesz, Recorder of Deeds		79,752
Valerie Dornberger, County Clerk		79,752
Luke Bryant, Prosecuting Attorney		139,693
Jimmy Shinn, Sheriff		84,013
Joelle Fohey, County Treasurer		79,752
Rick Jones, County Coroner		28,414
Wendy Howe, Public Administrator		79,752
Harry Graves, County Collector (1), year ended February 29,	109,640	
Mark Novak, County Assessor, year ended August 31,		79,101

(1) Includes \$27,089 of commissions earned for collecting for drainage districts taxes.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of September 2020 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March and April 2020, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In September, the state spent \$121.1 million from federal COVID-19 assistance (Appendix A). Through the end of September, the state has received \$2.73 billion and spent \$1.33 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. The majority of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$340 million) and funding passed through to counties and the City of St. Louis (\$521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, and nursing facilities; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, and other disaster relief purposes. In addition, the state is currently using \$250 million of COVID-19 relief funding for cash management needs.

Federal Funding for COVID-19 Response

September 2020

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March and April 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of September 30, 2020, approximately \$18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).
- Not charge premiums that exceed those that were in place as of January 1, 2020.

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
September 2020
Executive Summary

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of September 30, 2020, approximately \$36.2 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population. In early July, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

⁴ U.S. Department of the Treasury, *Coronavirus Relief Fund Guidance for State, Territorial, Local, and Tribal Governments*, September 2, 2020, <<https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Guidance-for-State-Territorial-Local-and-Tribal-Governments.pdf>>, accessed September 25, 2020.

Federal Funding for COVID-19 Response
September 2020
Executive Summary

- Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
- Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
- Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
 - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.

Federal Funding for COVID-19 Response
September 2020
Executive Summary

- Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
- Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 30, 2020, as required by federal law, those funds must be returned to the federal government.

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to June 30, 2021. In May, the OA transferred \$250 million from the stimulus

⁵ U.S. Department of the Treasury, *Coronavirus Relief Fund Frequently Asked Questions*, p.14, October 19, 2020, < <https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Frequently-Asked-Questions.pdf>>, accessed October 30, 2020.

Federal Funding for COVID-19 Response
September 2020
Executive Summary

fund to the General Revenue Fund. No cash management transfers occurred in September.

Under the CARES Act, the state has also been awarded as of September 30, 2020, approximately \$3.15 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$165 million with some of this funding going directly to rural health departments from the federal government.

In September, the state spent \$121.1 million from federal COVID-19 assistance (Appendix A). Through the end of September, the state has received \$2.73 billion and spent \$1.33 billion from this assistance. The majority of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$340 million) and funding passed through to counties and the City of St. Louis (\$521 million).

Other funding has been (1) provided to schools, institutes of higher education, child care providers, and nursing facilities; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendix C.

¹ This fund's negative disbursements and transfer out totals in September 2020 reflect the correction of a previous transaction that was incorrectly coded.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. No receipts or transfers occurred in September 2020.

³ These funds' negative disbursements and/or transfers out totals in September 2020 reflect movement of pandemic stipend activity from the original appropriation in these funds to a new identical appropriation within the State Emergency Management Federal Stimulus Fund, as intended by the Office of Administration.

¹ During the fiscal year ending June 30, 2020, the Secretary of State used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The Secretary of State receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements.

² The General Assembly has authorized the Office of Administration to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund. As of the end of September, \$250 million has been transferred to the General Revenue Fund.

¹ The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services cannot directly expend any receipted monies from the fund, as it could during the fiscal year ended June 30, 2020.

³ Coronavirus Relief Fund assistance must be returned to the federal government if it is not spent to cover allowable costs incurred by December 30, 2020. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to \$750 million.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 50 political subdivisions required to file a financial report by September 30, 2020, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in September 2020, after their filing deadline. The filing status for these 50 entities is presented in summary on page 3 and by individual entity in Appendix B-C.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name of the State Auditor.

Monthly Report on Political Subdivision Filings

September 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 50 political subdivisions, other than cities, towns, and villages, with a fiscal year end of March 31, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 50 political subdivisions, 41 filed an annual financial report timely.

This report also includes the filing status for 50 political subdivisions, other than cities, towns, and villages, that filed their financial report in September 2020, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipality required to file a financial report by September 30, 2020, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 51 cities and 25 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in September 2020, after their filing deadline. The filing status for these 51 cities, 1 town, and 10 villages is presented in summary on pages 3 and 4 and by individual entity in Appendixes B to E.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

September 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 51 cities and 25 villages with a fiscal year end of March 31, 2020, whose financial report was due by September 30, 2020. Of the 76 municipalities, 54 filed the financial report timely. Of the 54 municipalities required to file an addendum, 28 filed timely. Of the 30 municipalities required to file a certification, 17 filed the certification timely.

Monthly Report on Municipal Court and Revenue Filings
September 2020
Executive Summary

This report includes the filing status for 51 cities, 1 town, and 10 villages that filed at least one of the items (financial report, addendum, or certification) in September 2020, after their filing deadline. Of these municipalities, 18 filed an annual financial report, 35 filed an addendum, and 20 filed a certification.

CITIZENS SUMMARY

Findings in the audit of the Seventeenth Judicial Circuit Johnson County

Time-Payment Fee	The court did not assess the time-payment fee on all cases as required by Missouri Supreme Court operating rules.
Payment Plans	The Circuit Clerk and the court do not have controls in place to ensure payment plans are established in the Judicial Information System (JIS) for all amounts not paid in full at case disposition as required by court rule.
Bond Accountability	The Sheriff's office does not issue prenumbered bond forms.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Presiding Judge and Court en Banc
and
Circuit Clerk of the
Seventeenth Judicial Circuit
Johnson County, Missouri

We have audited certain operations of the Seventeenth Judicial Circuit, Johnson County in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

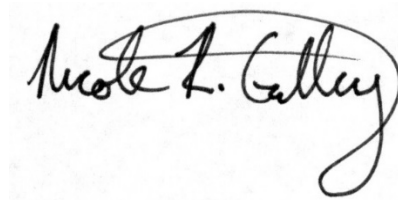

1. Evaluate the court's internal controls over significant financial functions.
2. Evaluate the court's compliance with certain legal provisions.
3. Evaluate the court's compliance with certain court rules.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the court, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the court's management, the Office of State Courts Administrator, and Johnson County and was not subjected to the procedures applied in our audit of the court.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) noncompliance with court rules. The accompanying Management Advisory Report presents our findings arising from our audit of the Seventeenth Judicial Circuit, Johnson County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is written in a cursive style with a large, looping "G" at the end.

Seventeenth Judicial Circuit

Johnson County

Management Advisory Report - State Auditor's Findings

1. Time-Payment Fee

The court did not assess the time-payment fee on all cases as required by Missouri Supreme Court operating rules. On December 13, 2018, the Presiding Judge signed an administrative order to suspend collection and assessment of the time-payment fee. The Presiding Judge indicated he issued the order because during a meeting with the presiding judges throughout the state, the Missouri Supreme Court directed the circuit courts to stop punishing defendants monetarily and to stop collecting fees. However, the court has not received anything in writing from the Missouri Supreme Court regarding this directive. We confirmed with the Missouri Supreme Court that an order suspending the assessment and collection of any fees, including the time payment fee, has not been issued. We reviewed 25 cases and determined that 15 cases did not have the time payment fee charged. The time payment fee was assessed on the other 10 cases reviewed prior to December 13, 2018.

Missouri Supreme Court Operating Rule (COR) 21.13 requires all divisions of the circuit courts, except municipal divisions, to assess a \$25 time-payment fee on all cases not paid in full within 30 days of disposition. Failure to follow this rule results in lost revenue to the court and the state.

Recommendation

The Circuit Clerk ensure time-payment fees are assessed in accordance with court operating rules.

Auditee's Response

The Circuit Court's written response, provided by the Circuit Clerk and the Presiding Judge, is included at Appendix A.

2. Payment Plans

The Circuit Clerk and the court do not have controls in place to ensure payment plans are established in the Judicial Information System (JIS) for all amounts not paid in full at case disposition as required by court rule. Our review of 25 cases with accrued court costs noted 2 cases (8 percent) did not have established payment plans in the JIS. In addition, no alternative procedures were performed by the court to ensure the collection of amounts owed.

For cases with established payment plans, the JIS automatically forwards unpaid balances to the contracted debt collection servicer if amounts owed are not paid within 60 days of the final payment plan date. However, if a payment plans is not established in the JIS, and no alternative procedures are performed, unpaid balances may not be collected. The court is required to create payment plans in the JIS for all amounts not paid in full at case disposition by COR 21.07.

Recommendation

The Circuit Clerk implement policies and procedures to ensure all accounts that are not paid within 30 days have payment plans established in the system.

Auditee's Response

The Circuit Court's written response, provided by the Circuit Clerk and the Presiding Judge, is included at Appendix A.

Seventeenth Judicial Circuit
Johnson County
Management Advisory Report - State Auditor's Findings

3. Bond Accountability

The Sheriff's office does not issue prenumbered bond forms. In addition, while a bond log is maintained, it is not sequentially numbered and the receipt slips issued for bond money received is not reconciled with the bond log. As a result, neither the Circuit Clerk nor the Sheriff's office can account for all bond forms issued. Additionally, the use of unnumbered bond forms decreases the ability to ensure bond receipts are recorded and properly transmitted to the court. Properly accounting for the numerical sequence of bonds forms is necessary to ensure all bonds received are properly submitted to the court for processing, and to reduce the risk of loss, theft, or misuse of bond funds going undetected.

Recommendation

The Circuit Clerk work with the Sheriff's office to ensure prenumbered bond forms are issued and accounted for properly.

Auditee's Response

The Circuit Court's written response, provided by the Circuit Clerk and the Presiding Judge is included at Appendix A. A written response from the Sheriff is included at Appendix B.

Seventeenth Judicial Circuit

Johnson County

Organization and Statistical Information

The Seventeenth Judicial Circuit consists of Johnson County and Cass County.

The Seventeenth Judicial Circuit consists of 2 circuit judges and 2 associate judges. The circuit judges hear cases in Johnson and Cass counties. Of the 6 associate judges, 2 are located in Johnson county and 4 in Cass County. Circuit personnel located in Cass County are not included in the scope of the audit.

Personnel

At December 31, 2019, the judges and Circuit Clerk of the Seventeenth Judicial Circuit, Johnson County, were as follows:

Title	Name
Presiding Circuit Judge (1)	William B. Collins
Circuit Judge, Division II (1)	R. Michael Wagner
Associate Circuit Judge	Sue Dodson
Associate Circuit Judge	Brent F. Teichman
Circuit Clerk	Stephanie Elkins

(1) The Presiding Circuit Judge and Circuit Judge, Division II are located in Cass County but also hear cases in Johnson County.

In addition, the Seventeenth Judicial Circuit, Johnson County, employed 14 full-time employees and 1 part-time employee on December 31, 2019.

Financial Information

Receipts of the Seventeenth Judicial Circuit, Johnson County, were as follows:

	Year Ended December 31, 2019
Court deposits, fees, bonds, and other	\$ 1,184,801
Interest income	12,166
Total	\$ 1,196,966

Caseload Information

From the Office of State Courts Administrator Missouri Judicial Reports, case filings of the Seventeenth Judicial Circuit, Johnson County, were as follows:

	Year Ended June 30, 2019
Civil	1,856
Criminal	3,753
Juvenile	180
Probate	178
Total	5,967

AUDIT RESPONSES

1. TIME-PAYMENT FEE

RECOMMENDATION: The Circuit Clerk ensure time-payment fees are assessed in accordance with court operating rules

RESPONSE: The Show Me Courts Judicial information system will automatically allocate the fee to be collected. We will comply with the court operating rule.

2. PAYMENT PLANS

RECOMMENDATION: The Circuit Clerk implement policies and procedures to ensure all accounts that are not paid within 30 days have payment plans established in the system

RESPONSE: It is our policy to ensure payment plans have been established on all applicable cases. Supervisors in the office are running management reports on a timely basis to check accuracy.

3. BOND ACCOUNTABILITY

RECOMMENDATION: The Circuit Clerk work with the Sheriff's office to ensure prenumbered bond forms are issued and accounted for properly

RESPONSE: We will work with the Sheriff's office to implement a procedure for accepting prenumbered bond forms.

The seal of the Missouri State Auditor is a circular emblem. It features a central shield with a balance scale and a plow. The shield is surrounded by a wreath. The outer ring of the seal contains the text "SEAL OF THE STATE AUDITOR" at the top and "MISSOURI 1820 1892" at the bottom. A banner across the middle of the seal reads "WE STAND DIVIDED".

Nicole Galloway, CPA

Missouri State Auditor

Dunklin County

Report No. 2020-101

November 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Dunklin County

Sheriff's Controls and Procedures	The Sheriff's office has not established adequate controls and procedures over commissary items and phone cards sold to inmates. The office allows inmates to purchase commissary items when the inmate does not have a positive account balance and does not have adequate procedures to ensure an inmate's remaining account balance is refunded upon release. The office does not prepare a monthly list of liabilities for the inmate commissary account (as a result liabilities are not agreed to the reconciled bank balance) and the fee account has an unidentified balance. The office does not charge or collect sales taxes on phone cards and e-cigarettes sold to inmates not handled by the commissary vendor, and no sales taxes are remitted to the Department of Revenue. The office is collecting a \$7.10 commissary account set-up fee that is not allowed by state law.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney's office does not prepare a monthly list of liabilities, and consequently liabilities are not compared to the reconciled bank balance.
Medicare Payments	The County Commission has not established a group health plan and made Medicare supplement insurance payments to employees that were deemed unallowable by legal counsel.
Electronic Data Security	Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.
Public Hearings	The January 31, 2019, County Commission meeting minutes did not document the public hearing and votes related to the 2019 county budget. The County Commission did not hold a public hearing and approve the county's 2019 tax rates.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Dunklin County

We have audited certain operations of Dunklin County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

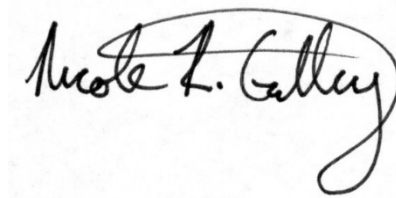

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we (1) identified deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Dunklin County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Dunklin County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected payments for civil fees, concealed carry weapon permits, bonds, and other miscellaneous receipts totaling approximately \$225,000 during the year ended December 31, 2019. In addition, the Sheriff's office had commissary sales of approximately \$311,000 during the year ended December 31, 2019.

1.1 Commissary inventory and phone cards

The Sheriff's office has not established adequate controls and procedures over commissary items and phone cards sold to inmates. Commissary sales are not reconciled to the commissary inventory records. When the monthly inventory counts are performed for commissary items, the amount counted is recorded on the inventory records. However, by not reconciling the inventory count to the sales records, there is no assurance the number of items counted is the number of items that should be on hand. In addition, access is not adequately restricted for phone cards. All jailers have access to the phone cards. The cards are stored in an unlocked drawer next to the visitation window.

Loss, theft, or misuse of the commissary items and phone cards may go undetected without adequate inventory records and procedures. Detailed inventory records that include tracking sales are necessary to adequately account for commissary items and phone cards. A comparison of a periodic physical inventory to sales and items on hand is necessary to ensure commissary items and phone cards and related payments collected are properly recorded and handled.

1.2 Inmate bill balances

The Sheriff's office allows inmates to purchase commissary items when the inmate does not have a positive account balance. Instead, the inmate is billed for the purchase. Account balances are not checked to ensure the inmate has a balance before receiving the commissary items. If the inmate does not have a balance, the Sheriff's office still charges the purchase to the account, creating a negative account balance. As of December 31, 2019, current and former inmate accounts owed the county \$81,563. Of this amount, current inmates owed \$4,950. Part of the amount due could be for other services and costs charged to the inmates, including medical services, destruction of property, and repairing jail bracelets. In addition, some inmates accounts have a cash balance and a balance due, and the cash balance has not been used to pay down the balance due.

Allowing an inmate to receive commissary items without ensuring he/she has a sufficient account balance for the purchase increases the risk of loss if the money is uncollectible. These procedures also cause a reduction in commissary operating funds available to the Sheriff and reduces the net proceeds available for the Inmate Prisoner Detainee Security Fund.

1.3 Inactive inmate account balances

The Sheriff's office does not have adequate procedures to ensure an inmate's remaining account balance is refunded upon release. As of December 31, 2019, the Sheriff's office was holding \$15,029 for 4,161 former inmates in

Dunklin County Management Advisory Report - State Auditor's Findings

the commissary bank account. These inmates were released from the county jail, but did not claim their commissary account balance.

Follow up on inactive accounts is necessary to ensure remaining commissary account balances are appropriately disbursed to the former inmates or as otherwise provided by state law. In addition, establishing procedures to refund all inmates their remaining commissary account balance upon release will allow the Sheriff to more adequately safeguard any money being held and reduce the risk of its loss, theft, or misuse.

1.4 Liabilities

The Sheriff's office does not prepare a monthly list of liabilities for the inmate commissary account; and consequently, liabilities are not agreed to the reconciled bank balance. In addition, the fee account has an unidentified balance.

Liabilities for the inmate commissary account were \$16,076 at December 31, 2019. The December 31, 2019, reconciled bank balance was \$80,926, leaving an unidentified balance of \$64,850. The Jail Administrator indicated some of the unidentified balance is money kept in the account to meet cash flow needs and to operate the commissary.

Liabilities for the fee account were \$10,150 at December 31, 2019. The December 31, 2019, reconciled bank balance was \$10,984, leaving an unidentified balance of \$834. The Office Manager indicated the balance was extra monies in the account to prevent overdrafts.

Regular identification and comparison of liabilities to the available cash balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Differences must be adequately investigated and explained. Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer.

1.5 Sales tax

The Sheriff's office does not charge or collect sales taxes on phone cards and e-cigarettes sold to inmates not handled by the commissary vendor, and no sales taxes are remitted to the Department of Revenue (DOR).

Pursuant to 12 Code of State Regulations 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. Therefore, the Sheriff should be charging and collecting sales tax and remitting tax collections to the DOR.

Dunklin County
Management Advisory Report - State Auditor's Findings

1.6 Commissary account set-up fee

The Sheriff's office is collecting a \$7.10 commissary account set-up fee that is not allowed by state law. Office personnel indicated the fee is collected from inmates at the time of booking to set up a commissary account even though the commissary contractor does not charge commissary account set-up fees. There is no statutory authority allowing the Sheriff to charge and collect such a fee.

Similar conditions
previously reported

Similar conditions to sections 1.3 and 1.4 were noted in our prior 2 audit reports, and a similar condition to section 1.6 was noted in our prior audit report.

Recommendations

The Sheriff:

- 1.1 Reconcile commissary and phone card records to inventories purchased and sold. In addition, the Sheriff should restrict access to phone cards.
- 1.2 Ensure all inmates have an available cash balance before allowing commissary item purchases. In addition, the Sheriff should follow up on commissary accounts that have outstanding balances due.
- 1.3 Refund inmates their remaining balance upon release. In addition, the Sheriff should attempt to return unclaimed balances to the former inmates. If the payee cannot be located, the amount should be disbursed in accordance with state law.
- 1.4 Prepare a monthly list of liabilities for inmate commissary account and reconcile the list to the available cash balance. Any differences between accounting records and reconciliations should be promptly investigated and resolved for both the inmate commissary and fee accounts. In addition, the Sheriff should ensure existing and future commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed to the County Treasurer for deposit in the Inmate Prisoner Detainee Security Fund.
- 1.5 Contact the DOR for guidance on establishing procedures for charging and collecting sales tax on phone card and e-cigarettes and ensure future sales tax collections are remitted to the DOR.
- 1.6 Discontinue charging and collecting the commissary set-up fee.

Auditee's Response

- 1.1 *We will reconcile the inventory records to the sales records. Phone cards are no longer used at the jail.*
- 1.2 *Inmates are charged for medical items, toiletry items, and property damage even if they do not have a cash balance. When those inmates*

Dunklin County
Management Advisory Report - State Auditor's Findings

receive funds, those funds are used to reimburse the county. The jail now has a \$10 limit on the commissary. If an inmate owes the county \$10 they can no longer order commissary items until their bill is paid. We will follow up on commissary accounts that have an outstanding balance due.

1.3 *There are 2 ways to refund monies. One way is the issuance of a debit card which is immediately taken off the account and the second way is a check is issued when a debit card cannot be issued. The \$15,029 for 4,161 inmates has been delivered to unclaimed property with the state. Every month unclaimed properties are now sent to the state.*

1.4 *A significant amount of the \$64,850 has been transferred to the Inmate Prisoner Detainee Security Fund which is administered by the county and a monthly balance is now retained at a lower amount. The \$834 in the fee account is retained as a security amount to prevent any overdraft charges stemming from any possible unforeseeable charges.*

1.5 *The jail no longer sells phone cards, and at the time of the audit we had already stopped selling e-cigarettes.*

1.6 *Inmates receive property with these funds all of which is toiletry items. This assures hygiene is maintained when entering this facility. When an individual comes into this facility they receive toiletry items for which we charge. Providing for these items guarantee this facility maintains good hygiene. If we let these items be brought into the facility and not purchased from this facility that would bring a serious security issue.*

Auditor's Comment

1.6 While the commissary account set-up fee is used for the benefit of the inmates, there is no statutory authority to support charging and collecting the fee.

2. Prosecuting Attorney's Controls and Procedures

The Prosecuting Attorney's office does not prepare a monthly list of liabilities, and consequently liabilities are not compared to the reconciled bank balance. The office collected bad check restitution and fees, and court-ordered restitution and fees totaling approximately \$162,200 during the year ended December 31, 2019.

We determined the liabilities for the account were \$4,390 at December 31, 2019. The December 31, 2019, reconciled bank balance totaled \$2,660 leaving an account shortage of \$1,730. In addition, the office has not established procedures to routinely follow-up on outstanding checks. As of December 31, 2019, the office has \$37,100 in checks that have been outstanding for more than a year, with some checks dating back to 2003. The

Dunklin County
Management Advisory Report - State Auditor's Findings

December 31, 2019, bank reconciliation indicates \$8,725 of the outstanding checks were from 2003 to 2011, but office personnel did not have any documentation supporting this amount.

Regular identification and comparison of liabilities to the available cash balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Differences must be adequately investigated and explained. In addition, procedures to routinely follow up on outstanding checks are necessary to prevent money from accumulating in the account and ensure it is appropriately disbursed to the payee or as otherwise provided by state law.

A similar condition was noted in our prior 3 audit reports.

Recommendation

The Prosecuting Attorney should prepare a monthly list of liabilities and reconcile it to the available cash balance. Any differences between accounting records and reconciliations should be promptly investigated and resolved. In addition, establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be located. If payees cannot be located, the money should be disposed of in accordance with state law.

Auditee's Response

The current Prosecuting Attorney took office in January of 2019. Since that time, the office has begun processing outstanding checks in accordance with state law. Since taking office we have investigated and submitted seven years of outstanding checks to the Missouri State Treasurer as unclaimed property totaling more than \$25,000.

The Prosecuting Attorney's Office requested the State Auditor to examine the account to determine what was preventing the account from maintaining a zero balance, and the audit staff were not able to determine the cause. To remedy this in the future, the office has set up a new restitution account to maintain a zero balance.

3. Medicare Payments

The County Commission has not established a group health plan and made Medicare supplement insurance payments on behalf of employees that were deemed unallowable by the County Commission's legal counsel. In December 2019, they advised the County Commission to stop making the payments because a proper health plan had not been established in accordance with Section 105 of the Internal Revenue Code. As of September 2020, the County Commission continues to make Medicare supplement insurance payments on Part B and D deductibles for one employee. Prior to January 2020, 2 employees were on this plan until one retired in December 2019. During the year ended December 31, 2019, the County Commission paid \$9,896 in Medicare supplement insurance payments to a vendor.

Dunklin County
Management Advisory Report - State Auditor's Findings

Internal Revenue Service Guidance 2015-17 stipulates that an arrangement under which an employer reimburses (or pays directly) some or all of Medicare Part B or Part D premiums for employees constitutes an employer payment plan, as described in Notice 2013-54, and if such an arrangement covers 2 or more active employees, is a group health plan subject to the market reforms.

Recommendation

The County Commission review its use of the Medicare reimbursement plan and only provide a process or plan to employees that is in compliance with federal law.

Auditee's Response

We will take the recommendation under advisement.

4. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

4.1 Passwords

The County Assessor, County Clerk, County Collector-Treasurer, Prosecuting Attorney, Public Administrator, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not periodically changed in certain offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

4.2 Security controls

County officials do not have security controls in place to lock computers after a specified number of incorrect logon attempts.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

4.3 Data backups

The County Assessor, County Clerk, and Public Administrator do not store backup data at an off-site location. In addition, the County Assessor, County Clerk, Prosecuting Attorney, Recorder of Deeds, and Sheriff do not perform periodic testing of backup data.

Dunklin County Management Advisory Report - State Auditor's Findings

Failure to store computer backup data at a secure off-site location results in the backup data being susceptible to the same damage as the data on the computer. To help prevent loss of information and ensure essential information and computer systems can be recovered, computer data should be stored off-site and tested on a periodic basis.

Recommendations

The County Commission work with other county officials to:

- 4.1 Require passwords for each employee to be periodically changed to prevent unauthorized access to the county's computers and data.
- 4.2 Require county computers have security controls in place to lock each computer after a specified number of incorrect logon attempts.
- 4.3 Ensure computer backup data is stored in a secure off-site location and tested on a regular basis.

Auditee's Response

- 4.1 & 4.2 *We will work to improve password and security controls.*
- 4.3 *We will work to store backup data off-site and ensure backup data is tested regularly.*

5. Public Hearings

The January 31, 2019, County Commission meeting minutes did not document the public hearing and votes related to the 2019 county budget. The County Clerk indicated the meeting included a public hearing and vote by the County Commission on approval of the budget. The County Commission did not hold a public hearing and approve the county's 2019 tax rates. The County Clerk indicated a hearing was not held because the tax rates did not change from the previous year.

Section 610.020.7, RSMo, states minutes of open and closed meetings shall be taken and retained by the public governmental body, including, but not limited to, a record of any votes taken at such meetings. The minutes shall include the date, time, place, members present, members absent, and a record of any votes taken. In addition, Section 137.055.2, RSMo, states the county governing body shall hold a public hearing prior to approving the tax rates of the county.

Recommendation

The County Commission ensure all votes are included in the meeting minutes, including but not limited to the approval of the county budget. In addition, a public hearing should be held each year prior to approving the property tax rates.

Auditee's Response

We will ensure all votes are included in the meeting minutes. A public hearing will be held each year prior to approving the property tax rate even though it is zero.

Dunklin County

Organization and Statistical Information

Dunklin County is a township-organized, third-class county. The county seat is Kennett.

Dunklin County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 92 full-time employees and 3 part-time employees on December 31, 2019. The townships maintain county roads.

In addition, county operations include the Senate Bill 40 Board and the 911 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2020	2019
Don Collins, Presiding Commissioner	\$	33,285
Patrick McHaney, Associate Commissioner		31,185
Ron Huber, Associate Commissioner		31,185
Connie Green, Recorder of Deeds		47,250
Kent Hampton, County Clerk		47,250
Nicholas D. Jain, Prosecuting Attorney		140,667
Bob Holder, Sheriff		52,500
James B. Powell, County Coroner		16,800
Matthew W. Jackson, Public Administrator		47,250
Kathy Rasberry, County Collector-Treasurer (1), year ended March 31,	50,389	
Karen Vandiver, County Assessor, year ended August 31,		47,250

(1) Includes \$3,139 of commissions earned for collecting drainage district property taxes.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Madison County

Sheriff's Controls and Procedures	<p>The Sheriff has not adequately segregated accounting duties and does not ensure supervisory reviews of detailed accounting and bank records are performed. The Sheriff has not established adequate procedures for receipting, depositing, transmitting, and disbursing monies. Sheriff's office personnel do not prepare a monthly list of liabilities for the civil paper service/bond account or the commissary account, and consequently, liabilities are not agreed to the reconciled bank balances. The Sheriff has not resolved inactive bank accounts remaining from the prior Sheriff. The Sheriff's office has not established adequate records and procedures over inmate ledgers and commissary orders. The Sheriff does not disburse commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law and the Sheriff used commissary net proceeds to purchase items for jail operations outside the normal county procurement or budget process. The Sheriff's office does not maintain perpetual inventory records of commissary items and periodic physical inventory counts are not performed. The Sheriff's office does not charge or collect sales taxes on commissary sales, and no sales taxes are remitted to the Missouri Department of Revenue. The Sheriff has not established adequate procedures to ensure timely collection of amounts billed for mileage relating to civil paper service. The Sheriff has not entered into written agreements with the surrounding counties or cities for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations. The Sheriff's office has not established adequate controls and procedures over seized property.</p>
Prosecuting Attorney's Controls and Procedures	<p>The Prosecuting Attorney's bad check bank account had \$426 of unidentified monies at December 31, 2019. The Prosecuting Attorney has not established adequate procedures to ensure restitution amounts owed by defendants are accurately entered into the computer system.</p>
Recorder of Deeds' Controls and Procedures	<p>The Recorder of Deeds does not record some monies received and some receipts are not disbursed. The Recorder of Deeds does not account for the numerical sequence of receipt slip numbers and has not resolved the unidentified balance in her bank account.</p>
Property Tax Levy Reductions	<p>The County Clerk did not use accurate assessed valuation amounts when performing his annual property tax reduction calculations.</p>
Electronic Data Security	<p>The Public Administrator, Recorder of Deeds, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The County Clerk, County Treasurer, Public Administrator, Recorder of Deeds, and Sheriff do not have security controls in place to lock computers after a specified number of incorrect logon attempts and/or after a certain period of inactivity.</p>

Additional Comments

Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was Fair .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	18
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
Officeholders of Madison County

We have audited certain operations of Madison County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2019. The objectives of our audit were to:

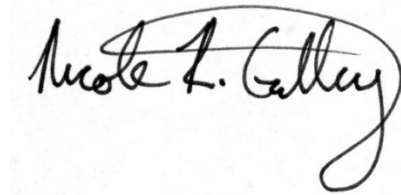

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Madison County.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Madison County

Management Advisory Report

State Auditor's Findings

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The Sheriff operates a jail and provides an in-house commissary for inmates to purchase various snacks and personal items, in addition to handling money for bonds, civil paper service receipts, and concealed carry weapon (CCW) permits. The office collected approximately \$19,500 for inmate commissary receipts, \$146,600 for bond monies, \$21,800 for civil paper service receipts, and \$4,800 for CCW permits during the year ended December 31, 2019.

1.1 Segregation of duties

The Sheriff has not adequately segregated accounting duties and does not ensure supervisory reviews of detailed accounting and bank records are performed.

- The Dispatcher is primarily responsible for civil paper service and bond transactions, including receipting, recording, and depositing monies; preparing checks; and preparing the bank reconciliation for the civil paper service/bond account.
- A deputy is primarily responsible for CCW transactions, including receipting, recording, and transmitting monies to the County Treasurer for deposit.
- The Jail Administrator is primarily responsible for inmate monies, including receipting, recording, and depositing monies; preparing and signing checks; and preparing the bank reconciliation for the commissary account. The Jail Administrator also handles the commissary inventory, including purchasing and stocking inventory items, distributing ordered items to inmates, and maintaining commissary records.

In addition, although the monthly bank reconciliations indicate they have been reviewed by the Sheriff, this review is not always completed. The monthly bank reconciliations prepared by the Dispatcher and the Jail Administrator for the civil paper service/bond account and the commissary account, respectively, include a cover page with the Sheriff's signature. However, the cover pages are prepared by the respective employees who also apply the Sheriff's signature electronically, or by using a stamp. Even though the cover pages include the Sheriff's signature, the Sheriff indicated she does not always have time to review the bank reconciliations.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receipting, recording, depositing, transmitting, disbursing, and reconciling monies, and also purchasing, recording, and distributing commissary items to inmates. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records, as well as commissary records, are essential. In addition, the Sheriff should sign the

Madison County
Management Advisory Report - State Auditor's Findings

bank reconciliations only after performing a detailed review of the accounting and bank records.

1.2 Receipting, depositing, transmitting, and disbursing

The Sheriff has not established adequate procedures for receipting, depositing, transmitting, and disbursing monies.

- Manual receipt slips are not always issued when monies are received for the commissary account. As a result, receipt slips issued cannot be reconciled to the deposits. The Jail Administrator indicated receipt slips are not always issued for monies received in the mail or when inmates have cash at the time of their arrest.
- The Dispatcher does not always deposit civil paper service and bond receipts timely. For example, monies received from August 10 through August 20, 2019, totaling \$1,072, were not deposited until September 3, 2019. In addition, monies received from August 29 through August 31, 2019, totaling \$461, were not deposited until September 23, 2019.
- Civil paper service fees are not always disbursed to the County Treasurer timely. Although the Dispatcher prepares disbursement checks monthly, the Sheriff stated she may hold the checks to ensure a balance was retained in the bank account. For example, fees for March 2019 through July 2019 were not disbursed to the County Treasurer until August 5, 2019, and fees for August 2019 through November 2019 were not disbursed to the County Treasurer until December 11, 2019.
- CCW permit fees are not always transmitted to the County Treasurer timely. For example, monies received from May 2019 through July 2019, totaling \$710, were not transmitted until July 26, 2019.

Failure to implement adequate receipting, depositing, transmitting, and disbursing procedures increases the risk that loss, theft, or misuse of monies received will occur and go undetected. In addition, Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such monies monthly to the County Treasurer. Also, pursuant to Section 50.380, RSMo, the Sheriff may be subject to penalties for failure to timely disburse monies.

1.3 Liabilities

Sheriff's office personnel do not prepare a monthly list of liabilities for the civil paper service/bond account or the commissary account, and consequently, liabilities are not agreed to the reconciled bank balances.

For the civil paper service/bond account, we identified liabilities totaling \$1,728 at December 31, 2019. The reconciled bank balance was \$2,033, leaving an unidentified balance of \$305. For the commissary account, the reconciled bank balance was \$3,503 at December 31, 2019. Liabilities of this

Madison County Management Advisory Report - State Auditor's Findings

account could not be easily identified, and included inmate monies as well as commissary net proceeds. No comprehensive list of inmate balances is maintained and the amount of net proceeds in the account is unknown.

Monthly lists of liabilities should be prepared and reconciled to cash balances to ensure records are in balance, errors are detected and corrected timely, and sufficient cash is available for the payment of all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure monies are properly disbursed. Various statutory provisions provide for the disposition of unidentified monies.

- 1.4 Inactive bank accounts** The Sheriff has not resolved inactive bank accounts remaining from the prior Sheriff. The office has 3 old inactive bank accounts including an old jail commissary account, an old jail commissary profit account, and a drug task force account with balances of \$599, \$320, and \$1,000, respectively, as of December 31, 2019.

The Sheriff's office does not have a list of liabilities for the old jail commissary account and the Sheriff is unaware of any documentation identifying the proper balances of the other 2 accounts. In addition, the old jail commissary and jail commissary profit accounts are incurring monthly service charges of \$5 each. The Sheriff indicated the accounts have incurred the service charges since at least January 2017, when she took office.

Maintaining old inactive accounts increases the risk of loss, theft, or misuse of funds. The Sheriff's office should attempt to identify and distribute the funds held in old inactive bank accounts, dispose of any unclaimed or unidentified funds in accordance with state law, and close the accounts.

1.5 Inmate ledgers and commissary orders

The Sheriff's office has not established adequate records and procedures over inmate ledgers and commissary orders. The Sheriff maintains a commissary bank account for the deposit of inmate monies. These monies are held in trust for the inmates and may be used to purchase various items from the in-house commissary. Monies received, commissary purchases made, and the available cash balance are recorded on a manual ledger for each inmate. Inmates order items from the commissary using manual order forms, and the payments are deducted from the inmates' available balances. Any remaining monies are paid to inmates upon release. During our review of inmate ledgers and commissary order forms for June and July 2019 for 10 inmates, we identified the following concerns:

- The Sheriff's office does not maintain documentation to support all commissary transactions. Sheriff's office personnel could not provide the inmate ledger covering part of July 2019 for 2 inmates. Order forms indicate 1 of the inmates made at least 3 purchases and the other inmate made 1 purchase during that time period. Also, Sheriff's office personnel

Madison County Management Advisory Report - State Auditor's Findings

could not provide commissary order forms or the forms did not exist for 2 purchases made by other inmates.

- The Sheriff's office does not have adequate procedures to ensure the accuracy of commissary order forms. Errors were noted with the mathematical accuracy of 4 commissary order forms reviewed. As a result, the inmates were charged incorrect amounts for their commissary purchases.
- One inmate's balance was overdrawn by \$33. The inmate made a purchase totaling \$33 and received the items. The inmate's balance at the time of the purchase showed the inmate had sufficient funds for the purchase because the inmate had added funds to the account the same day. The Jail Administrator indicated the added funds were received and added to the inmate's balance, but were returned to the inmate before being deposited because the inmate was transferred to another facility. Because the inmate's funds were refunded, the inmate actually had insufficient funds for the purchase and the account was overdrawn.

Adequate records and procedures over inmate ledgers and commissary orders are necessary to ensure inmate commissary account balances are accurate.

1.6 Commissary net proceeds

The Sheriff does not disburse commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. In addition, the Sheriff used commissary net proceeds to purchase items for jail operations outside the normal county procurement or budget process.

All commissary net proceeds from commissary sales are retained with inmate monies in the commissary bank account. As of December 31, 2019, the reconciled bank balance of the commissary account was \$3,503. As discussed in section 1.3, it is unknown how much of this balance was inmate money and how much was commissary net proceeds.

Disbursements made from the commissary bank account for jail operations include supplies to build a jail garden, a new washing machine, laundry supplies, a monthly satellite television subscription, and cleaning supplies. These purchases did not go through the normal county procurement or budget process and the County Commission did not approve them.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer. In addition, Section 488.5026.3,

Madison County
Management Advisory Report - State Auditor's Findings

RSMo, mandates how the funds deposited in the Inmate Prisoner Detainee Security Fund shall be used.

1.7 Commissary inventory The Sheriff's office does not maintain perpetual inventory records of commissary items and periodic physical inventory counts are not performed.

Loss, theft, or misuse of the commissary inventory and related monies may go undetected without adequate inventory records and procedures. Detailed inventory records are necessary to adequately account for commissary inventory. Comparison of a periodic physical inventory to inventory records is necessary to ensure commissary items and related monies are properly recorded and handled.

1.8 Sales taxes The Sheriff's office does not charge or collect sales taxes on commissary sales, and no sales taxes are remitted to the Missouri Department of Revenue (DOR). Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax.

To ensure sales taxes are properly handled, the Sheriff should contact the DOR for guidance on establishing procedures for charging and collecting sales taxes on commissary sales, and ensure all future sales tax collections are remitted to the DOR.

1.9 Civil paper service mileage fees The Sheriff has not established adequate procedures to ensure timely collection of amounts billed for mileage relating to civil paper service. Approximately \$21,800 in civil paper service fees and mileage was collected for the year ended December 31, 2019.

The Sheriff's office typically collects fees for performing civil paper service prior to serving the papers, but mileage costs are not collected until after the papers have been served. If a deputy drives more than 5 miles round trip to serve the papers, the Sheriff's office will send a bill for mileage costs incurred. However, the Sheriff's office does not track the mileage billings sent or retain copies of mileage billings. As a result, an accounts receivable balance cannot be determined and the Sheriff's office is unable to follow up on outstanding billings to ensure all billed amounts have been collected.

To ensure timely collection of amounts billed, the Sheriff should maintain a complete and accurate list of all civil paper service mileage amounts billed. Unpaid amounts should be monitored and appropriate follow-up action taken to ensure all billed amounts are received.

1.10 Prisoner boarding The Sheriff has not entered into written agreements with the surrounding counties or cities for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations. The Sheriff does not bill any county or city for the

Madison County Management Advisory Report - State Auditor's Findings

boarding of prisoners. The Sheriff stated she has several verbal agreements to allow Madison County to house prisoners at other jails without paying if Madison County will also house prisoners for that county or city at no cost. The Sheriff has not performed an analysis to determine if such an arrangement is cost effective.

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved, should specify the services to be rendered and the manner and amount of compensation to be paid. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. In addition, the county should periodically analyze incarceration costs to ensure agreements with surrounding counties and cities to not bill for housing prisoners is cost effective.

1.11 Seized property

The Sheriff's office has not established adequate controls and procedures over seized property. We identified the following concerns:

- A complete seized property evidence listing is not maintained. Seized property is stored in 2 evidence rooms. Room 1 holds property seized prior to 2017, and Room 2 holds property seized from 2017 to present. The seized property evidence listing includes only evidence in Room 1. Sheriff's office personnel have not added the seized property in Room 2 to the evidence listing. The Evidence Officer has been working on improving and updating the records for Room 1, and is in the process of training another employee to assist with the seized property records.
- We tested 9 seized property items in Room 1 and identified concerns with 1 item (11 percent) that was not properly tagged and could not be found on the evidence listing. The Evidence Officer investigated the item and determined the property was seized in 2018, and should have been stored in Room 2.
- The Sheriff's office has not performed a physical inventory of seized property.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Complete and accurate inventory records including information such as description, current location, case number, date of seizure, and disposition of such property should be maintained, and periodic physical inventories performed with the results compared to inventory records to ensure seized property is accounted for properly. In addition, all seized property should be properly tagged to identify the property to a specific case.

Madison County
Management Advisory Report - State Auditor's Findings

Similar conditions previously reported

A similar condition to section 1.1 was noted in our prior 2 audit reports, a similar condition to section 1.2 was noted in our prior 4 audit reports, and similar conditions to sections 1.3, 1.5, 1.6, 1.7, and 1.10 were noted in our prior audit report.

Recommendations

The Sheriff:

- 1.1 Segregate accounting duties or ensure independent or supervisory reviews of detailed accounting, bank, and commissary records are performed and documented. In addition, the Sheriff should only sign the bank reconciliations after a review of the detailed accounting and bank records has been performed.
- 1.2 Issue receipt slips for all monies received, deposit monies timely, and transmit or disburse monies monthly in accordance with state law.
- 1.3 Prepare monthly lists of liabilities and reconcile the lists to the available cash balances. Any differences between accounting records and reconciliations should be promptly investigated and resolved. Any unidentified monies should be disposed of in accordance with state law.
- 1.4 Attempt to identify and distribute the funds held in old inactive bank accounts, dispose of any unclaimed or unidentified funds in accordance with state law, and close the accounts.
- 1.5 Establish procedures to ensure the accuracy of all inmate ledgers and available balances, including maintaining documentation for all commissary transactions, reviewing commissary order forms for accuracy, and deducting all commissary purchases from inmate balances.
- 1.6 Ensure existing and future commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed to the County Treasurer for deposit in the Inmate Prisoner Detainee Security Fund.
- 1.7 Maintain inventory records of commissary items and reconcile the records to purchases, sales, and periodic physical inventory counts.
- 1.8 Contact the DOR for guidance on establishing procedures for charging and collecting sales taxes on commissary sales, and ensure all future sales tax collections are remitted to the DOR.
- 1.9 Establish procedures to track, monitor, and pursue collection of amounts billed for civil paper service mileage.

Madison County
Management Advisory Report - State Auditor's Findings

- 1.10 Work with the County Commission to obtain written agreements with counties and cities for the boarding of prisoners. In addition, the Sheriff and the County Commission should periodically analyze incarceration costs to ensure boarding prisoners at no charge is cost effective.
- 1.11 Maintain a complete and accurate seized property evidence listing and ensure periodic physical inventories are conducted and reconciled to the seized property evidence listing. Any differences should be investigated and resolved. In addition, all seized property should be properly tagged to identify the property to a specific case.

Auditee's Response

The Sheriff provided the following responses:

- 1.1 *I will segregate the accounting duties for the following accounts: civil paper service/bond, CCW, and commissary. I will also review each of these accounts monthly and I will personally sign off on each account after I have reviewed it.*
- 1.2 *Receipt slips will be issued when monies are received for the following accounts: civil paper service/bond, CCW, and commissary. Monies received for these accounts will be deposited in a timely manner. Civil paper service fees, CCW permit fees, and any commissary net proceeds will be disbursed to the County Treasurer monthly in accordance with state law.*
- 1.3 *A list of liabilities will be prepared monthly and reconciled to available cash balances. If a difference is found, it will be investigated immediately so that it may be resolved. The civil paper service/bond account was recently set up with online banking access. This is another way to check for liabilities and resolve these issues quickly.*
- 1.4 *All 3 old bank accounts have been closed. I will research the accounts further to attempt to locate the owners of the monies.*
- 1.5 *After careful consideration, the Jail Administrator has decided to go with an outside supplier for commissary needs. By using an outside vendor, this will ensure all inmate ledgers and balances will be accurate, sales tax will be collected and distributed to the DOR, and any profit checks will be sent directly to the County Treasurer.*
- 1.6 *With the use of an outside commissary supplier, the supplier will then be able to send the net proceeds monies directly to the County Treasurer to be deposited in the Inmate Prisoner Detainee Security Fund. Also, the Jail Administrator will be made aware of Section*

Madison County
Management Advisory Report - State Auditor's Findings

488.5026.3, RSMo, and what the funds in this account shall be used for.

- 1.7 An inventory of commissary items will be maintained and this will be reconciled with the purchases and sales until the in-house commissary is closed and an outside commissary supplier takes over.*
- 1.8 The DOR will be contacted on the proper procedure for collecting taxes from commissary sales.*
- 1.9 Procedures will be established to track, monitor, and pursue collection of mileage for civil paper service.*
- 1.10 A prisoner boarding agreement will be written with the assistance of the County Commissioners and will be distributed to counties requesting to house inmates in the Madison County jail.*
- 1.11 A complete list of evidence will be maintained for each of the 2 evidence rooms. An annual inventory will be conducted on both evidence rooms. If any discrepancies are located, they will be investigated and corrected immediately.*

The County Commission provided the following response:

- 1.10 We will work with the Sheriff to implement the recommendation.*

2. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately \$11,400 for bad check restitution and fees and \$24,400 for court-ordered restitution and fees during the year ended December 31, 2019.

2.1 Unidentified monies

The Prosecuting Attorney's bad check bank account had \$426 of unidentified monies at December 31, 2019. The Legal Assistant disburses all new receipts each month, and reconciles the bank balance to the unidentified balance of \$426 on a monthly basis. The Legal Assistant indicated the unidentified monies have been in the account for at least 15 years. Since records are not sufficient to identify to whom this money is owed, it should be disposed of in accordance with state law.

Maintaining unidentified balances in the bank account increases the risk of loss, theft, or misuse of such funds. Various statutory provisions address the disposal of unidentified monies.

A similar condition was noted in our prior audit report.

Madison County
Management Advisory Report - State Auditor's Findings

2.2 Court-ordered restitution The Prosecuting Attorney has not established adequate procedures to ensure restitution amounts owed by defendants are accurately entered into the computer system.

During our test of restitution receipts, we noted the total restitution amount owed by the defendant per the computer system did not agree to documentation from the court for 3 of the 5 receipts reviewed. For example, court documentation indicated a defendant owed \$3,110; however \$2,530 was entered into the computer system for a difference of \$580. The Legal Assistant indicated the amount entered into the computer system was an error, and as of December 31, 2019, the defendant was still in the process of making restitution payments.

To ensure the accuracy of all amounts owed, and subsequently paid by defendants, restitution amounts entered into the computer system should be reviewed and compared with court documentation. Any differences should be promptly investigated and resolved to ensure the proper amount of restitution is collected.

Recommendations

The Prosecuting Attorney:

- 2.1 Disburse unidentified monies in accordance with state law.
- 2.2 Establish procedures to review restitution amounts entered into the computer system to ensure amounts agree with court documentation. Any differences should be promptly investigated and resolved.

Auditee's Response

- 2.1 *We will disburse the unidentified monies in accordance with state law.*
- 2.2 *We will be more diligent about entering restitution amounts into the computer system. Any differences identified will be investigated and resolved.*

3. Recorder of Deeds' Controls and Procedures

Controls and procedures in the Recorder of Deeds' office need improvement. The office collected approximately \$80,400 for recording documents such as marriage licenses and deeds, and for other miscellaneous receipts during the year ended December 31, 2019.

3.1 Receipts and disbursements

The Recorder of Deeds does not record some monies received and some receipts are not disbursed. In addition, the Recorder of Deeds does not account for the numerical sequence of receipt slip numbers.

Electronic payments

The Recorder of Deeds receives electronic payments for records access; however, these payments are not recorded in the computer system, are not

Madison County Management Advisory Report - State Auditor's Findings

assigned receipt numbers, and have not been disbursed. During the year ended December 31, 2019, \$1,350 in records-access receipts have accumulated in the Recorder of Deeds' bank account that should be disbursed.

Numerical sequence

The Recorder of Deeds does not account for the numerical sequence of receipt slip numbers issued to ensure monies received have been properly recorded and deposited.

To reduce the risk of loss, theft, or misuse of monies received, procedures should be established to ensure all monies received are properly receipted and disbursed appropriately. Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to disburse such monies monthly to the County Treasurer. In addition, procedures should be established to account for the numerical sequence of receipt slips.

3.2 Unidentified monies

The Recorder of Deeds has not resolved the unidentified balance in her bank account. As of December 31, 2019, the reconciled bank balance was \$3,994. Of this amount, \$1,350 was identified as the accumulated records access receipts discussed in section 3.1. The remaining balance of \$2,644 appears to be money remaining in the bank account from the prior Recorder of Deeds. The Recorder of Deeds cannot locate the applicable records from the prior Recorder of Deeds to identify to whom this money is owed. As a result, it should be disposed of in accordance with state law.

Maintaining unidentified balances in the bank account increases the risk of loss, theft, or misuse of such funds. Various statutory provisions address the disposal of unidentified monies.

Recommendations

The Recorder of Deeds:

- 3.1 Ensure all monies received are properly receipted and disbursed and account for the numerical sequence of receipt slips issued.
- 3.2 Disburse unidentified monies in accordance with state law.

Auditee's Response

- 3.1 *The Recorder of Deeds' office has disbursed the fees for the electronic payments that had not been previously disbursed. We will now receipt and disburse these fees each month.*

The Recorder of Deeds' office is now making a paper list of the sequence of receipt numbers and instrument numbers for the documents that are recorded. Copies are included in these receipt numbers, but will not have a document instrument number. If a receipt has been deleted for some reason, such as rejecting a deed once we start recording, the information is written in red on our copy. Once the month is over, we print a computer copy of the sequence of

Madison County
Management Advisory Report - State Auditor's Findings

receipt numbers (which includes instrument numbers). We compare the two lists and write down any deleted information on the computer copy. We then file these with the monthly reports.

Marriage licenses are listed the same way. The Recorder of Deeds' office is now keeping a hand-written list of marriage licenses that have been issued and recorded. Once the month has concluded, the computer list is printed and matched with the hand-written one. If anything has been deleted, it is written in red on both copies, then the lists are filed with the monthly reports.

- 3.2 *As previously explained, all monies for the electronic payment fees have been disbursed. I currently have an unidentified balance of \$963. The Recorder of Deeds' office is still trying to locate where the remaining amount goes. If that cannot be determined, the monies will be disbursed in accordance with state law.*

4. Property Tax Levy Reductions

The County Clerk did not use accurate assessed valuation amounts when performing his annual property tax reduction calculations. For example, the County Clerk's 2019 calculation did not include assessed valuation of \$5.6 million for railroad and utility property. As a result, the 2019 general revenue property tax levy was reduced by approximately \$16,000 more than required by law.

Section 67.505, RSMo, requires the county to reduce property taxes for a percentage of sales taxes collected. Madison County voters enacted a one-half of 1 percent general sales tax with a provision to reduce property taxes by 50 percent of sales taxes collected. To determine the required reduction in property tax revenue, the County Clerk must annually calculate an estimated property tax levy using the county's total assessed valuation, tax rate ceiling, and estimated sales tax revenue for the current year. Understating the assessed valuation in this calculation results in reducing the property tax levy by more than required. To ensure property tax levies are properly set, the County Commission and the County Clerk should ensure property tax reductions are accurately calculated, including using the correct assessed valuation.

Recommendation

The County Commission and the County Clerk properly calculate property tax rate reductions.

Auditee's Response

The County Clerk refigured the assessed value of Madison County including the railroad and utility assessed valuation for 2020. It changed the rollback amount which produced a General Revenue levy for 2020 of 0.1788. We will ensure the property tax rate reductions are properly calculated in the future.

5. Electronic Data Security

5.1 Passwords

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

The Public Administrator, Recorder of Deeds, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically and/or use passwords with a minimum number of characters to help ensure passwords remain known only to the assigned user.

Passwords are required to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords in certain offices are not required to be periodically changed or contain a minimum number of characters, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be confidential, changed periodically, and contain a minimum number of characters to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

5.2 Security controls

The County Clerk, County Treasurer, Public Administrator, Recorder of Deeds, and Sheriff do not have security controls in place to lock computers after a specified number of incorrect logon attempts and/or after a certain period of inactivity.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive unsuccessful logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Without effective security controls and effective procedures to remove user access, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendations

The County Commission work with other county officials to:

- 5.1 Require each employee to have a confidential password with a minimum number of characters that is periodically changed.
- 5.2 Require each county computer to have security controls in place to lock it after a specified number of incorrect logon attempts and after a certain period of inactivity.

Madison County
Management Advisory Report - State Auditor's Findings

Auditee's Response

The County Commission provided the following response:

We agree and will work with the other county officials to improve electronic data security controls.

The Recorder of Deeds provided the following responses:

- 5.1 *The Recorder of Deeds has contacted the county's information technology vendor to set up the password controls for this office's computers. The Recorder of Deeds' office will be requiring passwords be changed every 3 months. At this time, we are awaiting the arrival of a technician to set this up. The Recorder of Deeds also had the software company that we use set up a mandatory changing of passwords every 3 months within the software program.*
- 5.2 *Along with the passwords being mandatorily changed every 3 months, login attempt controls are being set up. This will be 3 login attempts before locking the computer or the recording software, whichever the login attempt is being tried on.*

The Sheriff provided the following responses:

- 5.1 *Each employee will have a confidential password that they will have to periodically change and that contains a certain amount of characters.*
- 5.2 *Each Sheriff's office computer will be assigned a password to be logged in and then will be set to lock after a specific amount of inactivity.*

The County Clerk provided the following response:

- 5.2 *Security of the computers in the County Clerk's office is now set to shut off after 10 minutes if no key strokes are made. One must log back in using their password. If that does not work, we must call our technology company to get the password reset.*

Madison County

Organization and Statistical Information

Madison County is a county-organized, third-class county. The county seat is Fredericktown.

Madison County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 63 full-time employees and 16 part-time employees on December 31, 2019.

In addition, county operations include the Senate Bill 40 Board, Law Enforcement Restitution Board, and the Tax Increment Financing Commission. Also, the county has 911 operations.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2020	2019
Jason Green, Presiding Commissioner	\$	28,184
Tom Stephens, Associate Commissioner		26,104
Larry Kemp, Associate Commissioner		26,104
Saundra K. Ivison, Recorder of Deeds		39,540
Donal E. Firebaugh, County Clerk		39,540
M. Dwight Robbins, Prosecuting Attorney		46,820
Katy J. McCutcheon, Sheriff		43,700
Jessica Stevens, County Treasurer (1)		22,812
Nadean Rice, County Treasurer (1)		16,728
Collin L. Follis, County Coroner		11,460
Carol LaChance, Public Administrator		25,916
Debby Boone, County Collector, year ended February 29,	39,540	
Sue Harmon Yount, County Assessor, year ended August 31,		39,540
William Douglas McFarland, County Surveyor (2)		

- (1) Nadean Rice served as County Treasurer until she resigned effective May 31, 2019. Jessica Stevens was appointed and took office on June 1, 2019.
- (2) William Douglas McFarland served as County Surveyor until he passed away on July 8, 2019. The position was vacant during the remainder of 2019. Compensation for the position is on a fee basis.

Missouri State Auditor

Thirty-Eighth Judicial Circuit
City of Clever
Municipal Division

Report No. 2020-099

November 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Thirty-Eighth Judicial Circuit - City of Clever Municipal Division

Accounting Controls and Procedures	Municipal Division employees do not always deposit receipts timely. Because the city has not established a separate fund or accounting for 3 court costs collected, the municipal division and the city have little assurance these court costs were properly used in compliance with state law.
Case Dispositions	The Municipal Judge does not always approve the final disposition of cases brought before the court or the fines handled through the Violation Bureau.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

NICOLE GALLOWAY, CPA
Missouri State Auditor

Presiding Judge
Thirty-Eighth Judicial Circuit
and
Municipal Judge
and
Honorable Mayor
and
Members of the Board of Aldermen
Clever, Missouri

We have audited certain operations of the City of Clever Municipal Division of the Thirty-Eighth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the municipal division's internal controls over significant financial functions.
2. Evaluate the municipal division's and city's compliance with certain legal provisions.
3. Evaluate the municipal division's compliance with certain court rules.
4. Evaluate the city's compliance with state laws restricting the amount of certain court revenues that may be retained.

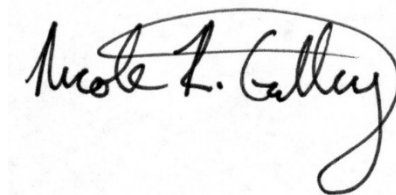

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) no significant noncompliance with court rules, and (4) no noncompliance with state laws restricting the amount of certain court revenues that may be retained. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Clever Municipal Division of the Thirty-Eighth Judicial Circuit.

An additional report, No. 2020-098, *City of Clever*, fulfilling our obligations under Section 29.230, RSMo, was issued in November 2020.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

	Hunter O'Donnell, M.Acct.

Thirty-Eighth Judicial Circuit

City of Clever Municipal Division

Management Advisory Report - State Auditor's Findings

1. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the year ended June 30, 2019, the municipal division collected \$21,442 in fines and court costs.

1.1 Deposits

Employees do not always deposit receipts timely. The Court Clerk also serves as the City Clerk. City employees did not deposit court receipts of \$50 (cash) collected on November 27, 2018, and \$150 (cash) collected on December 3, 2018, into the Municipal Division bank account until December 10, 2018. The city received no other court receipts between December 3 and December 10. This money was not deposited even though employees made 3 deposits of city-related receipts totaling \$2,050 into the General Fund bank account on December 3, 2018, and December 5, 2018. The Court Clerk could not explain why the court receipts did not get deposited timely.

To safeguard receipts and to reduce the risk of loss, theft, or misuse of monies received, procedures should be established to ensure all payments received are deposited timely and intact.

1.2 Restricted funds

The municipal division and the city have little assurance that certain court costs were properly used in compliance with state law. The city did not establish a separate fund and/or accounting for money collected for 3 different court costs assessed, is not tracking the amounts expended, does not know what has been spent or the remaining balance, and, as a result, cannot demonstrate whether the money collected from these court costs was used for the purposes required by statute. During the year ended June 30, 2019, the municipal division transmitted \$797.50 collected for these 3 court costs (\$322 law enforcement training, \$316.50 biometric verification, and \$159 judicial education) to the city monthly. Each month, city personnel deposit this money as a single combined payment into the city's General Fund bank account.

The city passed an ordinance in January 2015 to assess and collect a court cost of \$2 for law enforcement training and \$2 for biometric verification. Section 488.5336.2, RSMo, requires the law enforcement training funds to be used only for the training of law enforcement officers. Section 488.5026.3, RSMo, requires establishment of an Inmate Prisoner Detainee Security Fund and provides requirements concerning the usage of biometric verification funds. Allowable uses include acquisition and development of a biometric verification system and information sharing; maintenance, repair, and replacement of the information sharing or biometric verification system; and any expenses related to detention, custody, and housing and other expenses for inmates, prisoners, and detainees. Section 479.260, RSMo, allows the municipal court to establish a separate fund under the control of the municipal court, and deposit \$1 of court costs into the fund to pay for the education and certification of the municipal judge and judicial education and training for the court clerk.

Thirty-Eighth Judicial Circuit
City of Clever Municipal Division
Management Advisory Report - State Auditor's Findings

To ensure compliance with applicable state laws, separate funds and/or accounting of receipts and related disbursements associated with specific activities or restricted usage should be maintained.

Recommendations

The City of Clever Municipal Division:

- 1.1 Ensure receipts are deposited timely.
- 1.2 Work with the city to ensure court costs collected for restricted purposes are adequately tracked or deposited into a separate bank account and used for statutorily allowed purposes.

Auditee's Response

- 1.1 *To ensure proper segregation of duties, the Court Clerk does not make deposits. The Assistant City Clerk makes the deposits. If the Assistant City Clerk is not available to make a timely deposit in accordance with standard operating procedure, the Court Clerk will make the deposit with a secondary accompaniment of the Municipal Judge, Mayor, or a member of the Board of Aldermen to maintain the security of the deposits.*
- 1.2 *We have created a secondary general ledger to track receipts and disbursements of restricted court monies and to ensure that court costs collected for restricted purposes are spent in accordance with statutory requirements.*

2. Case Dispositions

The Municipal Judge does not always approve the final disposition of cases brought before the court or the fines handled through the Violation Bureau.

The Court Clerk records the case activity and final disposition of each case in the case management system. Our review of 10 tickets noted 2 (20 percent) tickets did not have the Municipal Judge's approval of final disposition documented on either the court docket or the manual docket.

To ensure the proper disposition of all cases has been entered in the municipal division records, the Municipal Judge should sign the court docket to indicate approval of the recorded disposition.

Recommendation

The City of Clever Municipal Division ensure the Municipal Judge signs all court dockets.

Auditee's Response

The 2 instances found by the auditors are aberrations in our existing practices. Great care is taken to ensure that the final disposition of all cases has a final docket entry that the case is to be closed and that entry is signed off on or initialed by the Judge.

Thirty-Eighth Judicial Circuit

City of Clever Municipal Division

Organization and Statistical Information

The City of Clever Municipal Division is in the Thirty-Eighth Judicial Circuit, which consists of Christian County. The Honorable Laura J. Johnson serves as Presiding Judge.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury. The municipal division utilizes the Office of State Court Administrator's (OSCA) statewide automated case management system known as JIS.

Personnel

At June 30, 2019, the municipal division employees were as follows:

Title	Name
Municipal Judge	Matthew Owen
Court Clerk	Kristy Keithley
Prosecuting Attorney	Patty Shilling

Financial and Caseload Information

	Year Ended June 30, 2019
Receipts	\$21,442
Number of cases filed	198

Court Costs, Surcharges, and Fees

Type	Amount
Court Costs (Clerk Fee)	\$ 11.00
Crime Victims' Compensation	7.50
Law Enforcement Training	2.00
Peace Officer Standards and Training	1.00
Sheriff's Retirement	3.00
Judicial Education	1.00
Court Automation	7.00
Inmate Security (Biometric Verification)	2.00

City of Clever

Report No. 2020-098

November 2020

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Clever

Payroll Controls and Procedures	The city does not have a separate personnel policy or a provision in the employee handbook authorizing a "safety bonus payment" or "safety incentive payment." Supervisory review performed over biweekly payroll is not sufficient. We identified a payroll calculation error based on the city's policies. City officials allow employees to record leave usage in increments that are not approved by the employee handbook.
Disbursements	The city does not have a long-range plan for the development of a recent real estate purchase and paid significantly more than the appraised value for the 2 properties. Some disbursements allocated to various city funds did not have sufficient documentation to support how the allocation amounts were determined. The city does not have written contracts with an independent contractor (service provider).
Accounting Controls and Procedures	City employees do not always deposit receipts timely. The city does not maintain the change fund at a constant amount and uses it for petty cash expenses. In addition, a petty cash ledger is not maintained to support petty cash transactions.
Budgets and Financial Reporting	City budgets do not include all elements required by state law. City officials did not publish the semiannual financial statements for the 6 months ended December 31, 2019, as required by state law.
Utilities	The city does not have an ordinance or written policies authorizing partial payments, and does not follow established service shutoff procedures for customers who make partial payments. Periodic formal cost studies of utility (water and sewer) rates have not been performed.
Police Department Assets	Controls and documentation over tracking of Police department assets need improvement.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
Clever, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Clever. We have audited certain operations of the city in fulfillment of our duties. The city engaged Decker and DeGood, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2019. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2019. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

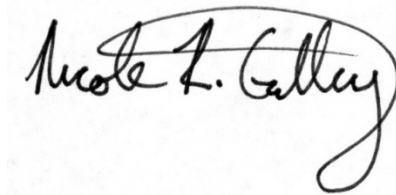

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and its audited financial statements and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Clever.

An additional report, Report No. 2020-099, *Thirty-Eighth Judicial Circuit, City of Clever Municipal Division*, was issued in November 2020.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The initials "R." are written between the first and last names.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Travis Owens, MBA, CPA, CFE, CGAP
In-Charge Auditor:	Erin N. Dierksen
Audit Staff:	Stephanie M. Kroner Hunter O'Donnell, M.Acct.

City of Clever

Management Advisory Report

State Auditor's Findings

1. Payroll Controls and Procedures

Controls and procedures over payroll and related matters need improvement. The city paid approximately \$225,000 in wages during the year ended June 30, 2019.

1.1 Safety incentive payments

The city does not have a separate personnel policy or a provision in the employee handbook authorizing a "safety bonus payment" or "safety incentive payment." The Board of Aldermen approved and paid safety incentive payments totaling \$900 to 9 city employees (\$100 each) in December 2019. The City Clerk indicated these payments have been a long-term practice of the city to reward employees for performing their job duties without any at-fault accidents.

Incentive payments were made without a formalized and clearly defined process of how the additional compensation was to be earned, giving the appearance of year-end bonuses, that may violate the Missouri Constitution. Without a formalized process being documented, the individuals participating in the program, as well as the individuals evaluating performance, cannot have a clear understanding of what level of performance is necessary to earn the incentive payments. Establishing clear and defined goals to be achieved in order to earn incentive payments, including what data sources will be used to measure progress toward goals, provides clarity to the employee and management, as well as to the public. Ensuring the goals to be achieved represent performance that warrants incentive payments, and not just performance of standard job duties, can reduce the perception these payments are merely additional compensation, and would make the executive incentive program more likely to be allowable under the Missouri Constitution.

While the use of an incentive program may be allowable if implemented and executed appropriately, the absence of consistent documentation about performance goals to be met and the lack of defined objective criteria to determine the achievement of incentives gives the appearance the payments represent additional compensation for past performance. In addition, including employees in the program without always formally notifying them and documenting their inclusion creates an appearance the incentive payment represents additional compensation for past performance. Article III, Section 39, Missouri Constitution, prohibits the granting of additional compensation for services rendered. As stated in Attorney General's Opinion No. 72-1955 (June 14, 1955), ". . . a government agency deriving its power and authority from the constitution and laws of the state would be prohibited from granting extra compensation in the form of bonuses to public officers after the service has been rendered." In addition, Article VI, Sections 23 and 25, Missouri Constitution prohibit local governments from granting money to any private individual, except as otherwise provided by law.

1.2 Timesheets

Supervisory review performed over biweekly payroll is not sufficient. Reviews performed did not detect errors between employee timesheets and/or

City of Clever
Management Advisory Report - State Auditor's Findings

the data entered into the payroll accounting system. On a biweekly basis, timesheets and accounting records are reviewed by the Mayor and Mayor Pro-tem. However, during our review of 2 payroll periods during the year ended June 30, 2019, the hours reported on 5 of 16 (31 percent) timesheets differed from the hours on corresponding paycheck stubs by amounts ranging from 15 minutes to 3 hours. In addition, employees are not required to sign timesheets. Most city employees, with the exception of police officers and the Police Chief,¹ did not sign their timesheets for the pay periods reviewed. Employees did not sign 8 of the 16 (50 percent) timesheets we reviewed.

Lack of sufficient supervisory reviews may lead to incorrect employee compensation. To ensure the accuracy of the hours worked, timesheets should be signed by the employees and reviewed and approved by the supervisor or a member of the Board. In addition, 29 CFR Section 516.2(a) of the Fair Labor Standards Act (FLSA) requires employers maintain accurate records of actual time worked by employees.

1.3 Holiday pay

We identified a payroll calculation error based on the city's policies. The city's personnel policy indicates the city is to reduce the amount of holiday time paid when the employee's hours worked in a week plus holiday hours exceed 40 hours so that the employee is not paid for more than 40 hours, unless the employee is required to physically work on the holiday.

For the work week ending December 29, 2019, we identified a concern regarding compliance with this policy for the 2 paid holidays (Christmas Eve and Christmas). The City Clerk is responsible for performing payroll calculations. For the Utility Clerk (who had worked an extra hour previously in the pay period), she reduced the 16 hours of holiday pay to 15 hours in compliance with the personnel policy. As a result, this employee received compensation for 40 hours of work instead of 41 hours. However, the City Clerk (who also worked an extra hour previously in the pay period) did not reduce her holiday pay to 15 hours and received compensation for 41 hours of work. The City Clerk could not explain why she did not reduce her hours as required by city policy.

Inconsistent practices could increase the risk of unfair and inequitable treatment of employees and potential litigation based on existing city policies.

1.4 Leave usage

City officials allows employees to record leave usage in increments that are not approved by the employee handbook. The city employee handbook dated November 21, 2017, states vacation leave may only be taken in 2 hour increments and sick leave may only be taken in 1 hour increments. The employee handbook was updated on February 19, 2019, to allow vacation

¹ We reviewed timesheets for 11 employees with 6 employees being police officers.

City of Clever Management Advisory Report - State Auditor's Findings

leave in 1 hour increments and sick leave in 1/2 hour increments. We reviewed leave usage for all pay periods and all city employees during 2019. We noted 7 of 14 (50 percent) city employees reviewed who took vacation and/or sick leave in unallowable increments under both the 2017 and 2019 dated handbooks. We noted instances where employees took (1) vacation leave in 1/4 and 3/4 hour increments and (2) sick leave in 1/6, 1/4, 1/3, and 3/4 hour increments. The poor supervisory review of timesheets discussed in section 1.2 likely contributed to this problem.

Chapter 5 of the city's current employee handbook states that vacation leave may be used in 1 hour increments and sick leave may be used in 1/2 hour increments. Failure to follow city policies or update policies to current practices regarding leave amounts could result in unfair and inequitable treatment of employees. In addition, Board officials cannot ensure hours worked and leave taken by employees are properly documented.

Recommendations

The Board of Aldermen:

- 1.1 Establish clear consistent and clearly defined criteria and/or performance goals to be met in order for employees to earn incentive payments prior to the period the incentive is to be paid or discontinue the practice of issuing safety incentive payments.
- 1.2 Ensure all timesheets are properly signed and approved, and someone matches employee work hours on the payroll register to the approved timesheets.
- 1.3 Ensure practices related to reduction of time during holiday weeks are consistently applied to all employees.
- 1.4 Ensure leave is taken in allowed increments per city policy.

Auditee's Response

- 1.1 *The city will discontinue this incentive program.*
- 1.2 *The employee standard operating procedures have been updated to require employee signatures on timesheets or time cards.*

Timesheets will be reviewed by the employee's supervisor. A second review will be completed by a combination of 2 elected officials (mayor, mayor pro-tem, or an alderman) as a standard operating procedure. This second review will include a comparison of approved timesheets to the payroll register to ensure hours were entered correctly.

- 1.3 *The personnel policy regarding holiday pay will be strictly adhered to as identified in the employee handbook.*

City of Clever
Management Advisory Report - State Auditor's Findings

1.4 *Leave increments will be taken in compliance with the employee handbook. The employee handbook leave time increments have been updated to allow for 1/2 hour increments for compensatory time, vacation time, and holidays. Sick time has been updated to allow for 1/4 hour increments.*

Supervisors and secondary reviewers of timesheets will adhere to this policy and verify the leave usage increment times comply with city policy.

2. Disbursements

Documentation and controls over disbursements need improvement. The city disbursements totaled approximately \$1.5 million during the year ended June 30, 2019.

2.1 Real estate purchase

The city does not have a long-range plan for the development of a recent real estate purchase and paid significantly more than the appraised value for the 2 properties.

In March 2020, the city purchased 2 lots of land next to city hall for approximately \$33,000 without documentation supporting the reason for the purchase. The City Clerk indicate the city purchased the land to possibly expand city hall in the future. The land was appraised at \$20,000 in December 2019. In January 2020, the Board authorized the Mayor to negotiate a purchase price exceeding the appraised value (up to \$35,000) but city officials could not provide documentation explaining why they made this decision or why the purchase price significantly exceeded the appraised value. The city has no immediate plans for development of these lots.

To ensure efficient and effective use of city resources, the Board should have a documented plan, including a cost-benefit analysis, for the use of city-owned properties. Good business practice requires real estate purchases be formally and independently appraised to ensure a reasonable price is paid. Adequate documentation for the cost and intended use of the land purchase would improve transparency and provide additional assurance that city funds are spent responsibly.

2.2 Allocations

Some disbursements allocated to various city funds did not have sufficient documentation to support how the allocation amounts were determined.

- Several employees perform tasks related to multiple city functions, but the city has no documentation to justify the allocations of salaries and fringe benefits expenses to various funds. Salaries and fringe benefits for 4 employees (City Clerk, Utility Clerk, Public Works/Water Superintendent, and the maintenance worker) totaling approximately \$211,000 are allocated between 4 funds (General, Water, Sewer, and Municipal Court) based upon an annual estimate of the percentage of time

City of Clever Management Advisory Report - State Auditor's Findings

employees spend on tasks that benefit each fund. However, the city could not provide documentation of the estimates and the percentages have not changed in recent years. According to the City Clerk, these estimates are not based on a study of actual personnel time spent on specific tasks or consideration of the fund benefitting from each task, and they are not periodically updated.

- In March 2019 the City Clerk attended a conference. The city allocated the registration fees (\$455) 50 percent to the General Fund, 25 percent to the Water Fund, and 25 percent to the Sewer Fund; expenses for lodging and meal costs (\$491) fully to the General Fund; and mileage costs (\$236) equally between the Water and Sewer Funds. These allocations were not consistent with how the City Clerk's payroll costs are allocated. Her payroll allocation is 40 percent to the General Fund, 25 percent to the Water Fund, 25 percent to the Sewer Fund, and 10 percent to the Municipal Court Fund.

The proper allocation of expenses is necessary to accurately determine the results of operations of specific activities, thus enabling the city to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenses to city funds should be based on specific criteria, such as the number of hours worked by each employee, if possible, or by determining a reasonable basis to allocate costs for employees.

2.3 Written contracts

The city does not have written contracts with an independent contractor (service provider). During the year ended June 30, 2019, the city paid \$10,400 for building and/or permit code inspection services without a written contract.

Clear and detailed written contracts, including reporting requirements and provisions to allow for proper monitoring, are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure city monies are used appropriately and effectively. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

Recommendations

The Board of Aldermen:

- 2.1 Develop plans, including a cost-benefit analysis prior to purchase, for the use and purchase of real estate. In addition, the Board should maintain documentation to support each purchase decision especially when the purchase price exceeds the appraised value.
- 2.2 Ensure payroll costs and other expenses are properly allocated to the appropriate funds, and supported by adequate documentation, which is retained.

City of Clever
Management Advisory Report - State Auditor's Findings

Auditee's Response

2.3 Enter into written contracts defining services provided and benefits received with all applicable vendors.

2.1 *The city will create a documented operating procedure for the purchase of real estate. The procedure will include a documented plan, including a cost-benefit analysis for the property, the reason for the purchase, and the intended future use of the property.*

The documentation will include all appraisals, contracts, and Board meeting minutes associated with the purchase. Adequate reasoning for any purchases that exceed fair market value will be documented.

2.2 *To properly allocate operating expenses to the city's funds, if employees are paid a percentage of their salary from different funds, their salary allocation will be used to determine as the allocation for the expense.*

There are some exceptions, such as when the City Clerk attends training that is not relevant to the Municipal Court. In this example, the expenses would be divided equally between the remaining funds associated with her payroll allocation. Also, if an employee's salary is allocated among multiple funds but an operating expense is targeted toward or benefits only one specific job duty, the expense will only be paid from the appropriate fund.

Going forward, we will periodically review the allocation of employee salaries by reviewing their job duties and average amount of time spent on different tasks to determine the proper allocation percentages among multiple funds.

2.3 *The city will have written contracts with all independent contractors that will include reporting requirements and provisions for reporting to the Board.*

3. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the year ended June 30, 2019, city receipts totaled approximately \$2.2 million for all funds. The city receives payments for utility services (water, sewer, and trash), franchise fees, property taxes, sales taxes, municipal court fines and fees, and other miscellaneous revenues.

3.1 Deposits

City employees do not always deposit receipts timely. We reviewed all receipts collected for the week ended May 17, 2019. Receipts totaling \$4,996 were collected on May 16, 2019, and not deposited until May 28, 2019.

City of Clever
Management Advisory Report - State Auditor's Findings

To safeguard receipts and to reduce the risk of loss, theft, or misuse of monies received, procedures should be established to ensure all payments received are deposited timely.

3.2 Change fund

The city does not maintain the change fund at a constant amount and uses it for petty cash expenses. In addition, a petty cash ledger is not maintained to support petty cash transactions.

To safeguard against possible loss, theft, or misuse, change funds should be maintained at a constant amount and the funds should be periodically counted and reconciled to the authorized balance. If needed, a separate petty cash fund should be established and maintained on an imprest basis. A petty cash ledger should also be maintained documenting receipts, disbursements, and the balance of the petty cash fund. Petty cash funds should only be reimbursed through a city disbursement approved by the Board.

Recommendations

The Board of Aldermen:

- 3.1 Ensure receipts are deposited timely.
- 3.2 Maintain the change fund at a constant amount and reconcile the fund to the authorized balance with each deposit. If needed, a petty cash fund should be established and maintained on an imprest basis. A petty cash ledger should also be maintained.

Auditee's Response

- 3.1 *To ensure proper segregation of duties, the City Clerk will not make deposits. The Assistant City Clerk will make the deposits. If the Assistant City Clerk is not available to make a timely deposit in accordance with the standard operating procedure, the City Clerk will make the deposit with a secondary accompaniment of the Mayor or one member of the Board.*
- 3.2 *The city no longer has a petty cash fund, and will maintain the change fund on a constant basis.*

4. Budgets and Financial Reporting

Budgeting and financial reporting procedures need improvement.

4.1 Budgets

The city budgets do not include all elements required by state law. Actual budgets do not contain a budget message, the actual beginning and estimated ending cash balance for each fund, a budget summary, and balances of the city's indebtedness.

City of Clever Management Advisory Report - State Auditor's Findings

A complete and well-planned budget, in addition to meeting statutory guidelines, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting tax levies and utility rates, and informing the public about city operations and current finances. Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific requirements for information to be included in the budget.

4.2 Published financial statements

City officials did not publish the semiannual financial statements as required by state law. The semiannual financial statements were not published for the 6 months ended December 31, 2019. As a result, information regarding the city's financial activity and condition is not available to all citizens.

Section 79.160, RSMo, requires the Board to prepare and publish financial statements semiannually that include a full and detailed account of the receipts, disbursements, and indebtedness of the city. In addition, city code Section 110.100 states "The Board of Aldermen shall semi-annually each year, at times to be set by the Board of Aldermen, make out and spread upon their records a full and detailed account and statement of the receipts and expenditures and indebtedness of the City for the half year ending with the last day of the month immediately preceding the date of such report, which account and statement shall be published in some newspaper in the City."

Recommendations

The Board of Aldermen:

- 4.1 Ensure annual budgets contain all information required by state law.
- 4.2 Publish semiannual financial statements as required by state law and city code.

Auditee's Response

- 4.1 *The city will add a budget summary, budget message, actual beginning and estimated ending cash balances, and balances of the city's indebtedness in accordance with Section 67.010, RSMo.*
- 4.2 *The city will ensure that financial statements are published in a local newspaper semiannually in accordance with Section 79.160, RSMo, and city code 110.100.*

5. Utilities

Utility operations need improvement. The city collected approximately \$853,000 for monthly water, sewer, and trash services during the year ended June 30, 2019.

5.1 Partial payments

The city does not have an ordinance or written policies authorizing partial payments, and does not follow established service shutoff procedures for customers who make partial payments. Partial payments were not approved by someone independent of the utility's accounting functions and written

City of Clever Management Advisory Report - State Auditor's Findings

payment agreements for partial payments did not exist. It is not clear whether these customers should be subject to shutoff procedures.

City code Section 700.100 states failure to pay a bill by the 17th of the month following the month water and sewer services were provided shall result in disconnection of the service. Good business practices require adequate collection procedures be established to ensure accounts are collected timely and bad debts are kept to a minimum.

5.2 Utility rates

Periodic formal cost studies of utility (water and sewer) rates have not been performed. The current water rates were established in 2001 and have not changed since then. Sewer rates last increased in July 2018, but no information could be provided regarding how city officials determined the new rate. As a result, there is no assurance the utility rates are set at an appropriate level.

Section 67.042, RSMo, provides that fees may be increased if supported by a statement of costs that shows the increase is necessary to cover costs of providing the service. To ensure utility rates are set to cover the cost of providing the related services, the city should periodically perform and document a detailed cost study of the city's utility costs, including depreciation, and establish rates to cover the total cost of operations without generating excessive profits.

Recommendations

The Board of Aldermen:

- 5.1 Discontinue allowing customer partial payments or establish an ordinance allowing them. If a partial payment ordinance is established, also create policies and procedures governing the process that should include at least (1) each customer having a written payment plan and (2) approval of each plan by someone independent of the utility's accounting functions.
- 5.2 Ensure formal reviews of utility rates are performed periodically to determine if revenues are sufficient to cover all costs of providing the services without generating excessive profits.

Auditee's Response

- 5.1 *The city has revised the ordinance (via Bill 17-2020) to reflect a set dollar amount for disconnections and set dollar amounts for partial payments. The Board will continue to receive monthly reports of past due utility balances to review for compliance with city code.*
- 5.2 *The city has engaged the Missouri Rural Water Association to conduct a formal review of utility rates, which is in progress. The Public Works Director has set a policy that a formal rate study will be completed every 2 years.*

City of Clever
Management Advisory Report - State Auditor's Findings

6. Police Department Assets

Controls and documentation over tracking of Police department assets need improvement.

Property receipt forms are used by the Police department to track city assets assigned to police officers and the Police Chief such as badges, vehicles, firearms, cell phones, uniforms, computers, and other assets. All assets assigned to a new officer are listed on the form and the form is then approved by a supervising officer. The forms are not always signed by the police officer at the time assets are issued. We reviewed 6 property receipt forms from the 2 years ended June 30, 2020, and noted only 4 of the 6 forms included a handwritten or electronic signature by the officer receiving police assets and/or the issuing officer.

Adequate capital asset records and procedures are necessary to provide controls over city property; to safeguard city assets that are susceptible to loss, theft, or misuse; and to provide a basis for proper financial reporting and insurance coverage.

Recommendation

The Board of Aldermen and the Police department work together to ensure property receipt forms are properly signed.

Auditee's Response

Document 1 - The property receipt form was manually signed by the employee for all issued items listed, but was not signed by the Quartermaster.

Document 2 - Neither the employee or issuing personnel applied a signature. This document had no follow-up due to the death of the issuing employee who was substituting for the Quartermaster who had been deployed overseas.

A top to bottom and complete overhaul of policies, procedures, forms, and more started in April 2019 and continues with updates as necessary. The department is continuing efforts to improve lines of responsibility. All aspects of the department have been changed, altered, and improved since April 2019. Our improvements will include an accountability procedure for incoming and outgoing employees that requires 3 sets of eyes and signatures including the incoming/departing employee, Quartermaster, and Police Chief.

City of Clever

Organization and Statistical Information

The City of Clever is located in Christian County. The city was incorporated in 1909 and is currently a fourth-class city. The city had 10 full-time employees on June 30, 2019.

City operations include utility services (water, sewer, and sanitation), public safety (police), street maintenance, and recreational facilities (parks).

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen at June 30, 2019, are identified below. The Mayor is paid \$250 per month, the Mayor Pro-Tem is paid \$150 per month, and the remaining board members are paid \$100 per month. The compensation of these officials is established by ordinance.

Jaredd King, Mayor (1)
Scott Hackworth, Mayor Pro-Tem
Josiah Fuller, Alderman
Charlene Fraser, Alderwoman (2)
Vacant, Alderman (3)

(1) Replaced by Dale Maisel, who was elected in June 2020.

(2) Replaced by Jeanie Priebe, who was appointed to the position in November 2019 and subsequently elected in June 2020.

(3) Chris McPhail was appointed in August 2019 and subsequently elected in June 2020.

Financial Activity

A summary of the city's financial activity for the year ended June 30, 2019, obtained from the city's audited financial statements follows:

City of Clever

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Wright County, Missouri

The Office of the State Auditor contracted for an audit of Wright County's financial statements for the year ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by CR Williams & Associates LLC, Certified Public Accountants, is attached.

Nicole R. Galloway, CPA
State Auditor

November 2020
Report No. 2020-097

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Wright County

2019-001

The County Clerk should not approve expenditures in excess of budgeted amounts. When unforeseen circumstances arise that necessitate increased expenditures in the Assessment Fund, the County Commission should consider amending the budgets.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
and Officeholders of
Wright County, Missouri

We have audited the accompanying financial statements of Wright County, Missouri, which collectively comprise cash for each fund as of December 31, 2019, and the related statements of revenues and expenditures—budget to actual for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Wright County, Missouri, using accounting practices prescribed or permitted by Missouri law which is a basis of accounting other than accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT – continued

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Wright County, Missouri, as of December 31, 2019, and the changes in its financial position.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the cash balances of each fund of Wright County, Missouri, as of December 31, 2019, and their respective revenues and expenditures, and budgetary results for the year then ended, on the basis of the financial reporting provisions of Missouri Law as described in Note 1.

Other Reporting Required by Governmental Auditing Standards

In accordance with the *Government Auditing Standards*, we have also issued our report dated June 8, 2020, on our consideration of the Wright County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Wright County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Wright County, Missouri's internal control over financial reporting and compliance.

Monies for the county funds are held in the hands of the County Treasurer but budgets are prepared by the County Commission and County Clerk or by other county officeholders.

- 1 New sales tax passed in April 2017 for the purpose of constructing and administration of a new jail.
- 2 Budget prepared by elected officials but monies are controlled by the County Treasurer.
- 3 Budget prepared and monies controlled by a separate governmental entity.

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

NOTE 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

As discussed further in Note 1.C., these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. REPORTING ENTITY

The county's operations include tax assessments and collections, state/county courts administration, county recorder, public safety, economic development, road and bridge maintenance, public welfare, and social and human services. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or elected county officials.

The financial statements referred to above include the primary government of Wright County, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the county's legal entity. The Developmentally Disabled (Senate Bill 40) Board is also included within this audit report.

B. BASIS OF PRESENTATION

Governmental Funds - Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues and expenditures. The county's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The county's expendable financial resources are accounted for through governmental funds.

Fiduciary (Agency) Funds - Certain county officials, particularly the County Collector, Treasurer, Recorder, Sheriff, and Public Administrator collect and hold monies in a trustee capacity as an agent for individuals, taxing units, or other governments. These assets, which are held for the benefit of external parties, are held in fiduciary (agency) funds which are custodial in nature, and are not reported on the accompanying financial statements.

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

NOTE 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

C. BASIS OF ACCOUNTING

The financial statements are prepared on the regulatory basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. BUDGETS AND BUDGETARY ACCOUNTING

The county follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the county's policy is to adopt a budget for each governmental fund, including the Developmentally Disabled (Senate Bill 40) Board Fund.
2. Prior to January, each elected officer or department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year. The Developmentally Disabled (Senate Bill 40) Board will also prepare its budget for approval.
3. The County Clerk submits to the County Commission and the Developmentally Disabled (Senate Bill 40) Board Secretary and Treasurer submits a proposed budget to the Board for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. The County or Developmentally Disabled (Senate Bill 40) Board did not have any funds that reflected a deficit budgeted cash balance.
5. A public hearing is conducted to obtain public comment on the budget documents. Prior to approval by the County Commission and the Developmentally Disabled (Senate Bill 40) Board, the budget documents are available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

NOTE 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote. Budgeted amounts are as originally adopted, or as amended by the County Commission. The budget of Inmate Security Fund, Restitution Fund and the Developmentally Disabled (Senate Bill 40) Board Fund budget were amended during the year ended December 31, 2019.
8. Budgets are prepared and adopted on the cash basis of accounting by the County Commission and the Developmentally Disabled (Senate Bill 40) Board.
9. Adoption of a formal budget is required by state statute. The County budgeted for all funds during the year ended December 31, 2019. A new law enforcement sales tax was passed in April 2017 and a new fund was created when the sales tax monies started coming in November 2017.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. For the year ended December 31, 2019, expenditures exceeded the total appropriated budgeted amount in the following funds:

	2018
Assessment Fund	\$ <u>2,465</u>

E. PROPERTY TAXES

Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied in September and payable by December 31. Taxes paid after December 31 are delinquent and subject to penalties. The county taxes, bills and collects its own property taxes for most other local governments in the county.

The total assessed valuation for the County of the tangible property for calendar year 2019 for purposes of local taxation was:

Real Estate	\$ 133,120,858
Personal Property	47,483,481
Railroad and Utilities	<u>13,128,443</u>
Total Assessed Valuation	\$ <u><u>193,732,782</u></u>

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

NOTE 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

The county-wide levy per \$100 of the assessed valuation of tangible property for the calendar year 2019 for purposes of local taxation was:

General Revenue	\$	0.1000
Senate Bill 40 Board	\$	0.0822

F. SALES TAXES

The county has the following sales tax rates: (The county does not have a use tax.)

General sales tax	1/2%	\$	0.00500
General sales tax – road and bridge	1/2%		0.00500
Law enforcement sales tax (1)	1/2%		<u>0.00500</u>
Total sales tax rate		\$	<u>0.01500</u>

(1) The law enforcement sales tax was passed by the voters in April 2017 for the purpose of building and operation of a new jail.

G. CASH DEPOSITS AND INVESTMENTS

Cash deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less; however, nonnegotiable certificates of deposit with original maturity of greater than ninety days is considered as cash equivalents.

State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Cash deposits by the Developmentally Disabled (Senate Bill 40) Board are held in various banking facilities and invested as needed in certificates of deposit.

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

NOTE 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (continued)

H. INTERFUND ACTIVITY

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

Transfers between funds for the year ended December 31, 2019, were as follows:

	TRANSFER IN	TRANSFER OUT
General Revenue	87,695	741,441
Special Road and Bridge	76,576	83,003
Assessment	146,773	97
Assessor Tech	5,068	62,500
Sheriff Fee	9,000	1,689
Inmate Security	-	17,096
Concealed Weapons	-	8,500
Restitution	-	13,880
Recorder User Fee	-	1,150
Election Service	641	-
HAVA Income	3,000	-
Computer Upgrade and Remodeling	50,000	5,411
Law Enforcement Tax	634,938	70,936
Prosecuting Attorney Administrative Handling Cost	-	4,398
Tax Maintenance	-	3,590
Totals	1,013,691	1,013,691

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

I. PUBLISHED FINANCIAL STATEMENTS

Under Section 50.800 and 50.810, RSMo, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund. For the year ended December 31, 2019, the published financial statements included all applicable funds.

NOTE 2. CASH AND INVESTMENTS

Section 110.270, RSMo, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo, requires political subdivisions with existing authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy.

Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchases of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The County has adopted such a policy.

The County and the Developmentally Disabled (Senate Bill 40) Board have determined through experience that checking accounts, savings accounts, negotiable order withdrawal (NOW) accounts, money market accounts, and certificates of deposits are appropriate types of accounts or instruments for its needs. The County Treasurer maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is included on the financial statements as "Cash" under each fund's caption. At December 31, 2019, the County Treasurer had three checking accounts and four savings accounts at one banking facility.

The Developmentally Disabled (Senate Bill 40) Board Fund deposits its monies in two banks and invested in one certificate of deposit. At December 31, 2019, the Board had two bank checking accounts at two different banking facilities.

Disclosures are provided below regarding the risk of potential loss of cash deposits. For the purpose of the disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

Deposits

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. All County bank balances at the depository banks at December 31, 2019, were covered by federal depository insurance and additional collateral securities held at the County's safekeeping bank agent in the County's name or by its agent in the County's name. All bank account accounts held by the Developmentally Disabled (Senate Bill 40) Board Fund at December 31, 2019, were also covered by federal depository insurance.

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

NOTE 3. COUNTY EMPLOYEES' RETIREMENT PLANS (continued)

The following information is presented in accordance with the Governmental Accounting Standards Board Statement 27 (GASB 27), "Accounting for Pensions by State and Local Governmental Employees":

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Wright County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt. The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334.

2) Pension Benefits

Upon termination of employment, any member who is vested is entitled to either an unreduced benefit annuity, payable at age sixty (police and fire fighters, age fifty-five), or a reduced benefit annuity, payable at age fifty-five (police and fire fighters, age fifty). As of December 31, 2019, Wright County had 54 employees enrolled in LAGERS.

3) Funding Policy

Wright County's full-time employees do not contribute to the pension plan since the plan is non-contributory with the employees' part paid by the county. The county is required to contribute at an actuarially determined rate; the rate for 2018 was 6.6% (general) and 8.5% (police) of annual covered payroll. The County Commission determines the contribution requirements of plan members. The contribution provisions of the county are established by state statute.

4) Annual Pension Cost

For 2019, total payments to LAGERS were \$140,392.

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

NOTE 3. COUNTY EMPLOYEES' RETIREMENT PLANS (continued)

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund (CERF) was established by the state of Missouri to provide pension benefits for County officials and employees. Laws governing the retirement fund are found in Sections 50.1000-50.1300, RSMo.

1) Plan Description

The Fund was created by an act of the legislature and was effective August 28, 1994. The Retirement Fund is a mandatory cost-sharing multiple employer defined benefit pension plan covering any County elected or appointed officer or employee whose performance requires the actual performance of duties of not less than one thousand (1,000) hours per calendar year in each County of the state, except for any city not within a County and any County of the first classification having a charter form of government. It does not include County prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo; circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System; County Sheriffs covered under sections 57.949 to 57.997, RSMo; and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons with nine of whom are county employee participants.

As of December 31, 2019, Wright County had 54 employees enrolled in CERF.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203 or toll-free 1-877-632-2373.

2) Pension Benefits

CERF first paid benefits beginning January 1, 1997. At that time a member could not retire until age 62. Beginning January 1, 2000, employees could retire with full benefits at age 62 or reduced benefits at age 55. The monthly benefit for County employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan formula). An eligible death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two or a reduced benefit annuity at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

**WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019**

NOTE 3. COUNTY EMPLOYEES' RETIREMENT PLANS (continued)

3) Funding Policy

In accordance with state statutes, the Fund is partially funded through various fees collected and remitted to CERF. A contribution to CERF of 2% of annual salary is required for eligible employees hired before February 25, 2002 and not in LAGERS, and a contribution of 6% (not in LAGERS) or 4% (in LAGERS) of annual salary is required of employees hired after February 25, 2002, effective January 1, 2003, in order to participate in CERF. During 2019, the County collected and remitted to CERF total receipts of \$166,891 of which \$42,249 was employee's contribution.

NOTE 4. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the state of Missouri is responsible for administration of this plan. The County contributed \$11,628 for the year ended December 31, 2019.

NOTE 5. COMMITMENTS AND CONTINGENCIES

1) Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. Upon termination from County employment, an employee is not reimbursed for unused vacation and but paid for overtime. Full time employees receive 24 hours of sick leave after 6 months of employment and 4 hours for each month of continuous service thereafter. They can carry a maximum of 48 hours into a new year.

The county does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). Under the COBRA the county provides health care benefits to eligible former employees and their dependents. The premiums are paid by the former employees, and the county incurs no cost for these benefits. The county has one employee on COBRA coverage for the year ended December 31, 2019.

2) Federal and State Assisted Programs

The county has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 6. RISK MANAGEMENT

The county carries commercial insurance for various risks of loss to which it is exposed, including risks related to torts; theft of, damage to, or destruction of assets; natural disasters; errors and omissions; injuries to employees; and employees' health and life. County management believes such coverage is sufficient to preclude any significant uninsured losses to the county. Settled claims have not exceeded this insurance coverage in any of the past three years.

The county is a member of the Missouri Association of Counties Self-Insurance Workers' Compensation and Insurance Fund. The county purchases workers' compensation insurance through this fund, a non-profit corporation established to provide insurance coverage to Missouri Counties. The fund is self-insured up to \$2,000,000 per occurrence and reinsured up to the statutory limit through excess insurance.

NOTE 7. LONG-TERM DEBT

The County has the following debt outstanding at December 31, 2019:

A. The County Commission entered into a lease-purchase agreement in September 2016 with Ford Motor Credit for the purchase of two police interceptor utility vehicles for a total cash price of \$53,858 plus a \$545 underwriting fee totaling \$54,403 plus interest payable in four annual installments totaling \$14,802.

The first payment was made in September 2016 for \$14,802 in principal only; the second payment was made in September 2017 for \$12,445 in principal and \$2,357 in interest; the third payment was made in September 2018 for \$13,186 in principal and \$1,616 in interest. The remaining due on the contract amounting \$13,970 in principal and \$832 in interest was fully paid on September 2019.

B. The County Commission also entered into a lease-purchase agreement with Ford Motor Credit in January 2019 for the purchase of a 2019 police interceptor utility vehicle for a total cash price of \$28,619 plus a \$545 underwriting fee totaling \$29,164 plus interest payable in three annual installments. The County paid the first installment of \$9,989 in December 2018 of principal only before the agreement was effective. The remaining amount due on the lease-purchase agreement as of December 31, 2019, is as follows:

	Principal	Interest	Total
January 14, 2020	\$ 9,254	1,381	10,635
January 14, 2021	9,921	714	10,635
Total	<u>\$ 19,175</u>	<u>2,095</u>	<u>21,270</u>

WRIGHT COUNTY, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2019

NOTE 7. LONG-TERM DEBT (continued)

C. The Certificate of Participation, Series 2019 (the “Certificate”) for Wright County Law Enforcement Facility Project was issued by the County for the purpose of providing funds to construct and add improvement on the jail facility. The Certificate is being issued in the aggregate principal amount of \$7,015,000 evidencing a proportionate interest in basic rent payments to be made by the County. The Certificate is dated as of the date of original issuance June 15, 2019 and delivery thereof. Basic rent is payable each June 1 and December 1 during the lease term, commencing on December 1, 2019. The lease is effective from June 15, 2019 until the end of the fiscal year and renewable every year up to the last possible renewal date June 2, 2044.

The remaining amount due on the certificate as of December 31, 2019, is as follows

Due in	Principal	Interest	Total
2020	155,000	262,238	417,238
2021	180,000	255,906	435,906
2022	190,000	248,913	438,913
2023	195,000	241,637	436,637
2024	200,000	234,171	434,171
2025-2029	1,135,000	1,047,911	2,182,911
2030-2034	1,350,000	813,645	2,163,645
2035-2039	1,635,000	532,130	2,167,130
2040-2044	1,975,000	192,308	2,167,308
TOTAL	7,015,000	3,828,859	10,843,859

NOTE 8 - SUBSEQUENT EVENTS

Subsequent events were evaluated through June 8, 2020 which is the date the financial statements were available to be issued.

In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) originated in Wuhan, China and has since spread to other countries, including the U.S. On March 11, 2020, the World Health Organization characterized COVID-19 as a pandemic. In addition, multiple jurisdictions in the U.S. have declared a state of emergency. It is anticipated that these impacts will continue for some time. There has been no immediate impact to operations. Future potential impacts may include disruptions or restrictions on our employees’ ability to work and participation in the programs provided to the community. Changes to the operating environment may increase operating costs. Additional impacts may include the ability to apply and receive grants as well as the availability of grants. The future effects of these issues are unknown.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT
AUDITING STANDARDS*

To the County Commission and officeholders of
Wright County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the county funds of Wright County, Missouri, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Wright County, Missouri's basic financial statements and have issued our report thereon dated June 8, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Wright County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Wright County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of the Wright County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of finding and response as item 2019-01 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Wright County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT
AUDITING STANDARDS*

accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of finding and response as item 2019-01.

Wright County, Missouri’s Response to Finding

Wright County, Missouri’s response to the finding identified in our audit is described in the accompanying schedule of finding and response. Wright County, Missouri’s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CRWilliams & Associates LLC

St. Louis, Missouri
June 8, 2020

**WRIGHT COUNTY, MISSOURI
SCHEDULE OF FINDING AND RESPONSE
FOR THE YEAR ENDED DECEMBER 31, 2019**

2019-01 Budgetary Procedures Not in Compliance With State Law

Conditions: Expenditures were approved by the County Clerk for the Assessment Fund in the total amount of \$2,465 in excess of the total amount approved or appropriated in the 2019 budget. Budgets are prepared and expenditures are approved by the County Clerk although the monies are maintained by the County Treasurer.

Criteria: Section 50.540, RSMo requires the budget be revised prior to authorizing expenditures in excess of the budget.

Cause: The County Clerk did not review the budget documents properly to ensure the budgets were not overspent and to amend the budgets when excess expenditures are made.

Effect: The County Clerk did not properly follow state law to amend the budgets when overspending is deemed necessary.

Recommendations: The County Clerk should not approve expenditures in excess of budgeted amounts. When unforeseen circumstances arise that necessitate increased expenditures in the Assessment Fund, the County Commission should consider amending the budgets.

Response: The County Clerk agrees with the finding and will watch the Assessment Fund Budget closer in the future and make amendments when necessary.

**WRIGHT COUNTY, MISSOURI
FOLLOW-UP ON PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED DECEMBER 31, 2019**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on the action taken by Wright County, Missouri, on the applicable findings in the prior audit reports issued for the years ended December 31, 2018, 2017 and 2016.

1. Actual Expenditures Exceeded Total Appropriated Expenditures in Various Funds

Condition: For 2018, 2017 and 2016, total expenditures exceeded the total appropriated or budgetary expenditures in various funds.

Status: Partially implemented. The budgets for various county funds were not exceeded but one fund under the control of the County Clerk did exceed the budgeted appropriation. See current finding No. 2019-01.

2. Transfers Between County Funds Were Not Accurately Reported

Condition: For 2018, 2017 and 2016, total transfers in and transfers out were not properly or accurately reported in the budget documents causing total revenues and expenditures to be misrepresented of the actual amounts.

Status: Corrected in 2019.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Wayne County, Missouri

The Office of the State Auditor contracted for an audit of the Wayne County's financial statements for the year ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

Nicole R. Galloway, CPA
State Auditor

November 2020
Report No. 2020-096

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Wayne County

2019-001	The Collector prepare accurate and timely bank reconciliations for all accounts.
2019-002	The Collector obtain all funds from the prior Collector.
2019-003	The county should implement procedures to ensure that the risk assessment over federal awards is addressed going forward.
2019-004	The county should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The county should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Wayne, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Wayne ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2019, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2019, or changes in net position or cash flows thereof for the year then ended.

Basis for Qualified Opinion on Collector’s Bank Accounts

During the course of our audit, we noted that the former Collector continues to maintain an account in her name after she left office, which we were not able to obtain information for. The current Collector was not able to provide bank account reconciliations for 2019 therefore, we were not able to test the Collector’s accounts.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the effects of the matter described in the “Basis for Qualified Opinion on Collector’s Bank Accounts” paragraph, the financial statements referred to above present fairly in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2019, and their respective cash receipts and disbursements and budgetary results for the year then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

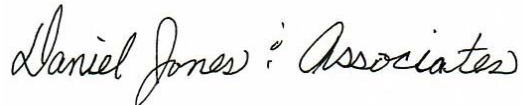

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of Wayne’s basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 20, 2020, on our consideration of the County of Wayne's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Wayne's internal control over financial reporting and compliance.

A handwritten signature in cursive script that reads "Daniel Jones & Associates".

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Wayne, Missouri (“County”), which is governed by a three-member board of commissioners, was established in 1818 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County’s operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of the County of Wayne, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County’s legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – All Governmental Funds, a Statement of Receipts, Disbursements and Changes in Cash and Investment Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County’s expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.
2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1, and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2019, for purposes of taxation, was:

	<u>2019</u>
Real Estate	\$ 88,176,600
Personal Property	34,588,533
Railroad and Utilities	<u>17,121,963</u>
	<u>\$ 139,887,096</u>

During 2019, the County Commission approved a \$.1900 tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	<u>2019</u>
General Revenue Fund	\$ 0.0000
Special Road and Bridge Fund	0.1100
Senate Bill 40 Fund	<u>0.0800</u>
	<u>\$ 0.1900</u>

F. Cash and Investments

Cash deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on a weighted average of cash balance. Cash equivalents include any instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

II. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds. Investments of the County consist of certificates of deposit with local banking institutions.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019, the carrying amount of the County's deposits was \$1,174,044.38, and the bank balance was \$4,169,187.52. The total bank balance as of December 31, 2019 were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and investments shown above are included in the financial statements at December 31, 2019, as follows:

Included in the following fund financial statement captions:

Statement of Receipts, Disbursements and Changes in
Cash and Investment Balances – Governmental Funds

Deposits	\$ 705,185.15
Investments	<u>569,723.22</u>

Total Deposits and Investments as of December 31, 2019	<u><u>\$ 3,999,200.64</u></u>
--	-------------------------------

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2019.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. All investments, evidenced by individual securities, are registered in the name of the County or of a type not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the year ended December 31, 2019.

III. LONG-TERM DEBT

The Wayne County Commission entered into a lease agreement on May 20, 2008, with Wayne County Improvement Corporation, a non-profit 501 (c) (3) Missouri Corporation, for the purpose of leasing the Justice Center to Wayne County, Missouri. The Corporation is treated as a publicly supported organization, and not as a private foundation.

The term of the lease is for 30 years with an annual lease of \$48,500 due starting May 1, 2009. The lease provides for cost increases when necessary.

The Board is composed of six directors, three who are commissioners of Wayne County, Missouri, and three members at large, which are appointed by the commissioners. Due to the accountability to Wayne County Commission, it is believed that the Wayne County Improvement Corporation would be a component unit of Wayne County, Missouri.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

III. LONG-TERM DEBT (concluded)

The Wayne County Improvement Corporation has secured financing for the construction of the Justice Center through loans with the United States Department of Agriculture-Rural Development. The Corporation received loan advances of \$521,200 during 2008, with the remaining \$194,800 authorized loans received during 2009. An analysis of the notes payable is as follows:

USDA-RD loan, dated May 20, 2008, authorized amount is \$696,000, interest rate at 4.5%. Note is secured with real estate and a pledge of the lease revenues of the property. Annual payments of \$42,735 including principal and interest are required. The balance was \$515,886.62 as of December 31, 2019.

USDA-RD loan, dated May 20, 2009, authorized amount is \$20,000, interest at 4.5%. Note is secured with real estate and a pledge of the lease revenues of the property. Annual payments of \$1,228 including principal and interest are required. The balance was \$15,739.94 as of December 31, 2019.

USDA-RD Loans	Balance 12/31/18	Additions	Payments	Balance 12/31/19	Interest Paid
May 20, 2008	\$ 533,245.00	\$ -	\$17,358.38	\$ 515,886.62	\$ 25,376.62
May 20, 2009	16,197.14	-	457.20	15,739.94	770.80
	<u>\$ 549,442.14</u>	<u>\$ -</u>	<u>\$17,815.58</u>	<u>\$ 531,626.56</u>	<u>\$ 26,147.42</u>

As of December 31, 2019, the schedule of future payments of USDA Loans payable of the County is as follows:

Year Ending December 31,	Principal	Interest	Total
2020	\$ 18,480.96	\$ 25,482.04	\$ 43,963.00
2021	19,312.61	24,650.39	43,963.00
2022	20,181.68	23,781.32	43,963.00
2023	21,089.85	22,873.15	43,963.00
2024	22,038.89	21,924.11	43,963.00
2025-2029	125,993.97	93,821.03	219,815.00
2030-2034	157,011.41	62,803.59	219,815.00
2035-2039	147,517.19	22,867.31	170,384.50
	<u>\$ 531,626.56</u>	<u>\$ 298,202.94</u>	<u>\$ 829,829.50</u>

In 2017, the County entered into a 36-month loan with People's Community Bank for 2014 and 2015 Ford Explorers for \$26,705.00. The loan requires monthly payments of \$797.35 and matures September 25, 2020. The loan has an interest rate of 4.75%.

Loan	Balance 12/31/18	Additions	Payments	Balance 12/31/19	Interest Paid
2014/2015 Ford Explorers	\$ 10,944.42	\$ -	\$10,944.42	\$ -	\$ 288.56

IV. CAPITAL LEASES

In 2014, a capital lease of \$129,312 was obtained for a John Deere 670G Motor Grader. The lease required annual payments of \$27,356.16. The lease matured April 15, 2019, and the interest rate was 1.90%.

In 2019, a capital lease of \$50,020 was obtained for graders. The lease requires annual payments of \$26,544.36. The lease matures May 7, 2021, and the interest rate is 4.00%.

In 2019, a capital lease of \$207,932 was obtained for dump trucks. The lease requires annual payments of \$58,051.45, and matures October 22, 2023. The interest rate is 4.50%.

In 2019, a capital lease of \$19,056 was obtained for Sheriff vehicles. The lease requires monthly payments of \$600, becoming \$569.02 in early 2020, and matures August 17, 2022. The interest rate is 4.75%.

Capital Leases	Balance 12/31/18	Additions	Payments	Balance 12/31/19	Interest Paid
2014 John Deere 670G	\$ 26,845.71	\$ -	\$ 26,845.71	\$ -	\$ 510.45
2019 Graders	-	50,020.00	-	50,020.00	-
2019 Dump Trucks	-	207,932.00	-	207,932.00	-
2019 Sheriff Vehicles	-	19,056.00	1,583.77	17,472.23	123.29
	<u>\$ 26,845.71</u>	<u>\$ 277,008.00</u>	<u>\$ 28,429.48</u>	<u>\$ 275,424.23</u>	<u>\$ 633.74</u>

As of December 31, 2019, the schedule of future payments for the capital leases of the County is as follows:

Year Ending December 31,	Interest	Principal	Total
2020	\$ 12,101.97	\$ 79,322.08	\$ 91,424.05
2021	8,699.78	82,724.27	91,424.05
2022	5,044.67	57,859.48	62,904.15
2023	<u>2,533.05</u>	<u>55,518.40</u>	<u>58,051.45</u>
	<u>\$ 28,379.47</u>	<u>\$ 275,424.23</u>	<u>\$ 303,803.70</u>

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

V. OPERATING LEASES

In 2018, the County entered into an operating lease with Pitney Bowes for Label printer and meter, as well as related items and services. The lease requires quarterly payments of \$263.91, and matures in July 2023. Payments made in 2019 total \$1,055.64.

As of December 31, 2019, the schedule of future payments for the operating lease of the County is as follows:

<u>Year Ending December 31,</u>	<u>Payments</u>
2020	\$ 1,055.64
2021	1,055.64
2022	1,055.64
2023	615.79
	<u>\$ 3,782.71</u>

VI. INTERFUND TRANSFERS

Transfers between funds for the year ended December 31, 2019, are as follows:

	<u>2019</u>	
	<u>Transfers In</u>	<u>Transfers Out</u>
General Revenue Fund	\$ 62,684.38	\$ 63,980.21
Special Road and Bridge Fund	45,546.98	32,000.00
Assessment Fund	18,433.23	-
Law Enforcement Restitution Fund	-	61,368.78
Prosecuting Attorney Law Enforcement Fund	<u>30,684.40</u>	<u>-</u>
TOTAL	<u>\$ 157,348.99</u>	<u>\$ 157,348.99</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the County) are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the year ended December 31, 2019 was \$189,879.99.

IX. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,085.50 for the year ended December 31, 2019.

VIII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had no COBRA participants at December 31, 2019.

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to three weeks of paid vacation based upon the number of years of continuous service. Sick time is accrued at ½ day for each full month employed, which may accumulate up to 30 days. An employee is not reimbursed for unused sick time upon termination of employment. Employees are entitled up to three days leave for a death in the immediate family. These have not been subjected to auditing procedures.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

X. CLAIMS COMMITMENTS AND CONTINGENCIES (concluded)

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

XI. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XII. SUBSEQUENT EVENTS

There were no subsequent events to report as of the date of the audit report.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Wayne, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Wayne ("County") as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated July 20, 2020. Our opinion on the financial statements was qualified due to not being able to test collector bank accounts.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2019-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2019-002 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To the County Commission
The County of Wayne, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Wayne's ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2019. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs for the year ended December 31, 2019.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2019-003 and 2019-004. Our opinion on each major federal program is not modified with respect to these matters.

The County's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

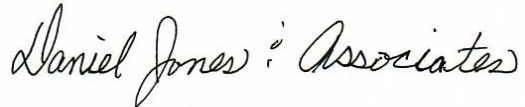

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2019-003 and 2019-004 that we consider to be significant deficiencies.

The County's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The notes to the schedule of expenditures of federal awards are an integral part of this statement.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2019

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) includes the federal award activity of the County of Wayne under programs of the federal government for the year ended December 31, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Wayne, it is not intended to and does not present the financial position, changes in net assets, or cash flows, of the County of Wayne.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 – INDIRECT COST RATE

The County has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2019

NOTE 4 – SUBRECIPIENTS

The County provided federal awards to subrecipients during the year ended December 31, 2019. The subrecipients are as follows:

<u>Program Title</u>	<u>Subrecipient</u>	<u>Federal CFDA Number</u>		<u>Amount Provided to Subrecipient</u>
Schools and Roads - Grants to States	Clearwater R-I School District	10.665	2019	\$ 69,018.24
Schools and Roads - Grants to States	Greenville R-II School District	10.665	2019	69,018.24

GREENVILLE, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2019

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Modified – Regulatory Basis
2. Internal control over financial reporting:
 - a. Material weakness(es) identified? 2019 X Yes No
 - b. Significant deficiency(ies) identified? 2019 X Yes None Reported
3. Noncompliance material to financial statements noted? 2019 X Yes No

B. Federal Awards

1. Internal control over major federal programs:
 - a. Material weakness(es) identified? 2019 Yes X No
 - b. Significant deficiency(ies) identified? 2019 X Yes None Reported
2. Type of auditor's report issued on compliance for major federal programs: 2019 - Unmodified
3. Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a)? 2019 X Yes No

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2019

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major federal programs:

Year	CFDA Number(s)	Name of Federal Program or Cluster
2019	20.205	Highway Planning and Construction
2019	15.226	Payments in Lieu of taxes

5. Dollar threshold used to distinguish between type A and type B programs: \$ 750,000

6. Auditee qualified as low-risk auditee? 2019 Yes X No

II. FINANCIAL STATEMENT FINDINGS

2019-001 Criteria: A bank reconciliation is used to compare records to those of the bank to see if there are any differences between these two sets of records for cash transactions. Fraud detection, bank and accounting errors are the reasons for completing a bank reconciliation.

Condition: During our audit, we were informed that the Collector's office has not prepared bank reconciliations for January and February 2019. According to the Collector, the Collector is reconciling accounts mid-month, however, reconciliations were not provided for all accounts as of December 31, 2019.

Context: Bank reconciliations were not prepared each month in 2019 by the Collector's office.

Effect: By not preparing monthly bank reconciliations, fraud detection, bank and accounting errors could go undetected, causing the financial statements to be improperly reported.

Cause: During the year, the Collector position turned over to a new Collector.

Recommendation: We recommend that the Collector prepare accurate and timely bank reconciliations for all accounts.

Views of Responsible Officials and Planned Corrective Actions: This has been resolved as of now. The Collector has contacted the bank and asked for all accounts to have a first to the last date of the month bank statement to verify the transactions per month for all accounts. The Collector's phone number is (573) 224-5600 Extension 6.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2019

II. FINANCIAL STATEMENT FINDINGS (concluded)

2019-002 Criteria: Per Section 52.160 RSMo, if any collector resigns, dies or is removed from office for any cause, he, or his legal representatives, shall pay over immediately all moneys which are in his or their hands, due the state, to his successor in office and deliver the tax books to the county clerk.

Condition: During our audit, we were informed that the prior Collector still maintains a Collector bank account.

Context: The prior Collector still maintains a Collector bank account.

Effect: The current Collector is not able to properly account for all funds of the collector's office due to the prior Collector still maintaining a bank account that the current Collector has no access to.

Cause: During the year, the Collector position turned over to a new Collector. All prior year bank account moneys were not turned over from the prior Collector.

Recommendation: We recommend that the Collector obtain all funds from the prior Collector.

Views of Responsible Officials and Planned Corrective Actions: The Collector has received all monies known to the Collector now as prior accounts from the previous Collector and has the funds held and recorded as Unknown Funds from prior Collector in a separate bank account. The phone number for the Collector's office is (573) 224-5600 x 6.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2019

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED DECEMBER 31, 2019

2019-003	Federal Grantor:	All Federal Grantors listed on the SEFA
	Pass-Through Grantor:	All Pass-Through Grantors listed on the SEFA
	Federal CFDA Number:	All Federal CFDA Numbers listed on the SEFA
	Program Title:	All Program Titles listed on the SEFA
	Award year:	2019
	Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective risk assessment over Federal awards, regulations and the terms and conditions of the Federal awards.

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) require the auditee to document risk assessment over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over federal awards that meet the requirement for Uniform Guidance.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over federal awards.

Effect: No risk assessment over federal awards.

Cause: The County has not prepared the required risk assessment over federal awards.

Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards is addressed going forward.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the required risk assessment for federal programs and hopes to have the documentation completed for the next audit period. The phone number for the County Clerk's office is (573) 224-5600 x 4.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2019

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2019 (concluded)

2019-004	Federal Grantor:	All Federal Grantors listed on the SEFA except U.S. Department of Defense
	Pass-Through Grantor:	All Pass-Through Grantors listed on the SEFA
	Federal CFDA Number:	All Federal CFDA Numbers listed on the SEFA except 12.112
	Program Title:	All Program Titles listed on the SEFA except Payments in Lieu of Real Estate Taxes
	Pass- Through Entity Identification Number:	All Pass-Through Entity Identification Numbers listed on the SEFA
	Award year:	2019
	Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: Uniform Guidance requires the auditee to prepare the Schedule of Expenditures of Federal Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA.

Views of responsible officials and planned corrective actions: The County Clerk's office is responsible for preparation of the Schedule of Expenditures of Federal Awards (SEFA). Information to prepare this Schedule is obtained from elected officials and department heads who receive federal awards. The County Clerk is continuously updating his knowledge and procedures in preparing the SEFA Schedule. The phone number for the County Clerk's office is (573) 224-5600 x 4.

THE COUNTY OF WAYNE
GREENVILLE, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2019

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

No audit was performed on the County for the year ended December 31, 2018.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

No audit was performed on the County for the year ended December 31, 2018.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

July 20, 2020

To the Board of Commissioners
County of Wayne

In planning and performing our audit of the regulatory based financial statements of the County of Wayne (the "County") as of and for the year ended December 31, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a material weakness and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiency Considered to be Material
- II. Deficiencies Considered to be Significant
- III. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

I. DEFICIENCY CONSIDERED TO BE MATERIAL

2019-001

Criteria: A bank reconciliation is used to compare records to those of the bank to see if there are any differences between these two sets of records for cash transactions. Fraud detection, bank and accounting errors are the reasons for completing a bank reconciliation.

Condition: During our audit, we were informed that the Collector's office has not prepared bank reconciliations for January and February 2019. According to the Collector, the Collector is reconciling accounts mid-month, however, reconciliations were not provided for all accounts as of December 31, 2019.

Context: Bank reconciliations were not prepared each month in 2019 by the Collector's office.

Effect: By not preparing monthly bank reconciliations, fraud detection, bank and accounting errors could go undetected, causing the financial statements to be improperly reported.

Cause: During the year, the County Collector position turned over to a new Collector.

Recommendation: We recommend that the Collector prepare accurate and timely bank reconciliations for all accounts.

Views of Responsible Officials and Planned Corrective Actions: This has been resolved as of now. The Collector has contacted the bank and asked for all accounts to have a first to the last date of the month bank statement to verify the transactions per month for all accounts. The phone number for the Collector's office is (573) 224-5600 x 6.

II. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2019-002

Criteria: Per Section 52.160 RSMo, if any collector resigns, dies or is removed from office for any cause, he, or his legal representatives, shall pay over immediately all moneys which are in his or their hands, due the state, to his successor in office and deliver the tax books to the county clerk.

Condition: During our audit, we were informed that the prior Collector still maintains a Collector bank account.

Effect: The current Collector is not able to properly account for all funds of the collector's office due to the prior Collector still maintaining a bank account that the current Collector has no access to.

Cause: During the year, the County Collector position turned over to a new Collector. All prior year bank account moneys were not turned over from the prior Collector.

Recommendation: We recommend that the Collector obtain all funds from the prior Collector.

Views of Responsible Officials and Planned Corrective Actions: The Collector has received all monies known to the Collector now as prior accounts from the previous Collector and has the funds held and recorded as Unknown Funds from prior Collector in a separate bank account. The phone number for the Collector's office is (573) 224-5600 x 6.

II. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Continued)

2019-003	Federal Grantor:	All Federal Grantors listed on the SEFA
	Pass-Through Grantor:	All Pass-Through Grantors listed on the SEFA
	Federal CFDA Number:	All Federal CFDA Numbers listed on the SEFA
	Program Title:	All Program Titles listed on the SEFA
	Award year:	2019
	Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The County must establish and maintain effective risk assessment over Federal awards, regulations and the terms and conditions of the Federal awards.

Criteria: Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) require the auditee to document risk assessment over federal awards.

Condition: Through auditing procedures, we identified that the County has not prepared the required risk assessment over federal awards that meet the requirement for Uniform Guidance.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered that the County has not prepared the required risk assessment over federal awards.

Effect: No risk assessment over federal awards.

Cause: The County has not prepared the required risk assessment over federal awards.

Recommendation: The County should implement procedures to ensure that the risk assessment over federal awards is addressed going forward.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the required risk assessment for federal programs and hopes to have the documentation completed for the next audit period. The phone number for the County Clerk's office is (573) 224-5600 x 4.

II. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

2019-004	Federal Grantor:	All Federal Grantors listed on the SEFA except U.S. Department of Defense
	Pass-Through Grantor:	All Pass-Through Grantors listed on the SEFA
	Federal CFDA Number:	All Federal CFDA Numbers listed on the SEFA except 12.112
	Program Title:	All Program Titles listed on the SEFA except Payments in Lieu of Real Estate Taxes
	Pass- Through Entity Identification Number:	All Pass-Through Entity Identification Numbers listed on the SEFA
	Award year:	2019
	Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: Uniform Guidance requires the auditee to prepare the Schedule of Expenditures of Federal Awards.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards (SEFA). Prior to these corrections, the Schedule of Expenditures of Federal Awards (SEFA) was prepared with incorrect financial information.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards (SEFA).

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards (SEFA).

Recommendation: The County should implement procedures to ensure that the SEFA is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the SEFA.

Views of responsible officials and planned corrective actions: The County Clerk's office is responsible for preparation of the Schedule of Expenditures of Federal Awards (SEFA). Information to prepare this Schedule is obtained from elected officials and department heads who receive federal awards. The County Clerk is continuously updating his knowledge and procedures in preparing the SEFA Schedule. The phone number for the County Clerk's office is (573) 224-5600 x 4.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards, *Government Auditing Standards*, and the *Uniform Guidance*

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards and the Uniform Guidance*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2019 year. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period. Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events.

Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated July 20, 2020.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the County’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were engaged to report on the schedule of expenditure of federal awards, which accompanies the financial statements but is not RSI (required supplementary information). With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the regulatory basis of accounting, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff, which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Wayne County, Missouri

The Office of the State Auditor contracted for an audit of the Wayne County's financial statements for the year ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

Report No. 2020-095

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Sullivan County

2019-001	The county periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.
2019-002	The county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-003	The county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.
2019-004	The Prosecuting Attorney implement the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis.

Independent Auditor's Report

To the County Commission and
Officeholders of Sullivan County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Sullivan County, Missouri, as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Sullivan County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Sullivan County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws,

which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Sullivan County, Missouri as of December 31, 2019 and 2018, or changes in financial position or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Sullivan County, Missouri as of December 31, 2019 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 3, 2020 on our consideration of Sullivan County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sullivan County, Missouri's internal control over financial reporting and compliance.

**The County of Sullivan
Milan, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies

Organized in 1845, the county of Sullivan was named after Revolutionary War General James Sullivan. It is a third-class county, and the county seat is Milan. Sullivan County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector-Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Sullivan County, Missouri and the Sullivan County Senior Services Board.

Sullivan County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Sullivan County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Sullivan County's legal entity. The Senior Services Board is controlled by a separate board and is also included under the control of the County.

Certain elected County officials, such as the County Collector-Treasurer, Recorder, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statements of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Sullivan County, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**The County of Sullivan
Milan, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Sullivan County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50, RSMo., Sullivan County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2018: North Central Missouri Lake Project Fund.

Milan, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within Sullivan County's boundaries for the calendar year 2019 and 2018, for the purposes of taxation was:

	<u>2019</u>	<u>2018</u>
Real Estate	\$ 52,590,191	\$ 52,296,227
Personal Property	34,821,699	32,901,192
Railroad and Utilities	<u>9,196,682</u>	<u>7,021,451</u>
	<u><u>\$ 96,608,572</u></u>	<u><u>\$ 92,218,870</u></u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2019 and 2018, respectively, for the purpose of County taxation, was as follows:

	<u>2019</u>	<u>2018</u>
General Revenue Fund	\$ 0.3600	\$ 0.3480
Senior Services Fund	0.0503	0.0503

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Collector-Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Sullivan County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

The County of Sullivan
Milan, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Sullivan County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statements of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2019, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 6,773,926	\$ 5,714,099
Investments	23,574	23,574
Total Deposits and Investments as of December 31, 2019	<u>\$ 6,797,500</u>	<u>\$ 5,737,673</u>
Total Cash and Equivalents - Governmental Funds	\$ 1,350,441	
Total Cash and Equivalents - Agency Funds	5,447,059	
	<u>\$ 6,797,500</u>	

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2018, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 6,156,019	\$ 5,679,247
Investments	23,283	23,283
Total Deposits and Investments as of December 31, 2018	<u>\$ 6,179,302</u>	<u>\$ 5,702,530</u>
Total Cash and Equivalents - Governmental Funds	\$ 1,306,573	
Total Cash and Equivalents - Agency Funds	4,872,729	
	<u>\$ 6,179,302</u>	

**The County of Sullivan
Milan, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2019, 100% of the County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized. At December 31, 2018, the County had \$139,464 of uninsured deposits and investments.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. Sullivan County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Sullivan County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Sullivan County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	2019 Balance	% of Portfolio	2018 Balance	% of Portfolio
Putnam County State Bank	Cert. of Deposit	<u>\$ 23,574</u>	100.00%	<u>\$ 23,283</u>	100.00%

Note 3 - Long-Term Debt

In 2017, the County assumed responsibility for a capital lease financing arrangement previously entered into by Polk Township with John Deere financial for a motor grader for \$56,020. The lease expired on February 12, 2019, and was payable in five annual payments of \$12,365 with interest payable at 3.327%.

Note 3 - Long-Term Debt (continued)

	Balance at 1/1/2019	Amount Borrowed	Amount Repaid	Balance at 12/31/2019	Interest Paid During Year
John Deere Motor Grader	\$ 11,960	\$ -	\$ (11,960)	\$ -	\$ 405
	Balance at 1/1/2018	Amount Borrowed	Amount Repaid	Balance at 12/31/2018	Interest Paid During Year
John Deere Motor Grader	\$ 23,530	\$ -	\$ (11,570)	\$ 11,960	\$ 795

Note 4 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8). RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

**The County of Sullivan
Milan, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 4 - State of Missouri County Employees' Retirement Fund (CERF) (continued)

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2019 and 2018, the County remitted to CERF, employee contributions of \$35,311 and \$34,684, respectively, for the years ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollar on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$53,216 and \$51,854 for the years ended December 31, 2019 and 2018, respectively.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 5 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., Sullivan County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$4,425 and \$3,647, respectively, for the years ended December 31, 2019 and 2018.

Note 6 - Other Retirement Plans

Sullivan County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which are paid by deductions from employees' salaries. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 457 plan were \$17,090 and \$12,224, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 401(a) plan were \$4,659 and \$4,534, respectively.

Note 7 - Post Employment Benefits

Sullivan County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Sullivan County.

**The County of Sullivan
Milan, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 8 - Claims, Commitments, and Contingencies

Litigation

The County is subject to various claims and legal proceedings covering a wide range of matters in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

Vacation time is considered an expenditure in the year paid. Vacation time is awarded based on years of service and must be used in its entirety prior to the employee's next anniversary date. The County does not have personal days, but compensated time can be earned by working overtime.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 9 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 10 - Subsequent Events

The County has evaluated events subsequent to December 31, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through August 3, 2020, the date the financial statements were available to be issued.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of multiple organizations. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the County expects this matter to negatively impact its operating results. However, the related financial impact and duration cannot be estimated at this time.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Sullivan County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Sullivan County, Missouri as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Sullivan County, Missouri's basic financial statements, and have issued our report thereon dated August 3, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Sullivan County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sullivan County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Sullivan County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2019-002, 2019-003, and 2019-004 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sullivan County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material

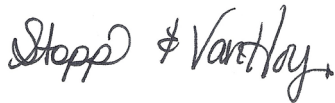

effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the schedule of findings and responses as item 2019-001.

Sullivan County, Missouri's Responses to Findings

Sullivan County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Sullivan County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink, appearing to read "Stopp & VanHoy". The signature is written in a cursive, flowing style.

Creve Coeur, Missouri
August 3, 2020

**The County of Sullivan
Milan, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2019 and 2018**

Financial Statement Findings

2019-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2018: North Central Missouri Lake Project Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in a certain fund.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 265-3786.

2019-002 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Cause: Management has not prepared documentation of internal controls.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will work to prepare internal control documentation. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 265-3786.

**The County of Sullivan
Milan, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2019 and 2018**

Financial Statement Findings (continued)

2019-003 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 265-3786.

2019-004 **Criteria:** The Prosecuting Attorney is charged with maintaining accountability over funds in a trustee capacity as an agent of an individual, taxing units, or other government. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis to ensure that cash balances per the accounting records agree to the cash balances held in the bank.

Condition: For the years ended December 31, 2019 and 2018, the Prosecuting Attorney's office failed to perform timely bank reconciliations.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the Prosecuting Attorney's cash balances due to error or misappropriation is heightened.

Cause: The reconciled bank balance is not being compared to the balances of the funds on hand per the Prosecuting Attorney's records.

Recommendation: We recommend that the Prosecuting Attorney implement the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis.

Management's Response: The County Clerk will work with the Prosecuting Attorney to ensure that the office reconciles their bank statement on a monthly basis. The phone number for the County Clerk's office is (660) 265-3786. The phone number for the Prosecuting Attorney's office is (660) 265-4712.

**The County of Sullivan
Milan, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the years ended December 31, 2019 and 2018**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Sullivan County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2015 and 2014.

Prior Year Financial Statement Findings

2015-001 **Criteria:** Section 50.740 prohibits expenditures in excess of approved budgets. Additionally, case law provides that strict compliance with county budget laws is required by county officials. If there are valid reasons which require excess disbursements (i.e., emergencies, unforeseen occurrences, and statutorily required obligations), amendments should be made following the same process by which the annual budget is approved including holding public hearings and filing the amended budget with the State Auditor's Office. Furthermore Missouri budgetary state Chapter 50 RSMo requires a County to adopt a budget for each governmental fund.

Condition: During my audit, I noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The Law Enforcement Training Fund, SCMH Fund, CDBG (Bridge) Fund and the NCMO Lake Project Fund all had expenses exceeding their budget for 2014, as did the NCMO Lake Project Fund for 2015. Furthermore the Law Enforcement Restitution Fund was not budgeted for the years ended December 31, 2015 and December 31, 2014, and the Senior Services Tax Fund was not budgeted for the year ended December 31, 2014.

Effect: Due to exceeding budget in certain funds and not budgeting for the Law Enforcement Restitution Fund and the Senior Services Tax Fund, the County is in violation of Missouri Revised Statutes.

Cause: Oversight.

Recommendation: I recommend that the County ensure compliance with State Statutes by refraining from approving expenditures in excess of budgeted amounts and properly budgeting for each governmental fund. In the event that the originally adopted budget is inadequate to finance current year unforeseen expenditures, budgetary amendments should be discussed in public meeting and formally adopted by the County Commission.

Management's Response: We will continue evaluating the issue.

Status: Management has not corrected this issue and the finding is repeated as finding 2019-001 in the current year.

Prior Year Federal Award Findings

None

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Putnam County, Missouri

The Office of the State Auditor contracted for an audit of Putnam County's financial statements for the year ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name.

Nicole R. Galloway, CPA
State Auditor

November 2020
Report No. 2020-094

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Putnam County

2019-001	The county periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.
2019-002	The county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-003	The county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.
2019-004	The Sheriff implement the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis.

Independent Auditor's Report

To the County Commission and
Officeholders of Putnam County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Putnam County, Missouri, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Putnam County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Putnam County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws,

which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Putnam County, Missouri as of December 31, 2019, or changes in financial position or cash flows thereof for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Putnam County, Missouri as of December 31, 2019, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 7, 2020 on our consideration of Putnam County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Putnam County, Missouri's internal control over financial reporting and compliance.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 1 - Summary of Significant Accounting Policies

Organized in 1845, the county of Putnam was named after Revolutionary War General Israel Putnam. It is a third-class county, and the county seat is Unionville. Putnam County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector-Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Putnam County, Missouri and the Putnam County Senior Citizens Service Board.

Putnam County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Putnam County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise Putnam County's legal entity. The Senior Citizens Service Board is controlled by a separate board and is also included under the control of the County.

Certain elected County officials, such as the County Collector-Treasurer, Recorder, and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Putnam County, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Putnam County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50, RSMo., Putnam County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following funds had actual expenditures which exceeded the budgeted expenditures in 2019: Inmate Security Fund.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within Putnam County's boundaries for the calendar year 2019 for the purposes of taxation was:

	<u>2019</u>
Real Estate	\$ 70,135,556
Personal Property	22,143,220
Railroad and Utilities	<u>5,056,291</u>
	<u><u>\$ 97,335,067</u></u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2019 for the purpose of County taxation, was as follows:

General Revenue	\$ 0.3667
Senior Citizens Service Board	0.0458

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Collector-Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Putnam County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Putnam County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2019, as follows:

	<u>Carrying Value</u>	<u>Bank Balances</u>
Deposits	\$ 6,143,757	\$ 5,504,950
Investments	426,652	426,652
Total Deposits and Investments as of December 31, 2019	<u>\$ 6,570,409</u>	<u>\$ 5,931,602</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 1,681,847	
Total Cash and Equivalents - Agency Funds	<u>4,888,562</u>	
	<u>\$ 6,570,409</u>	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2019, \$17,483 of the County's deposits were not insured or collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Putnam County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments (continued)

All investments, evidenced by individual securities, are registered in the name of Putnam County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Putnam County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Putnam County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

<u>Issuer</u>	<u>Investment Type</u>	<u>Balance</u>	<u>% of Portfolio</u>
Farmers Bank of Northern MO	Cert. of Deposit	<u>\$ 426,652</u>	100%

Note 3 - Capital Leases

In 2012, the County issued \$7,630,000 in general obligation bonds for the purpose of (1) refinancing the County's Hospital Revenue Bonds, Series 2006; (2) renovating, constructing, furnishing, and equipping a portion of the Putnam County Memorial Hospital for use as a specialized geriatric care ward; (3) funding a debt service reserve account; (4) paying the costs of complying with certain tax and securities law requirements; and (5) paying the costs of issuing the Bonds. Funds from a dedicated property tax and hospital improvement sales tax collected by the County and remitted to the paying agent are used to make principal and interest payments. The general obligation bonds bear interest at 2.00% - 5.00% and mature in September of 2032.

In July 2014, the County entered into a lease-purchase agreement to finance the purchase of an ABI HVR 60 Excavator Mounted Vibratory Hammer at a cost of \$53,530. The agreement requires five annual payments of \$12,090, which includes interest payable annually at 4.909%. The lease was paid in full in 2019.

In August 2016, the County entered into a lease-purchase agreement to finance the purchase of a T770 T4 Bobcat Skidloader at a cost of \$63,813. The agreement requires five annual payments of \$13,941, which includes interest payable at 5.423%.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 3 - Capital Leases (continued)

In May 2017, the County entered into a lease-purchase agreement to finance the purchase of a 2017 Ford Explorer Police Interceptor at a cost of \$28,717. The agreement requires one payment of \$8,717, and four annual payments of \$7,142, which includes interest payable at 3.831%.

In April 2018, the County entered into a lease-purchase agreement to finance the purchase of a 2004 Ford F-650 at a cost of \$29,500. The agreement requires five annual payments of \$6,442, which includes interest payable at 4.504%.

In August 2019, the County entered into a lease-purchase agreement to finance the purchase of a 2019 Ram 1500 4x4 SSV at a cost of \$27,361. The agreement requires one payment of \$7,361, and three annual payments of \$7,112, which includes interest payable at 4.083%. This vehicle was considered a total loss by the County's insurance in 2019.

In December 2019, the County entered into a lease-purchase agreement to finance the purchase of a 2019 Ram 1500 Classic Crew Cab at a cost of \$29,222. The agreement requires five annual payments of \$6,185, which includes interest payable at 4.079%.

The following is the changes in long-term debt for the year ended December 31, 2019:

	Balance at 1/1/2019	Amount Borrowed	Amount Repaid	Balance at 12/31/2019	Interest Paid During Year
Hospital GO Bonds	\$ 6,065,000	\$ -	\$ (340,000)	\$ 5,725,000	\$ 248,606
Vibratory Hammer	11,512	-	(11,512)	-	578
Bobcat Skidloader	25,717	-	(12,511)	13,206	1,430

Note 4 - Interfund Transfers

Transfers between funds for the year ended December 31, 2019 are as follows:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
General Revenue Fund	\$ -	\$ 13,266
Assessment Fund	13,266	-
	<u>\$ 13,266</u>	<u>\$ 13,266</u>

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2019, the County collected and remitted to CERF, employee contributions of \$34,244 for the year ended.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 5 - State of Missouri County Employees' Retirement Fund (CERF) (continued)

Contributions (continued)

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollar on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$50,196 for the year ended December 31, 2019.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 for the year ended December 31, 2019.

Note 7 - Other Retirement Plans

Putnam County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2019 for the 457 plan were \$16,437, and employee contributions collected and remitted by the County for the year ended December 31, 2019 for the 401(a) plan were \$4,325.

Note 8 - Post-Employment Benefits

Putnam County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Putnam County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of such matters will not have a material adverse effect on the financial condition of the County.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 9 - Claims, Commitments, and Contingencies (continued)

Compensated Absences

The County provides full-time employees with up to 20 days of sick time to accrue at one day per complete calendar month of employment. Permanent part-time employees accrue sick leave proportional to hours worked. Upon termination of employment, the employee will be compensated at \$10 per day of accrued sick time. Vacation time is accrued for full-time regular employees after a six month probationary period based on years of employment with the County. After one year of employment, one week may be taken. After two years, and each year thereafter, two weeks of eligibility is earned. Upon termination, the employee is compensated for accrued vacation time at the employee's final rate of pay, up to a maximum of four weeks. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700, RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make specific assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through August 7, 2020, the date the financial statements were available to be issued.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of multiple organizations. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the County expects this matter to negatively impact its operating results. However, the related financial impact and duration cannot be estimated at this time.

**The County of Putnam
Unionville, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019**

Note 11 - Subsequent Events (continued)

In April of 2020, the County entered into a lease-purchase agreement to finance the purchase of a 2020 Dodge Durango Pursuit at a cost of \$32,065. The agreement requires five annual payments of \$6,945, which includes interest payable at 4.072%.

Note 12 - Prior Period Adjustment

The County has restated beginning fund balance to include certain funds that fell within the scope of the audit and to exclude certain funds that did not fall within the scope of the audit. The adjustment will have no material effect on the operations of the County.

Beginning fund balance, as previously stated on January 1, 2019	\$ 1,554,200
Add: Inmate Security Fund	20,849
Less: Deputy Supplemental Salary Fund	<u>(311)</u>
Ending fund balance, as restated on January 1, 2019	<u><u>\$ 1,574,738</u></u>

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Putnam County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Putnam County, Missouri as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Putnam County, Missouri's basic financial statements, and have issued our report thereon dated August 7, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Putnam County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Putnam County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Putnam County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2019-002, 2019-003, and 2019-004 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Putnam County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material

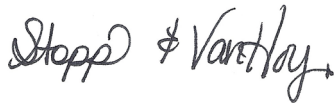

effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the schedule of findings and responses as item 2019-001.

Putnam County, Missouri's Responses to Findings

Putnam County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Putnam County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Creve Coeur, Missouri
August 7, 2020

**The County of Putnam
Unionville, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2019**

Financial Statement Findings

2019-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2019: Inmate Security Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in a certain fund.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 947-2674.

2019-002 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Cause: Management has not prepared documentation of internal controls.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will work to prepare internal control documentation. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 947-2674.

**The County of Putnam
Unionville, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2019**

Financial Statement Findings (continued)

2019-003 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 947-2674.

2019-004 **Criteria:** The Sheriff is charged with maintaining accountability over funds in a trustee capacity as an agent of an individual, taxing units, or other government. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis to ensure that cash balances per the accounting records agree to the cash balances held in the bank.

Condition: For the year ended December 31, 2019, the Sheriff's office failed to perform timely bank reconciliations.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the Sheriff's cash balances due to error or misappropriation is heightened.

Cause: The reconciled bank balance is not being compared to the balances of the funds on hand per the Sheriff's records.

Recommendation: We recommend that the Sheriff implement the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis.

Management's Response: The County Clerk will work with the Sheriff's department to ensure that the office reconciles their bank statement on a monthly basis. The phone number for the County Clerk's office is (660) 947-2674. The phone number for the Sheriff's office is (660) 947-3200.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Mississippi, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Mississippi ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2019, and the related statements of cash receipts and disbursements and disbursements - budget and actual for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

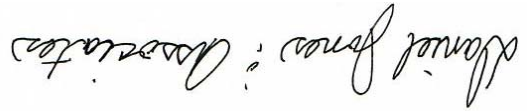

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2019, or changes in net position or cash flows thereof for the year then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2019, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 31, 2020, on our consideration of the County of Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Mississippi's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Mississippi, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1845. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, County Clerk, Collector of Revenue, Coroner, Circuit Clerk, Recorder of Deeds, Prosecuting Attorney, Public Administrator, Sheriff, and Treasurer.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, police protection, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Mississippi County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Agency Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available or measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting (concluded)

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes (concluded)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2019, for purposes of taxation, was:

	<u>2019</u>
Real Estate	\$ 106,184,340
Personal Property	56,972,769
Railroad and Utilities	<u>8,870,218</u>
	<u>\$ 172,027,327</u>

During 2019, the County Commission approved a \$0.8729 tax levy per \$100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	<u>2019</u>
General Revenue Fund	\$ 0.3493
Special Road and Bridge Fund	0.3471
Johnson Grass Fund	0.0496
Senate Bill 40 Fund	<u>0.1269</u>
	<u>\$ 0.8729</u>

F. Cash Deposits

Deposits are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such deposits is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. DEPOSITS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2019, the carrying amount of the County's deposits was \$2,911,831.19, and the bank balance was \$8,547,236.11. The total bank balance as of December 31, 2019, was not fully insured through the Federal Deposit Insurance Corporation and Securities set by the County's Financial Institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2019, as follows:

<u>Statements of Receipts, Disbursements and Changes in Cash</u>	
<u>Balances – Governmental Funds</u>	
Deposits and cash equivalents	\$ 2,911,831.19
Total Governmental Funds	<u>2,911,831.19</u>
<u>Statement of Assets and Liabilities Arising from Cash</u>	
<u>Transactions – Agency Funds:</u>	
Deposits	<u>6,413,887.51</u>
Total Agency Funds	<u>6,413,887.51</u>
Total Deposits and Investments as of December 31, 2019	<u>\$ 9,325,718.70</u>

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

II. DEPOSITS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2019.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments. The County's investments were not exposed to custodial credit risk for the year ended December 31, 2019.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the year ended December 31, 2019.

III. LONG-TERM DEBT

Mississippi County issued Drainage District Improvement Bonds, Series 1999 for Drainage District No. 23 of Mississippi County, dated June 4, 1999, in the original amount of \$165,000. Drainage District No. 23 of Mississippi County loaned \$165,000 to Mississippi County for twenty years at a range of 3.4% to 5.25% per annum. The note matured on May 1, 2019. The purpose and activities of the issuer are those permitted under Chapter 243 of the Revised Statutes of Missouri, as amended (the "Drainage District Bond Law"). Mississippi County issued Drainage District Bond, Series 1999, for the purpose of providing funds to the cost of construction of Drainage District No. 23 improvements.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

III. LONG-TERM DEBT (concluded)

As of December 31, 2019, the payments for the taxable general obligation bonds were as follows:

	Balance 12/31/2018	Additions	Payments	Balance 12/31/2019	Interest Paid
Drainage District #23 Bond	\$ 15,000.00	\$ -	\$ 15,000.00	\$ -	\$ 393.75
	<u>\$ 15,000.00</u>	<u>\$ -</u>	<u>\$ 15,000.00</u>	<u>\$ -</u>	<u>\$ 393.75</u>

IV. LEASE PURCHASES

On October 2, 2014, the County entered into a lease purchase agreement with Banterra Bank. The lease was for LED lighting and worth \$70,336.40. The lease required 5 annual payments of \$15,249.69 and carried an interest rate of 2.75%.

On October 9, 2014, the County entered into a lease purchase agreement with Focus Bank. The lease was for a Paver and Truck and worth \$92,300.00. The lease required 5 annual payments of \$20,004.81 and carried an interest rate of 2.74%.

On November 12, 2015, the County entered into a lease purchase agreement with Banterra Bank. The lease is for a 2016 Pickup and worth \$31,930.00. The lease requires 5 annual payments of \$6,835.10 and carries an interest rate of 2.31%.

On October 6, 2016, the County entered into a lease purchase agreement with Banterra Bank. The lease is for a 2016 Motorgrader and worth \$158,490.97. The lease requires 5 annual payments of \$34,104.86 and carries an interest rate of 2.49%.

On July 7, 2017, the County entered into a lease purchase agreement with Focus Bank. The lease is for a Transport Van and worth \$23,500.00. The lease requires 3 annual payments of \$7,463.66 and carries an interest rate of 2.39%.

On September 7, 2017, the County entered into a lease purchase agreement with Banterra Bank. The lease is for three Police Interceptor Vehicles and worth \$91,485.00. The lease requires 5 annual payments of \$19,686.19 and carries an interest rate of 2.49%.

On March 29, 2018, the County entered into a lease purchase agreement with Banterra Bank. The lease is for Sheriff Radios and worth \$46,447.67. The lease requires 5 annual payments of \$10,197.15 and carries an interest rate of 3.19%.

On May 1, 2019, the County entered into a lease purchase agreement with Banterra Bank. The lease is for a new phone system and worth \$17,130.51. The lease requires 3 annual payments of \$6,079.46 and carries an interest rate of 3.20%.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

IV. LEASE PURCHASES (concluded)

On June 26, 2019, the County entered into a lease purchase agreement with Citizens Bank. The lease is for a 2019 Motorgrader and worth \$229,737.00. The lease requires 7 annual payments of \$37,530.72 and carries an interest rate of 3.47%.

On September 19, 2019, the County entered into a lease purchase agreement with Citizens Bank. The lease is for a Front-End Loader and worth \$140,000.00. The lease requires 5 annual payments of \$30,692.25 and carries an interest rate of 3.14%.

CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Mississippi County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Mississippi County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Sections 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

	<u>2019 Valuation</u>
Benefit Multiplier:	2.00%
Final Average Salary:	5 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2019, the following employees were covered by the benefit terms:

	<u>General</u>	<u>Police</u>
Inactive employees or beneficiaries currently receiving benefits	42	14
Inactive employees entitled to but not yet receiving benefits	11	6
Active employees	38	6
	<u>91</u>	<u>26</u>

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 11.2% (General) and 20.4% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2019.

Actuarial Assumptions

The total pension liability in the February 28, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25% wage inflation; 2.50% price inflation
Salary Increase	3.25% to 6.55% including inflation
Investment rate of return	7.25%; net of investment expenses

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2019, valuation was based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Alpha	15.00%	3.67%
Equity	35.00%	4.78%
Fixed Income	31.00%	1.41%
Real Assets	36.00%	3.29%
Strategic Assets	8.00%	5.25%
Cash	10.00%	0.00%
Leverage	-35.00%	-0.51%

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

V. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2019.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2020	(72,318)	\$ (19,447)
2021	(73,167)	(57,992)
2022	(10,433)	(15,361)
2023	(6,955)	2,445
2024	-	-
Thereafter	-	-
Total	<u>\$ (162,873)</u>	<u>\$ (90,355)</u>

VI. INTERFUND TRANSFERS

Transfers between funds for the year ended December 31, 2019, are as follows:

	Transfers In	Transfers Out
General Revenue Fund	\$ -	\$ 442,222.22
Assessment Fund	42,222.22	-
Law Enforcement Fund	400,000.00	-
	<u>\$ 442,222.22</u>	<u>\$ 442,222.22</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the county) are refunded to the employee.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

VII. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)(concluded)

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2019, the County collected and remitted to CERF, employee contributions of approximately \$47,358.92, for the year then ended.

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$2,813.15, for the year ended December 31, 2019.

IX. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were no participants at December 31, 2019.

X. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences (Vacation and Sick Time)

Mississippi County provides employees with up to 15 days of paid vacation based upon the number of years of continuous service.

Regular full-time employees who have worked beyond their probationary period with the County who either retire or leave by some other separation shall receive compensation for all of accumulated unused vacation time leave. Sick time is not paid upon separation.

Every employee is expected to take at least some vacation time every year. Vacation is not accrued past the anniversary date of the employee.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

XI. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XII. SUBSEQUENT EVENTS

There are no subsequent events to report as of the audit report date.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Mississippi, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Mississippi ("County") as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 31, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Responses as items 2019-001 and 2019-002 that we consider to be significant deficiencies.

Compliance and Other Matters

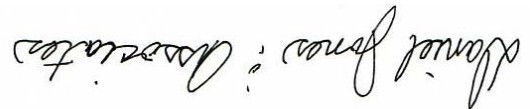

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

County's Response to Findings

The County's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

August 31, 2020

I. FINANCIAL STATEMENT FINDINGS

2019-001 Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the required risk assessment and hopes to have the documentation completed for the next audit period. The phone number for the County Clerk's office is (573) 683-2146 x 4.

THE COUNTY OF MISSISSIPPI
CHARLESTON, MISSOURI
SCHEDULE OF FINDINGS AND RESPONSES
YEAR ENDED DECEMBER 31, 2019

I. FINANCIAL STATEMENT FINDINGS (concluded)

2019-002 Criteria: The Senate Bill 40 deposits held by financial institutions must be fully collateralized through the Federal Deposit Insurance Corporation (FDIC) or securities pledged by the financial institution.

Condition: During our review of the Senate Bill 40 bank accounts, it was noted that the Senate Bill 40 deposits were under-collateralized for the year ended December 31, 2019.

Context: The Senate Bill 40 bank accounts were under-collateralized for the year ended December 31, 2019.

Effect: There is a risk that the Senate Bill 40 under-collateralized bank balances may not be returned to the Senate Bill 40 because the balances were not fully collateralized with coverage under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: Brian Menz (Accountant, Menz and Menz LLC) should periodically review with the bank that its deposits are fully collateralized with securities pledged and FDIC insurance.

Views of Responsible Officials and Planned Corrective Actions: Brian Menz will monitor this closer in the future. The number for his office is (573) 471-6688.

YEAR ENDED DECEMBER 31, 2019

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There was no prior year audit for the year ended December 31, 2018.

Daniel Jones & Associates

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

CERTIFIED PUBLIC ACCOUNTANTS

August 31, 2020

To the Board of Commissioners
County of Mississippi

In planning and performing our audit of the regulatory based financial statements of the County of Mississippi (the "County") as of and for the year ended December 31, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in County's internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our comments concerning internal control and other significant matters are presented as follows:

- I. Deficiencies Considered to be Significant
- II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

DANIEL JONES & ASSOCIATES, P.C.
CERTIFIED PUBLIC ACCOUNTANTS
ARNOLD, MISSOURI

II. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT

2019-001

Criteria: Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there were no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze and manage these risks.

Views of responsible officials and planned corrective actions: The County is in the process of preparing the required risk assessment and hopes to have the documentation completed for the next audit period. The phone number for the County Clerk's office is (573) 683-2146 x 4.

II. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT (Concluded)

2019-002 Criteria: The Senate Bill 40 deposits held by financial institutions must be fully collateralized through the Federal Deposit Insurance Corporation (FDIC) or securities pledged by the financial institution.

Condition: During our review of the Senate Bill 40 bank accounts, it was noted that the Senate Bill 40 deposits were under-collateralized for the year ended December 31, 2019.

Context: The Senate Bill 40 bank accounts were under-collateralized for the year ended December 31, 2019.

Effect: There is a risk that the Senate Bill 40 under-collateralized bank balances may not be returned to the Senate Bill 40 because the balances were not fully collateralized with coverage under FDIC or other pledged securities.

Cause: Adequate oversight was not in place to ensure all bank account balances were secured through FDIC or other pledged securities.

Recommendation: Brian Menz (Accountant, Menz and Menz LLC) should periodically review with the bank that its deposits are fully collateralized with securities pledged and FDIC insurance.

Views of Responsible Officials and Planned Corrective Actions: Brian Menz will monitor this closer in the future. The number for his office is (573) 471-6688.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards and Government Auditing Standards

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 1, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the 2019 year. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period. Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events.

III. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (Concluded)

Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 31, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff, which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Knox County, Missouri

The Office of the State Auditor contracted for an audit of Knox County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

Nicole R. Galloway, CPA
State Auditor

November 2020
Report No. 2020-092

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Knox County

2019-001	The county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.
2019-002	The Sheriff implement the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis.
2019-003	The Prosecuting Attorney's office implement the necessary procedures to ensure that all funds assumed upon entry to the position are accounted for in a custodial capacity and supported by funds held in the bank account.

Independent Auditor's Report

To the County Commission and
Officeholders of Knox County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Knox County, Missouri, as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Knox County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Knox County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate

compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Knox County, Missouri as of December 31, 2019 and 2018, or changes in financial position or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Knox County, Missouri as of December 31, 2019 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 4, 2020 on our consideration of Knox County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Knox County, Missouri's internal control over financial reporting and compliance.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies

Organized in 1845, the county of Knox was named after Revolutionary War General Henry Knox. It is a third-class county, and the county seat is Edina. Knox County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Knox County, Missouri.

Knox County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Knox County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise Knox County's legal entity.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statements of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Knox County and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Knox County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50, RSMo., the County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within Knox County's boundaries for the calendar year 2019 and 2018, for the purposes of taxation was:

	<u>2019</u>	<u>2018</u>
Real Estate	\$ 45,118,490	\$ 44,532,380
Personal Property	25,173,279	23,817,100
Railroad and Utilities	17,817,855	13,896,228
	<u>\$ 88,109,624</u>	<u>\$ 82,245,708</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2019 and 2018, respectively, for the purpose of County taxation, was as follows:

	<u>2019</u>	<u>2018</u>
General Revenue Fund	\$ 0.3341	\$ 0.3318
Special Road and Bridge Fund	0.6562	0.6606

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Knox County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Knox County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statements of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2019, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 5,795,930	\$ 4,836,564
Investments	-	-
Total Deposits and Investments as of December 31, 2019	<u>\$ 5,795,930</u>	<u>\$ 4,836,564</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 1,590,713	
Total Cash and Equivalents - Agency Funds	<u>4,205,217</u>	
	<u>\$ 5,795,930</u>	

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2018, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 4,843,805	\$ 3,985,419
Investments	-	-
Total Deposits and Investments as of December 31, 2018	<u>\$ 4,843,805</u>	<u>\$ 3,985,419</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 1,117,158	
Total Cash and Equivalents - Agency Funds	<u>3,726,647</u>	
	<u>\$ 4,843,805</u>	

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2019 and 2018, 100% of the County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

Note 3 - Long-Term Debt

In 2015, the County entered into a lease-purchase agreement to finance the purchase of two 2015 Dodge Ram 1500 Crew Cab 4x4 trucks at a cost of \$51,018. The agreement requires five annual payments of \$11,020, which includes interest payable at 2.59%. This lease was paid in full ahead of schedule in 2019.

In 2015, the County entered into a lease-purchase agreement to finance the purchase of a Caterpillar 140M2AWD Motor Grader at a cost of \$100,150. The agreement requires seven annual payments of \$16,196, which includes interest payable at 3.20%.

In 2015, the County entered into a lease-purchase agreement to finance the purchase of a Caterpillar 140M3AWD Motor Grader at a cost of \$216,961. The agreement requires seven annual payments of \$35,086, which includes interest payable at 3.20%.

In 2016, the County issued \$1,250,000 in Series 2016 Certificates of Participation for the purpose of paying for renovations and improvements to the County courthouse. Funds from a dedicated sales tax are used to make principal and interest payments. The certificates bear interest at 1.50% - 3.50% and mature in October of 2031. Principal payments range from \$75,000 - \$100,000, annually.

In 2016, the County entered into a lease-purchase agreement to finance the purchase of a Caterpillar 420F Backhoe Loader at a cost of \$70,150. The agreement requires five annual payments of \$15,405, which includes interest payable at 3.20%. This lease was paid in full ahead of schedule in 2019.

The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 3 - Long-Term Debt (continued)

In 2019, the County entered into a lease-purchase agreement to finance the purchase of a 2018 Komatsu PC210LC-11 Hydraulic Excavator and a 2019 Mack P164 truck at a cost of \$354,825. The agreement requires three annual payments of \$131,536, which includes interest payable at 5.50%. This lease was paid in full ahead of schedule in 2019.

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 5 - State of Missouri County Employees' Retirement Fund (CERF) (continued)

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elected to make all or a portion of the required 6% contribution on behalf of employees. During 2019 and 2018, the County collected and remitted to CERF, employee contributions of \$41,651 and \$43,244 for the years ended, respectively.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$45,100 and \$43,705 for the years ended December 31, 2019 and 2018, respectively.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 and \$3,366, respectively, for the years ended December 31, 2019 and 2018.

Note 7 - Other Retirement Plans

Knox County has voluntary 457 and 401(a) plans administered by Norwest Bank which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 457 plan were \$18,464 and \$17,375, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 401(a) plan were \$5,697 and \$6,000, respectively.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 8 - Post Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of such matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

Vacation time is accrued for every eligible employee in the County and accrues at a rate of up to two weeks per year. The County provides full-time employees and part-time employees who occupy regular budgeted positions with sick time, which accrues at two days per calendar month of employment up to ninety days. Upon termination, no payment will be made for unused vacation or sick days. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through September 4, 2020, the date the financial statements were available to be issued.

**The County of Knox
Edina, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 11 - Subsequent Events (continued)

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of multiple organizations. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the County expects this matter to negatively impact its operating results. However, the related financial impact and duration cannot be estimated at this time.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Knox County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Knox County, Missouri as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Knox County, Missouri's basic financial statements, and have issued our report thereon dated September 4, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Knox County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Knox County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Knox County, Missouri's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and responses as item 2019-003 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2019-001 and 2019-002 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Knox County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Knox County, Missouri's Responses to Findings

Knox County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Knox County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Creve Coeur, Missouri
September 4, 2020

**The County of Knox
Edina, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2019 and 2018**

Financial Statement Findings

2019-001 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 397-2184.

2019-002 **Criteria:** The Sheriff is charged with maintaining accountability over funds in a trustee capacity as an agent of an individual, taxing units, or other government. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis to ensure that cash balances per accounting records agree to the cash balances held in the bank.

Condition: For the year ended December 31, 2018, the Sheriff's office failed to perform timely bank reconciliations.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the Sheriff's cash balances due to error or misappropriation is heightened.

Cause: The reconciled bank balance was not being compared to the balances of the funds on hand per the Sheriff's records.

Recommendation: We recommend that the Sheriff implement the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis.

Management's Response: The Sheriff's office has implemented the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis, and the procedures were implemented in the year ended December 31, 2019. The phone number for the Sheriff's office is (660) 397-2186.

**The County of Knox
Edina, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2019 and 2018**

Financial Statement Findings (continued)

2019-003 **Criteria:** The Prosecuting Attorney is charged with maintaining accountability over funds in a trustee capacity as an agent of an individual, taxing units, or other government. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis to ensure that cash balances per accounting records agree to the cash balances held in the bank.

Condition: For the year ended December 31, 2018, the Prosecuting Attorney's was unable to provide bank statements and reconciliations which support the cash balances held.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the Prosecuting Attorney's cash balances due to error or misappropriation is heightened.

Cause: The previously elected Prosecuting Attorney did not provide bank statements and reconciliations to the current office holder upon completion of her term. The prior office holder provided a narrative accounting of funds turned over, however, bank statements supporting the accounting were not provided.

Recommendation: We recommend that the Prosecuting Attorney's office implement the necessary procedures to ensure that all funds assumed upon entry to the position are accounted for in a custodial capacity and supported by funds held in the bank account.

Management's Response: The Prosecuting Attorney's office has attempted to obtain a court order to compel the bank to provide bank statements of the prior office holder, however, attempts to do so have remained unsuccessful. The Prosecuting Attorney's office has reviewed the accounting of the prior office holder's summary of funds and attempted to reconcile the accounting to the cash turned over upon assuming the duties of the office. The Prosecuting Attorney has also implemented the necessary procedures to ensure that the bank balance reconciles to the book balance on a monthly basis, and the procedures were implemented in the year ended December 31, 2019. The phone number for the Prosecuting Attorney's office is (660) 397-2658.

**The County of Knox
Edina, Missouri
Summary Schedule of Prior Year Findings and Responses
For the years ended December 31, 2019 and 2018**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Knox County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2015 and 2014.

Prior Year Financial Statement Findings

1 Budgetary Controls Not in Compliance with State Law

Condition: We noted the following issue with the County's budgeting process during our audit:

The County Commission and other county officials did not exercise adequate budgetary control over two funds during the audit period. Expenditures were approved for payment that exceeded the approved budget for the following funds as shown below:

<u>Fund</u>	<u>Year</u>	<u>Amount</u>
Law Enforcement Training	2015	\$ 335
Law Enforcement Training	2014	423
Prosecuting Attorney Crime	2015	1,263
Prosecuting Attorney Crime	2014	2,060

Criteria: Section 50.540 RSMo. requires that the budget be revised prior to authorizing expenditures in excess of the budget.

Cause: County officials did not prepare amended budgets for the two funds.

Effect: The County Commission and the County Clerk did not follow state law and budgetary guidelines on the preparation of budget documents.

Recommendation:

A. The County Commission and County Clerk should ensure amended budgets are prepared and formally approved and filed with the state as required by state law.

B. The County Commission should not approve expenditures in excess of budgeted amounts. The County Commission should properly amend the budgets in a public meeting when unforeseen circumstances arise that necessitate increased expenditures in any fund.

Management's Response: In the future, we will make a more assertive effort to monitor the balances in all the budget funds. We will be more proactive in amending the budget when necessary.

Status: Management has corrected this issue, and therefore, the finding will not be repeated.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Chariton County, Missouri

The Office of the State Auditor contracted for an audit of Chariton County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

Nicole R. Galloway, CPA
State Auditor

November 2020
Report No. 2020-091

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Chariton County

2019-001	The county periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes. Additionally, procedures should be developed to ensure that expenditures do not exceed available funds.
2019-002	The county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-003	The county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Independent Auditor's Report

To the County Commission and
Officeholders of Chariton County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Chariton County, Missouri, as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Chariton County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Chariton County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws,

which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Chariton County, Missouri as of December 31, 2019 and 2018, or changes in financial position or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Chariton County, Missouri as of December 31, 2019 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 4, 2020 on our consideration of Chariton County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Chariton County, Missouri's internal control over financial reporting and compliance.

The County of Chariton
Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 1 - Summary of Significant Accounting Policies

Organized in 1820, the county of Chariton is named for the Chariton River. It is a third-class county, and the county seat is Keytesville. Chariton County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector-Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk/*ex-officio* Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Chariton County, Missouri, the Chariton County Senior Citizens Service Board, and the Chariton County Senate Bill 40 Board.

Chariton County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Chariton County, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Chariton County's legal entity. The Senior Citizens Service Board and the Senate Bill 40 Board are controlled by separate boards and are also included under the control of the County.

Certain elected County officials, such as the County Collector-Treasurer, *Ex-officio* Recorder, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statements of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Chariton County and the comparisons of such information with the corresponding budgeted information for all funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

The County of Chariton
Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Chariton County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo., Chariton County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2019: County Sheriff's Revolving Fund. The following fund had actual expenditures which exceeded the budgeted expenditures in 2018: Drainage District No. 20 Fund. The following fund expended more funds than available, resulting in a deficit fund balance in 2018: Deputy Sheriff Salary Supplementation Fund.

The County of Chariton
Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within Chariton County's boundaries for the calendar year 2019 and 2018, for the purposes of taxation was:

	<u>2019</u>	<u>2018</u>
Real Estate	\$ 78,077,830	\$ 69,218,330
Personal Property	40,670,860	41,926,400
Railroad and Utilities	125,770,348	134,897,232
	<u>\$ 244,519,038</u>	<u>\$ 246,041,962</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2019 and 2018, respectively, for the purpose of County taxation, was as follows:

	<u>2019</u>	<u>2018</u>
General Revenue Fund	\$ 0.2650	\$ 0.2750
Special Road and Bridge Fund	0.1000	0.1000
Senior Citizens Service Board Fund	0.0500	0.0500
Senate Bill 40 Board Fund	0.0800	0.0800

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Collector-Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

The County of Chariton
Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statements of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2019, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 18,597,232	\$ 18,337,755
Investments	919,772	919,772
Total Deposits and Investments as of December 31, 2019	<u>\$ 19,517,004</u>	<u>\$ 19,257,527</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 8,130,471	
Total Cash and Equivalents - Agency Funds	11,386,533	
	<u>\$ 19,517,004</u>	

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2018, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 17,227,615	\$ 15,982,572
Investments	982,924	982,924
Total Deposits and Investments as of December 31, 2018	<u>\$ 18,210,539</u>	<u>\$ 16,965,496</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 7,441,235	
Total Cash and Equivalents - Agency Funds	10,769,304	
	<u>\$ 18,210,539</u>	

The County of Chariton
Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2019 and 2018, 100% of the County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Chariton County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	2019 Balance	% of Portfolio	2018 Balance	% of Portfolio
Merchants and Farmers Bank	Cert. of Deposit	\$ 539,177	58.62%	\$ 526,809	53.60%
Regional Missouri Bank	Cert. of Deposit	105,992	11.52%	104,105	10.59%
Regional Missouri Bank	Cert. of Deposit	274,603	29.86%	201,575	20.51%
Regional Missouri Bank	Cert. of Deposit	-	n/a	150,435	15.30%

The County of Chariton
Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 3 - Interfund Transfers

Transfers between funds for the years ended December 31, 2019 and 2018 are as follows:

<u>Fund</u>	2019		2018	
	Transfers In	Transfers Out	Transfers In	Transfers Out
General Revenue Fund	\$ -	\$ 60,000	\$ 1,000	\$ 180,000
Law Enforcement Sales Tax Fund	60,530	-	181,107	-
Deputy Sheriff Salary Supplementation Fund	-	530	-	1,107
Inmate Prisoner Detainee Security Fund	-	-	-	1,000
Total	<u>\$ 60,530</u>	<u>\$ 60,530</u>	<u>\$ 182,107</u>	<u>\$ 182,107</u>

Note 4 - Local Government Employees Retirement System (LAGERS)

Plan Description

The County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute Sections 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri, 65102, by calling (800) 447-4334, or by visiting the LAGERS website at www.molagers.org.

Benefits Provided

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police) and early retirement age is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and the amount of credited service time.

Contributions

Full-time employees of the County contribute 4% to the pension plan. The January 1st statutorily required contribution rates were 7.10% (General) and 3.50% (Police) of annual covered payroll for the year ended December 31, 2019, and 8.00% (General) and 3.20% (Police) of annual covered payroll for the year ended December 31, 2018. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2019 and 2018, the County contributed \$62,071 and \$70,266, respectively.

Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. During 2019 and 2018, the County remitted to CERF, employee contributions of \$25,445 and \$23,893, respectively, for the years ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;

The County of Chariton
Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 5 - State of Missouri County Employees' Retirement Fund (CERF) (continued)

- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$59,396 and \$52,551 for the years ended December 31, 2019 and 2018, respectively.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed \$3,366 and \$3,366, respectively, for the years ended December 31, 2019 and 2018.

Note 7 - Other Retirement Plans

Chariton County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which are paid by deductions from employees' salaries. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 457 plan were \$34,294 and \$34,003, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 401(a) plan were \$519 and \$405, respectively.

Note 8 - Post Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

Regular full-time employees who have completed twelve consecutive calendar months of service are eligible to receive vacation time as follows: 1 to 2 years, 1 week; 2 to 10 years, 2 weeks; and over 10 years, 3 weeks. Employees may accumulate and carry forward vacation leave as follows: 1-10 years of continuous services, 20 days; and, over 10 years of continuous service, 30 days. Upon termination of employment, an employee with more than one year of service will receive equivalent cash reimbursement for all unused accrued vacation leave. These have not been subject to auditing procedures.

The County of Chariton
Keytesville, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 9 - Claims, Commitments, and Contingencies (continued)

Compensated Absences (continued)

Regular full-time employees earn one full day of sick leave for each complete calendar month of employment. Sick leave may accrue up to a maximum of 30 days. Upon termination of employment, no payment will be made for unused sick days.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Other Commitments

In 2009, the County adopted a resolution authorizing the creation of the Chariton County, Missouri Enhanced Enterprise Zone Board. Part of the County's taxing district contains a development area subject to an Enhanced Enterprise Zone (EEZ) plan where the County must abate 50% of the real property tax assessed on improvements. If approved, the abatements within the EEZ must continue for 10 years if the business maintains operations and eligibility with special provisions allowing for up to 25 years. Future amounts abated are based on maintaining operations and eligibility and cannot be estimated.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through September 4, 2020, the date the financial statements were available to be issued.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of multiple organizations. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the County expects this matter to negatively impact its operating results. However, the related financial impact and duration cannot be estimated at this time.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Chariton County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Chariton County, Missouri as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Chariton County, Missouri's basic financial statements, and have issued our report thereon dated September 4, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Chariton County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Chariton County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Chariton County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2019-002 and 2019-003 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Chariton County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a

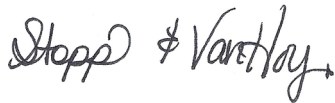

direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the schedule of findings and responses as item 2019-001.

Chariton County, Missouri's Responses to Findings

Chariton County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Chariton County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink, appearing to read "Stopp & VanHoy", with a stylized flourish at the end.

Creve Coeur, Missouri
September 4, 2020

The County of Chariton
Keytesville, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2019 and 2018

Financial Statement Findings

2019-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget and funds are not to be budgeted at a deficit. Additionally, expenditures are not to exceed available funds, resulting in a deficit fund balance available.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2019: County Sheriff's Revolving Fund. The following fund had actual expenditures which exceeded the budgeted expenditures in 2018: Drainage District No. 20 Fund. The following fund expended more funds than available, resulting in a deficit fund balance in 2018: Deputy Sheriff Salary Supplementation Fund.

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds and expending funds in excess of funds available in certain funds.

Cause: Oversight

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes. Additionally, procedures should be developed to ensure that expenditures do not exceed available funds.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure compliance with Chapter 50, RSMo., and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 288-3273.

2019-002 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: Management has not prepared documentation of internal controls.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will work to prepare internal control documentation. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 288-3273.

The County of Chariton
Keytesville, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2019 and 2018

Financial Statement Findings (continued)

2019-003 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 288-3273.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Benton County, Missouri

The Office of the State Auditor contracted for an audit of Benton County's financial statements for the year ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

Nicole R. Galloway, CPA
State Auditor

November 2020
Report No. 2020-090

Recommendations in the contracted audit of Benton County

2019-001	The county periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.
2019-002	The county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-003	The county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.
2019-004	The county utilize their accounting software to track cash and fund balances. Due to the nature of corrections that need to be made within the accounting software, it may require the county to engage a qualified accounting firm or software specialist who is knowledgeable with the software that the county uses to fully correct this issue.

Independent Auditor's Report

To the County Commission and
Officeholders of Benton County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Benton County, Missouri, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Benton County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Benton County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws,

which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Benton County, Missouri as of December 31, 2019, or changes in financial position or cash flows thereof for the year then ended.

Basis for Qualified Opinion on Regulatory Basis of Accounting

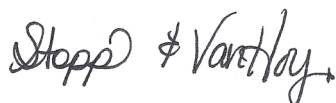

Benton County, Missouri has not adequately tracked cash and fund balances for all funds of the County for the year ended December 31, 2019. We were unable to verify that the beginning and ending bank balances reconcile to cash and fund balances on the fund level. The amounts by which cash and fund balances are misstated, although not reasonably determinable, are presumed to be material.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the matter described in the preceding paragraph, in all material respects, the cash balances of each fund of Benton County, Missouri as of December 31, 2019, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 13, 2020 on our consideration of Benton County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Benton County, Missouri's internal control over financial reporting and compliance.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 1 - Summary of Significant Accounting Policies

Organized in 1835, the county of Benton was named after United States Senator Thomas Hart Benton. It is a third-class county, and the county seat is Warsaw. Benton County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Benton County, Missouri and the Benton County Senior Citizens Services Board.

Benton County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Benton County, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise Benton County's legal entity. The Senior Citizens Services Board is controlled by a separate board and also included under the control of the County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Benton County and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Benton County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50, RSMo., Benton County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following funds had actual expenditures which exceeded the budgeted expenditures in 2019: Tax Maintenance Fund.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2019 for the purposes of taxation was:

	<u>2019</u>
Real Estate	\$ 193,506,460
Personal Property	67,022,442
Railroad and Utilities	<u>12,146,825</u>
	<u><u>\$ 272,675,727</u></u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2019 for the purpose of County taxation, was as follows:

General Revenue	\$ 0.1350
Special Road and Bridge	0.2232
Senior Citizens Services Board	0.0500

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Benton County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Benton County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2019, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 15,785,283	\$ 15,260,941
Investments	-	-
Total Deposits and Investments as of December 31, 2019	<u>\$ 15,785,283</u>	<u>\$ 15,260,941</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 4,635,215	
Total Cash and Equivalents - Agency Funds	<u>11,150,068</u>	
	<u>\$ 15,785,283</u>	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2019, 100% of the County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Benton County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 2 - Deposits and Investments (continued)

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Benton County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

Note 3 - Long-Term Debt

In 2014, the County entered into a financing agreement with John Deere Financial for a 2014 JD 672G Motor Grader for \$110,820. The agreement requires seven annual payments of \$18,162, which includes interest payable at 3.500%. The lease agreement expires on March 27, 2021.

In 2014, the County entered into a financing agreement with U.S. Bancorp Government Leasing and Finance, Inc., for a 911 communications equipment and maintenance agreement for \$351,320. The agreement requires seven annual payments of \$55,100, which includes interest payable at 2.390%. The lease agreement expires on September 26, 2021.

In 2014, the County entered into a financing agreement with John Deere Financial for a Backhoe Loader for \$108,850. The agreement requires an initial payment of \$10,883 and five additional annual payments of \$21,435, which includes interest payable at 3.000%. This lease agreement was paid in full as of December 31, 2019.

In 2015, the County entered into a financing agreement with U.S. Bancorp Government Leasing and Finance, Inc., for a 2016 Peterbilt Truck for \$138,239. The agreement requires seven annual payments of \$21,882, which includes interest payable at 2.633%. The lease agreement expires on May 27, 2022.

In 2016, the County entered into a financing agreement with U.S Bancorp Government Leasing and Finance, Inc., for a 2016 6105D John Deere Cab Tractor and a 2016 Tiger Mid Mount Side Rotary Mower for \$100,522. The agreement requires seven annual payments of \$16,049, which includes interest payable at 2.860%. The lease agreement expires on January 8, 2023.

In 2016, the County entered into a financing agreement with John Deere Financial for a 2017 JD 672GXDW Motor Grader for \$245,711. The agreement requires six annual payments of \$44,565, which includes interest payable at 3.340%. The lease agreement expires on February 1, 2022.

In 2017, the County entered into a financing agreement with John Deere Financial for a used 2015 JD 410L Loader Backhoe for \$105,428. The agreement requires five annual payments of \$23,440, which includes interest payable at 3.500%. The lease agreement expires on January 20, 2023.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 3 - Long-Term Debt (continued)

In 2017, the County entered into a financing agreement with U.S. Bancorp Government Leasing and Finance, Inc., for Metal Culverts for \$107,500. The agreement requires three annual payments of \$37,910, which includes interest payable at 2.870%. The lease agreement expires on May 1, 2020.

In 2017, the County entered into a financing agreement with John Deere Financial for a 2017 JD 544KXDW Wheel Loader for \$138,820. The agreement requires five annual payments of \$30,795, which includes interest payable at 3.500%. The lease agreement expires on June 15, 2022.

In 2017, the County entered into a financing agreement with John Deere Financial for a 2017 JD 524K-II Wheel Loader and a 2018 JD 672G Motor Grader for \$387,000. The agreement required two annual payments of \$201,079, which included interest payable at 2.600%. This lease agreement was paid in full as of December 31, 2019.

In 2019, the County entered into a financing agreement with U.S. Bancorp Government Leasing and Finance, Inc., for a 2019 6105E Cab Tractor for \$65,417. The agreement requires four annual payments of \$17,620, which includes interest payable at 3.008%. The lease agreement expires on August 26, 2023.

In 2019, the County entered into a financing agreement with Geo-Comm, Inc. for a server including software support and maintenance for \$56,667. The agreement requires an initial payment of \$19,250 and two additional payments of \$19,248, which includes imputed interest payable of 1.800%. The lease agreement expires on June 11, 2021.

In 2019, the County issued \$7,200,000 Series 2019 Certificates of Participation for the purpose of paying for the construction of a new jail for detention facilities and administrative space as well as paying for certain costs in connection with the execution and delivery of the Series 2019 Certificates. The Certificates bear interest at 2.750% - 3.375% and mature in April of 2039.

	Balance at 1/1/2019	Amount Borrowed	Amount Repaid	Balance at 12/31/2019	Interest Paid During Year

Total	<u>\$ 741,094</u>	<u>\$ 741,094</u>

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 5 - State of Missouri County Employees' Retirement Fund (CERF) (continued)

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2019, the County collected and remitted to CERF, employee contributions of \$138,430 for the year ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$207,887 for the year ended December 31, 2019.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$11,628 for the year ended December 31, 2019.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 7 - Other Retirement Plans

Benton County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2019 for the 457 plan were \$57,885, and employee contributions collected and remitted by the County for the year ended December 31, 2019 for the 401(a) plan were \$16,815.

Note 8 - Post Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of such matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides full-time employees with up to 40 days of sick time, to accrue at three-fourths day per complete calendar month of employment. Upon termination, employees are compensated for 25% to 50% of accrued sick time depending on the length of employment. Vacation time is accrued for every full-time employee, and accrues up to fifteen days per year depending on length of employment. However, employees may only carry over ten vacation days from one year to the next. Any days accrued in excess of ten days will be forfeited at the end of the year. Employees are not compensated for unused vacation time at termination.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County of Benton
Warsaw, Missouri
Notes to the Financial Statements
For the year ended December 31, 2019

Note 10 - Risk Management (continued)

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through August 13, 2020, the date the financial statements were available to be issued.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of multiple organizations. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the County expects this matter to negatively impact its operating results. However, the related financial impact and duration cannot be estimated at this time.

In May of 2020, the County issued \$5,200,000 Series 2020 Certificates of Participation for the purpose of paying for the construction of a new jail for detention facilities and administrative space as well as paying for certain costs in connection with the execution and delivery of the Series 2019 Certificates. The Certificates bear interest at 3.000% and mature in April of 2034.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Benton County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Benton County, Missouri as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Benton County, Missouri's basic financial statements, and have issued our report thereon dated August 13, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Benton County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Benton County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Benton County, Missouri's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and responses as item 2019-004 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses as items 2019-002 and 2019-003 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Benton County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the schedule of findings and responses as item 2019-001.

Benton County, Missouri's Responses to Findings

Benton County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Benton County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Creve Coeur, Missouri
August 13, 2020

**The County of Benton
Warsaw, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2019**

Financial Statement Findings

2019-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following funds had actual expenditures which exceeded the budgeted expenditures in 2019: Tax Maintenance Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in a certain fund.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 438-7326.

2019-002 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Cause: Management has not prepared documentation of internal controls.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will work to prepare internal control documentation. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 438-7326.

The County of Benton
Warsaw, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2019

Financial Statement Findings (continued)

2019-003 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (660) 438-7326.

2019-004 **Criteria:** Strong internal controls over financial statement reporting require that cash and fund balances be tracked for all funds.

Condition: During our audit, we noted the County was not adequately tracking cash and fund balances for all County funds within the accounting system. Beginning cash balances per the Treasurer's records did not reconcile to beginning fund balances by \$38,342. Ending cash balances per the Treasurer's records did not reconcile to ending fund balances by \$36,431.

Cause: The County is not properly tracking cash and fund balances within their accounting system due to uncorrected software errors.

Effect: Because cash and fund balances are not adequately being tracked within the accounting system or by the Treasurer, it is possible that cash and fund balances are materially misstated due to error or fraud.

Recommendation: We recommend that the County utilize their accounting software to track cash and fund balances. Due to the nature of corrections that need to be made within the accounting software, it may require the County to engage a qualified accounting firm or software specialist who is knowledgeable with the software that the County uses to fully correct this issue.

Management's Response: After discussing this situation with the auditors, the Treasurer's office intends to confirm the amount that needs adjusting to reflect the correction due to the software issues, and will make it in a timely manner. The phone number for the Treasurer's office is (660) 438-6313.

The County of Benton
Warsaw, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2019

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Benton County, Missouri, on the applicable findings in the prior audit report issued for the one year ended December 31, 2018.

Prior Year Financial Statement Findings

2018-001 **Criteria:** The Treasurer is charged with maintaining accountability over funds in the county treasury. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis to ensure that cash balances per the accounting records agree to the cash balances held in the bank.

Condition: For all months during 2018, the Treasurer's Annual Settlement was not agreed to the reconciled monthly bank account balances for the Treasurer's main checking account. At December 31, 2018 the Treasurer's Annual Settlement had a stated cash balance of \$3,795,677, however, the bank reconciliation showed a reconciled bank balance of \$3,757,336, a difference of \$38,341. The difference between the book and reconciled bank balances varied from month to month. Similar conditions were noted in the past two prior audit reports.

Cause: The reconciled bank balance is not being compared to the balances of the funds on hand per the Treasurer's settlements.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the County's cash balances due to error or misappropriation is heightened.

Recommendation: We recommend the Treasurer implement the necessary procedures to ensure that the bank balance reconciles to the book balance of the County's funds when performing the bank reconciliation on a monthly basis.

County's Response: The Treasurer's office is working in conjunction with the accounting software writer, to try and rectify the issues that have occurred causing the reconciliation to be off. It is believed that this problem can be fixed in a short time period.

Auditor's Response: The response is appropriate to correct the concern.

Status: Management has not corrected this issue and the finding is repeated as finding 2019-004 in the current year.

Prior Year Federal Award Findings

2018-002 Federal Grantor: U.S. Department of Transportation
Pass-Through Grantor: Missouri Department of Transportation
Federal CFDA Number: 20.205
Program Title: Highway Planning and Construction
Pass-through Entity Identifying Number: BRO-008(14)
Award Year: 2018
Questioned Costs: None

The County of Benton
Warsaw, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2019

Prior Year Federal Award Findings (continued)

2018-002 **Criteria:** Federal award requirements state that recipients receiving advances of federal funds must implement (cont.) procedures to minimize the time elapsing between the receipt of federal funds and the disbursement of the funds. BRO program regulations state that Local Public Agencies (Benton County) must "develop cash management procedures to ensure payment is made to the contractor/consultant within two (2) business days of receipt of funds from MoDOT."

Condition: There were several instances where the County wrote checks to the consulting engineers and construction contractors well after the reimbursement from MoDOT was received into the County's bank account. The County submitted invoices to MoDOT for reimbursement prior to making the payment on the invoice to the engineer or construction contractor. There were six checks totaling \$127,335 that were written between three and seven business days after receipt of funds from MoDOT

Cause: The County Commission meets only once per week to approve disbursements, therefore, a meeting may not be held within two business days of receiving reimbursement from MoDOT.

Effect: The grant is intended to be a reimbursement type grant, however, the County may have inappropriately earned interest on the federal funds due to the delay in payments.

Recommendation: We recommend that the County implement procedures to ensure that federal funds are disbursed in a timely manner in accordance with federal regulations and the terms and conditions of federal awards.

County's Response: In the future, when federal money is received due to projects of this nature, Commissioners will hold a special meeting within two business days in order to distribute these types of expenditures.

Auditor's Response: The response is appropriate to correct the concern.

Status: This finding is no longer applicable.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Barton County, Missouri

The Office of the State Auditor contracted for an audit of Barton County's financial statements for the 2 years ended December 31, 2019, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, Certified Public Accountants, and Business Advisors, LLC, is attached.

A handwritten signature in black ink, reading "Nicole R. Galloway", is centered on the page. The signature is written in a cursive style with a large, looping "G" at the end.

Nicole R. Galloway, CPA
State Auditor

November 2020
Report No. 2020-089

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Barton County

2019-001	The county adopt a budget for all funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.
2019-002	The county develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2019-003	The county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Independent Auditor's Report

To the County Commission and
Officeholders of Barton County, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Barton County, Missouri, as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Barton County, Missouri's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Barton County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws,

which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Barton County, Missouri as of December 31, 2019 and 2018, or changes in financial position or cash flows thereof for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Barton County, Missouri as of December 31, 2019 and 2018, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 11, 2020 on our consideration of Barton County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Barton County, Missouri's internal control over financial reporting and compliance.

**The County of Barton
Lamar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies

Organized in 1855, the county of Barton was named after former U.S. Senator David Barton. It is a third-class county, and the county seat is Lamar. Barton County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector-Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Barton County.

Barton County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Barton County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Barton County's legal entity.

Certain elected County officials, such as the County Collector-Treasurer, Recorder, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statements of Assets and Liabilities Arising from Cash Transactions - Agency Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Barton County, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

**The County of Barton
Lamar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 1 - Summary of Significant Accounting Policies (continued)

If Barton County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50, RSMo., Barton County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2019 and 2018: Law Enforcement Sales Tax Fund.

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within Barton County's boundaries for the calendar year 2019 and 2018, for the purposes of taxation was:

The County of Barton
Lamar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes (continued)

	<u>2019</u>	<u>2018</u>
Real Estate	\$ 109,968,990	\$ 110,427,350
Personal Property	49,832,810	47,679,670
Railroad and Utilities	29,359,468	25,572,959
	<u>\$ 189,161,268</u>	<u>\$ 183,679,979</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year 2019 and 2018, respectively, for the purpose of County taxation, was as follows:

	<u>2019</u>	<u>2018</u>
General Revenue Fund	\$ 0.0500	\$ 0.0500

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Collector-Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in Barton County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Barton County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statements of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

The County of Barton
Lamar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018

Note 2 - Deposits and Investments (continued)

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2019, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 11,209,661	\$ 10,984,670
Investments	-	-
Total Deposits and Investments as of December 31, 2019	<u>\$ 11,209,661</u>	<u>\$ 10,984,670</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 3,613,748	
Total Cash and Equivalents - Agency Funds	<u>7,595,913</u>	
	<u>\$ 11,209,661</u>	

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2018, as follows:

	<u>Carrying Value</u>	<u>Bank Balance</u>
Deposits	\$ 10,834,353	\$ 9,946,645
Investments	-	-
Total Deposits and Investments as of December 31, 2018	<u>\$ 10,834,353</u>	<u>\$ 9,946,645</u>
 Total Cash and Equivalents - Governmental Funds	 \$ 3,485,161	
Total Cash and Equivalents - Agency Funds	<u>7,349,192</u>	
	<u>\$ 10,834,353</u>	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2019 and 2018, 100% of Barton County's deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Barton County or its agent but not in the government's name. Barton County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Barton County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**The County of Barton
Lamar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 2 - Deposits and Investments (continued)

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Barton County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

Note 3 - Long-Term Debt

In 2012, the County, along with the City of Lamar, the City of Lamar Heights, and the Barton County Ambulance District, entered into a direct loan agreement with the Missouri Transportation Finance Corporation for \$1,543,580 for the purpose of funding improvements to Route 71 at 30th Road and 1st Street. Each of the participating entities are responsible for providing their annual share of the loan payment to the County in a timely manner to remit payment on the loan. The loan was originally payable in ten annual installments of \$173,383 with interest payable at 2.170%. Due to additional principal payments made, at December 31, 2019 the remainder of the loan is payable in three annual installments of \$59,663 with interest payable at 2.170%. This loan will mature on August 1, 2022.

In 2016, the County entered into a capital lease financing agreement with U.S. Bank Equipment Finance for law enforcement vehicles for \$48,407. The lease is payable in four annual installments of \$12,892, with interest payable at 2.550%. The lease expires on March 21, 2020.

In 2016, the County entered into a capital lease financing agreement with U.S. Bank Equipment Finance for law enforcement equipment for \$31,285. The lease is payable in five annual installments of \$6,817, with interest payable at 2.890%. The lease expires on September 12, 2021.

In 2018, the County entered into a capital lease financing agreement with U.S. Bank Equipment Finance for a law enforcement vehicle for \$28,000. The lease is payable in five annual installments of \$6,528, with interest payable at 5.336%. The lease expires on August 27, 2023.

	Balance at 1/1/2019	Amount Borrowed	Amount Repaid	Balance at 12/31/2019	Interest Paid During Year

Note 5 - State of Missouri County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo., and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

**The County of Barton
Lamar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 5 - State of Missouri County Employees Retirement Fund (CERF) (continued)

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2019 and 2018, the County remitted to CERF, employee contributions of \$56,400 and \$54,698, respectively, for the years ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchant's and manufacturer's license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$104,561 and \$95,867 for the years ended December 31, 2019 and 2018, respectively.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

**The County of Barton
Lamar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo., Barton County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 and \$3,366, respectively, for the years ended December 31, 2019 and 2018.

Note 7 - Other Retirement Plans

Barton County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 457 plan were \$19,381 and \$23,237, respectively. Employee contributions collected and remitted by the County for the years ended December 31, 2019 and 2018 for the 401(a) plan were \$7,507 and \$7,375, respectively.

Note 8 - Post Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of such matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides full time employees with up to 30 days of sick leave to accrue at one day per complete calendar month of employment. Upon termination, an employee will not be compensated for accumulated sick leave. Vacation time is accrued for every full time employee, and accrues at the rate of one day per month up to one and one-half days per month depending on the length of employment. Employees may accrue up to fifteen days of vacation. Upon termination, an employee will be compensated for accumulated vacation time.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

**The County of Barton
Lamar, Missouri
Notes to the Financial Statements
For the years ended December 31, 2019 and 2018**

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Rural Services Workers Compensation Insurance Trust. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$1,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2019 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through August 11, 2020, the date the financial statements were available to be issued.

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of multiple organizations. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the County expects this matter to negatively impact its operating results. However, the related financial impact and duration cannot be estimated at this time.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Barton County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Barton County, Missouri as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise Barton County, Missouri's basic financial statements, and have issued our report thereon dated August 11, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Barton County, Missouri's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Barton County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Barton County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2019-002 and 2019-003 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Barton County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material

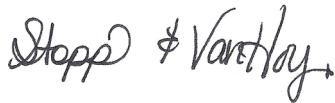

effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the schedule of findings and responses as item 2019-001.

Barton County, Missouri's Responses to Findings

Barton County, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. Barton County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink, appearing to read "Stopp & VanHoy", with a stylized flourish at the end.

Creve Coeur, Missouri
August 11, 2020

**The County of Barton
Lamar, Missouri
Schedule of Findings and Responses
For the years ended December 31, 2019 and 2018**

Financial Statement Findings

2019-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following fund had actual expenditures which exceeded the budgeted expenditures in 2019 and 2018: Law Enforcement Sales Tax Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budget in a certain fund.

Recommendation: We recommend that the County adopt a budget for all funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (417) 682-3529.

2019-002 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Cause: Management has not prepared documentation of internal controls.

Effect: Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County will work to prepare internal control documentation. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (417) 682-3529.

Schedule of Findings and Responses
For the years ended December 31, 2019 and 2018**

Financial Statement Findings (continued)

2019-003 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Cause: Management has not prepared documentation of risk assessments, including identifying risks and mitigating controls.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2020. The phone number for the County Clerk's office is (417) 682-3529.

**The County of Barton
Lamar, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the years ended December 31, 2019 and 2018**

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Barton County, Missouri, on the applicable findings in the prior audit report issued for the two years ended December 31, 2015 and 2014.

Prior Year Financial Statement Finding

1 Budgetary Controls

Condition: Actual expenditures exceeded budgeted expenditures for three funds in 2014 and one fund in 2015. The detailed list of funds can be found in Note 1.D.10 to the financial statements. The over-expenditure of the Law Enforcement Sales Tax Fund in 2015 was the result of an audit adjustment to correct a journal entry that resulted in negative disbursements being recorded to the fund. RSMo. 50.740 prohibits expenditures in excess of the approved budgets.

The County did not adopt a formal budget for the Inmate Security Fund in 2014. The fund was created in February 2014, subsequent to the approval of the 2014 budget, and no amendment was made to include the newly created fund.

Budgetary controls are significant to the proper management and custodianship of county funds. Compliance with statutory requirements related to budgets will improve controls over county funds and help maintain the integrity of the budget process.

Recommendation: We recommend the County strictly adhere to the authorized spending limits as documented in the adopted County budget or follow the appropriate procedures to amend the budget and ensure funds are available to finance the expenditure. We also recommend that the County adopt complete formal budgets for all funds as required by law.

County's Response: Barton County will strive to monitor authorized spending limits adopted in the budget and will complete formal budgets for all funds.

Auditor's Evaluation: The response is appropriate to correct the concern.

Status: Management has not corrected this issue; therefore, this finding is reported as 2019-001 in the current year.

Prior Year Federal Award Finding

2015-01 Federal Grantor: U.S. Department of Transportation
 Pass-through Grantor: Highway and Transportation Commission
 Federal CFDA Number: 20.205
 Program Title: Highway Planning and Construction
 Pass-through Entity Identifying Number: BRO-B006(17), BRO-B006(18), BRO-B006(19), BRO-B006(20)
 Award Year: 2015
 Questioned Costs: None

**The County of Barton
Lamar, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the years ended December 31, 2019 and 2018**

Prior Year Federal Award Finding (continued)

2015-01 Federal Grantor: U.S. Department of Homeland Security
(cont.) Pass-through Grantor: Missouri Department of Public Safety
Federal CFDA Number: 97.036
Program Title: Disaster Grants - Public Assistance (Presidentially-Declared Disasters)
Pass-through Entity Identifying Number: n/a
Award Year: 2014
Questioned Costs: None

Condition: The County Clerk did not prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) for both the years ending December 31, 2015 and 2014. The SEFA presented for audit for December 31, 2015 reported total expenditures for CFDA 20.205 of \$770,003, however, the correct amount of expenditures for this program during the year was \$677,762, resulting in an overstatement of expenditures of \$92,241. Also, \$11,682 of federal expenditures under CFDA 97.036 were not included on the SEFA for the year ended December 31, 2014. The SEFA presented in this report has been adjusted to report the correct amounts.

Cause: The County Clerk indicated that the expenditures for CFDA 20.205 on the SEFA for 2015 were based on the amount of reimbursements received, rather than the amount disbursed. The overstatement was a result of including on the 2015 SEFA \$110,181 disbursed in 2014 and reported on the 2014 SEFA but for which the County received reimbursement from MODOT in 2015. \$17,940 of expenditures were incurred in 2015 but were not reported on the 2015 SEFA since the County was not reimbursed until 2016.

The expenditures of funds under CFDA 97.036 were not included on the SEFA for 2014 because the money was passed-through the state and the County believed the grant to be state funds instead of federal.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2015 and 2014.

Criteria: OMB Circular A-133, section .300 (b) requires auditees to "Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its federal programs." Section .310 (d) requires auditees to "Prepare appropriate financial statements, including the schedule of expenditures of Federal awards..."

Recommendation: We recommend that the County Clerk implement controls to ensure that future Schedules of Expenditures of Federal Awards are prepared accurately on the cash basis of accounting and include all federal awards expended by the County.

Corrective Action Plan: Barton County will endeavor to accurately prepare future SEFA's and strive to report all federal awards on them.

Auditor's Evaluation: The response is appropriate to correct the concern.

Status: This finding is no longer applicable.
